

Búsqueda de un permiso o proyecto por domicilio

Seleccione la opción **Search Records** / Buscar registros en la página principal.

The screenshot shows the homepage of the California Coastal Commission Public Data Portal. The header is dark blue with the commission's name and navigation links. The main content area has a blue background with the title 'Public Data Portal' and a button for 'User Guides and FAQs'. Below this, a white box contains a 'Search Records' button and a welcome message. At the bottom, there is a section for 'Permits' with a link to 'Search Records'.

[Welcome to the California Coastal Commission Public Data Portal](#)

We are pleased to offer public online access to our Coastal Data Management System, where you can view information related to the Commission's local coastal planning, development permitting, and other related activities along California's coast. Currently our online data is limited to Commission actions since approximately 1980. We will be working to add additional historic records and to continually improve our online services as resources allow. We welcome your suggestions and feedback regarding our new online services. Comments may be offered at PublicPortalComments@coastal.ca.gov. Thank you.

[What would you like to do today?](#)

To get started, take a look at our user guides and FAQs linked above or select Search Records below

[Permits](#)

[Search Records](#)

Ingresa el **número del domicilio**, el **nombre de la calle** y la **ciudad** en los campos correspondientes. Desplácese hasta la parte inferior de la página y haga clic en el botón **Search / Buscar**.

Consejo: Se recomienda comenzar su búsqueda con información básica (por ejemplo, un número de calle, el nombre de la calle y el nombre de la ciudad) y dejar que el sistema devuelva los resultados disponibles, luego seleccione su registro de esos resultados. Esto evita errores donde, por ejemplo, el tipo de calle se designa como Avenue o Drive, pero el usuario ingresa una designación incorrecta como Street).
