

# ENVIRONMENTAL JUSTICE POLICY: IMPLEMENTATION ACTIONS

**Engagement with Affected Communities**

Partner with environmental justice leaders and groups to educate their communities about coastal issues that intersect with environmental justice.

**Environmental Justice Staff Training & Support**

Provide a base level of training on equity and environmental justice issues for the entire staff across agency.

**Coastal Development & Environmental Justice**

Develop an internal checklist for staff to help analyze the existence of potential environmental justice impacts associated with a proposed project.

**Public Participation**

Make Commission meetings more geographically accessible, affordable and inviting to underserved communities to expand public comment opportunities for these communities.
