San Diego Convention Center Phase III Expansion  
&  
Expansion Hotel

*Submitted to Coastal Commission staff on 9/18/13*

RESOLUTION NO. 078 – 2013

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SANTEE, CALIFORNIA IN  
SUPPORT OF THE SAN DIEGO CONVENTION CENTER PHASE III EXPANSION

**WHEREAS**, according to data compiled by the San Diego Convention Center Corporation, the San Diego Convention Center has generated over \$22 Billion in regional economic impacts since opening in 1989 and is directly responsible for 12,500 permanent jobs throughout San Diego County; and

**WHEREAS**, the Convention Center is the cornerstone of the region's third largest traded cluster, the visitor industry, which employs 13 percent of the region's workforce; and

**WHEREAS**, based on the recommendations of a citizen's task force and substantial community and stakeholder input, a Phase III Expansion of the current facility is being proposed to meet market demand, address lost business concerns and build on the success of the current facility while also generating new jobs and regional economic benefits; and

**WHEREAS**, the Phase III Expansion will attract an additional 25 primary events and nearly 250,000 additional attendees which will create positive regional economic impacts of \$689 Million and 6,685 new permanent jobs; and

**WHEREAS**, the Phase III Expansion will also create a new five-acre elevated public park and substantial retail uses to activate and create a visitor destination on the Bayfront; and

**WHEREAS**, the Phase III Expansion will maximize and greatly enhance public access and public recreational opportunities for San Diegans as well as visitors on the Bayfront consistent with the California Coastal Act; and

**WHEREAS**, the Phase III Expansion, its economic impacts, its proposed location and its public realm amenities have the enthusiastic support of neighborhoods surrounding the proposed Phase III Expansion, the greater San Diego region and diverse business and labor organizations.

**NOW, THEREFORE BE IT RESOLVED** by the City Council of the City of Santee, California, that this Council hereby affirms its support for the Phase III Expansion of the San Diego Convention Center and urges the California Coastal Commission to approve the project at its October hearing.

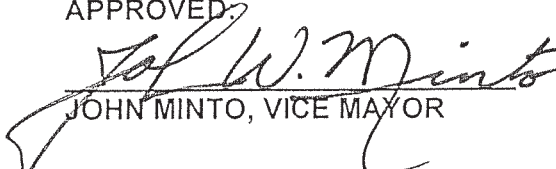

**ADOPTED** by the City Council of the City of Santee, California, at a Regular Meeting thereof held this 11<sup>th</sup> day of September 2013, by the following roll call vote to wit:

**AYES:** DALE, MCNELIS, MINTO, RYAN

**NOES:** NONE

Hon. Mary K. Shallenberger  
Chair, California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and Commissioners:

As the Representative of California's 52<sup>nd</sup> district and a former San Diego Port Commissioner, I am writing in strong support of the Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the west coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving group level uses would be added to a new public promenade along the San Diego waterfront.

In addition to being a regional economic asset offering an exciting visitor experience, the expansion will enhance public access and offer visitors and local residents a regular opportunity to view San Diego Bay from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer and a state-of-the-art storm-water retention and filtration system that will minimize water demand from the city system.

The major design features of the expansion include energy efficient lighting, the use of natural light and sun shading, plus the use of natural ventilation. The new promenade will improve connectivity to Embarcadero Marina Park South. And the plan will make the center more accessible by reconfiguring the road and pedestrian promenade. Plus the proposed re-routing of truck traffic, the enclosure of the truck bays and reconfiguring of pedestrian traffic flow will improve public access and safety. Also, a grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the west coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$1 million in new Sales Tax revenues.

I urge the Commission to approve this regionally significant project that will generate jobs, enhance the waterfront experience and provide visitor-serving facilities. This project is the result of a collaborative effort by the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, local residents and the countless visitors from not only the region, state and country, but from around the world who travel to San Diego and have an opportunity to explore our waterfront. Thank you for your time and attention to this matter. Any questions or concerns regarding this request may be referred to Hugo Carmona of my staff, by email at [Hugo.Carmona@mail.house.gov](mailto:Hugo.Carmona@mail.house.gov), or by telephone at (858) 455-5550.

Sincerely,

Scott Peters

Dear Chair Shallenberger and Commissioners:

As members of the San Diego State Delegation, we write in strong support of the Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the west coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving group level uses would be added to a new public promenade along the San Diego waterfront.

In addition to being a regional economic asset offering an exciting visitor experience, the expansion will enhance public access and offer visitors and local residents a regular opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

Energy efficient lighting, the use of natural light and sun shading plus the use of natural ventilation are major design features of the expansion. The new promenade will improve connectivity to Embarcadero Marina Park South. Currently existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Plus the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the west coast.

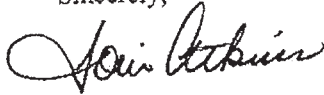

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$1 million in new Sales Tax revenues.

We urge the Commission to approve this regionally significant project that will generate jobs, enhance the waterfront experience and provide visitor-serving facilities. This project is the result of a collaborative effort by the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, local residents and the countless visitors from not only the region, state and country, but from around the world who travel to San Diego and have an opportunity to explore our waterfront.

Ms. Sherilyn Sarb  
Deputy Director  
California Coastal Commission  
7575 Metropolitan Drive, Suite 103  
San Diego, CA 92108-4421

**Re: San Diego Convention Center Expansion**

Dear Ms. Sarb:

I write to express my support for an expansion of the San Diego Convention Center. San Diego's economy is driven by tourism, representing 1 of every 8 jobs in San Diego County. An expansion of the Convention Center will create more than 3,000 good-paying construction jobs and nearly 7,000 new permanent jobs to support our growing middle class.

I am excited about the possibility of reimagining our public space and gaining access to the Bayfront for our residents. The current project also builds in many environmental advances, like stormwater recapture and energy efficiencies.

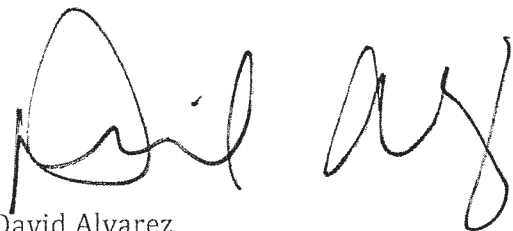

This project has been a long time coming, and I understand the concern of some in moving forward, I've raised some of those issues myself. I'm committed to making sure these concerns are addressed, and we bring forward the best project possible.

We join with the Coastal Commission in seeking to protect our City, meet and exceed our environmental obligations, and build on responsible financing plans.

Working together, I'm confident we can build world-class convention space that will enhance San Diego's ability to attract tourism dollars, create good-quality jobs for our region, and improve the Bayfront environment.

Should you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

David Alvarez

Councilmember, City of San Diego, Eighth District

SECOND DISTRICT  
CITY OF SAN DIEGO

September 13, 2013

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Ladies and Gentlemen:

I am writing to offer my strong support of the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The innovative expansion will transform the public's ability to access the waterfront while securing the future of San Diego's tourism industry.

The expansion includes a world-class 5-acre rooftop park that will enhance public access and provide new views of the San Diego Bay. The park will invite public use and improve connectivity to the waterfront by creating a new above-grade pedestrian promenade, walkways and a grand staircase.

The project incorporates sustainable design elements to meet LEED certification. Groundwater will be recycled to irrigate the rooftop park. The project will also include an innovative stormwater retention and filtration system that will minimize water demand from the City's system.

The expansion will provide significant economic impact to San Diego including 7,000 new, permanent jobs and thousands of temporary construction jobs. It is projected that over \$12.7 million in new annual transient occupancy tax revenues will be generated for the City's General Fund, and up to \$800,000 in new sales tax revenues.

This project is the culmination of years of public outreach and discussion and is the best solution for San Diego. I appreciate your consideration and urge the Commission to approve the proposed Port Master Plan Amendment at its October 9-11, 2013, hearings.

Sincerely,

Kevin L. Faulconer  
Councilmember  
Second District

RE: Support for Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District on the October 9-11, 2013 Coastal Commission Docket

Dear Chair Shallenberger and Commissioners:

As the Mayor of a member City of the Port of San Diego and close neighbor across the bay from the San Diego Convention Center, I urge your support for the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the west coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving group level uses would be added to a new public promenade along the San Diego waterfront.

I believe this project is good for all of San Diego including the City of Coronado. Conventions are a great way to introduce San Diego as a tourist destination and often lead to conventioners returning with family and friends to enjoy the many amenities our region has to offer including our beaches, bays, and resort hotels.

This well-planned, collaborative project includes a new pedestrian promenade with a five-acre elevated public park and substantial retail uses that will create a new visitor destination on the bay front. Plus the proposed re-routing of truck traffic and reconfiguring pedestrian traffic flow will improve public access and safety. It will also help create up to 7,000 new permanent jobs, plus thousands of jobs generated during the construction process.

This project is the result of regional cooperation between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, local residents and visiting delegations from around the country. I urge the Commission to consider the many public benefits this project will bring to our region and approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

A handwritten signature in cursive script that reads "Casey Tanaka".

Dear Chair Shallenberger and Members of the California Coastal Commission:

On behalf of the City of La Mesa, I enthusiastically lend my support to the San Diego Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion). The benefits of the proposed expansion are regionally significant and environmentally sustainable.

According to data compiled by the San Diego Convention Center Corporation, the San Diego Convention Center has generated over \$22 Billion in regional economic impacts since opening in 1989 and is directly responsible for 12,500 permanent jobs throughout San Diego County. The Convention Center is the cornerstone of our region's third largest traded cluster, the visitor industry, which employs 13 percent of our region's workforce. Based on the recommendations of a citizen's task force, and substantial community and stakeholder input, a Phase III Expansion of the current facility is being proposed to meet market demand, address lost business concerns and build on the success of the current facility while also generating new jobs and regional economic benefits. The Phase III Expansion will also create a new five-acre elevated public park and substantial retail uses to activate and create a visitor destination on the Bay front, something that will benefit residents throughout the region and visitors alike.

Because of its economic impacts, proposed location and enhanced public realm amenities, this project has garnered the enthusiastic support of surrounding neighborhoods, cities throughout the greater San Diego region, and diverse business and labor organizations. I would respectfully urge the Coastal Commission to also support this project.

Thank you for your consideration.

Sincerely,

  
Art Madrid  
Mayor

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. To be clear, our neighborhood understands the commercial importance of this project, but we feel the greater positive impacts will come from the almost 42,000 square feet of new visitor-serving uses that would be added to a new public promenade along the San Diego waterfront.

The Gaslamp Quarter Association has been the voice of the historic commercial district for decades and we have seen first-hand which projects enliven a waterfront and a community. Starting in 1850, when Alonzo Horton built his pier at the end of Fifth Avenue, we have been the welcoming point to immigrants, visitors and commerce. Our neighborhood has thrived and suffered based on past decisions that either enhanced or limited our connection to the waterfront. Nobody can deny the benefits of the placement of the Convention Center in its current location and the opportunities that will occur from the increase public areas/access.

In our view, the proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. Not to mention the benefits gained from the environmentally sustainable design that incorporates elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art storm-water retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center to the Gaslamp Quarter and the rest of Downtown. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Some have suggested that this is a "big box on the bay", but we contend that the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront.

The Gaslamp Quarter Association strongly urges the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Darren Moore, Board Chair

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a tremendous opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

The proposed contiguous expansion is an environmentally-friendly design that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. The expansion will also ensure that San Diego can continue to attract top-tier convention clients and remain competitive in the future.

It is for these reasons above that I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

A handwritten signature in dark ink, appearing to read 'JS' or 'Sanders', with a stylized flourish at the end.

San Francisco, CA 94105-2219

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you on behalf of The American Society of Hematology in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

As an organization with 22,000 attendees at our annual meeting, we are a strong supporter of the current plans for a contiguous expansion of the San Diego Convention Center. The expansion will provide the largest contiguous exhibit hall on the West Coast, making the San Diego Convention Center an even stronger destination for our annual meeting. As our attendance figures and exhibitors continue to grow, this added space is much needed and will allow us to keep San Diego as a convention destination for years to come.

We are also strongly in support of the addition of a new 500 room hotel tower adjacent to the facility. Having these hotel rooms directly across or near the convention center helps us drive attendance to our meeting and meet the housing needs of our attendees within close proximity to the facility. This saves us money as it reduces the need to run shuttle busses to transport our attendees to and from the convention center throughout the day. It also makes your destination considerably more attractive for networking than competitive destinations with primary hotels more than 6 blocks from the convention center.

San Diego is an ideal destination for hosting our annual meeting. Your specific location of the center will allow our attendees to network in a green setting for the convention. The proposed expansion will also enhance access and offer our attendees a unique opportunity to view San Diego Bay as they have never seen it before: from a 5-acre public park atop the convention center. As a green organization, we appreciate that the environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

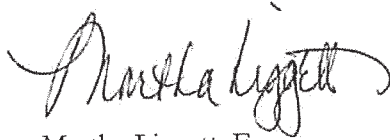

September 16, 2013  
California Coastal Commission  
Page two

The new promenade will improve our attendees' connectivity to Embarcadero Marina Park South along the bayside of the convention center for the networking value all attendees expect as part of the face to face convention experience. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve attendee access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

On behalf of the American Society of Hematology, I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

A handwritten signature in cursive script, reading "Martha Liggett". The signature is fluid and elegant, with a large initial "M" and a long, sweeping underline.

Martha Liggett, Esq.  
Executive Director

September 13, 2013

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of The Lodge at Torrey Pines please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

WWW.LODGETORREYPINES.COM

11480 NORTH TORREY PINES ROAD • LA JOLLA, CALIFORNIA 92037 • 858.453.4420

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion
- up to 42,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

Sincerely,

A handwritten signature in dark ink, appearing to read "D. Fullen". The signature is fluid and cursive, with a large initial "D" and a stylized "Fullen".

San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of Travelodge San Diego Mission Valley please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued

- Utilizes rooftop landscape to filter and clean rainwater currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion
- up to 42,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

Sincerely,

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

As the CEO & Co-Founder of San Diego's original local brewing company with more than 600 employees, I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. I posit this project will actually improve public access and improve the public views by transforming the current ugly backside, loading dock area of the Convention Center into a space the public can use and enjoy. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Chris Cramer  
CEO & Co-Founder  
Karl Strauss Brewing Company  
San Diego's Original Local Beers.

#### **About Karl Strauss Brewing Company**

*Since 1989, Karl Strauss Brewing Company has pioneered the local beer scene in San Diego. 24 years later, the company continues to brew an innovative line-up of award-winning beers ranging from longtime favorites like Red Trolley Ale to new releases like Wreck Alley Imperial Stout. In 2012, the company brewed 50,000 barrels and ranked #39 on the list of the country's top craft breweries. To keep up with double-digit sales growth, the company is adding capacity to its brewery, expanding distribution throughout California, opening a new brewery restaurant, and breaking ground on an extensive brewery renovation. For more information visit [www.karlstrauss.com](http://www.karlstrauss.com) or call the brewery at (858) 273-2739. Follow us on Twitter and become a fan on Facebook. Share it. Cheers.*

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of the Hotel Palomar San Diego please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion
- up to 42,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

# SAN DIEGO COUNTY HOTEL-MOTEL ASSOCIATION

September 9, 2013

California Coastal Commission  
45 Freemont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and Members of the California Coastal Commission:

On behalf of the San Diego County Hotel-Motel Association, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center.

The proposed Expansion is a regionally significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access and generate new, much-needed, tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

The hotel community is very excited about the new enhancements to public access. The 5-acre public rooftop park with panoramic views will attract first-time and return visitors, and the new promenade, walkways and grand staircase will provide connectivity to Downtown San Diego and Embarcadero Marina Park South.

The environmental sustainability of the Expansion is an important component of this project. The environmental elements of the project that will allow for LEED certification will make a statement to prospective visitors that California is a leader in sustainability.

The expanded Center will have the largest contiguous exhibit space on the west coast, which will draw larger conventions. The increase in visitors will generate an additional \$13.7 million in new tax revenues for the region. The expansion will provide up to 7,000 new, permanent jobs and thousands of temporary construction jobs.

California Coastal Commission

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of United Association Local Union 250, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it benefits the residents of San Diego, providing a smoother flow of traffic for safer pedestrian access. In addition, the Expansion will positively affect the unemployment rate by offering new permanent jobs and construction jobs.

## **Public Access and Views to the Waterfront**

- New 5-acre public rooftop park with panoramic views will attract first-time and return visitors
- Bayside of convention center will be activated through improved promenade and connectivity to Embarcadero Marina Park South
- Public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- Existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- Rerouted truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer
- Storm water retention and filtration; minimization of domestic water demand from city system
- Energy efficient lighting, use of natural light and sun shading; natural ventilation

**Regional economic asset and visitor experience**

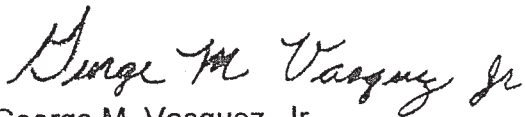

- The largest contiguous exhibit space on the West Coast
- Up to 7,000 new permanent jobs and thousands of construction jobs
- New 500-room hotel tower expansion
- Up to 45,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- Over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- Up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of The Painters and Allied Trades District Council 36, Local 831 Tradeshow and Sign Crafts as well as Local 1399 Glaziers, Painters and Resilient Floor Coverers please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project for numerous reasons; however the most important in my mind are the improvement of a regional economic asset and enhanced visitor experience including;

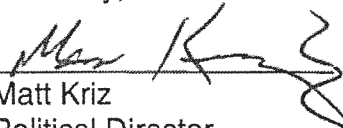

- Immediate positive economic impact with construction jobs
- Hundreds of thousands of man hours producing tradeshow for years to come with increased convention capacity for all tradeshow industry employees
- The largest contiguous exhibit space on the West Coast
- New 500-room hotel tower expansion
- Over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- Up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

Sincerely,

  
Matt Kriz  
Political Director

San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of the more than 2,900 members of IBEW Local 569, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

#### **Public Access and Views to the Waterfront**

- New 5-acre public rooftop park with panoramic views will attract first-time and return visitors
- Bayside of convention center will be activated through improved promenade and connectivity to Embarcadero Marina Park South
- Public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- Existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- Rerouted truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

#### **Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer
- Storm water retention and filtration; minimization of domestic water demand from city system
- Energy efficient lighting, use of natural light and sun shading; natural ventilation

**Regional economic asset and visitor experience**

- The largest contiguous exhibit space on the West Coast
- Up to 7,000 new permanent jobs and thousands of construction jobs
- New 500-room hotel tower expansion
- Up to 45,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- Over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- Up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

Dear Chair Shallenberger and members of the California Coastal Commission,

On behalf of Teamsters Local Union 542, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides all of the following aspects:

**Public Access and Views to the Waterfront**

- New 5-acre public rooftop park with panoramic views will attract first-time and return visitors
- Bayside of convention center will be activated through improved promenade and connectivity to Embarcadero Marina Park South
- Public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- Existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- Rerouted truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

As a California native and San Diego resident since 1976, I have been able to personally experience the transformation of downtown San Diego, changing from an area filled with blight and neglect, to a revitalized community filled with entertainment, business and urban living that is enjoyed by residents from every community throughout San Diego County. The majority of that transformation has occurred due to the positive impact of our Convention Center operating as an economic engine, fueling the revitalization at the heart of our City. I hope that you will support that continued vision by voting in favor of our proposed expansion.

On behalf of the International Alliance of Theatrical Stage Employees Local #122 please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

We are in support of the proposed Expansion project because it provides:

### Environmental sustainability

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer
- Storm water retention and filtration; minimization of domestic water demand from city system
- Energy efficient lighting, use of natural light and sun shading; natural ventilation

### **Public Access and Views to the Waterfront**

- New 5-acre public rooftop park with panoramic views will attract first-time and return visitors
- Bayside of convention center will be activated through improved promenade and connectivity to Embarcadero Marina Park South
- Public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- Existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- Rerouted truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

### **Regional economic asset and visitor experience**

- The largest contiguous exhibit space on the West Coast
- Up to 7,000 new permanent jobs and thousands of construction jobs
- New 500-room hotel tower expansion
- Up to 45,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- Over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- Up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. September 12, 2013

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and Members of the California Coastal Commission:

On behalf of Teamsters Local 481 please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides public access to the waterfront, its design includes cutting edge environmentally friendly engineering and most of all provides a positive economic asset and visitor experience for our entire region.

Some specific examples of the economic impact of expanding the Convention Center would bring to our community include:

- The largest contiguous exhibit space on the West Coast
- Up to 7,000 new permanent jobs and thousands of construction jobs
- New 500-room hotel tower expansion
- Up to 45,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- Over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- Up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of San Diego Building Trades Council AFL-CIO please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center.

The proposed Expansion is significant, to the businesses, residents and construction workers of the San Diego. If approved the expansion will generate badly needed jobs for the region.

I support the proposed Expansion project because it provides:

**Regional economic asset and visitor experience**

- Construction will create local jobs, and apprenticeship opportunities

**Public Access and Views to the Waterfront**

- Rerouted truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer including, storm water retention and filtration.
- Energy efficient lighting, use of natural light and sun shading; natural ventilation

In short, the proposed Expansion is an integral part of San Diego's future and our beautiful bay front. .

Thank you for your consideration.

Sincerely,

Tom Lemmon  
Business Manager

September 11, 2013

Hon. Mary K. Shallenberger, Chair  
California Coastal Commission  
45 Fremont Street, Suite 2000,  
San Francisco, CA 94105-2219

RE: San Diego Convention Center

Honorable Chair Shallenberger:

I urge the California Coastal Commission to approve the proposed expansion of the San Diego Convention Center.

The new rooftop park – a mini-Getty Center playground, garden and plaza, -- will be a terrific public amenity. When members of my family visit from Florida, Oregon, and the greater L.A. area I always take them to see the Convention Center's unique architecture, stroll along the waterfront, and enjoy a meal or beverage in the area. The rooftop park will add an incredible new public asset, with easy access and awesome views.

Please approve this proposal, so many years in the making.

Sincerely,

  
Bob Nelson

September 10, 2013

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of the Downtown San Diego Partnership, please accept this letter in strong support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides a new 5-acre public rooftop park with panoramic views will attract first-time and return visitors. Additionally, the bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South. Public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront and existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade.

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

## SAN DIEGO PORT TENANTS ASSOCIATION

RECEIVED

SEP 16 2013

SAN DIEGO UNIFIED  
PORT DISTRICT  
REAL ESTATE

September 11, 2013

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

RE: *SUPPORT* for the proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

The San Diego Port Tenants Association collectively represents the businesses that lease land on the tidelands of the San Diego Unified Port District. Our membership draws from a diverse range of industry, from hospitality and marine recreation to maritime and manufacturing.

Our Board of Directors unanimously supports the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Sharon Bernie-Cloward, President  
San Diego Port Tenants Association

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of all of us at the San Diego Tourism Authority, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

We support the proposed Expansion project because it provides:

- New 5-acre public rooftop park with panoramic views will attract first-time and return visitors
- Bayside of Convention Center will be activated through improved promenade and connectivity to Embarcadero Marina Park South
- The largest contiguous exhibit space on the West Coast
- Up to 7,000 new permanent jobs and thousands of construction jobs
- New 500-room hotel tower expansion
- Up to 45,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- Over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- Up to \$1 million in new sales tax revenue

This proposed Expansion represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California. In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Sincerely,

Joe Terzi  
President & CEO

Dear Chair Shallenberger and Members of the California Coastal Commission:

On behalf of NAIOP San Diego, our 500 member companies, and the thousands of residents we employ, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project benefiting both residents of the San Diego region and visitors to the San Diego bayfront. The enhancements provided are significant and they are diverse.

As members of the regional business community we appreciate the economic impact this project will have on the region – 7,000 new permanent jobs, more than \$12 million in new tax revenues for the City's General Fund and an expanded convention center that will allow San Diego to stay competitive in the global marketplace. As residents with families and children, we also appreciate the increased access to San Diego Bay created through this design. A 5-acre public rooftop park overlooking our bayfront is an experience that will be unique to Downtown San Diego and something we look forward to enjoying regularly.

This proposal has been thoroughly vetted at dozens of public meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, community residents and visiting stakeholders from across the region and State of California.

The Expansion and 5-acre public park are going to be essential parts of San Diego's economic future and beautiful Downtown waterfront. We are strong supporters and respectfully request

✓

you approve the Port Master Plan Amendment at the upcoming California Coastal Commission hearing.

Thank you for your consideration.

Sincerely,

San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of the Manchester Grand Hyatt San Diego, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the San Diego Convention Center Expansion.

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**A regional economic business generator asset that enhances our visitors experience**

- The largest contiguous exhibit space on the West Coast
- Up to 7,000 new permanent jobs and thousands of construction jobs
- Up to 45,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- Over \$13 million in new annual tax revenues to the city's general fund

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront and urge you to approve this regionally significant project.

Thank you for your consideration.

Sincerely,

JOHN SCHAFER

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District on the October 9-11, 2013 Coastal Commission Docket

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the west coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving group level uses would be added to a new public promenade along the San Diego waterfront.

This project has many regional economic benefits that will have positive impacts to the City of National City. National City hosts its own Tourism Marketing District. Managed by the National City Chamber of Commerce, the Tourism Marketing District serves as a funding conduit for the development and implementation of marketing programs and services that benefit the lodging businesses within the city. The 12 hotels in the National City Tourism and Marketing District are Best Western Marina Gateway, Carlill Auto Court, Clarion Hotel South Bay, Grand Plaza Inn, Holiday Inn Express, Howard Johnson Express, National City Motel, Paradise Motel, Rodeway Inn, Stardust Inn, Super 8 Motel and Sweetwater Inn.

Moreover, up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. The proposed expansion will enhance public access and offer visitors and local residents a regular opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system. This fulfills the goals of the National City Chamber of Commerce Green Business Program to promote business and environmental sustainability.

This project is the result of a regional collaboration between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, local residents and visiting delegations from around the country. I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District on the October 9-11, 2013 Coastal Commission Docket

Dear Chair Shallenberger and Commissioners:

On behalf of the Mexican American Business & Professional Association (MABPA), I would like to convey our full support for the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District and urge you to approve the PMPA. The proposed expansion will enhance public access and offer visitors and local residents a regular opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center.

The proposed improvements under the PMPA will provide the largest contiguous exhibit space on the west coast, a new 500-room hotel tower expansion and up to 42,000 square feet of new visitor-serving group level uses would be added to a new public promenade along the San Diego waterfront. The new above-grade pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront will improve connectivity to Embarcadero Marina Park South. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Plus, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety.

In addition, the environmentally sustainable design of the project incorporates design elements to meet LEED certification; including a unique rooftop landscaping that will filter and clean water and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

MABPA is supportive of the project's \$620 million investment that would create up to 7,000 new permanent jobs, plus the thousands of construction jobs. It is projected that over \$12.7 million in new annual Transient Occupancy Tax revenues will be generated for the City's General Fund, plus up to \$1 million in new sales tax revenues.

It is MABPA's mission to promote and advocate for the economic and social prosperity of the San Diego region, including its waterfront. Again, we ask that you please approve the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. It presents the community with improved visitor-serving facilities, enhanced public access to the waterfront, and important economic benefits. Thank you for your consideration.

Sincerely,

Josie Calderon-Scott  
President

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center identified by the Chargers for a joint-use stadium were evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Lesley Cohn

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 941-05-2219

Dear Chair Shallenberger and members of the California Coastal Commission.

My business, SEAT Planners Incorporated, and our nine full time and 65 part time employees request that you support the expansion of the San Diego Convention Center and Hilton Bayfront Hotel. The proposed expansion is of great proven importance to my Gaslamp Quarter neighborhood, our city of San Diego and the coastal region of California.

My staff and I spend many hours on the sidewalk outside the convention center assisting locals and visitors from all over the world. Although many are there for an event at the center, most are drawn to the waterfront; the splendid views from the terraces and the walk along the bay front. Expanding the center will increase the enjoyment by improving the walk and increasing the terraces. Those drawn to the bay front center will visit my fellow business here in the Gaslamp and more people, including my people, will find work.

My support for the expansion project is multifaceted. Consider: More opportunities for larger meetings as well as multiple meetings. The waterfront inspires reflection, collaboration, education, and community. Increased usage means increased attendance which means more work for all. The community at large is afforded a wonderful new way to see and enjoy the waterfront with expanded views, environmentally sound, park like amenities. Public Access is increased. All in an environmentally considered facility that will be LEED certified.

Many of my friends, family, co-workers and fellow citizens are supporting the expansion of the Convention Center. Please won't you support it too?

Most respectfully,

Steve Weathers  
President

September 13, 2013

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of my staff and myself please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, Business Generator providing visitors and convention guests to San Diego. We have on average of 225 employees who rely on hotel occupancy for full time employment. The Convention Center Expansion will guarantee growth in our tourism industry.

I support the proposed Expansion project because it provides:

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion
- up to 42,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

September 13, 2013

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of the Cohn Restaurant Group please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade

**Environmental sustainability**

- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

**Regional economic asset and visitor experience**

- up to 7,000 new permanent jobs and thousands of construction jobs
- up to 42,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

RE: San Diego Convention Center Expansion

Dear San Diego Port Commissioners:

As a leading voice for tech start-up and emerging companies, CONNECT is honored to join the San Diego business community, organized labor, downtown residents, and other cities in our region in our support for the expansion of the San Diego Convention Center. As a non-profit business innovation accelerator, we are actively engaged in ensuring that the convention and tourism industry remains a strong and growing part of this region's economy.

CONNECT was birthed out of the University of California—San Diego over twenty-five years ago with the mission to propel creative ideas and emerging technologies to the marketplace by training entrepreneurs and connecting them to the comprehensive resources they need to sustain viability and business vibrancy. Since 1985, CONNECT has assisted in the formation and development of over 3,000 companies and is recognized as one of the world's most successful regional innovation development programs. In 2010, CONNECT won the Innovation in Economic Development Award in the Regional Innovation Clusters category presented by the U.S. Department of Commerce's Economic Development Administration.

Convention and tourism is one of three prongs in San Diego's traded economies that build and keep our local economy strong with the other two being, research/technology/innovation and uniformed military/defense. Combined, these three industries account for 37% of San Diego's local economy generating over 465,000 jobs. Convention and tourism, as a stand-alone, account for 12% of San Diego's job growth. Additionally, for every 1 job created in one of these three traded economies, 1.5 jobs are added to the local economy.

CONNECT applauds the Unified Port of San Diego for leading the way in expanding the convention center which in turn will help boost our convention and tourism traded economy. Again, we express our support for the expansion of the San Diego Convention Center. If we may answer any questions, please contact Theresa Andrews at [tandrews@connect.org](mailto:tandrews@connect.org) or (858) 964-1337.

Sincerely,

A handwritten signature in black ink, appearing to read "Tyler Orion", written over a horizontal line.

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District on the October 9-11, 2013 Coastal Commission Docket

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the west coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving group level uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a regular opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South. Currently existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Plus the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the west coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$1 million in new Sales Tax revenues.

This project is the result of a regional collaboration between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, local residents and visiting delegations from around the country. I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of (insert elected body, business organization or community group) please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

#### Public Access and Views to the Waterfront

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

#### Environmental sustainability

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

#### Regional economic asset and visitor experience

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion
- up to 42,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- up to \$1 million in new sales tax revenue

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely, Debra A. Panciera

A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of Local 122 IATSE, IBEW, Teamsters, and Local 831, Tradeshow and Sign Crafts, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- New 5-acre public rooftop park with panoramic views will attract first-time and return visitors
- Bayside of convention center will be activated through improved promenade and connectivity to Embarcadero Marina Park South
- Public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- Existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- Rerouted truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer

- Storm water retention and filtration; minimization of domestic water demand from city system
- Energy efficient lighting, use of natural light and sun shading; natural ventilation

**Regional economic asset and visitor experience**

- The largest contiguous exhibit space on the West Coast
- Up to 7,000 new permanent jobs and thousands of construction jobs
- New 500-room hotel tower expansion
- Up to 45,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront
- Over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund
- Up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "M Bronfman". The signature is written in a cursive, flowing style.

Michael Bronfman

San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of The Basket Corner, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

Public Access and Views to the Waterfront by featuring a new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (as there are no roof access/views available now)

Environmental sustainability in that LEED (Leadership in Energy and Environmental Design) certification will be pursued, and the design will utilize rooftop landscape to filter and clean water currently pumped into sanitary sewer;

And, most importantly (especially for small business like mine), there will be an important regional economic asset and visitor experience by providing the largest contiguous exhibit space on the west coast, up to 7,000 new permanent jobs and thousands of construction jobs, over \$12.7 million in new annual Transient Occupancy Tax revenues to the city's general fund, and up to \$1 million in new sales tax revenue

This proposed Expansion has been thoroughly vetted at dozens of public outreach meetings over the last five years. It represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I urge you to approve this regionally-significant project.

Thank you for your consideration.

Sincerely,

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of the University of San Diego Hospitality Services, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides: Supporting tourism income and convention income for local economy and:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you on behalf of San Diego Residents in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

As an independent resident I am a strong supporter of the current plans for a contiguous expansion of the San Diego Convention Center. The expansion will provide the largest contiguous exhibit hall on the West Coast, making the San Diego Convention Center an even stronger destination for our annual meeting. As our attendance figures and exhibitors continue to grow, this added space is much needed and will allow us to keep San Diego as a convention destination for years to come.

I am also strongly in support of the addition of a new 500 room hotel tower adjacent to the facility. Having these hotel rooms directly across or near the convention center helps us drive attendance to our meeting and meet the housing needs of our attendees within close proximity to the facility. This saves us money as it reduces the need to run shuttle busses to transport our attendees to and from the convention center throughout the day. It also makes your destination considerably more attractive for networking than competitive destinations with primary hotels more than 6 blocks from the convention center.

San Diego is an ideal destination for hosting our annual meeting. Your specific location of the center will allow our attendees to network in a green setting for the convention, then extend their stay to enjoy the wonderful attractions, restaurants and services along San Diego Bay...many of them with families in tow. The proposed expansion will also enhance access and offer our attendees a unique opportunity to view San Diego Bay as they have never seen it before: from a 5-acre public park atop the convention center. As a green organization, we appreciate that the environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve attendees' connectivity to Embarcadero Marina Park South along the bayside of the convention center for the networking value all attendees expect as part of the face to face convention experience. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve attendee access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

In addition to the space improvements, we also support and applaud what an economic engine this project will be for San Diegans. Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

On behalf of San Diego Residents I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Joni Guerrier  
900 F St #318

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of my family in tourism, please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion

Dear Chair Shallenberger and members of the California Coastal Commission:

I wanted to write to you in support of the proposed Convention Center expansion. I've worked in the tourism industry my entire career and I know and understand how vital the tourism industry is to the city of San Diego. The expansion gives opportunity for new business to come to San Diego that we wouldn't otherwise be able to have, thus providing more opportunities for business travelers to spend more time in our city utilizing taxis, rental cars, transportation services, attractions, restaurants, etc.

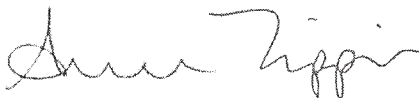

The tourism industry in San Diego has not only helped me advance my career, but it has helped my loved ones in times of need. When my mom couldn't make ends meet as a single parent with just one job, she was able to get a job on the weekends for a local town car/limousine transportation company to provide for her family. He has worked for this company (working 7 days a week) for the past 10+ years and has never loved a job more than transporting visitors to and from the convention center, the airport and to the various hotels around San Diego. She loves that she is one of the first and last points of contact for business and leisure travelers visiting our beautiful city. Her livelihood depends on tourism in San Diego.

When my husband was laid off from his job that he spend so long training for, he found himself jobless with a wife and two children. We couldn't make ends meet with just one income so he knew that he quickly had to find a job even if it wasn't in the career field that he was in. He soon found a job working in the valet department of one of San Diego's hotel and casinos. Although it wasn't his ideal situation, and he was overqualified for the job, he was given an opportunity and was given a promotion shortly after starting. The tourism industry gave him a second chance and now our livelihood solely depends on tourism in San Diego.

In short, the proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront.

Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script, appearing to read "Anne Tippin".

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Name: Lea Gust

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and members of the California Coastal Commission:

On behalf of Gillian Ware please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides: Revenue, jobs and visibility to our beautiful city along with:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast

Dear Chair Shallenberger and members of the California Coastal Commission:

Please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion
- up to 42,000 square feet of new visitor-serving ground-level uses to activate the public promenade along the waterfront

This proposed Expansion represents a strong, unified and collaborative effort between the City of San Diego, Port of San Diego, San Diego Convention Center Corporation, hotel developers, community residents and visiting stakeholders from across the region and State of California.

I am proud to be part of a diverse coalition that will be there on October 9-11, 2013 to voice our support and urge you to approve this regionally-significant project.

Thank you for your consideration.

Sincerely,

Brian Hilemon

California Coastal Commission  
45 Fremont Street, Suite 2000  
San Francisco, CA 94105-2219

Dear Chair Shallenberger and Members of the California Coastal Commission:

Please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

The proposed Expansion and Rooftop Park are going to be an essential and integral part of San Diego's future and our beautiful waterfront. I hereby voice my support and urge you to approve this regionally-significant project.

Thank you for your consideration.

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

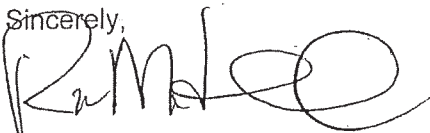

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

A handwritten signature in black ink, appearing to read "Russ Mitchell", with a stylized, looping flourish at the end.

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

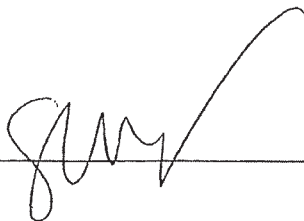

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

RE: propuestas de enmienda del Plan Maestro de Puerto para la expansión del Hilton Bayfront Hotel por el Distrito Unificado de Puerto de San Diego y San Diego Convention Center

Estimado Presidente Shallenberger y comisarios:

te escribo para apoyar la enmienda Puerto Plan Maestro para la expansión del Hilton Hotel Bayfront enviado por el distrito de Puerto unificado de San Diego y San Diego Convention Center. Propuesto mejoras proporcionará el espacio de exhibición contiguo más grande en la costa oeste más una nueva expansión de torre del hotel de 500 habitaciones. Hasta 42.000 metros cuadrados de nuevo visitantes que sirven usos se sumarían a un nuevo paseo público a lo largo de la costa de San Diego.

La propuesta de ampliación mejorará el acceso del público y ofrecen a los residentes locales y visitantes una oportunidad única para ver la bahía de San Diego como nunca se ha visto antes: desde un parque público de 5 hectáreas en el centro de convenciones. El diseño ambientalmente sostenible del proyecto incorpora elementos de diseño para cumplir con la certificación LEED, únicas en la azotea paisajismo filtrará y agua potable que de lo contrario podría ser bombeada a una retención de aguas pluviales del estado-de arte y un alcantarillado sanitario y sistema de filtración que reducirá la demanda de agua del sistema de la ciudad.

El nuevo paseo mejorará la conectividad al Embarcadero Marina Parque sur a lo largo de la bahía del centro de convenciones. Se abordarán problemas de accesibilidad existentes a través de una carretera reconfigurada y paseo peatonal. Además, la propuesta desvíos de tráfico de camiones, que encierra las bahías de camión y reconfiguración del tráfico peatonal mejorarán acceso público y la seguridad. Una gran escalera unirá el centro de San Diego a los muelles, proporcionando un icono dramático para la costa oeste.

Hasta 7.000 nuevos puestos de trabajo permanentes serán creadas por este proyecto, además de los miles de empleos generados durante el proceso de construcción. Se prevé que más de \$12,7 millones en nuevo anual transitoria ocupación impuesto (TOT) los ingresos se generará para el Fondo General de la ciudad, además de hasta \$8 millones en nuevos impuestos ingresos.

Contrariamente a sugerencias que se trata de una "gran caja en la Bahía", la propuesta de expansión contigua es una expansión diseñada para el medio ambiente que ofrece un parque de 5 hectáreas en la azotea y plaza pública que protege la vista corredores, mejora el acceso del público y la seguridad y activa una parte subutilizada de Costanera centro de la ciudad de San Diego. A través de un proceso de amplia difusión, seis configuraciones diferentes para un centro de convenciones en el sitio identificado por los cargadores para un estadio de uso común fueron evaluadas minuciosamente y rechazó como no viables por una fuerza de tarea diversa e inclusiva de San Dieguinos creado en 2009 por el alcalde Jerry Sanders.

Insto a la Comisión para aprobar la enmienda propuesta del Plan Maestro de puerto en la audiencia del 9 al 11 de octubre de 2013.

Además, la propuesta desvíos de tráfico de camiones, que encierra las bahías de camión y reconfiguración del tráfico peatonal mejorarán acceso público y la seguridad. Una gran escalera unirá el centro de San Diego a los muelles, proporcionando un icono dramático para la costa oeste.

Hasta 7.000 nuevos puestos de trabajo permanentes serán creadas por este proyecto, además de los miles de empleos generados durante el proceso de construcción. Se prevé que más de \$12,7 millones en nuevo anual transitoria ocupación impuesto (TOT) los ingresos se generará para el Fondo General de la ciudad, además de hasta \$8 millones en nuevos impuestos ingresos.

Contrariamente a sugerencias que se trata de una "gran caja en la Bahía", la propuesta de expansión contigua es una expansión diseñada para el medio ambiente que ofrece un parque de 5 hectáreas en la azotea y plaza pública que protege la vista corredores, mejora el acceso del público y la seguridad y activa una parte subutilizada de Costanera centro de la ciudad de San Diego. A través de un proceso de amplia difusión, seis configuraciones diferentes para un centro de convenciones en el sitio identificado por los cargadores para un estadio de uso común fueron evaluadas minuciosamente y rechazó como no viables por una fuerza de tarea diversa e inclusiva de San Dieguinos creado en 2009 por el alcalde Jerry Sanders.

Insto a la Comisión para aprobar la enmienda propuesta del Plan Maestro de puerto en la audiencia del 9 al 11 de octubre de 2013.

RE: propuestas de enmienda del Plan Maestro de Puerto para la expansión del Hilton Bayfront Hotel por el Distrito Unificado de Puerto de San Diego y San Diego Convention Center

Estimado Presidente Shallenberger y comisarios:

te escribo para apoyar la enmienda Puerto Plan Maestro para la expansión del Hilton Hotel Bayfront enviado por el distrito de Puerto unificado de San Diego y San Diego Convention Center. Propuesto mejoras proporcionará el espacio de exhibición contiguo más grande en la costa oeste más una nueva expansión de torre del hotel de 500 habitaciones. Hasta 42.000 metros cuadrados de nuevo visitantes que sirven usos se sumarían a un nuevo paseo público a lo largo de la costa de San Diego.

La propuesta de ampliación mejorará el acceso del público y ofrecen a los residentes locales y visitantes una oportunidad única para ver la bahía de San Diego como nunca se ha visto antes: desde un parque público de 5 hectáreas en el centro de convenciones. El diseño ambientalmente sostenible del proyecto incorpora elementos de diseño para cumplir con la certificación LEED, únicas en la azotea paisajismo filtrará y agua potable que de lo contrario podría ser bombeada a una retención de aguas pluviales del estado-de arte y un alcantarillado sanitario y sistema de filtración que reducirá la demanda de agua del sistema de la ciudad.

El nuevo paseo mejorará la conectividad al Embarcadero Marina Parque sur a lo largo de la bahía del centro de convenciones. Se abordarán problemas de accesibilidad existentes a través de una carretera reconfigurada y paseo peatonal. Además, la propuesta desvíos de tráfico de camiones, que encierra las bahías de camión y reconfiguración del tráfico peatonal mejorarán acceso público y la seguridad. Una gran escalera unirá el centro de San Diego a los muelles, proporcionando un icono dramático para la costa oeste.

Hasta 7.000 nuevos puestos de trabajo permanentes serán creadas por este proyecto, además de los miles de empleos generados durante el proceso de construcción. RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

RE: propuestas de enmienda del Plan Maestro de Puerto para la expansión del Hilton Bayfront Hotel por el Distrito Unificado de Puerto de San Diego y San Diego Convention Center

Estimado Presidente Shallenberger y comisarios:

te escribo para apoyar la enmienda Puerto Plan Maestro para la expansión del Hilton Hotel Bayfront enviado por el distrito de Puerto unificado de San Diego y San Diego Convention Center. Propuesto mejoras proporcionará el espacio de exhibición contiguo más grande en la costa oeste más una nueva expansión de torre del hotel de 500 habitaciones. Hasta 42.000 metros cuadrados de nuevo visitantes que sirven usos se sumarían a un nuevo paseo público a lo largo de la costa de San Diego.

La propuesta de ampliación mejorará el acceso del público y ofrecen a los residentes locales y visitantes una oportunidad única para ver la bahía de San Diego como nunca se ha visto antes: desde un parque público de 5 hectáreas en el centro de convenciones. El diseño ambientalmente sostenible del proyecto incorpora elementos de diseño para cumplir con la certificación LEED, únicas en la azotea paisajismo filtrará y agua potable que de lo contrario podría ser bombeada a una retención de aguas pluviales del estado-de arte y un alcantarillado sanitario y sistema de filtración que reducirá la demanda de agua del sistema de la ciudad.

El nuevo paseo mejorará la conectividad al Embarcadero Marina Parque sur a lo largo de la bahía del centro de convenciones. Se abordarán problemas de accesibilidad existentes a través de una carretera reconfigurada y paseo peatonal. Además, la propuesta desvíos de tráfico de camiones, que encierra las bahías de camión y reconfiguración del tráfico peatonal mejorarán acceso público y la seguridad. Una gran escalera unirá el centro de San Diego a los muelles, proporcionando un icono dramático para la costa oeste.

Hasta 7.000 nuevos puestos de trabajo permanentes serán creadas por este proyecto, además de los miles de empleos generados durante el proceso de construcción. Se prevé que más de \$12,7 millones en nuevo anual transitoria ocupación impuesto (TOT) los ingresos se generará para el Fondo General de la ciudad, además de hasta \$8 millones en nuevos impuestos ingresos.

Contrariamente a sugerencias que se trata de una "gran caja en la Bahía", la propuesta de expansión contigua es una expansión diseñada para el medio ambiente que ofrece un parque de 5 hectáreas en la azotea y plaza pública que protege la vista corredores, mejora el acceso del público y la seguridad y activa una parte subutilizada de Costanera centro de la ciudad de San Diego. A través de un proceso de amplia difusión, seis configuraciones diferentes para un centro de convenciones en el sitio identificado por los cargadores para un estadio de uso común fueron evaluadas minuciosamente y rechazó como no viables por una fuerza de tarea diversa e inclusiva de San Dieguinos creado en 2009 por el alcalde Jerry Sanders.

Insto a la Comisión para aprobar la enmienda propuesta del Plan Maestro de puerto en la audiencia del 9 al 11 de octubre de 2013.

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

Dear Chair Shallenberger and members of the California Coastal Commission:

Please accept this letter in support of the San Diego Unified Port District Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel (Expansion).

The proposed Expansion is a regionally-significant, environmentally-sustainable project that will benefit visitors to the California coast, as well as residents of the San Diego region. If approved, the proposed project will increase the number of visitors to the Downtown waterfront, significantly improve public access, and generate new much-needed tax revenues for the region by providing additional hotel rooms and visitor-serving uses along the waterfront.

I support the proposed Expansion project because it provides:

**Public Access and Views to the Waterfront**

- new 5-acre public rooftop park with panoramic views will attract first-time and return visitors (no roof access/views available now)
- bayside of convention center will be activated through new promenade and improved connectivity to Embarcadero Marina Park South
- public views and pedestrian experiences will be enhanced by new pedestrian promenade, walkways and grand staircase linking Downtown San Diego to the waterfront
- existing accessibility issues will be addressed through reconfigured roadway and pedestrian promenade
- re-routed truck traffic, enclosure of truck bays and reconfiguration of pedestrian traffic flow will improve public access experience and safety

**Environmental sustainability**

- LEED (Leadership in Energy and Environmental Design) certification will be pursued
- Utilizes rooftop landscape to filter and clean water currently pumped into sanitary sewer;
- Storm water retention and filtration; minimization of domestic water demand from city system;
- Energy efficient lighting, use of natural light and sun shading; natural ventilation.

**Regional economic asset and visitor experience**

- the largest contiguous exhibit space on the west coast
- up to 7,000 new permanent jobs and thousands of construction jobs
- new 500-room hotel tower expansion

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.

I urge the Commission to approve the proposed Port Master Plan Amendment at your October 9-11, 2013 hearing.

Sincerely,

RE: Proposed Port Master Plan Amendment for the Expansion of the San Diego Convention Center and Hilton Bayfront Hotel by the San Diego Unified Port District

Dear Chair Shallenberger and Commissioners:

I am writing you in support of the proposed Port Master Plan Amendment for the expansion of the San Diego Convention Center and Hilton Bayfront Hotel submitted by the San Diego Unified Port District. The proposed improvements will provide the largest contiguous exhibit space on the West Coast plus a new 500-room hotel tower expansion. Up to 42,000 square feet of new visitor-serving uses would be added to a new public promenade along the San Diego waterfront.

The proposed expansion will enhance public access and offer visitors and local residents a unique opportunity to view San Diego Bay as it has never been seen before: from a 5-acre public park atop the Convention Center. The environmentally sustainable design of the project incorporates design elements to meet LEED certification, unique rooftop landscaping that will filter and clean water that would otherwise be pumped into a sanitary sewer, and a state-of-the-art stormwater retention and filtration system that will minimize water demand from the city system.

The new promenade will improve connectivity to Embarcadero Marina Park South along the bayside of the Convention Center. Existing accessibility issues will be addressed through a reconfigured roadway and pedestrian promenade. Additionally, the proposed re-routing of truck traffic, enclosing the truck bays and reconfiguring pedestrian traffic flow will improve public access and safety. A grand staircase will link Downtown San Diego to the waterfront, providing a dramatic icon for the West Coast.

Up to 7,000 new permanent jobs will be created by this project, plus the thousands of jobs generated during the construction process. It is projected that over \$12.7 million in new annual Transient Occupancy Tax (TOT) revenues will be generated for the City's General Fund, plus up to \$.8 million in new Sales Tax revenues.

Contrary to suggestions that this is a "big box on the bay", the proposed contiguous expansion is an environmentally designed expansion that provides a 5-acre rooftop park and public plaza that protects view corridors, enhances public access and safety, and activates an underutilized part of San Diego's downtown waterfront. Through a comprehensive public outreach process, six different configurations for a convention center at the site identified by the Chargers for a joint-use stadium were thoroughly evaluated and rejected as not viable by a diverse and inclusive task force of San Diegans created in 2009 by Mayor Jerry Sanders.
