Charles Posner, Coastal Program Analyst**RE:** Minor Amendment Request No. 1-08 (MNB-MIN-1-08) to the City of Manhattan Beach LCP, for Commission Action at its September 10, 2008 meeting in Eureka.**Local Coastal Program Amendment No. 1-08 (Minor)**

The City of Manhattan Beach is requesting that the Commission certify an amendment to the implementing ordinances (LIP) portion of the Manhattan Beach certified Local Coastal Program (LCP). The requested LCP amendment would revise the residential development standards (those regulating building scale, lot size, open space, setbacks, lot mergers, and accessory structures) of the LCP Implementing Ordinances in order to limit the mansionization trend where large out-of-scale single-family homes replace the smaller older homes in the City's established neighborhoods.

Local Coastal Program Amendment Request No. 1-08, submitted with City Council Resolution No. 6125, and contained in City Council Ordinance No. 2112, would affect only the LIP portion of the certified LCP and does not propose any rezoning or land use changes. The Manhattan Beach City Council held public hearings for the LCP amendment on January 15, 2008 and February 5, 2008. The City Council adopted Ordinance No. 2112 on February 19, 2008, and on July 14, 2008 submitted it to the Commission's South Coastal District office for certification.

ANALYSIS

The Executive Director has determined that City of Manhattan Beach LCP Amendment No. 1-08 is a minor LCP amendment. The LCP amendment has been determined to be a "minor" LCP amendment because the proposed changes to the residential zoning standards are consistent with the certified Land Use Plan (LUP), would make the City's development regulations more specific, and would not change the kind, location, intensity or density of any uses. The proposed changes to the certified LIP are attached as Exhibit B (Ordinance No. 2112). The City ordinance approving the proposed LIP amendment includes the following statement of purpose:

WHEREAS, the subject amendments are proposed in recognition that a *mansionization* trend is occurring in the City, whereby large homes are replacing historically small homes, on consolidated and standard sized lots, appearing out of scale and resulting in an impression of unrelieved building bulk, screening out light and air and dwarfing existing standard sized buildings in a neighborhood. In

addition it is recognized that construction of large homes that have minimum setbacks and maximum building floor area may result in a decrease of open space and landscaping. Such effects can be controlled in part by limiting the size of single building sites created by merging two or more lots, by encouraging the remodeling and enlargement of existing homes to less than the maximum allowed, by increasing setback and open space requirements, and allowing accessory use of adjacent common ownership lots[.]

The proposed changes will clarify the City's residential development regulations while making it more difficult to build large, out-of-scale single-family homes that do not conform with the character of the surrounding neighborhood. The proposed changes would affect only residential development, and they do not change the density of development allowed in the City's residential zones. The proposed changes will not result in any change in the kind, location, intensity, or density of uses. The proposed changes are consistent with the City of Manhattan Beach certified Land Use Plan (LUP), which sets forth the following policies:

POLICY II.1: *Control development within the Manhattan Beach coastal zone.*

POLICY II.B.1: *Maintain building scale in coastal zone residential neighborhoods consistent with Chapter 2 of the Implementation Plan.*

POLICY II.B.2: *Maintain residential building bulk control established by development standards in Chapter 2 of the Implementation Plan.*

POLICY II.B.3: *Maintain coastal zone residential height limit not to exceed 30' as required by Sections A.04.030 and A.60.050 of Chapter 2 of the Implementation Plan.*

Procedures

Pursuant to Section 30514(c) of the Coastal Act and Section 13554(a) of the California Code of Regulations, the Executive Director has determined that the proposed LCP amendment is "minor" in nature. Section 13554(a) of the California Code of Regulations defines a minor LCP amendment as changes in wording which make the use as designated in the zoning ordinances, zoning district maps or other implementing actions more specific and which do not change the kind, location, intensity, or density of use and are consistent with the certified LUP.

The proposed LCP amendment will become effective after report to the Commission of any written objections received within ten working days of the mailing of notice unless one-third of the appointed members of the Commission request that the LCP amendment be processed and heard as a "major" LCP amendment pursuant to Section 13555 of the California Code of Regulations.

THE CITY COUNCIL OF THE CITY OF MANHATTAN BEACH, CALIFORNIA, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. The City Council of the City of Manhattan Beach, California, does hereby find, determine and declare as follows:

WHEREAS, in 1990 ZORP (Zoning Ordinance Revision Program) was adopted which substantially revised the residential development standards in the Zoning Code, reducing the height of homes, limiting homes in most area to 2-stories, reducing Buildable Floor Area (BFA), increasing rear yard setbacks, and increasing parking, in addition to other new development standards, and;

WHEREAS, on April 16, 2002, new Bulk Volume standards (BV I) were adopted with Ordinance No. 2032 which required an additional 6% front yard setback, allowed many basements to not count towards BFA, and required that a third garage door be setback an additional 5 feet, and;

WHEREAS, on December 2, 2003, with the one-year review of the Bulk Volume standards, additional regulations (BV II) were adopted with Ordinance No. 2050 which still excluded many basements from being counted as BFA, however the basement area counts towards BFA for parking purposes only, the 6% front yard setback was required on both front yards on through lots, egress, light and ventilation wells were not permitted in setbacks, and on corner lots building walls over 25 feet in height are required to have an additional setback, and;

WHEREAS, on September 7, 2004, the Bulk Volume Standards were further revised (BV III) with the adoption of Ordinance No 2061 to increase the additional 6% front yard setback to 8% and the 8% front yard setback was required on both front yards on through lots, and;

In September 2004 the bulk-volume additional requirements were revised to require 8% instead of 6% additional front yard setback, and;

WHEREAS, on January 26, February 23, and March 23, 2005 the Planning Commission held public hearings to discuss amendments related to lot mergers and large lot regulations. On April 27, 2005 the Planning Commission tabled the lot merger study pending further City Council direction, and;

WHEREAS, the applicant for the subject project is the City of Manhattan Beach, and;

WHEREAS, the subject amendments are proposed in recognition that a *mansionization* trend is occurring in the City, whereby large homes are replacing historically small homes, on consolidated and standard sized lots, appearing out of scale and resulting in an impression of unrelieved building bulk, screening out light and air and dwarfing existing standard sized buildings in a neighborhood. In addition it is recognized that construction of large homes that have minimum setbacks and maximum building floor area may result in a decrease of open space and landscaping. WHEREAS, the Lot Merger regulations establish a new maximum lot size in all Area Districts and residential zones with a few exceptions. The maximum lot sizes were established so that the majority of two originally subdivided lots could be merged. These square footages exceed two times the minimum lot size in order to capture the size of the majority of original subdivided lots looking at existing standard lot patterns and the size of originally subdivided lots. WHEREAS, pursuant to the California Environmental Quality Act (CEQA) and the Manhattan Beach CEQA Guidelines, the subject Amendments are exempt in that they are covered by the general rule that CEQA [Section 15061 (3)] only applies to projects which have the potential for causing a significant effect on the environment, and since it can be seen with certainty that there is no possibility that the activity will have a significant effect on the environment, the activity is not subject to CEQA; and,

WHEREAS, the proposed amendments have been prepared in accordance with the provisions of Title 7, Division 1, Chapter 4, Section No. 65853, et seq., of the State of California Government Code, and;

WHEREAS, the City Council finds that the project will not individually nor cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game Code, and;

WHEREAS, the proposed amendment to the Local Coastal Program (Title A, Chapter 2) are consistent with and will advance the following goals and policies of the Manhattan Beach General Plan:

Policy LU-1.2: of the Land Use Element, to require the design of all new construction to utilize notches, balconies, rooflines, open space, setbacks, landscaping, or other architectural details to reduce the bulk of buildings and to add visual interest to the streetscape, by increasing open space and setbacks, and allowing detached accessory structures on adjacent common ownership lots.

Goal LU-2 of the Land Use Element, to encourage the provision and retention of private landscaped open space, by increasing setbacks and open space.

Goal LU-3 of the Land Use Element, to achieve a strong, positive community aesthetic, by limiting the size of lot mergers.

Goal LU-4 of the Land Use Element which seeks to preserve the features of

COASTAL COMMISSION

neighborhoods and develop solutions tailored to each neighborhood's unique characteristics. By limiting the size of lot mergers and encouraging retention of smaller homes the patterns of existing lots and development, as well as neighborhood character, will be maintained.

Policy LU-2.2 of the Land Use Element which seeks to preserve and encourage private open space on residential lots city-wide. By limiting merged lot site size, and encouraging remodeling and enlargement of existing homes, and use of adjacent commonly owned parcels for accessory structures, and increasing setbacks and open space home size may be controlled, thereby conserving open space and yards, including existing mature vegetation and plantings.

Policy 1.1 of the Housing Element which states that the City will continue to maintain and conserve the character of its existing residential neighborhoods. support a diversity of housing types to accommodate existing and future needs. By increasing setbacks and open space, limiting the size of merged lot building sites, encouraging remodels and additions to existing homes and allowing for accessory structures, the City will maintain and conserve neighborhood character.

Policy 1.2 of the Housing Element which states that the City will continue to promote the maintenance of existing housing units and property. By limiting the size of merged lot building sites, encouraging remodels and additions to existing homes and allowing for accessory structures, the City will promote the maintenance of existing housing units and property.

Policy 2.1 of the Housing Element which states that the City will ensure that new residential development is compatible with surrounding residential development. By increasing setbacks and open space, limiting the size of merged lot building sites, encouraging remodels and additions to existing homes and allowing for accessory structures, the City will ensure that new residential development is compatible with surrounding residential development.

Policy 4.1 of the Housing Element which states that the City will continue to evaluate ways in which development review may be streamlined. By encouraging remodels and additions to existing homes through an administrative review process, development review is streamlined.

Policy 5.2 of the Housing Element which states that the City will continue to support a diversity of housing types to accommodate existing and future needs. By limiting the size of merged lot building sites, standard sized lots in the City will be encouraged to remain available for development of separate housing units.

WHEREAS, the proposed amendments to the Manhattan Beach Local Coastal Program (Title A, Chapter 2) are consistent with and will advance the following policies of the City's certified Local Coastal Program:

Policy II.B.1: Maintain building scale in coastal zone residential neighborhoods consistent with coastal zoning regulations.

SECTION 8. The City Council of the City of Manhattan Beach hereby modifies Section A.12.030 (H) Maximum Height of Structures of the Property Development Regulations: RM, and RH districts of the Coastal Zone Zoning Ordinance by amending Section A.12.030 (H) as follows:

(H) Maximum Height of Structures. See Section A.60.050, Measurement of height, and Section A.60.060, Exceptions to height limits. The maximum number of stories permitted shall be three (3) where the height limit is thirty feet (30') and two (2) where the height limit is twenty-six feet (26'). A floor level may be divided between portions qualifying as a story and portions qualifying as a basement. Any portion of a floor level qualifying as a story shall be considered to have a minimum dimension of twenty feet (20') measured perpendicular from the outside face(s) of the exterior building wall(s) which defines that area as a story. (See Graphic Illustration under "Basement" definition--Section A.04.030).

A deck or balcony may be located directly above a second story where the height limit is twenty-six feet (26') or the third story where the height limit is thirty feet (30'), if the following criteria is met. Such decks shall be located adjacent to an interior living space and shall provide additional setbacks as follows; in all Area Districts the interior side setback shall be 3 times the minimum side setback; In Area Districts III and IV the rear setback shall be 15 feet. The surface elevation of any deck or balcony shall be no higher than nine feet (9') below the height limit.

Whenever new construction or alterations and additions to existing structures involves grading or scraping, a survey acceptable to the Director of Community Development is required as a condition of issuance of a demolition or building permit (see Section A.80.010). The Director shall require that survey markers be set.

The Community Development Director shall determine compliance with this subsection by reviewing two (2) vertical cross-sections through the property (front-to back and side-to-side) that show the relationship of each level in a new structure and new levels added to an existing structure to both existing and finished grade on the property and adjacent land within five feet (5') of the property line.

SECTION 9. The City Council of the City of Manhattan Beach hereby modifies Section A.12.030 (M) Open Space Requirement of the Property Development Regulations: RM, and RH districts of the Coastal Zone Zoning Ordinance by amending Section A.12.030 (M) as follows:

(1) For single family dwellings in Area District III and IV and multifamily dwelling units in both districts, the minimum requirement is 15 percent of the buildable floor area per unit, but not less than 220 square feet. For calculating required open space, basement areas shall be calculated as 100% buildable floor area, and 15% open space shall be required for the basement square footage.

(2) The amount of a dwelling unit's required open space located above the second story (where permitted by height regulations) shall not be more than one-half (1/2) of the total required open space.

(3) Where new buildable floor area is added to an existing dwelling unit located in Area District III or IV, additional usable open space shall be provided equal to 15% of the added buildable floor area, until the total open space requirement provided in this Section is attained.

SECTION 10. The City Council of the City of Manhattan Beach hereby modifies Section A.12.030 (P) Fences and Walls of the Property Development Regulations: RM, and RH districts of the Coastal Zone Zoning Ordinance by amending Section A.12.030 (P) as follows:

(P) Fences, Walls, and Hedges. The maximum height of a fence, wall, or hedge shall be 6 feet in required side or rear yards, and 42 inches in required front yards. In addition, all fences, walls and hedges shall be subject to the driveway visibility requirements of Section A.64.150, and the traffic vision clearance on corner lots of Section A.60.150 (Chapter 3.40).

For the purposes of this section, fence/wall/hedge height shall be measured from the lower adjacent finished grade (which may include a neighboring private or public property's grade to the top of the fence/wall/hedge, including any attachments. If more than one (1) fence/wall/hedge is located within a required yard, any portion of a fence/wall/hedge that projects above a forty-five (45) degree daylight plane inclined inward from the top of the lowest adjacent fence/wall/hedge, shall be counted toward the height measurement of the lowest fence/wall/hedge.

Exceptions:

1. A fence, wall or hedge having additional non-retaining height shall be permitted wherever a six (6) foot fence is allowed, provided such additional height over six (6) feet meets one of the following criteria.

Mechanical equipment and storage buildings shall be prohibited beyond the front building line of the principal structure on a site. No accessory uses shall be permitted off-site; this shall not prohibit development allowed in subsection F. below.
- Exceptions.

 3. One of the lots must be developed with a residential dwelling unit as the principal structure.

The covenant shall stay in effect until such time as the lot(s) that does not have a residential dwelling unit on it is developed with a dwelling unit, or the accessory structure(s) are removed. The covenant shall be required prior to the issuance of a building permit for any accessory structure on the lot(s) without the dwelling unit.
 6. A development plan for the entire site, all of the contiguous lots under common ownership, shall be submitted.
 7. Development on the lot(s) that do not have a residential dwelling unit shall be limited to the following accessory structures, and shall be in compliance with all requirements of this title :

References to spaces per square foot are to be computed on the basis of buildable floor area unless otherwise specified, and shall include allocations of shared restroom, halls and lobby area, but shall exclude area for vertical circulation, stairs or elevators.

Where the use is undetermined, the Community Development Director shall determine the probable use and the number of parking and loading spaces required. See Minor Exception- Chapter A.84 for additional provisions for existing parking spaces and existing structures.

SECTION 16. The City Council of the City of Manhattan Beach hereby modifies Section A.68.010 of Title 10, of the Coastal Zone Zoning Ordinance entitled Nonconforming Uses and Structures- Specific Purposes, as follows:

A.68.010 Specific purposes.

This chapter is intended to limit the number and extent of nonconforming uses by restricting their enlargement, prohibiting their re-establishment after abandonment, and their alteration or restoration after destruction of the structures they occupy. While permitting the use and maintenance of nonconforming structures, this chapter is intended to limit the number and extent of nonconforming structures by regulating and limiting their being moved, altered, or enlarged in a manner that would increase the discrepancy between existing conditions and the standards prescribed in this chapter and by prohibiting (commercial structures only) their restoration after destruction.

SECTION 17. The City Council of the City of Manhattan Beach hereby modifies Section A.68.030 of Title 10, of the Coastal Zone Zoning Ordinance entitled Alterations and enlargements of nonconforming uses and structures, as follows:

A.68.030 Alterations and enlargements of nonconforming uses and structures.

D. No nonconforming structure shall be structurally altered or reconstructed so as to increase the discrepancy between existing conditions and the standards for front yards, side yards, rear yards, height of structures, maximum allowable floor area, distances between structures, driveways, or open space prescribed in the regulations for the zoning district and area district in which the structure is located,

COASTAL COMMISSION

EXHIBIT # B

except as provided for in Chapter A.84, Minor Exception. No nonconforming structure shall be moved or enlarged unless the new location or enlargement shall conform to the standards for front yards, side yards, rear yards, height of structures, maximum allowable floor area, distances between structures, driveways, or open space prescribed in the regulations for the zoning and area district in which the structure is located, except as provided for in Chapter A.84, Minor Exception.

E. If any structure on a site does not conform to the standards for front, side or rear yards, height of structures, distance between structures, driveways, or open space prescribed for the zoning district and area district where the structure is located, then no structure shall be enlarged or altered if the total estimated construction cost of the proposed enlargement or alteration, plus the total estimated construction costs of all other enlargements or alterations for which building permits were issued within the preceding sixty (60) month period (twelve (12) months in an IP district), exceeds fifty percent (50%) of the total estimated cost of reconstructing the entire nonconforming structure unless the proposed enlargement or alteration would render the structure conforming. Any enlargements or alterations shall conform to requirements in effect at the time of issuance of the building permit. For the purposes of this section, estimated construction and reconstruction costs shall be determined by the Community Development Director in the same manner as the Community Development Director determines final valuation for the purposes of building permit fees.

Exceptions.

1. Where a structure is nonconforming only by reason of one (1) substandard front or interior yard, provided that all nonconforming interior yards are not less than three feet (3'), the structure may be enlarged or altered, as defined in this title without regard to the estimated construction cost, provided that no portion of the structure which occupies a required yard is altered, unless the alteration results in the elimination of the non-conformity.
2. Where a structure is nonconforming only by reason of a substandard street side yard or rear yard adjacent to a public street or alley, the structure may be enlarged or altered, as defined in this title, without regard to the estimated construction cost, provided that no portion of the structure which occupies a required yard is altered, unless the alteration results in the elimination of the non-conformity.
3. Where a pre-existing, legally constructed building is nonconforming by reason of the method of measuring height prescribed by Section A.60.050, an alteration or enlargement that conforms to all other regulations of this title shall be permitted without regard to the estimated construction cost.
4. The provisions of this section shall not apply to projects for which an application for exemption under Ordinance No. 1787 (nonconforming exemptions) has been made, processed through the Planning Commission, and approved by the City Council.
5. A chimney projection shall not be considered a nonconforming substandard yard, and therefore shall be allowed in addition to the one non-conforming yard in Section 1 or 2 above. See Section A.60.040 (G). Building projections into required yards or required open space—Chimneys, for standards.
6. Where a minor exception has been approved in accordance with Chapter A.84 of this Code.

SECTION 18. The City Council of the City of Manhattan Beach hereby modifies Section A.84.010 of Title 10, of the Coastal Zone Zoning Ordinance entitled Use Permits, Variances and Minor Exceptions, as follows:

Section A.84.010 Purposes.

This chapter provides the flexibility in application of land-use and development regulations necessary to achieve the purposes of this ordinance by establishing procedures for approval, conditional approval, or disapproval of applications for use permits, variances and minor exceptions.

Use permits are required for use classifications typically having unusual site development features or operating characteristics requiring special consideration so that they may be designed, located, and operated compatibly with uses on adjoining properties and in the surrounding area.

Variances are intended to resolve practical difficulties or unnecessary physical hardships that may result from the size, shape, or dimensions of a site or the location of existing structures thereon; from geographic, topographic, or other physical conditions on the site or in the immediate vicinity; or from street locations or traffic conditions in the immediate vicinity of the site.

Variances may be granted with respect to fences, walls, landscaping, screening, site area, site dimensions, yards, height of structures, distances between structures, open space, off-street parking and off-street loading, and performance standards.

COASTAL COMMISSION

EXHIBIT # B
PAGE 14 OF 19

Authorization to grant variances does not extend to use regulations because sufficient flexibility is provided by the use permit process for specified uses and by the authority of the Planning Commission to determine whether a specific use belongs within one or more of the use classifications listed in Chapter A.08. Further, Chapter A.96 provides procedures for amendments to the zoning map or zoning regulations. These will ensure that any changes are consistent with the General Plan and the land use objectives of this ordinance.

Minor exceptions are generally intended to allow certain alterations and additions to certain nonconforming pre-existing structures. Minor Exceptions are also intended to encourage home remodeling and additions to existing smaller older legal non-conforming homes. The provisions strive to balance the communities desire to maintain smaller older homes while still allowing some flexibility to encourage these homes to be maintained and upgraded, as well as enlarged below the maximum allowed square footage instead of being replaced with larger new homes.

SECTION 19. The City Council of the City of Manhattan Beach hereby modifies Section A.84.120 of the Coastal Zone Zoning Ordinance entitled Use Permits, Variances and Minor Exceptions, as follows:

Section A.84.120 Minor exceptions.

The Community Development Director may grant minor exceptions from certain regulations contained in this ordinance for projects as follows:
