

Conducting searches for additional types of information

In addition to searching for a specific permit, you may also look for information on types of records or records in a specific area. For example, you can search for all records of a specific type (e.g., Coastal Development Permits, Local Coastal Plans or Emergency Permits), records in a specific city or county, all local permits issued by a city or on a specific street, permits issued in a specific year, or Appeals filed in a city over the last 10 years.

Select the **Search Records** option on the main page.

The screenshot shows the California Coastal Commission Public Data Portal. The header is dark blue with the text "California Coastal Commission" in the center. Navigation links include "Meetings", "Services & Programs", "Learn", "Participate", "Access", and "About". A "Translate" button is in the top right. The main content area has a blue background with the text "Public Data Portal" and a white button labeled "User Guides and FAQs". Below this is a white box with a blue border containing the text "Search Records". The main content area has a light beige background with the following text:

[Welcome to the California Coastal Commission Public Data Portal](#)

We are pleased to offer public online access to our Coastal Data Management System, where you can view information related to the Commission's local coastal planning, development permitting, and other related activities along California's coast. Currently our online data is limited to Commission actions since approximately 1980. We will be working to add additional historic records and to continually improve our online services as resources allow. We welcome your suggestions and feedback regarding our new online services. Comments may be offered at PublicPortalComments@coastal.ca.gov. Thank you.

What would you like to do today?
To get started, take a look at our user guides and FAQs linked above or select Search Records below
