[Welcome to the California Coastal Commission Public Data Portal](#)

We are pleased to offer public online access to our Coastal Data Management System, where you can view information related to the Commission's local coastal planning, development permitting, and other related activities along California's coast. Currently our online data is limited to Commission actions since approximately 1980. We will be working to add additional historic records and to continually improve our online services as resources allow. We welcome your suggestions and feedback regarding our new online services. Comments may be offered at PublicPortalComments@coastal.ca.gov. Thank you.
