41	full-time Goleta resident	5/6/2020 2:49 PM
42	All year resident	5/6/2020 12:53 PM
43	non-visitor	5/6/2020 10:23 AM
44	lived in SB County for 62 years	5/6/2020 10:01 AM
45	bird watching with SB Audabon	5/6/2020 9:28 AM
46	I live in a nearby city Ventura, Ca.	5/6/2020 6:11 AM
47	Former Santa Barbara resident/ former UCSB student.	5/5/2020 11:33 PM
48	have routinely & regularly explored the Gaviota Coast for more than 10 yr. Truly love this region	5/5/2020 10:41 PM
49	I am a part time resident of Santa Barbara.	5/5/2020 10:19 PM
50	I grew up on hr but now live off the ranch.	5/5/2020 9:13 PM
51	Most specifically, I have visited in the past so I'm familiar with HR. I do not visit on a regular basis, it's been a few years.	5/5/2020 8:50 PM
52	concern citizen	5/5/2020 8:04 PM
53	Looking at purchasing at hollister ranch	5/5/2020 7:49 PM
54	I am a 39 year Goleta/Santa Barbara resident, small business owner, UCSB Environmental Studies graduate, and property owner in Santa Barbara and The Hollister Ranch. I strongly oppose increased access through the privately owned Hollister Ranch. The Hollister Ranch is a working cattle ranch with an existing Managed Access Program that welcomes school groups for ranching activities and tide pool studies; grants professors and graduate students access for scientific research; and facilitates disabled Veterans, cancer survivors, and other groups for the purposes of recreation and rejuvenation. The current managed access program provides thousands of people access to this pristine environment and is a key component to The Hollister Ranch Environmental Stewardship program. I strongly oppose increasing access to the general public for the purposes of providing a small minority the right to recreate freely on privately held land. It is clear that the politicians involved in this legislation have not a care for the fragile environment to which they are advocating for degradation, but rather hold a higher value on pleasing their minority held constituents for the sole purpose of political gain. It is a disgrace to the California Coastal Comission's Mission Statement of "Protecting and Enhancing the California Coast" to advocate for increasing the number of visitors to this delicate and vulnerable coastal land and I am strongly opposed.	5/5/2020 7:48 PM
55	My late grandfather ran cattle on the coast with the Bixbys and Hollisters, I come from a cattle ranching heritage.	5/5/2020 7:26 PM

Hollister Ranch Coastal Access Program: Public Survey #2

56	I am just a 5% owner. I reside in my home in Santa Ynez.	5/5/2020 6:19 PM
57	Attend bird watching tours with the Audubon Society	5/5/2020 5:01 PM
58	I have visited as a guest in the past, but do not do so regularly anymore.	5/5/2020 3:51 PM
59	I do not believe granting access to the public over private property should be allowed	5/5/2020 3:46 PM
60	I visit Santa Barbara county and surrounding areas every couple of months to visit family.	5/5/2020 2:10 PM
61	Journalist covering this issue for the Sierra Club, covering Santa Barbara and Ventura counties.	5/5/2020 2:00 PM
62	retired employee in County of SB	5/5/2020 1:06 PM
63	Resident for all of the year. Not sure why this wasn't an option(?)	5/5/2020 12:32 PM
64	I do not believe that you can rent at Hollister Ranch without being an owner, or family member of an owner.	5/5/2020 12:30 PM
65	I live in the City of Santa Barbara	5/5/2020 12:16 PM
66	My family lives and works in Santa Barbara County, and frequently enjoys visits to our local shorelines. Of particular interest to us are the last remaining wild places that are difficult to access all along the County's coast and off our shores. They should stay that way. What's of major concern should be what will our collective coastal treasures look like in 50 to 100 years? Will they all be just another place we can drive up to, put up an umbrella, throw down a beach towel, and play in the surf? We already have plenty of that which is underutilized and in dire need of improvement. Let's think carefully about how we save the wild places (and semi wild) for the next generation, and improve upon what we have.	5/5/2020 12:10 PM
67	Life long resident of Santa Barbara county	5/5/2020 11:15 AM
68	Lived here all my life	5/5/2020 10:54 AM
69	Grew up there my entire life	5/5/2020 10:42 AM
70	Santa Barbara local, San Diego resident	5/5/2020 8:51 AM
71	Never been there. Born and raised on the California coast. I am pained at it use of the coast and the near-shore environment as a doormat for development and tourism.	5/4/2020 11:11 PM
72	I am a native Californian. I have lived in Costa Mesa all my life.	5/4/2020 9:37 PM
73	Past resident of Santa Barbara County	5/4/2020 8:53 PM
74	Long term permanent resident of the County of Santa Barbara.	5/4/2020 8:13 PM
75	Would love to visit the ranch!	5/4/2020 7:49 PM
76	Born and raised in North SB CO, moved away at 22	5/4/2020 7:10 PM
77	Former owner, served six years on the Design Committee.	5/4/2020 7:05 PM
78	Long time resident of Santa Barbara and San Luis Obispo Counties, currently living in Bend, OR.	5/4/2020 6:00 PM
79	A person who completed hiking the entire California Coastal Trail in 1996.	5/4/2020 5:15 PM
80	Artist, I paint on the road approaching Hollister Ranch.	5/4/2020 4:54 PM
81	My non-profit is based in Santa Barbara but does statewide coastal protection work.	5/4/2020 4:32 PM
82	Had access to Hollister Ranch from 1965-1970	5/4/2020 4:08 PM
83	Previous resident and visitor	5/4/2020 3:55 PM
84	Have only ever seen it from the train.	5/4/2020 3:39 PM
85	I live in San Luis Obispo County and enjoy hiking in Santa Barbara including the Gaviota area several times per year.	5/4/2020 3:35 PM
86	SB county long time resident	5/4/2020 3:23 PM
87	Interested citizen, reside in LA County	5/4/2020 3:04 PM

Hollister Ranch Coastal Access Program: Public Survey #2

88	Working on restoration projects in the Gaviota Creek Watershed. Associated with a local no-profit that allows environmental education opportunities at the Ranch.	5/4/2020 12:43 PM
89	Resident year-round	5/2/2020 11:14 AM
90	I am a retired senior citizen. I have been surfing the Ranch for 50 years. I was Counsel for the Alegria Mutual Water Co. that deliveries domestic water to the homes.	5/2/2020 7:35 AM
91	We reside on a neighboring Ranch.	5/1/2020 11:48 AM
92	California taxpayer; the economy is collapsing and it's a shame state resources are being spent on this exercise while people across the state are suffering with job loss, hunger, inadequate school budgets; this exercise should be put on pause while we tend to far more pressing matters	4/30/2020 3:57 PM
93	My brother's family lives in Santa Barbara. He works in Ventura County.	4/30/2020 12:45 PM
94	We are retired & reside in Los Angeles and travel regularly up and down the California Coast, and always visit the Gaviota public beach & recreation area. We are active supporters of the rights of all Californians under California law. As elderly people, we were alarmed in the extreme about any proposal to make access to the Hollister Ranch limited to the public, and especially those with limited physical abilities.	4/30/2020 12:11 PM
95	Live in adjacent SLO County, surf, and advocate for coastal access.	4/30/2020 12:19 AM
96	I live and work in LA county however I often visit SB county for pleasure and work.	4/29/2020 7:46 PM
97	Property Manager at Hollister Ranch for private property owners. Family was previous owners on the Ranch. Previously Assistant Manager of HROA. Worked in Hollister Ranch Office for 15 years. Associated with HR for 30 years.	4/29/2020 6:58 PM
98	Work for the CA Conservation Corps performing habitat restoration projects in Santa Barbara County.	4/29/2020 5:45 PM
99	Live in San Luis Obispo County. I lived in Santa Barbara for 5 years, and I am a life long resident of California.	4/29/2020 5:06 PM
100	Southern California Surfer / Hiker	4/29/2020 4:19 PM
101	I would like to visit the Ranch but as yet have no legal access	4/29/2020 3:58 PM
102	I am a past resident of the county, however. I lived there for six years.	4/29/2020 3:41 PM
103	Also visit the Ranch as a teacher during Ranch-organized tide pool tour	4/29/2020 3:11 PM
104	Live in Ventura County and have worked on and off in SB.	4/29/2020 3:03 PM
105	I am not a resident of Santa Barbara County HOWEVER I frequently recreate there, both socially and outdoor activities. having access to Hollister Ranch would be a gift and expand our recreational opportunities	4/29/2020 2:49 PM
106	Resident of Goleta	4/29/2020 2:37 PM
107	Santa Barbara resident, 1966 to 1975. I have visited the Ranch for a UCSB student project, by boat and as a guest. Live in San Francisco Bay area.	4/29/2020 2:35 PM
108	Former student at UCSB	4/29/2020 2:19 PM
109	For three decades have camped at north Santa Barbara beach side campgrounds.	4/29/2020 2:01 PM
110	I was an owner on the HR for 40 years and lived there full time for 34 years.	4/29/2020 1:55 PM
111	Former resident	4/29/2020 1:51 PM

Q2 Please include the City and Zip Code of your primary residence (in or out of the County of Santa Barbara).

Q3 Which of the following groups includes your age?

Answered: 1,381 Skipped: 34

ANSWER CHOICES	RESPONSES	
0-18	0.65%	9
19-29	6.73%	93
30-45	19.70%	272
46-60	24.55%	339
60+	48.37%	668
TOTAL		1,381

Q4 The following list of potential benefits from increased coastal access to the Hollister Ranch coastline is derived from the stakeholder input from the first HRCAP survey and the workshop held in Goleta on February 20th. Please select up to three (3) benefits with which you most agree. You may also list any number of additional benefits under “Other”:

Hollister Ranch Coastal Access Program: Public Survey #2

ANSWER CHOICES	RESPONSES	
Enable everyone to experience the scenic and natural resources found along this portion of the coast.	37.30%	517
Provide easier access to the high quality surf breaks found along the Hollister Ranch coastline.	12.41%	172
Increase opportunities for coastal recreation and environmental education experiences for school groups, non-profit and community-based organizations, or other organized groups.	33.55%	465
Increase opportunities for the general public for passive coastal recreation such as beach walking, nature-viewing, and contemplative time.	40.19%	557
Increase opportunities for the general public for active coastal recreation such as surfing, kayaking, paddle boarding, diving, and fishing.	19.99%	277
Improve social and environmental equity by providing access to public coastal resources.	26.98%	374
Provide safer access to the public coastal resources along the Hollister coastline.	15.80%	219
No benefit	32.11%	445
Other (please specify)	21.36%	296
Total Respondents: 1,386		

Hollister Ranch Coastal Access Program: Public Survey #2

#	OTHER (PLEASE SPECIFY)	DATE
1	increase environmental stewardship by allowing visual or tactile interface with scenic parts of california	5/25/2020 9:00 AM
2	all other options except no benefit	5/25/2020 7:22 AM
3	Provide opportunities for marginalized community members to experience and enjoy the Ranch coastline.	5/22/2020 4:08 PM
4	There is much to lose and little to gain in the development of the remote coastal area of Hollister Ranch. The homeowner collective of the Ranch have been excellent stewards in the preservation of natural ecology and wildness that inherently is a great part of its beauty. This coastal land should remain in its natural state untouched by further human development and activity. The current availability of beach access here in SB County is fantastic. We have every kind of beach experience one could wish for already in place. There is no need or benefit to develop the pristine preserve of Hollister Ranch. The environmental cost of paving paradise to put up a parking lot will be a detrimental scar not an asset.	5/22/2020 3:53 PM
5	Increased opportunities for environmental education for school groups and nonprofit organizations only.	5/22/2020 3:26 PM
6	Broad access to the general public will provide no benefit; it will destroy this relatively pristine coastline when we should be preserving and protecting it. There is already guided access for school and other non-profit groups and it could be beneficial to increase such access but only to the extent that can be done without damaging this precious resource.	5/20/2020 3:48 PM
7	Like most owners, I think the access plan is misguided and will lead to a degradation of the Hollister Ranch resource. Additionally, the idea that the public is entitled to use our private property without fair market value compensation is really offensive. I've read and listened to commentary from the Coastal Commission discussing using ranch roads, parking, cabanas, etc....as if these were not our private property. The public property ends at the mean high tide line ...the wet sand. I don't understand why the State won't offer to buy out the ranch owners if our land is so desired by the public. The State is willing to buy out the land for high speed rail but instead wants to take the ranch for the public without paying for it. Its morally reprehensible. The public property adjoining the ranch is open to anyone who wants to bicycle, walk, paddle etc right now and people frequently do along the beach or waterways. We also have a significant public interest access program that we manage. I simply do not buy the premise of the law that is attempting to be implemented.	5/19/2020 4:46 PM
8	The beaches, foothills and mountains of California's Point Conception are the last natural pristine preserve of the Southern California Coast. These are the preserved lands of the Hollister Ranch and the Nature Conservancy's Dangermond Preserve. This is the last "endangered species" of the Southern California Coast, a preserved coastal "wilderness" that the Coastal Commission and the HRCAP now pretend to own as they design their Access Wish List of paved parking lots, traffic corridors, pedestrian tunnels, shuttle buses, roadways and restrooms. PLEASE stop and take a serious look up and down our Southern California Coast at the many once pristine, now lost, coastline locations: The historical natural beauty of the undeveloped rolling foothills, mesas, wetlands and beaches of the Irvine Ranch-Newport-Laguna Beach coastlines are gone; of the Malibu-Point Dume coastlines are gone; of the Trancas Beach-County Line coastlines are gone; of the Salt Creek, Dana Point, Capistrano Beach and San Clemente coastlines are gone; of the North, Central and South San Diego County coastlines are gone..... From San Diego to Santa Barbara counties, the only vestiges of natural coastline that might still exist do so under the pretensions of the military (Camp Pendleton and Point Mugu) which are also disappearing rapidly. All of the natural beaches are gone as the SoCal development fever continually rises, creeps and pushes ever so hard on our coastline, now on the western borders of Goleta and the Gaviota Coast. As the Gaviota Coastal Conservancy describes its mission statement: "Gaviota: The End of Southern California." The double entendre is too meaningful to be ignored.	5/19/2020 1:03 PM
9	To continue, this survey does not allow less than three benefits.	5/17/2020 2:32 PM
10	People will ruin it. Why don,t you go after Laguna beachs private coves, Monarch beach,Camp Pendelton,Point Dune, & all the other private beaches. Why don,t we walk through Cypress shores where President Nixon used to live.	5/15/2020 10:31 PM
11	Provide Limited Access to the general public	5/15/2020 11:03 AM

Hollister Ranch Coastal Access Program: Public Survey #2

12	Coastal Trail segment through this area	5/15/2020 7:18 AM
13	The coastline is in pristine condition preserve it with as little human contact as possible	5/15/2020 6:02 AM
14	There is no possible way for the ranch to not be destroyed by government involvement. This survey alone is so skewed it should be thrown out. Access to the Ranch is available to anyone who is willing to put the effort in. We don't see an escalator to the top of half dome. Same principle applies here. Public access will only lead to destroyed property, wildlife habitats, and private property rights. Not to mention this clearly opens a window to the potential of large scale development. No Benefit.	5/14/2020 5:37 PM
15	If public access is limited to periodic, docent lead tours, there is the potential benefit of researching and learning from a sparsely populated, environmentally sensitive coastline. Unfettered and open access of any kind has no benefit in protecting the environment. There is already public recreational use of the coastline with boating, surfing, fishing and beach walking which requires some effort and limits the human impact on the coastline.	5/14/2020 4:53 PM
16	lack of infrastructure, including roads, sanitation services, water and power, serious fire hazards with no nearby fire or police. Safety concerns for owners, visitors and animal wildlife tht lives and migrates thru the Ranch, and cattle, ect.	5/14/2020 1:10 PM
17	All the above	5/13/2020 9:09 AM
18	This beautiful area of California's coast should be open to all. Isn't coastal access a right in California? There should not be any private beaches in California.	5/12/2020 6:28 PM
19	THE PUBLIC CONTINUES TO DEGRADE THE LAST OF WHAT REMAINS OF THE COAST. STOP THE DESEGREGATION OF STATE PARKS BEFORE BEING GREEDY	5/12/2020 4:12 PM
20	I believe that increased coastal access at Hollister Ranch will negatively impact the tidepool preserve within Hollister Ranch. These tidepools are by far the most pristine tidepools in Santa Barbara County and they remain that way because there is limited access to them. I believe that increased coastal access of this area will degrade one of the counties most amazing coastal resources.	5/12/2020 3:34 PM
21	Set an example that access to CA coastline is the law, and the residents of the Ranch need to be reminded of that. Of course this has to be done carefully as ruining such a pristine piece of coastline would be a tragedy.	5/12/2020 2:25 PM
22	No access to general public. Limited access to organized research groups for coastal research only	5/12/2020 10:32 AM
23	Put an end to the privatization of the Hollister Ranch Coastal and maintain that the California Coast belongs to everyone not just the stakeholders and wealthy in Hollister Ranch.	5/12/2020 10:10 AM
24	Guided tours to the beach at low tide. Limited numbers of guest at one time. Fix the pier at Gaviota so the surfers can launch their boats to surf in the Ranch.	5/12/2020 10:05 AM
25	Increased opportunity for theft and vandalism.	5/12/2020 10:01 AM
26	I believe any access to the Hollister Ranch should be limited to educational purposes. It is a wildlife haven that will be ruined by the general public. Non-profit groups could teach kids to respect the environment by studying tide pools but there will be nothing to study if the general public is allowed to interfere with the pristine natural environment. I worry about how trash, music, and increased human presence will affect bird breeding grounds as well as all the animals that must call it home.	5/12/2020 9:04 AM
27	Provide opportunities for education, school groups, environmental groups, scientists, marine biologists, all in very restricted and limited numbers with a cap on the number of visits total per year.	5/11/2020 9:44 PM
28	Increase opportunities for passive coastal recreation. Provide safer access to the public coastal resources along the Hollister coastline.	5/11/2020 9:00 PM
29	Listed purported Benefits mostly overlook all the damages caused and the public costs for the "taking". Other significant costs will be born by the state attempting to minimize those damages	5/11/2020 8:42 PM
30	"We like your privacy and view and we think we'll share it with you." You're taking their privacy, which is the value most of the owners placed in purchasing their land. "You've got it; we want it." Sad to see the public destroy this treasured area.	5/11/2020 8:36 PM

Hollister Ranch Coastal Access Program: Public Survey #2

31	I feel strongly that opening the ranch for public communal use will result in overcrowding and environmental harm.	5/11/2020 7:47 PM
32	Protecting coastlines by limiting access	5/11/2020 7:32 PM
33	This place is so environmentally sensitive that we think the general unsupervised public will damage it forever...protect it with supervised tours, that should be fair and equitable for everyone, locals and tourist.	5/11/2020 5:21 PM
34	Benefits that provide responsible access that does not endanger wildlife, the cattle Cooperative program, recourses provided by the state such as toilet, water, trash, road improvements, an ongoing monitoring program to ascertain the impacts of given number of visitors and emergency services.	5/11/2020 4:03 PM
35	The coastline should always be public access	5/11/2020 3:30 PM
36	Protect Native American cultural resources and traditional cultural landscapes and properties for the Chumash Tribe and its members and descendants.	5/11/2020 3:11 PM
37	Increase access to researchers to study the ecology and unique biodiversity found nowhere else. Hollister Ranch is a continuous wilderness corridor with Dangermond Preserve all the way to Jalama. There are sightings of mountain lions on the beaches! We need to study and learn. Furthermore there are archeological research opportunities spanning Chumash to Spanish to late 19th century ranching.	5/11/2020 3:03 PM
38	Last rural area. That's why people like it. I don't believe everyone should take a tram ride up. Walk in, boat in, fix the trails we have, like the El Cap to Refugio bike trail would be a great start. We would like to ride down there, because we find the roads at the HR Ranch unsafe, hilly, curvy, some are dirt and gravel. I can't ride my bike here safely. How can it be opened up to a bunch of unprepared people with the infrastructure the way it is? Repair our other trails and bike ways first at all the other access points before this land grab that you want to do for "the people".	5/11/2020 3:02 PM
39	The public should be informed of the law that the beaches are public below the mean high tide line and privately owned above. Your survey results should include this very relevant information so the people understand the true complexity associated with creating more convenient beach access to Hollister Ranch. Many people I know who boat in or walk in choose to do so because of 1. The beauty associated with such a tiny human footprint and 2. Some of the best things in life require a little effort/adventure	5/11/2020 2:56 PM
40	Benefits nil in comparison to detriments.	5/11/2020 2:52 PM
41	Unsupervised Public Access May burn the ranch down	5/11/2020 2:46 PM
42	A highly limited access program is the only one that should be implemented. This is an important nature preserve with significant biodiversity and increased human impact would be detrimental to a number of species sensitive to any human presence, in particular such bird species as roadrunners and quail that have otherwise vanished from the Southern California coast. It is a potential least tern and snowy plover breeding preserve as long as human presence remains extremely minimal, as these species will not breed where there is a strong human presence. The only groups that should be allowed on are small, curated groups for nature study. To open these beaches to public access is otherwise an environmental catastrophe waiting to happen, and all naturalists are opposed to it.	5/11/2020 12:28 PM
43	Provide restricted numbers of the public ,with managed access, for safety and environmental protection	5/9/2020 6:39 PM
44	I can see little to no benefit by infringing on private property to gain beach access and open a sensitive area to probable degradation	5/9/2020 6:22 PM
45	A thoughtful increased public access plan at Hollister Ranch could provide expanded environmental equity and justice to underserved and disadvantaged communities by providing meaningful coastal experiences that respect the environmental and cultural resources of the area. An expanded educational access program could provide coastal educational opportunities to teach future generations, from all socio-economic backgrounds and regions, to be good stewards of the land and the coast. Hollister Ranch beaches could provide a safe expanded coastal access opportunity for those with physical and developmental challenges. Working with Hollister Ranch owners and partnering with non-profit organizations could be a positive way to	5/9/2020 5:21 PM

Hollister Ranch Coastal Access Program: Public Survey #2

provide expanded opportunities to groups of Californians who normally do not have the opportunity to experience the coast.

46	Special places sometimes are special because it takes a little work to get there; ask anyone who boats into Hollister Ranch...most will say to keep it as is	5/9/2020 11:10 AM
47	Coastal access at Jalama, Refugio and Gaviota are available and yet irresponsibly used. The Hollister Ranch is in its natural state and has been for years. Its access has been glorified for years by surfers who want access to waves in an easier way. Access to any spot in California is afforded up to high tide line. Taking of private property for the sake of making access to surf spots easier is not right.	5/9/2020 8:29 AM
48	As a long term former resident of Orange County I witnessed the total environmental degradation of the coast in the vicinity of San Juan Capistrano and Doheny Beach. The unlimited public and recreational access has stripped this area of most of its natural marine life. The waves for surfing and the sandy beaches remain and are used extensively but I challenge anyone to find any life in the tide pools or any other reasonable amount of natural environmental quality in this area. The natural environmental qualities remain on the Hollister Ranch Coast only because the access through private land has limited the ability of the general public to plunder this small section of the California Coast. Over the past many years the Ranch has made this valuable resource accessible for qualified education and scientific groups to observe and study with proper controls to assure that it is not damaged as a result. I am not sure of how many hundreds of miles of coastline in California are now available for unrestricted public access, but it is my view that the relatively small portion(less than 8 miles) should not ever be opened to unrestricted public recreation access. At the present time surfing and fishing in the ocean is accessed by boat and that has adequately served the public needs in my view. Last but not least If the State still desires to wrench open this small section of undisturbed coastline for the general recreation benefit, it has a legal remedy in that it can purchase the the right of way either through condemnation proceedings or other means. It is my view that the State is being very heavy handed in its approach to open this small section of the coast and ultimately ensure its environmental destruction.	5/9/2020 8:22 AM
49	I have many realistic concerns about how public access will negatively impact the pristine and unique ecosystem of this pristine coastal zone.	5/8/2020 4:39 PM
50	This part of coast is already accessible to non-onwers, like myself . Opening roads to these beaches does not grant other-wise closed access, it will only add to the amount of trash that will be driven in and left on the beaches. I am not a land or home owner on HR. The level of access given to me is completely fair.	5/8/2020 3:14 PM
51	Hollister ranch should be kept private. I do not agree with opening it up to the general public. If you drive on this land you will see that the current occupants are taking great care of it.	5/8/2020 2:10 PM
52	Ability to ride horses along the coast line.	5/8/2020 11:47 AM
53	There are no benefits to increased usage of the coastline.	5/8/2020 8:19 AM
54	Allowing access will further degrade natural and wildlife habitat.	5/7/2020 10:25 PM
55	As somebody who has boated and hiked into Hollister Ranch, I feel that making any changes would result in a dramatic decline in the health of the land.	5/7/2020 8:25 PM
56	No benefit; I would keep accessibility as it is at this very moment. It is a pristine place that I want my kids to see. It is the only true California gem left and the beach is still accessible -- just takes a little more work.	5/7/2020 6:04 PM
57	education and science but with the focus on protecting the natural resources	5/7/2020 4:31 PM
58	Increased opportunities for the residents of California to be educated on coastal conservancy.	5/7/2020 3:09 PM
59	Currently, the Hollister Ranch already provides some coastal access to groups, such as Research groups from various Universities, children's classroom field trips, specialty handicap programs, among other groups. The area, being a private and remote cattle ranch, is really not set up for increased use, foot traffic, trails and hiking. It is a "semi open range" cattle ranch, with a dangerous and twisting road, quite remote. There are no services available, eg. lifegaurds, restrooms or emergency services. The Hollister Ranch and the ranches north, have protected and preserved a wild natural environment, of flora and fauna, by keeping the area with low impact by us humans, basically through environmental conservancies. I would like to see better access provided to the beaches and trails at Gaviota State Park and the coastline south, to El	5/7/2020 2:32 PM

Hollister Ranch Coastal Access Program: Public Survey #2

Capitan, There are beautiful beaches there, isolated without hardly a soul. The State could work on improving the access there.

60	allow some form of limited public access while protecting and preserving the environment and home owner rights	5/7/2020 2:26 PM
61	Extremely unsafe to provide public access without significantly impacting sensitive environmental areas	5/7/2020 2:03 PM
62	Everything that opens up to the public gets messed up, dirty, and is not taken care of. This seems to be one of the last pristine areas in the state.	5/7/2020 1:43 PM
63	I believe the present stewardship of the Hollister Ranch should be allowed to continue as is. I purchased property and a home at Hollister because it was a private gated community that protected and preserved the natural beauty and environment from over-use. We all lose if the Ranch is opened to everyone who will inevitably love it to death. California has hundreds of miles of beaches for everyone to enjoy, please allow this one to remain relatively unspoiled.	5/7/2020 1:10 PM
64	Include equestrian access to beach and possible future trails	5/7/2020 12:00 PM
65	Managed access for educational purposes.	5/7/2020 10:03 AM
66	Worse than no benefit, increased access will destroy this protected habitat.	5/7/2020 7:45 AM
67	no other benefits	5/6/2020 11:43 PM
68	There is already public access by boating in and walking	5/6/2020 11:29 PM
69	Increase educational programs with limits. Do not increase recreation due to concerns for wildlife and nature. The general public can not be trusted to not damage the land that has been mostly untouched for so long.	5/6/2020 11:02 PM
70	Implement teachings of safe environmental practices.	5/6/2020 8:40 PM
71	Protect the Ranch from LA developers!	5/6/2020 8:30 PM
72	Teaching kids about how places could be without large population would be good. Studies for science could also be good.	5/6/2020 6:22 PM
73	I believe access should be offered to shore line to frontage road only, with Park Ranger supervision paid for by gate access fees but limited. not for inland access without private ownership approval.	5/6/2020 6:02 PM
74	Increased county commercial and tax benefits	5/6/2020 5:59 PM
75	It is a mistake to develop the remote coastal area of Hollister Ranch for the sake of political policy. The homeowner collective of the Ranch have been excellent stewards in the preservation of natural ecology and wildness that inherently is a great part of its beauty. This coastal land should remain in its natural state untouched by further human development and activity. Please Do Not Pave Paradise and put up a parking lot. Just because you can develop this area doesn't mean you should.	5/6/2020 5:56 PM
76	The preservation of Hollister Ranch as it is now provides significant environmental benefits to wildlife. Public access inevitably leads to more trash on beaches.	5/6/2020 5:50 PM
77	I believe that opening access into the ranch via the roadways will be detrimental to the wildlife in the ranch. The roads are narrow and winding, the beaches are mostly uncrowded, and with the Gaviota Park right there providing access it is unnecessary.	5/6/2020 4:47 PM
78	Enable others to see the benefits of good environmental stewardship and conservation	5/6/2020 4:41 PM
79	Allowing the "general public" access to the Hollister Ranch would do nothing but harm and or destroy that delicate ecosystem. An increase in humans would also increase the pollution that comes with them. The littering and operation of vehicles at an unsafe speed for other humans as well as the wildlife that freely roam Hollister Ranch should be reason enough not to allow the "general public" access.	5/6/2020 4:23 PM
80	There wouldn't be benefits it would only damage the ecology and essence of the coastline	5/6/2020 4:22 PM
81	This will only have a negative impact on the environment and atmosphere. There are plenty of public beaches in the nearby areas, this doesn't need to become another. This portion of the	5/6/2020 4:22 PM

Hollister Ranch Coastal Access Program: Public Survey #2

coast should remain closed to the public.

82	I do not agree with allowing public access to these areas. These areas are fragile ecosystems and could be severely disturbed by increased access by the public.	5/6/2020 4:08 PM
83	Provide educational benefits to groups viewing well preserved coastal habitat. Limit access to follow universal standard for public access -- open below mean high-tide line.	5/6/2020 4:07 PM
84	Opening up Hollister ranch to public access will destroy the pristine reserve that has resulted in the small amount of humans that reside on this property. Currently there is a ratio of one human to every 140 acres, it is imperative that it stay this way. Those who have access respect and understand the special and necessary protection of these lands, others will not. I myself am an avid surfer and environmentalist, of course I would love to have access to this land and surf breaks, but it is selfish to open up this pristine habitat to degradation that is bound to happen.	5/6/2020 3:48 PM
85	The only benefit is to allow people in as part of a controlled group. This is an incredible, fragile preserve. The general public will wreck it. Litter, noise, and fires on the beach will contribute to a bad effect in this sensitive habitat.	5/6/2020 3:33 PM
86	Easier access for monitoring of coastal conditions and ecosystems	5/6/2020 3:27 PM
87	Though barred from frequent HR access myself, I see opening up this coast to everyone a grave mistake. One has only to view other areas with heavy public use to see the impact. Unfortunately the general public, including the surfers, sad to say, are not the best stewards of our coastal areas with unlimited access. I propose a walking trail, with regulated and limited use. This should be monitored and examined, and if things begin to be trashed, the right should be removed once again.	5/6/2020 3:18 PM
88	Your examples are not what the majority dialog represented, very underhanded. -A managed access program that protects the wild aspect of Hollister giving educational, research and under privileged groups opportunities to experience the ranch.	5/6/2020 3:11 PM
89	I believe the state should take care and improve the beaches they currently control before they take control of a new, pristine, and basically untouched area.	5/6/2020 2:48 PM
90	Changing the way the public already has access will be a complete disaster for the ecosystems at Hollister Ranch	5/6/2020 2:37 PM
91	Everyone already has the right and ability to enjoy all the beaches of HR. This is a regulatory taking of private property.	5/6/2020 2:33 PM
92	DETRIMENT additional access will degrade what is one of the few, if not the only natural coastal environment in southern california	5/6/2020 2:20 PM
93	Not only is there no benefit to public access, there is serious detriment. With public access influx there will be trash on the beaches, once empty surf breaks will be crowded like Malibu, and the untouched wildlife will be at mercy of the public.	5/6/2020 2:06 PM
94	Provided managed public access	5/6/2020 2:00 PM
95	The Hollister Ranch is privately held, a working cattle ranch, and home owners association. The HROA and members already provide managed access to serve the public. The natural eco systems are vibrant because of the low impact and low human density. Why increase and damage what has been preserved? Furthermore, the true reason for opening up the ranch is to access the surfing. There are many waves in California to surf and many beaches to enjoy. The best outcome for natural preservation is the one that is in place now.	5/6/2020 1:55 PM
96	I boat into Hollister to surf...and I have spoken to a lot of others who do the same, and as far as I can tell, we are all opposed to opening the ranch to the public. I personally think it would be good to make it easier to boat in, (fix the boat launch/dock!) ...and if non-surfers, or older people want access, then maybe we have a concession or something that boats people in from Gaviota beach? But a road, or bike path, or parking lots, and e-bikes and bathrooms??? All that will put an end to the only beautiful, wild, uncrowded beach left, in southern CA... Is it too much to ask that we have ONE BEACH where you can make a TEENY bit of extra effort, and get a clean, uncrowded, experience? Without the RV's and tourists and kids and pets and grabage that have overrun every single other beach? All of those people have a billion other options for that access, including several right next door...please, please: There must be a way to satiusfy public access, wihtout building yet another parking lot, so that yet another tourist can spoil yet another beach...	5/6/2020 1:09 PM

Hollister Ranch Coastal Access Program: Public Survey #2

97	I strongly disagree with opening up the Ranch to the public. The beauty of the hollister Ranch is that it is preserved with a minimal footprint and respectful visitors.	5/6/2020 12:54 PM
98	I boat in and walk in to surf. The Ranch is pristine, natural and untouched. That would change with public access. The State should spend its resources on beaches closer to where people live and where access is easier to provide.	5/6/2020 12:43 PM
99	Limit access and protect all wildlife, on the land and in the ocean. Access for the many, means dead animals and birds on the roads.	5/6/2020 12:30 PM
100	The benefits do not outweigh the costs for the ecology and biology of the land.	5/6/2020 12:27 PM
101	bringing more people to this stretch of coast is not a win for the natural resources	5/6/2020 12:14 PM
102	I'm quite happy boating in or walking on the beach during low tide to respect peoples private property rights. Not every part of California should be "drive through" accessible as it promotes a drive-thru mentality. Look at Yosemite...not even fun to be there anymore due to all the "concrete conservation". I'm all about public access but believe access is already possible at Hollister. The wilderness is the wilderness for.a reason.	5/6/2020 12:04 PM
103	Educate students in marine, biological and coastal ecosystems, particularly underserved populations; educate the larger population on California's coastal ranching Heritage and tradition; and reflect the cultural history of native populations	5/6/2020 11:56 AM
104	I think that opening Hollister Ranch to the public is a total disaster and very bad idea. The coastline is very delicate and precarious there. Ranch owners and guests are unusually respectful of the grounds in the best way possible. The general public will not be respectful, will harm wildlife and natural resources there. Additionally, hundreds of millions of dollars will be required to navigate the fact that the train runs directly through the property, there are very windy roads to access the beaches and currently not sufficient restroom facilities or beach access for the general public. Gaviota State Beach Park, directly adjacent to the Hollister Ranch, is closed due to budget cuts. How about allocating some of these necessary hundreds of millions of dollars' state funds to re-opening that as well as dealing with our state's homeless problem. Leave the Hollister Ranch out of it.	5/6/2020 11:47 AM
105	Since the public can already access the beaches and water, I see no real benefit from increasing access coastal access. However, I could see a benefit to biologists and wildlife professionals given the unique location of the ranch. Since Hollister Ranch has abundant wildlife, some of which are rare and/or endangered, it could be beneficial for professionals to be able to study those species and their habitat more closely. But, it is a fine line between studying and disturbing those species and the land they thrive on.	5/6/2020 11:29 AM
106	I believe benefits of access should most notably emphasize an increase in education/environmental conservation opportunities for the public.	5/6/2020 10:58 AM
107	Increased visitors will negatively impact the environment and native wildlife in this pristine portion of the California coast	5/6/2020 10:43 AM
108	My concern is about people bringing in trash, messing with ecosystem. Is the public acces going to be a Concrete trail, parking lot? How would some of these issue be addressed. Of course I was to surf the ranch but what's the environmental impact? Has an environmental survey been completed?	5/6/2020 10:21 AM
109	By opening the beach access via the Hollister Ranch, the public will cause irreparable harm to the beach, marshlands and surrounding ranch land ecosystems. There is no mechanism to keep the public from wandering on private property including sensitive agricultural and wetland areas. There are no funds for beach clean up, trash removal, and wildlife protection.	5/6/2020 10:01 AM
110	Preserve the unique Point Conception bio diversity zone for study, education and enjoyment for broader population through thoughtful access. The death or threat of the biodiversity would make the original Pt. Conception bio diversity zone extinct. The snow plowers and 20 other endangered or near-endanangered species will die if there is not a "tread lightly" ethic to opening the Ranch.	5/6/2020 9:58 AM
111	Observing the already existing state park beaches and how poorly managed they are, I am oppose to public access to such an environmentally sensitive and important wildlife area. The states bureaucracy and budget limitations cannot do a good job of maintaining the parks it already oversees. I do not believe that the public access outweighs the sensitive environmental benefit to wildlife in Southern California. Examples of underfunded parks and poor maintenance	5/6/2020 9:45 AM

Hollister Ranch Coastal Access Program: Public Survey #2

of facilities managed by the state around. Trash, pollution and degradation of natural scenery and resources are the result of poorly managed public access.

112	I see no benefit from this effort to increase access to the Hollister Ranch. The Hollister Ranch is a beautifully preserved place with a pure ecosystem, no trash, no traffic, abundant wildlife, clean water, a rare and unique example of what the California coastline once was. If one compares the adjacent Gaviota State Park to the Hollister Ranch, the difference is remarkable and a stark reminder of what has happened to the California coastline. Large crowds, inadequate funding to maintain the state park, trash, traffic, have all led to the deterioration of Gaviota State Park. The Hollister Ranch remains as it has for generations. I don't get the opportunity to visit the Hollister Ranch very often, our parcel has no structures on it, I invested to help preserve the place. The Hollister Ranch is a treasure worth preserving.	5/6/2020 9:39 AM
113	There are no benefits. This is the only pristine piece of old California in Southern California. Taking it away from the land owners who have participated in this experiment to save a little piece of California would send a terrible message to conservationists, and private owners alike. Don't ruin the last good place on the coast in So. Cal.	5/6/2020 9:34 AM
114	Greater environmental impact due to increased human presence, increased trash and waste, disruption to the local wildlife.	5/6/2020 9:10 AM
115	Retain the sensitive environmental area	5/6/2020 9:04 AM
116	Plenty of beaches where funds could be applied more economically	5/6/2020 8:49 AM
117	Controlled access , I have witnessed what the unsupervised public can do a pristine area , trash , graffiti , human waste , total disregard . Would like to see a nature conservancy	5/6/2020 8:34 AM
118	I believe preservation of this natural resource outweighs all of these benefits and don't believe increased human traffic is a good initiative at all.	5/6/2020 8:27 AM
119	Increase scientific study of a natural coastal area	5/6/2020 8:15 AM
120	Keep it private	5/6/2020 8:06 AM
121	beaches are public spaces, they need to be open to all.	5/6/2020 8:05 AM
122	Keep the human exposure to this portion of the coast limited. Do we need to over-run all of our coastlines with humans?	5/6/2020 8:00 AM
123	Preservation of Hollister as one of the last undeveloped areas in SoCal should be the priority. Enhance and fund better access and facilities at the current state-owned parks closer to town. It will be a much more efficient use of capital. Plow the rest of the funds into public health or other areas, Ca is going to need.	5/6/2020 6:47 AM
124	Negative benefits = harming the well preserved eco-system of the ranch, increasing the amount of pollution and refuse/garbage and trampling on private property rights of owners. Access to this portion of the coastline could quite readily be provided by improving the walking trails from Gaviota State Park to the coastline	5/6/2020 6:40 AM
125	The coastline located in this region offer multiple opportunities to enjoy and participate the uniqueness of our coast. I can camp at El Capitan, hike into Naples, enjoy Refugio, eat a Jalama burger at the county park. All access and available to all. The limiting factor is not access but the quality of state and county facilities. Let's fix and invest into what we have, prior to looking for more.	5/6/2020 6:35 AM
126	Hollister is such a unique experience as is, I would prefer to know it remains protected with limited public access.	5/6/2020 6:15 AM
127	No benefit for wildlife. This is a large wildlife quarter which should be left as is. Take care of the beaches the State of California already owns.	5/6/2020 6:11 AM
128	It's private property not public property	5/6/2020 6:11 AM
129	Preservation requires less access	5/6/2020 5:32 AM
130	This should be kept private.	5/6/2020 12:32 AM
131	s	5/6/2020 12:13 AM
132	See answer #1. This is an extremely rare and beautiful portion of the California coast	5/5/2020 11:33 PM

Hollister Ranch Coastal Access Program: Public Survey #2

SPECIFICALLY due to the fact that it has not had free public access over the past 50 years. Public access endangers the wildlife and natural beauty. I have seen what the general public does when they have access to an area, and it is not good. People can enjoy the beautiful scenery as viewed from the ocean. Coastal access for all is not necessary

133	I have seen the trove of people at public beaches who don't respect the ocean, the property. Look at Gaviota beaches. The ranch protects the environment and keeps the environs relatively pristine and undisturbed. Why can the state usurp our roads and beach facilities. Why do they single out our ranch out when there are other private ranches up the coasts that aren't being incriminated upon. We invested in Hollister with a specific expectation. We saved for years to purchase a small share. This will wipe out any equity. Doesn't seem fair and you will destroy one of the last protected beaches in California.	5/5/2020 11:12 PM
134	1.) People such as myself save their entire lives to own a small piece of coastal California that closely resembles how it looked 100 years ago. The reason it's still so pristine is because the rules and restrictions currently put in place, and also due to the fact that the owners really "get it" and do everything they can to preserve it. No one is leaving trash on the beach. No one is trampling on private property. No one is endangering the natural habitat or it's animal residents. It's special BECAUSE it's protected, and it's protected by people that care. I'm involved in an industry where people tend to exploit paradises for a profit, and I've seen it time and time again over the past 25 years. The Ranch is the one place where people put all their personal issues aside and can agree that it's worth sacrificing to keep it the way it is. Uneducated visitors who do not know the history or the dynamics of The Ranch only jeopardize this. 2.) The Ranch IS currently accessible to people who really want to get to it. These tend to be the non-owners who really get the special nature of the Ranch. Those who put the extra effort to hike, kayak, boat, etc. in to the Ranch tend to, in my experience, understand how unique it is. If they are willing to put in the time and effort to get there, as well as any costs, it's common that these people, too, "get it" about what makes the Ranch special and will not trample or destroy nature. They also ALREADY know the rules about the mean high tide line and what is public land as well as private.	5/5/2020 10:55 PM
135	I appreciate the fact that there are places along the California coast line that are protected from the general public. While I am not an owner, I believe that the Ranch are good stewards of the land going back to the 1800s. They are keeping it like their forefathers and I think it should continue that way. The less public access, the better. If the owners could be limited, that would be great too.	5/5/2020 10:19 PM
136	It will be altered from its natural state	5/5/2020 10:19 PM
137	I appreciate the opportunity to teach small groups of school kids about nature and the fragile balance of our environment.	5/5/2020 9:18 PM
138	More people who do not have a direct interest in the property will only result in negative impact on native plants, animals and the shoreline in general. The general public has shown that it cannot be respectful of the environment. Hollister is focused on preservation for generations to come.	5/5/2020 9:14 PM
139	Allow more people to trample the last undisturbed areas of the Southern California coastline.	5/5/2020 9:10 PM
140	I'm not sure that more public access would benefit all. Meaning HR is a unique environment on the California coast because it has had limited public (people) access. Maybe it's not about if, but how the general public access this particular portion of coastline. There is public access now, via a trail and via the ocean. Those access routes could be improved. If educational access is desired, then a special permit could be requested.	5/5/2020 8:50 PM
141	Research and conservation	5/5/2020 8:37 PM
142	please repair the hoist first!!	5/5/2020 8:30 PM
143	repair the boat ramp and fix the trail people use to get to the beach	5/5/2020 8:21 PM
144	Hollister Ranch is privately owned	5/5/2020 8:19 PM
145	Gaviota State Park is run by the State and they can't even take care of the park there. The trash from the current trail for access outside the ranch is everywhere. There is no cell service and no way to help a stranded hiker bit by a snake or other wild animal	5/5/2020 8:10 PM
146	There's so much Coast line already accessible - why ruin what's already well maintained.	5/5/2020 7:55 PM

Hollister Ranch Coastal Access Program: Public Survey #2

147	This is a biased question. There are also significant detriments to public access to this delicate ecosystem	5/5/2020 7:50 PM
148	I do not believe coastline should be open to the public	5/5/2020 7:50 PM
149	Providing public funds for safer and better access and management to the 20 miles of beaches that the State currently owns from Goleta to Gaviota, including the Gaviota Pier and Boat Launch will provide infinitely more people with easier and better access to freely engage in all of the activities described in this Survey question. State Parks is grossly underfunded and not able to maintain the facilities and property it currently owns and operates. I would like to see increased accessibility to the numerous State owned beaches currently only accessible by risking dangerous pull outs and unsafe RR crossings off the 101 freeway and stumbling down eroded and thorny cliffs in an attempt to access these State Beaches. Fix the Gaviota Pier and Boat Launch. Restore the Gaviota Creek and watershed. Relocate the Gaviota campground and lower the day use and camping fees so that lower income people can enjoy these State beaches too. Keep them open and operating year round. Get rid of the unfair and wasteful concessionaire reserve system and allow for "walk in" camping. Adequately staff and maintain the Parks. This is where the money should go, not in taking over new areas that cannot be successfully managed by underfunded operations, resulting only in ruined land and unsafe conditions to plants, animals, and humans alike.	5/5/2020 7:48 PM
150	DO NOT force this section of private ranch land to be illegally and forcibly opened to the public against the landowners wishes. Doing so would be a violation of the US Constitution Amendments 5, 9 & 14 Equal Protection Clause. It's called private property for a reason. Don't mess this up to placate covetous selfish complainers who don't respect personal civil liberties. Your US Civil rights depend on this decision. Don't mess this up.	5/5/2020 7:46 PM
151	This would be of negative benefit to wildlife corridors.	5/5/2020 7:38 PM
152	Keep it closed to the public. The general public will trash the place.	5/5/2020 7:33 PM
153	If you know how to get on you did your homework. If you don't you don't. I still believe in localism was well	5/5/2020 6:58 PM
154	The Ranch has roads and facilities that require maintenance; which costs money; a benefit from increased coastal access to the Hollister Ranch coastline should lead to additional funding sources to pay for the required maintenance.	5/5/2020 6:08 PM
155	I saw a 73 year old married couple at low tide walk down train and walk all the way to little drakes and loving it. There is public access walk, boat , it's not room service. It's never been room service. Are they ok if I drive through their yard and check out what they have worked their entire life for?	5/5/2020 6:07 PM
156	I feel that the benefits listed above are found in abundance everywhere else on the California coastline. I have been lucky enough to go to Hollister several times and every time it stands out in my mind for its exceptional beauty. Of course cliffs, hills, and surf like that exist elsewhere in California, there isnt something inherently magical about that particular stretch of coastline. What sets it apart is the solitude found there, the near pristine nature of Hollister, with such little influence from the outside world. I fear that with the opening of Hollister ranch, the percent increase of publicly accessible beach on the california coastline would increase marginally while the percent increase of similarly conserved pristine coastline would decline precipitously.	5/5/2020 5:15 PM
157	The most important benefit of the public accessing the Hollister Ranch would be to instill in them an awareness that limiting human interaction with the environment allows natural processes to occur, resulting in more biodiverse and sustainable ecosystem. The Ranch is similar in many ways to an MPA (Marine Protected Area) that limits and/or prohibits the public from fishing in that area. Due to the reduced human pressure on the existing fauna it allows the marine environment (especially endangered species) to proliferate. In the same way, the Hollister Ranch, due to the reduced human pressure and stewardship of ranch owners has become much like a nature preserve. To continue in this same vein in terms of environmental stewardship, I believe that an expansion of our existing educational, scientific, and recreational managed access programs is the most viable and responsible solution to the issue at hand. The number of people allowed to access the Ranch at any one time should be limited and determined by science, ie what can the environment sustain, keeping in mind that at least from the environmental standpoint less is more. I attended the first workshop and as a Ranch owner I was surprised at how many people from the general public agreed that, although they wanted	5/5/2020 5:01 PM

Hollister Ranch Coastal Access Program: Public Survey #2

to see the ranch, they were happy to know that a place like this exists and in no way wanted it to be destroyed by unfettered access.

158	the benefits listed above are misleading as they imply there is no ability to enjoy coastal recreation or contemplative time at one of the many state owned beaches and parks	5/5/2020 4:54 PM
159	Benefits are minor in comparison to detriments. Detriments include the need to expend precious public funds for purchase and improvement of easements, for creation of new health and safety infrastructure, and for personnel needed to ensure proper utilization of resources. Detriments also include potential injury and death of persons unfamiliar with the very significant hazards of an area which is remote and difficult for access by life-saving equipment. Detriments also include potential harm to shore and intertidal species.	5/5/2020 4:50 PM
160	For the Ranch to be protected into the future, I suggest building a facility / museum which showcases the history of all of the Ranches in the area. From this facility the public could be educated to the Flora and Fauna of the Ranch, and then could be led in organized groups to experience the area under supervised control. A program such as this is in place and working at the Channel Islands National Park. Rangers escort campers on specific trails and they are forbidden to harm the wildlife or remove artifacts. For the ranch to exist in its existing form, the general public needs to be educated that it is an ecological preserve,	5/5/2020 4:44 PM
161	The Hollister Ranch is the last stretch of coastline that is truly protected in California. It is truly an eco-system that has been preserved and protected. One need only look at the sewage spilling out into the ocean in places like Malibu to see what mis-guided environmental policies look like. To suggest that opening up Hollister Ranch will in some way benefit anyone OTHER than angry, vindictive citizens who can't currently access the Ranch is a farce. There are hundreds of miles of accessible coastline in California.	5/5/2020 4:16 PM
162	Unfortunately with increased public access without any controls is a danger to the sensitive coastal habitats & pristine, undisturbed coastal land/beaches. The public can access the Hollister Ranch now via boat or walking along the coast at low tide. Yes it is more work, but if you really love to see undisturbed coastal lands/beaches, this is the perfect way to see such beauty. The state should treat the Hollister Ranch similar to our channels islands. If the state mandates public access it must be under a very strict, controlled system. The future of the beautiful place requires the state to be vigilant in its pursuit to preserve this California treasure	5/5/2020 3:55 PM
163	ALL of the above benefits are important. I am glad to see that equity is among the choices. It's a shame that only the wealthy can experience so much of the beauty in our county.	5/5/2020 3:51 PM
164	There are plenty of beach access along the coast; allowing access through private property is a dangerous precedent for taking private property rights.	5/5/2020 3:46 PM
165	The state needs to respect private property rights. The reason the Hollister Ranch has preserved it's natural environment is due to the self policing CC&Rs which have preserved the natural environment. No were on the California coast is as pristine especially our tide pools. No one preserves the land like the property owner. As an over 100 year old working cattle ranch the general public would be at risk, especially during breeding season. This enviromently orianted, coastal ranch subdivision predates the coastal act.	5/5/2020 3:10 PM
166	I believe a limited number of people should have access a day to preserve the natural beauty and the ecosystem of the Gaviota Coast. It is important to protect one of the last intact remnants of the coastal Mediterranean ecosystems in the United States.	5/5/2020 2:40 PM
167	Hollister Ranch should be enjoyed by a limited amount of visitors to continue the responsible environmental stewardship exhibited by the owners	5/5/2020 2:31 PM
168	Hollister Ranch is not a "public coastal resource" as far as I know; it is private property and still operates as a cattle ranch, in addition to having some residences. Opening up a private cattle ranch to the public seems to be a public condemnation of private property, and I don't understand how the state will pay for this. Also how will the environmental impact of increased traffic be mitigated? It seems like a bad idea to me.	5/5/2020 2:10 PM
169	This is land that should be left alone. There is no other place on the California coastline south of point conception that has this little pressure on wildlife.	5/5/2020 1:44 PM
170	We already provide access on measured basis	5/5/2020 1:04 PM
171	I believe there is enough coastal access for everyone who desires it. There is no need to take this last sliver of previously unsullied beachfront property and open it up for general use.	5/5/2020 12:40 PM

Hollister Ranch Coastal Access Program: Public Survey #2

Furthermore, the only way to access the beach would be to disturb the landowners private property and the working ranch.

172	The Coastal Commission should be giving an award to Hollister Ranch for all that they have done to provide educational access, host non-profit organizations, and other groups. Hollister Ranch doesn't owe anybody anything. There is no law stating that they have to do any of that. They have gone above and beyond to keep environmental integrity at their highest of values. People already safely access the coastline at Hollister Ranch. The reason it is pristine is because it is a private landowning that is well maintained and protected by the landowners. People have worked hard to afford a small percentage of land at the ranch. Being in a lawsuit with the ranch is completely backwards. I wish that money would be used to help these hard working Ranchers and Farmers against these type of communistic debacles. This is the root of what is wrong with our Agriculture of today. My greatest respect to the Hollister Ranch for fighting for their (and others) Constitutional rights. Also for helping defend all the people out there who work hard everyday on their farms and ranches to provide food for their communities (people/plants and animals alike). This is the home of the brave and the land of the free. Freedom wasn't free. Semper Fidelis	5/5/2020 12:30 PM
173	improve Gaviota State Beach. It has all the same elements, beach walking, fishing, etc.	5/5/2020 12:29 PM
174	The access will be way too expensive. Rather than grabby for the latest shiny toy, let's spend that money on improving existing access. The state parks are in disrepair. The roads to the parks are shoddy. This move to open the Hollister ranch is purely about politics and not what's best for Californians. The truth is that the money time and energy spent on this would be much better invested elsewhere.	5/5/2020 12:25 PM
175	Gaviota State beach is directly next door to Hollister. It was supposed to be rehabbed to a beautiful coastal water fowl habitory but that hasn't happened. Money should go to making it great for visitors. Hollister is privately owned and carefully managed to protect native wildlife. You are grabbing peoples homes and investments out of the spite of people on CA Coastal Com and surfers.	5/5/2020 12:19 PM
176	In these difficult covid-19 times, the costs to implement any public access more than allowing walk-ins is fiscally irresponsible. The public has been walking and boating into the ranch for many years. I don't see the need of the problem.	5/5/2020 12:16 PM
177	For my third selection Box #3b would work: "...environmental education experiences for school groups ... [etc.]" of which I understand the Hollister Ranch Owner's Association currently provides and had been for a number of decades. In this section there's too much focus on recreation, as #3a is pushing. The benefit of recreation is a non-starter when those activities can happily be found more easily, and for less cost and impact, elsewhere in Santa Barbara County.	5/5/2020 12:10 PM
178	Although I am not an owner, I think that it is essential that private property exist for the preservation of animal and environmental species. I think the current amount of very low access has protected the environment in a way that a public space cannot accomplish. If you look at studies of environmental diversity in places such as game parks, very very limited access is better for the species and environment. In todays pandemic, a byproduct of environmental misuse, it is even more irresponsible to open up more and more private land, which is inequitable, but protects our precious resources.	5/5/2020 12:08 PM
179	Fix the Gaviota pier.....Cattle ranch operations and the general public is a terrible idea.	5/5/2020 12:08 PM
180	Increase opportunities for advanced environmental studies of the area.	5/5/2020 11:58 AM
181	The Ranch should be protected from public access or there should be very limited public access.	5/5/2020 11:49 AM
182	It is a private ranch and they are providing managed access to small groups which is conducive to this type of sensitive habitat and physical limitations related to narrow roads, eroding cliffs, consistent hi tides limiting safe sand beach areas. Funds to change this seem a waste and more emphasis placed on existing public state parks is smarter and will yield better results for the general public.	5/5/2020 11:48 AM
183	Increase opportunities to educate the public about the unique natural resources and tribal cultural resources in Hollister Ranch and surrounding areas including the Dangermond Preserve and the Gaviota State Park and coastline. Increase opportunities for biological,	5/5/2020 11:46 AM

Hollister Ranch Coastal Access Program: Public Survey #2

ecological, and tribal cultural studies of the resources in Hollister Ranch, Dangermond Preserve and the Gaviota State Park and coastline.

184	Increased environmental impact Increased congestion Increased strain on surrounding public resources	5/5/2020 11:34 AM
185	Increase opportunities for the general public for passive coastal recreation such as beach walking, etc.	5/5/2020 11:34 AM
186	There are a lot of reasons this won't be beneficial. Hollister Ranch is the last remaining haven of coast line. The public decimates land they have access to. Yes, it is unfair, but unlimited access to the coast is not the answer. The Ranch is willing to come to terms with programs, which they did, and then the State backed out of the agreement. Additionally, the "access" that the public demands is their right is based off an underhanded deal. The YMCA had an easement that they made for their specific property. When they sold it, the deed was not given to the buyer, as it should have been, and was instead given to the state. The only access the public has is surrounded by gridlocked private properties. There is no problem having public access to the beach, it's just unfair to force other property owners to open up their land for public use, when there is no legal easement going through those properties.	5/5/2020 11:32 AM
187	I believe opening up this precious coast line to the public will only put additional strain on one of the last untouched places in Southern California.	5/5/2020 11:19 AM
188	I don't think there are many benefits of opening up Hollister Ranch to the public. It will be the demise of a picturesque portion of the coast. It will also have a major impact on those that live there full time. The states resources given the current pandemic we are facing are better spent on things that matter, like job creation/homelessness/housing.	5/5/2020 11:18 AM
189	I do not believe the public has a right to access the beaches unless they either boat in or walk below the high water mark. Public access will ruin the pristine nature of the Hollister ranch coastal area.	5/5/2020 11:15 AM
190	Allows environmental groups to assist in the preservation of the natural coastal habitat and coastline.	5/5/2020 11:11 AM
191	The Gaviota coast is the last unspoiled stretch of coastline in Southern California. I love the area. It's a reprieve from the crowds, gas guzzling cars and chaos of California life. I worry that the state will actually hasten the demise of this pristine part of California. After talking to a Gaviota State Park employee, I feel some sort of highly managed limited access is paramount. During this Covid 19 pandemic I have watched swarms of people descending on the upper area of the Gaviota State Park. It had a LA feel not a Santa Barbara feel to the situation. I fear Sacramento may ruin something beautiful that Santa Barbara county has preserved for a long time. I do not see a virtue to large crowds in hundreds of automobiles clogging and crowding out the actual people who live in Santa Barbara county. This latest bill is really not in keeping with how Santa Barbara County does things. So, I'm advocating for managed access thoughtfully and carefully done to preserve and protect the last pristine piece of coastline in So. California. I live here and I feel that this can go very badly if not carefully done in a highly well managed plan.	5/5/2020 11:11 AM
192	I think it belongs to the owners and not the public	5/5/2020 11:06 AM
193	Unrestricted public access will seriously threaten the environmental protection of this vulnerable area.	5/5/2020 10:59 AM
194	Provide a better understanding of what low impact beach wilderness can look like.	5/5/2020 10:52 AM
195	Don't let the public have access. They will ruin everything	5/5/2020 10:46 AM
196	The harm to this last stretch of pristine beach left in Southern California would far outweigh the benefits of public access.	5/5/2020 10:45 AM
197	Provide controlled in limited access to in through private property in order to experience nature. I see this as similar to visiting the White House in Washington DC, controlled access.	5/5/2020 10:43 AM
198	This coast line is beautiful and should be open for study and organized visits to maintain the pristine nature and wildlife. The area can be dangerous with wild boar, cows on the roads and falling rocks/landslides on the beach. There is no way to keep people from accessing private property. And our ranch staff would possibly have to police public issues.	5/5/2020 10:42 AM

Hollister Ranch Coastal Access Program: Public Survey #2

199	I think that there will be severe environmental impacts as well as liability issues such as: the public crossing railroad tracks, steep cliffs that can erode and kill people, fire damage, etc.	5/5/2020 10:37 AM
200	Concern about increased access resulting in increased environmental degradation of the area	5/5/2020 10:37 AM
201	I didn't "get" the Ranch until I bought part of a parcel and spent more time there a few years back. By increasing the ease of access, you spoil the very thing that makes the Ranch so special. While I believe tightly managed access for a limited number could allow more to enjoy the solitude and serenity of the Ranch, opening the gates will make it just another over crowded RV parking lot and spoil that which make the property so unique. There are now plenty of those areas along our coastline.	5/5/2020 10:31 AM
202	I do not believe that increased public access is in the best interest of preserving the flora and fauna of Hollister Ranch.	5/5/2020 10:23 AM
203	I don't see increased access as having benefit to the community or the natural resources at Hollister Ranch. There are 3 state parks within close proximity to Hollister Ranch that already provide the benefits listed above.	5/5/2020 10:19 AM
204	People means TRASH keep it closed opening it up will destroy it.....	5/4/2020 11:52 PM
205	A singular opportunity to protect and restore coastal ecologies, a value for all California even without "user-group access", in perpetuity.	5/4/2020 11:11 PM
206	Allow Native and Indigenous people access to dance and be with the land	5/4/2020 8:29 PM
207	I have traveled all over California. I have lived on Catalina. I have seen the damage that human interaction can have on the remote areas. Over fished. Over Poked and Prodded in the tide pools. I don't see the point of opening up yet another area for the general public to come into and destroy. I think it's going to ruin the beaches and eco-system.	5/4/2020 8:10 PM
208	Provide public access to the publicly owned coastline.	5/4/2020 8:06 PM
209	As a marine scientist and a home owner in the City of Santa Barbara there is no benefit to allowing the public into Hollister Ranch. This is one of the last protected areas left on the California Coast - home to endangered wildlife and other protected species. Opening this place up to the public will environmentally crush this area.	5/4/2020 7:59 PM
210	Increased access via roadway is problematic and may be a step towards further development pressure.	5/4/2020 6:05 PM
211	The Ranch property owners have been preventing access to the Ranch for decades, in direct contravention of California state law. Simply put, they have no right- legal, ethical, moral, or otherwise- to prevent the public shareholders of this state from utilizing their legally mandated right to access the coast. The coastline belongs to everyone: it is OUR collective coastline, not the property of a small, entitled few. We must open this stretch of coastline up for passive recreation, active recreation, safer access, and educational uses.	5/4/2020 5:55 PM
212	This survey is not impartial. You are making it worse for yourself by not having a impartial survey. This is too one sided	5/4/2020 5:41 PM
213	Provide the public access and quality recreational trail experience, whether on the beach or a dedicated trail system, needed to complete a significant gap in the California Coastal Trail and to create a world-class trail experience and asset to benefit individuals and for the economic benefits of another tourism asset!	5/4/2020 5:15 PM
214	I'm conflicted about opening this part of the coast to "everyone" we've seen how the general public treats the beaches along the freeway between Goleta and Gaviota, Without proper supervision why wouldn't they just trash "The Ranch"? or worse yet burn it down? whats to stop the homeless from setting up camp?	5/4/2020 5:13 PM
215	The coast belongs to all of us, not to private entities, and access should be available for environmental education experiences as well as for recreation for all.	5/4/2020 5:06 PM
216	Would love a coastal trail to walk or bike in and enjoy the beaches	5/4/2020 5:01 PM
217	I do not think there will be any benefits to infringing on private property rights by forcibly increasing public access to the hollister ranch coastline. In between the city of goleta and gaviota state park there are additional miles of coastline that cannot be accessed by the public -	5/4/2020 4:59 PM

Hollister Ranch Coastal Access Program: Public Survey #2

only by the owners of those coastal ranches. Why are the owners at the Hollister ranch being unfairly targeted for this selective enforcement?

218	Provide handicapped access and parking for vehicles to beaches	5/4/2020 4:54 PM
219	promote social equivalence....Not enjoyment of this beautiful area determined by social/economic class.	5/4/2020 4:39 PM
220	I also strongly agree that public opportunities for active coastal recreation, and social and environmental equity related access to PUBLIC coastal resources are equally important to my personal opportunity to access this final last truly wild and free region of Southern California. Safer access to this resource will most likely also prevent unnecessary impacts on the region by rescue personnel required to assist those trying to use a less user friendly method of access.	5/4/2020 4:23 PM
221	i am torn about the access, I think everyone should have access but I also do not want to see the pristine beaches ruined, so there must be protections implemented.	5/4/2020 4:22 PM
222	I do not think we should establish a class segregation to be based on who could have access to the Ranch coastline and who could not. this is our beach, our community beach and let us try to de-privitize the area and to return it back to its rightful owners-the local Santa Barbarians!	5/4/2020 4:00 PM
223	I walked on the beach into Hollister Ranch as a teenager in the early 1970s. Then I was a guest once in awhile for 30 years. I was fortunate to buy a parcel with some friends in 1999. I am 65 years old now. I walk on the beach. Even my solitary presence walking on the beach disrupts the wild life. I should not be there sometimes I feel. This coast is magical and we are losing places like this everywhere in the world at a frightening pace. What makes the Hollister Ranch so special is the lack of people. We humans tend to ruin a place. What will suffer is the wildlife that is still largely intact along this special place. There are shells on the beach that lay untouched, seals rest on the sand without worrying of humans, snowy plovers breed in peace in the sand. We must NOT open it up to humans who are destroying this planet? The best thing is to leave it intact. Think of the wildlife and plant life. It is last refuge for them. The most environmental plan is to have a boat (20 people max) 9 am to 4 pm that comes in on specified days per year...twice a month. This would be a lottery open to all. If those who are handicapped or elderly, a supplemental van can bring them in. The public MUST be educated first on the Hollister Ranch's unique location, history, fauna and flora, where they can walk once they land. The boat can land at the beach that was approved by the State last year. No walking above mean high tide. Human footprints trample and destroy. The tide pools are currently intact, similar to what I saw in Santa Barbara central as a child. NOTHING must be taken from the beach. Leave only footprints and memories of what our beautiful California coast used to be.	5/4/2020 3:46 PM
224	i strongly oppose public access because this is the only property on the California coast that is private and still relatively unspoiled. Allowing the public to enter will destroy this pristine coastline.	5/4/2020 3:43 PM
225	Provide community education focused on sustainable, leave-no-trace recreational practices and serve as a model for how the State and Federal agencies will manage future crowding at all our natural resources	5/4/2020 3:36 PM
226	Get state money for repairing the terribly expensive road	5/4/2020 3:06 PM
227	There are miles of public beaches along the coast that get very little use. It is a waste of state and charity resources to pursue this. Public access will likely have a negative effect on tidepools. The public will leave trash and human waste on the beaches and in ocean.	5/4/2020 2:58 PM
228	I do not support expanded access. Public access currently exists.	5/4/2020 2:56 PM
229	Any activity within the Hollister Ranch should be done through a coordinated managed access program set up and agreed upon by the State and the property owners of Hollister Ranch. This will ensure that the public is able to experience the widest scope of activities with the least amount of damage or risk to property, natural resources and wildlife. Nearly all the experiences above can be achieved, but must be done in a properly controlled environment.	5/1/2020 2:56 PM
230	Through managed access, increase awareness to the general public of the unique and pristine natural resources available at Hollister Ranch. Through managed access, increase opportunities for passive recreation such as beach walking, nature-viewing and contemplative time. Through managed access, increase the use of active coastal recreation such as surfing, kayaking, etc. for at risk and under privileged groups and wounded veterans.	5/1/2020 2:31 PM

Hollister Ranch Coastal Access Program: Public Survey #2

231	Most importantly: Preserve the environmental integrity of this exceptional stretch of coastline!	5/1/2020 11:48 AM
232	Result in the broader recognition and protection of the high value natural resources on the 70 mile long stretch of coastline from Gaviota State Park to the Pismo Dunes.	5/1/2020 9:22 AM
233	Increase opportunities for the general public for active coastal recreation such as surfing, kayaking, paddle	4/30/2020 7:01 PM
234	The Hollister Ranch has the best and most proven methods of being "good Stewards" of the open space and the flora and fauna of the ranch. They have rules in place for wildlife and flora and that is very important. They limit the number of guests that can come into the ranch. They limit the kind of motorized vehicles in order to maintain a natural balance. The only reason why you can find nature here as it was some 100 years ago is through this ongoing and proven stewardship. If you allow the public access then it is my feeling all the place will be left trashed by lots of people who do not share the same beliefs regarding the preservation of the natural world. I do not understand why the state of California would want anything to do with taking on more responsibilities and liabilities concerning public access. The state of California Parks complains all too often that they do not have funds to further enhance the open land and parks that they currently own and are responsible for the preservation and up keep. It makes no sense to me to take on more when they do not have funds to properly deal with what they have now. I think the logistics of being responsible for trash, trail and other access maintenance along with security and policing are going to just be too much. The land is private and all roads and security are paid for by the Owners association, how does anyone expect this owner payment to continue when the ranch is opened up to the public, especially when the "public" has no funds or funds that could be more wisely spent. There are plenty of open space hiking areas adjacent the ranch and lots of state parks for people currently that need funds and management.	4/30/2020 5:51 PM
235	uphold State's commitment to provide beach access to communities that have generally not been able to enjoy and exercise that right prevent the domination of the publicly owned tidelands but a small group controlling access to allow the private recreational use of a public resource	4/30/2020 5:08 PM
236	I'm in 7th grade and think this money should be allocated to schools and education, not to social justice programs.	4/30/2020 4:34 PM
237	Access already exists via boat and walking and managed educational programs; pushing to create more convenient access risks introducing environmental, safety and budgeting risks	4/30/2020 3:57 PM
238	All of these would be benefits.	4/30/2020 12:58 PM
239	Allowing small led groups.	4/30/2020 10:32 AM
240	Most surfers, kayakers, paddleboarders, divers and fisherman would rather see repairs made to the Gaviota Beach boat hoist rather than putting resources into the HRCAP. Boat access opens up not only the Hollister Ranch area but also to the Cojo Ranch & Point Conception area. People without boats can still access HR beaches by walking in from Gaviota. Lots of people do this on a daily basis.	4/30/2020 10:31 AM
241	Organized group tours for educational and other purposes that are in limited numbers that minimize the impact on the environment.	4/30/2020 10:16 AM
242	Keep it private. The public will destroy it and the traffic would be horrible. Leave it alone	4/30/2020 10:10 AM
243	Hike and hopefully camp on the coastal trail from Gaviota to Jalama.	4/30/2020 9:43 AM
244	The Hollister Ranch already has thousands of people visiting it each year. They include owners, guests, boaters, walk ins and an existing managed access program. The public can already access the ranch by walking in at low tide or boating in. There is no need for more access. Lets spend our time and money on the real California issues. Not some trail into Hollister Ranch.	4/30/2020 8:52 AM
245	Spend our TAX dollars for eminent domain for something the public already owns. Pointless. PHYSICAL DISTANCING	4/30/2020 8:37 AM
246	only access for ecological and educational purposes for research and/or conservation	4/30/2020 8:01 AM
247	Hosted Responsible Access to give marine education and awareness to diverse groups.	4/30/2020 7:04 AM
248	Leaving the ranch property untouched for it's historical natural value and peaceful environment. It is why we purchased property there. Provide some kind of additional safety to the eroding	4/30/2020 7:02 AM

Hollister Ranch Coastal Access Program: Public Survey #2

	cliffs.	
249	In the state of California, all beaches below the mean high tide line belong to the public. Given the amount of sea level rise that has already occurred, the mean high tide line is now very close to the land. Therefore, most, if not all, of the sand on the Hollister coastline belongs to the public, as do the surf spots. The public should have at least one direct access route across the land to the ocean at Hollister Ranch, so that the public can have safe, consistently available access to publicly-owned recreational resources.	4/30/2020 3:50 AM
250	Keep it open to boat-in surfing. We don't need to make every single space a big, overrun state park. It is pristine because it's not trampled by the masses.	4/29/2020 11:06 PM
251	There are no benefits to increase access since that will destroy the very thing that people want access to: an environmentally pristine, uncrowded area that has been lovingly preserved for decades. There will be no more scenic areas, just crowds of people. The natural resources will be destroyed by people. Environmental education is the only benefit, but it should not be combined with coastal recreation: crowds of people are not conducive to environmental education. Beach walking is extremely dangerous due to the cliffs falling down, and it will destroy the nesting plover habitat. Nature viewing and contemplative time will not be possible with the crowds of people. The California coast already has miles and miles of accessible active coastal recreation for surfing, kayaking, paddle board and diving, and there are huge other private land holding much closer to the cities with much easier highway access directly from 101 that this group should be focusing on,. Fishing would destroy the delicate natural balance, and only leave fishing line and fish hooks for the native animals to become ensnared. The primary focus of environmental equity is to PRESERVE THE ENVIRONMENT! If safer access to public coastal access is desired, this is not the place: cattle and horses roam free on the roads, there are mountain lions and feral pigs on the beach, the cliffs slough off regularly and would smooch sunbathers, the road is treacherous, dead end, with impossible access in the event of injury, the fire danger is intense. There are MUCH safer and much easier to access beaches already in place, for example in Santa Barbara County, the Hope Ranch already has super easy access to a very safe beach with no falling cliffs or cattle operation. Numerous large agricultural beach front ranches line the Pacific Coast Highway between Santa Barbara and Hollister ranch: easy easy access right off 101. To destroy an entire ecosystem that has been in balance for decades would be a travesty.	4/29/2020 9:55 PM
252	There are no benefits, public access will degrade the pristine environment and set a dangerous legal precedent for taking of private property without compensation.	4/29/2020 7:53 PM
253	The ranch is currently clean and untouched. You know damn well this is turning into Yosemite.	4/29/2020 7:35 PM
254	Provide public access to California beaches as mandated by law.	4/29/2020 7:14 PM
255	This sacred, pristine stretch of coastline does not need to be trampled on, disturbed, ecologically destroyed by any more human beings than it already is. Keep the public OUT.	4/29/2020 7:08 PM
256	Provide public access by managed program similar to that of Arroyo Hondo Preserve.	4/29/2020 6:58 PM
257	Controlled, managed and escorted access to the Hollister Ranch due to very special nature of the coastline.	4/29/2020 6:37 PM
258	No benefit from added traffic and beach use that already exists.	4/29/2020 6:35 PM
259	The environmental impact far outweighs any benefit.	4/29/2020 6:21 PM
260	Preserve the undisturbed coastline by limiting access to certain controlled groups.	4/29/2020 6:18 PM
261	Education.	4/29/2020 5:55 PM
262	Environmental studies	4/29/2020 5:13 PM
263	Improve the poorly maintained Gaviota State Beach facility	4/29/2020 5:09 PM
264	Keep the control with the owners	4/29/2020 4:50 PM
265	The concerns of increased coastal access and the degradation of the environment outweigh the above "benefits".	4/29/2020 4:41 PM
266	I think the current boat-in access is adequate	4/29/2020 4:25 PM
267	Coastal hiking and surfing in So-California is a limited public asset and non-motorized access	4/29/2020 4:19 PM

Hollister Ranch Coastal Access Program: Public Survey #2

should be a priority for outdoor recreation for all

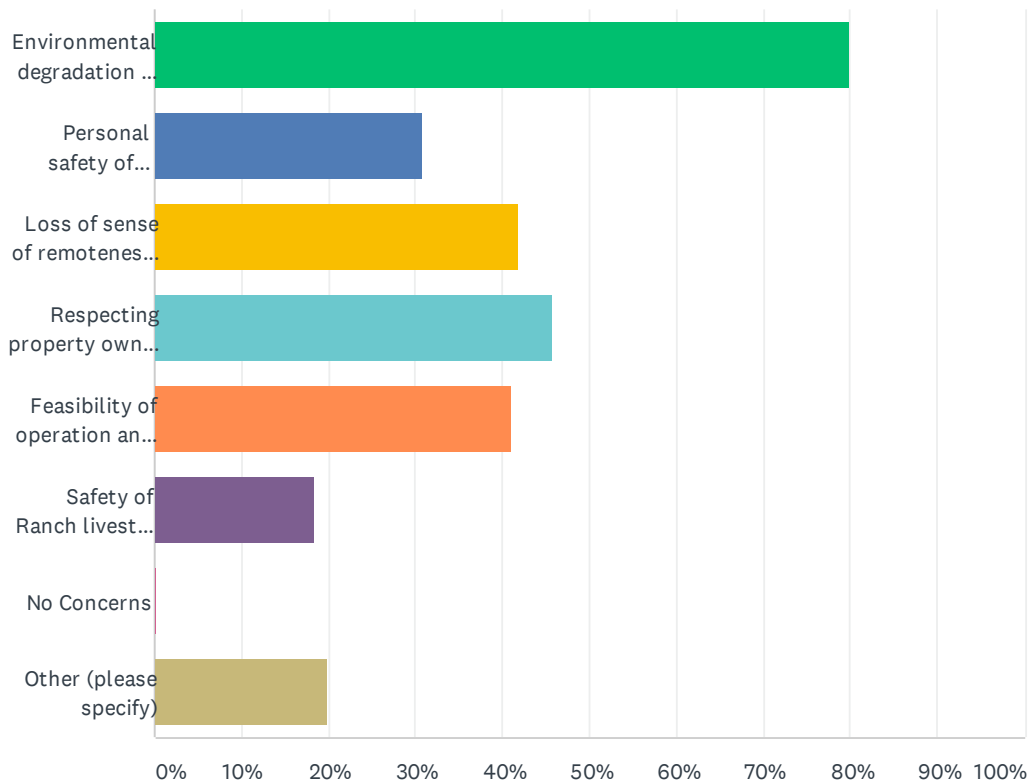

268	There is plenty of public coastline that offers more than adequate access for all types of Varied activities. No access should be granted over or through private property regardless of its location.	4/29/2020 4:18 PM
269	None other	4/29/2020 4:16 PM
270	Allow what has always been legal access to beaches below the mean high tide line without harassment from Ranch owners and their representatives	4/29/2020 4:09 PM
271	Increased public access to this portion of the coastline would result in damage and harm to the environment and environmentally sensitive habitats. I believe that both the onshore and offshore portions of this part of the coast should be protected in perpetuity, perhaps as some sort of nature preserve. Private property rites should be respected, but I'd like to see major limitations to public access and also to development on the ranch.	4/29/2020 4:05 PM
272	Some kind of trail access that allows for coastal trail hike through or some kind of loop with limited access	4/29/2020 3:52 PM
273	No benefit	4/29/2020 3:34 PM
274	I think the public is going to destroy this area.	4/29/2020 3:33 PM
275	Many of these go hand in hand and the line between them blur. The bottom line here is that after living in this State for 66 years I have been denied access to a huge portion of the coastline, a coastline that belongs to all Californians. Will I live to see the day...	4/29/2020 3:31 PM
276	There would be a large amount of destruction to a very fragile ecosystem by letting a bunch of people have access to the land. The snowy plover population would be very negatively impacted by this action.	4/29/2020 3:01 PM
277	It is amazing to see the influx of people parked on the road right outside of the ranch with no regard for social distancing. The trash has increased immensely on the road which is not surprising. More people, more trash, less wildlife. I completely agree with guided or supervised tours for educational purposes inside Hollister Ranch so that others can see how sensitive the ecological area is.	4/29/2020 2:58 PM
278	California Coastal Trail Connectivity	4/29/2020 2:41 PM
279	I don't believe there is a benefit for most Santa Barbara County residents. We have plenty of beaches already, many lightly used. Strongly believe that nature too deserves a place to be left alone. Not to mention trampling on private property rights. Really disconcerting.	4/29/2020 2:30 PM
280	Provide access to California coastline views as well as unique flora & fauna, native plants and wildlife.	4/29/2020 2:20 PM
281	Share cultural education and history	4/29/2020 2:19 PM
282	Provide critical link in the California Coastal Trail.	4/29/2020 2:16 PM
283	Ensure our constitutionally mandated access is granted and not blocked by a handful of extremely wealthy landowners.	4/29/2020 2:13 PM
284	To Protect the sensitive environment from massive visitors	4/29/2020 2:12 PM
285	An access program should be managed and limited. The resources on the Hollister Ranch are fragile and will not be able to be sustained with unlimited public access. Any proposed benefit that includes the words "everyone" or "general public" is not suitable as a goal.	4/29/2020 2:09 PM
286	fix the gaviota pier first!	4/29/2020 2:07 PM
287	The "benefits" offered are detrimental to the Ranch's relatively pristine state.	4/29/2020 2:05 PM
288	Allow limited, but equitably distributed, access to the Hollister and Bixby Ranches. Similar models include the John Muir Trail.	4/29/2020 2:05 PM
289	No public access to Hollister Ranch	4/29/2020 2:01 PM
290	when if ever are you going to eliminate your biased built in presumption "benefit of increased access" remove head from sand and realize you have to ask the detriment as there is no benefit	4/29/2020 1:57 PM

Hollister Ranch Coastal Access Program: Public Survey #2

291	If public access is a must then it should be extremely limited and only a limited number of days per week. The HR beach environment is too precious to allow unfettered access.	4/29/2020 1:55 PM
292	I only have one answer here, opportunities for passive recreation.	4/29/2020 1:55 PM
293	Maintain historically significant coastal ranch and conserve coastline similar to Dangermond Preserve	4/29/2020 1:53 PM
294	Increase opportunities for environmental education experiences for school groups, non-profit and community-based organizations, or other organized groups. The opportunity to minimize the impact of public access by limiting the number and means of access.	4/29/2020 1:52 PM
295	People could potentially understand WHY it is being protected and why it should stay very restricted.	4/29/2020 1:49 PM
296	I only see the downside of this. I know what it's like in there as it stands and there is isnt a way to maintain that opening it up.	4/29/2020 1:43 PM

Q5 The following list of concerns related to increased coastal access through Hollister Ranch is also derived from the first survey and the stakeholder workshop on February 20th. Please select up to three (3) concerns with which you most agree. You may also list any number of additional concerns under “Other”:

Answered: 1,361 Skipped: 54

ANSWER CHOICES	RESPONSES	
Environmental degradation of natural resources including wildlife	79.94%	1,088
Personal safety of visitors and Ranch residents	30.79%	419
Loss of sense of remoteness and solitude through increased public access to the coastal resources.	41.81%	569
Respecting property owner rights and privacy	45.85%	624
Feasibility of operation and maintenance of future access program	40.93%	557
Safety of Ranch livestock and impacts on cattle grazing operations	18.37%	250
No Concerns	0.22%	3
Other (please specify)	19.91%	271
Total Respondents: 1,361		

Hollister Ranch Coastal Access Program: Public Survey #2

#	OTHER (PLEASE SPECIFY)	DATE
1	Whether the program will be implemented in a way that ensures access for traditionally underserved groups.	5/22/2020 4:08 PM
2	The Ranch has a very real sense of sacredness that will forever be altered if you allow development for public access. Clearly the motive to develop public access is not conservation or preservation of this unique remote natural area.	5/22/2020 3:53 PM
3	dangerous narrow, winding road, fire danger	5/22/2020 3:26 PM
4	I have visited Hollister Ranch as a guest a few times. Its a very unique place and I'm concerned about turning it into a public park due to environmental impacts. We know the more the public visits a place the more it is degraded. We've been hearing about wildlife rebounding in the parks since the covid pandemic (https://www.theguardian.com/environment/2020/may/21/wildlife-national-parks-covid-19-shutdown-death-valley) and keeping the public out has definitely benefited these resources. With so much lightly used publicly accessible beach in Gaviota, I don't understand the obsession with getting access to Hollister Ranch. It seems like more public access will only make it less special. I might feel differently if this were an urban beach with easy road access or something or if they were trying to eliminate access to something the public traditionally could use (like that beach in northern california that the tech guy tried cut off access to).	5/21/2020 10:14 AM
5	Law abiding Californians will be restricted from accessing Hollister Ranch beaches using intimidation tactics.	5/19/2020 3:58 PM
6	["All of the above concerns" is the appropriate survey questionnaire option.] Most importantly, the 2020 HRCAP, as it proceeds to assessment of its "Access Wish List", is reminded of the most critical concern, shortfall and failure of the 1982 Hollister Ranch Access Program. The Coastal Commission's "1982 HRAP" was immediately followed in 1983 by the State's undertaking (State vs. HROA, SBC SC No. 143689) for "precondemnation planning" order, and entry of the Hollister Ranch, to determine the financial cost of the 1982 HRAP WishList. The results of the 1983 fair market value analysis for the price tag for the eminent domain acquisition of the title interests, easements, and property necessary to effect the 1982 HRAP Wish List has never been disclosed. "Wishing" under the guise of "public access planning" should not be confused with financial cost of "Acquiring" the property rights necessary to effect the realities of such planning. The 2020 HRCAP, like the 1982 HRAP, is once again "jumping ahead" of the realities of the financial cost of acquisition of property rights. All would agree that the Hollister Ranch properties have appreciated significantly over the last 38 years. What was unaffordable in 1982 is certainly far more unaffordable in 2020, particularly in light of the devastating \$54 billion California budget deficit brought on by the coronavirus pandemic.	5/19/2020 1:03 PM
7	Safety for different abled and handicapped persons	5/18/2020 5:19 PM
8	I have faith in people to work things out and have no concern about increased coastal access through Hollister Ranch.	5/17/2020 9:34 AM
9	Make yourself usefull fix Gaviota pier.....	5/15/2020 10:31 PM
10	Will need to ensure visitors are prepared for the lack of amenities along that stretch of coast (similar to other less developed sections of California's coast).	5/15/2020 5:08 PM
11	The ranch is a sanctuary. For the ultra rich that live there, I imagine that losing their exclusive status is frustrating. But while I have dear friends that own property there, I am not concerned with the ultra rich and their playground. Rather, I am concerned with protecting some of the last ecologically intact socal coastline left. Eel grass beds, nesting birds, bobcats, it's all still there because people can't crowd in to see it. If it were open to the public, there would be a short period when all could equitably enjoy those resources. But soon afterward, those resources would cease to exist as a result. Let's leave this spot alone...	5/15/2020 8:49 AM
12	The largest issue! The potential for surfers to bombard the place.	5/15/2020 7:18 AM
13	None	5/14/2020 2:25 PM
14	Proper funding for the operation and maintenance of the access program. Harassment of visitors by Ranch owners/residents.	5/13/2020 3:27 PM
15	Everything can be controlled with proper state supervision as with all state parks.	5/13/2020 9:09 AM

Hollister Ranch Coastal Access Program: Public Survey #2

16	I don't believe that public will be flocking to this area once access is available to the general public. I base this on my visits to public beaches along this stretch of the CA coast. CA beaches belong to everyone NOT just a few property owners.c	5/13/2020 7:46 AM
17	I believe Hollister Ranch property owners should agree to an easement that allows coastal access to this area of California's coast.	5/12/2020 6:28 PM
18	expense and maintenance of roads, paths, restrooms, trash receptacles, lifeguards and supervision of guests	5/12/2020 4:41 PM
19	I believe that increased coastal access at Hollister Ranch will negatively impact the tidepool preserve within Hollister Ranch. These tidepools are by far the most pristine tidepools in Santa Barbara County and they remain that way because there is limited access to them. I believe that increased coastal access of this area will degrade one of the counties most amazing coastal resources.	5/12/2020 3:34 PM
20	Vandalism of visitors personal property when visiting Hollister ranch	5/12/2020 11:34 AM
21	Stop intimidation of the general public by Hollister Ranch property owners and Lawyers	5/12/2020 10:10 AM
22	Requirements for additional expenses to maintain pristine landscape by Ranch owners (roads, fencing, livestock, day use areas, trash pick up and service, etc.))	5/12/2020 10:01 AM
23	What will prevent the trespasser knocking in a home door front asking for a bathroom? Who will pick up the party trash? Who will indemnify the owners' properties that will legally considered an "attractive nuisance?"	5/11/2020 8:36 PM
24	People not respecting the beauty of such a significant place	5/11/2020 8:22 PM
25	No problems	5/11/2020 7:40 PM
26	Personal safety of visitors & HR residents, loss of sense of remoteness & solitude through increased public access, significant negative impacts to ongoing cattle operations in the coastal area..	5/11/2020 5:55 PM
27	This remote coastline and hills are far from emergency services, the general public will undoubtedly need help and it will be a long way to get it to anyone in need. The State does not have the funding to supply these services, in our home town the state took over a coastal park across the street from one of the most famous surf spots in the state, Steamers Lane. Within two years the head of parks for the state asked the city of Santa Cruz to take it back since the state had neither the resources or funding to monitor this small park.	5/11/2020 5:21 PM
28	Ability of the County of Santa Barbara and the CCC to make access to the beach a pleasant and respectful process. The County must commit to enforcement of existing laws and ensuring appropriate beach behavior.	5/11/2020 5:12 PM
29	Don't see much of a downside	5/11/2020 5:00 PM
30	I do not share any of these concerns in the least. Open it up to the public. Enforce typical laws associated with any other county or state park.	5/11/2020 4:58 PM
31	These options are anti public access. I share none of them	5/11/2020 3:30 PM
32	Risk of destruction and desecration of Native American cultural resources, traditional cultural properties and sacred sites of the Chumash Tribe	5/11/2020 3:11 PM
33	Equity of access for all before protection and privledge	5/11/2020 3:00 PM
34	Abuse and Illegal actions by property owners as has happen often in the past	5/11/2020 2:58 PM
35	Tax payers should be informed of the amount of state budges/resources that are being allocated to this project and, people should be made aware of the projected costs to complete the environmental studies and feasibility studies around this project. I personally feel that while unemployment sky rockets and people struggle just to get by that this project has not been put on hold until the state can get its finances in order. I just ask that you level with people and be honest with them about how much this is all costing when so many are suffering. How many people will this truly benefit?	5/11/2020 2:56 PM
36	don't really agree with any of these concerns	5/11/2020 2:55 PM
37	ecosystem disruption	5/11/2020 2:54 PM

Hollister Ranch Coastal Access Program: Public Survey #2

38	Financial resources to pay for needed service and infrastructure such as restrooms and garbage disposal	5/11/2020 2:53 PM
39	This supplements other feedback I have given. There is another cost and detriment that should be considered. The people of the State of California should be required to indemnify the ranch against any and all damages that may be caused by visitors to the ranch brought in by the state. of activities of visitors to the Ranch brought in by the State. If such visitors cause a fire which causes extensive damage, the state of California should be on the hook for it.	5/11/2020 2:52 PM
40	Fire ☐	5/11/2020 2:46 PM
41	No worries. I regularly lead hikes along the SLO and SB CCT, and see no signs whatsoever of degradation or overuse.	5/11/2020 2:45 PM
42	This is an area with a high fire risk and allowing public access increases the threat by astronomical proportions. Because of the difficulty of fighting a fire on the ranch terrain (narrow, steep canyons), increasing public access is just asking for a major wildfire in the near future.	5/11/2020 12:28 PM
43	The benefits of public access outweigh the listed concerns. I do not believe there will be environmental degradation with appropriate oversight.	5/11/2020 11:10 AM
44	Liability problem for Ranch owners	5/11/2020 10:31 AM
45	Public access significantly increases the wildfire risk	5/10/2020 8:34 PM
46	Abuse of private property rights	5/9/2020 6:22 PM
47	These are all valid concerns. Additionally, the cost of providing expanded public access should be very high on this list of concerns for ALL Californians. It should be noted that a number of these issues are mandated by the Coastal Act to be respected and balanced. The Coastal Act requires that public access, private property, agriculture, and environmental and cultural resources be BALANCED.	5/9/2020 5:21 PM
48	loss of privacy and security for HR homeowners	5/9/2020 4:49 PM
49	1. Improved connection to our natural heritage; 3. Removal of non-native livestock enhances wildlife population	5/9/2020 3:46 PM
50	Cost to taxpayers; when you publish the survey results, please include the costs incurred to date (and future expected costs) of this project; people are starving, the economy potentially in a depression, and the people of california deserve to know how much money is being spent here versus on much more pressing issues	5/9/2020 11:10 AM
51	All are correct	5/9/2020 8:29 AM
52	Hollister ranch owners being mean and creating localizing. I've had my backpack stolen by an owner after he realized I had walked on. A lot of the owners are territorial and have anger towards "outsiders" even tho we have every right to use the beach	5/9/2020 6:14 AM
53	The management of access during periods of great public interest--ie. big surf and exceptional wild flower bloom.	5/8/2020 7:49 PM
54	Fire hazard, lack of infrastructure to support regular visitors, crumbling bluffs and accelerated coastal degradation from trails and increased usage along bluffs, how to handle safety and security including injuries and medical emergencies, violence, trash removal and littering. Impact on wildlife travel patterns, livestock and horses-this is a working cattle ranch.	5/8/2020 4:39 PM
55	Taxpayer's dollars can be put to better & more critical uses than this plan.	5/8/2020 8:19 AM
56	protection of wildlife and natural resources requires limited and managed human impacts	5/7/2020 8:13 PM
57	none	5/7/2020 6:18 PM
58	Safety of participants once inside Hollister Ranch due to terrain and wildlife.	5/7/2020 6:04 PM
59	I believe the above 2 concerns "checked" can be mitigated affectively.	5/7/2020 5:00 PM
60	Loss of pristine coastal resources which provide Snowy Plover , Seal/Sea lion habitat,etc. just as we lost practically all coastal wetlands in CA. When the public accesses this area it will be lost environmentally forever. Unless we then try and restore it like they are doing in SB now.	5/7/2020 4:10 PM

Hollister Ranch Coastal Access Program: Public Survey #2

61	This area is one of the last sacred areas of the CA coast. I have no doubt it will be ruined with public access based on every public beach along the coast and the trash, destruction of resources it causes.	5/7/2020 2:51 PM
62	All of the above and - Fire prevention and safety is another issue of paramount concern.	5/7/2020 1:10 PM
63	The state of California is projecting a 54 billion dollar deficit in 2020, and the financial obligations of this program means less money for critical gov't services, such as school funding. This program makes zero fiscal sense.	5/7/2020 12:42 PM
64	no concerns	5/7/2020 10:12 AM
65	This is truly one of the most amazing and unique places in the world. Please do not ruin it by allowing public access. If that meant I could never go there again I would still vote to keep it the way it is. The owners have done an excellent job of looking after the place. Please let them continue.	5/6/2020 8:45 PM
66	Major safety hazards, environmental impact.	5/6/2020 8:40 PM
67	personal safety of visitors, residents generally know the possible dangers	5/6/2020 8:31 PM
68	The Hollister Ranch is rugged and difficult to access and at times, dangerous (falling cliffs, extreme winds, wild animals, snakes, wild surf) and all of these are valid concerns	5/6/2020 6:38 PM
69	All of these are valid concerns	5/6/2020 6:29 PM
70	People will overfish the area, leave trash, fight, start fires, poach, picket, and do all other actions that do destroying the area.	5/6/2020 6:22 PM
71	Just because you can develop this area doesn't mean you should.	5/6/2020 5:56 PM
72	Providing access violates citizen property rights. Infrastructure is expensive and hard to maintain at the scale proposed. More people on beaches means more trash and less wildlife.	5/6/2020 5:50 PM
73	With increased traffic, there is increased risk of accidents on the narrow ranch roadways and it is difficult to get emergency vehicles there in a timely manner due to lack of cellular coverage and the winding, twistng roads.	5/6/2020 4:47 PM
74	inadequate state sources for funding	5/6/2020 4:41 PM
75	This beach is pristine, it is unlike any other beach with easy public access. The tide pools are open to school children and give them an opportunity to see wild life that otherwise can't be seen on public beaches.	5/6/2020 4:33 PM
76	All of the above	5/6/2020 4:23 PM
77	The roads are too dangerous for the public, there is no doubt people will go to the ranch and drink some beers while on the beach and try to drive home on a windy road. Peoples homes could get tampered with, trash will be left on the beach and the ranch community will have to clean up after the public.	5/6/2020 4:22 PM
78	Increased traffic means increased erosion, increased pollution, increase of crime, potential for accidents, wildfires etc..	5/6/2020 4:22 PM
79	Increased trash and pollution that comes with increased use.	5/6/2020 4:07 PM
80	This project will cost tax payers a lot of money. It is evident the intense money that will be needed to make roads publicly accessible, this is not necessary! Keep the ranch pristine and untouched from invasive species (humans).	5/6/2020 3:48 PM
81	The sensitive habitat will be ruined.	5/6/2020 3:33 PM
82	As stated above, the access should be controlled and limited. Perhaps through a permit process? Opening up this last pristine coast of Southern CA to mass access would be a huge mistake.	5/6/2020 3:18 PM
83	Making it safe for surfers who access the area	5/6/2020 3:17 PM
84	Concern that Hollister Ranch owners will fight this forever and that the state won't have the resources to fight this battle and effectuate a public access program. Public access to PUBLIC beaches at Hollister Ranch is LONG overdue and CAN be managed so the environment and private property rights are protected.	5/6/2020 2:49 PM

Hollister Ranch Coastal Access Program: Public Survey #2

85	Private property confiscation without compensation. It is a terrible precedence for all private citizens.	5/6/2020 2:33 PM
86	I keep seeing "surfers" included among those who 'want want public access' at the ranch, in news articles, and in promo emails from publiuc access advocates what surfers are they referring to? I do not know any surfers, in SB or elsewhere, who support public access here...look at the comments section Surflife, or anywhere else: There are some who suppor thtis, but the vast majority of us are OPPOSED to public access here...please do not kill the last plac in southern CA that isn't jammed with Kooks and toursits, who do not care on bit about our beaches, or our environment: Thos epoepl have every othger beach available to them...let's limit access to this one to the people who are willing to make a littel effort to get to it, so that it reamins unspoiled by those who will not come, if they cannot drive to the sand..	5/6/2020 1:09 PM
87	This along with safe access to the coastline, The ranches along the road may have to fence their properties if needed	5/6/2020 12:35 PM
88	Harassment by local landowners of recreating public	5/6/2020 12:19 PM
89	California is becoming far too accessible...it's has a heritage as a frontier state and some of that exploration and opportunity should still exist. Tourist buses, lavatories, trashed parking lots are not conservation efforts but the result of a lazy culture that will soon feel entitled to direct access to all peaks, heights, valleys and grasslands without ANY effort. What kind of society does that promote?	5/6/2020 12:04 PM
90	Opening up the Hollister Ranch to the public would be a total disaster for all the reasons I have checked above.	5/6/2020 11:47 AM
91	My main concern is that increased access will disturb the abundant wildlife that is rare and declining. Since there is already a fair amount of traffic with owners and guests, I can only assume increased access would be detrimental to certain species and their delicate ecosystems. I believe it would also pose a treat to the cattle on the ranch. More cars on the road where the cattle graze could cause a lot of accidents and possibly be fatal for the cows and humans. Property owner rights are also a concern. I dont think the public should be allowed the freely drive around the ranch. It is essentially a very large gated community with beaches. What other gated communities is the public allowed to drive around in? None that I know of. Increased public access seems like a lot of work, management and maintenance on many levels.	5/6/2020 11:29 AM
92	The disrespectful nature of an increased of human traffic and environmental impact on the land.	5/6/2020 10:58 AM
93	The infrastructure of Hollister Ranch - trash, heath/safety, law enforcement, etc. can handle limited access which is why the thoughtful management of public access (which I support) is so crucial. We need to be careful that we don't get into a situaton where the Hollister Ranch requires more and more infrastructure which inherently destroys what makes the place so special - it's preservation of the unique bio-diversity of the area around Point Conception.	5/6/2020 9:58 AM
94	Like anything accessible to the public, respecting the land and environmental impact will be of huge concern . People abusing their rights will also be a big problem, illegal camping, trespassing etc.	5/6/2020 9:52 AM
95	Employees of the state parks system do not have an ownership point of view in terms of decisions being made. That which is owned by everyone is owned by no one. This is a problem. Resources and priorities are not aligned when the public population wants to take privately owned resources. Improve the already existing public access at the states public beaches instead of burdening the stat with another underfunded poorly managed access program in a new location. There are no funds in the state budget to undertake this project and to do it well.	5/6/2020 9:45 AM
96	I believe there are vast expanses of California coastline that are available to the public, and Hollister Ranch provides much needed diversity of land use . It is also a rarity in the US to find uncrowded surf breaks that are difficult to get to and that should be preserved in my opinion	5/6/2020 9:05 AM
97	The last place on the coast that is left untouched	5/6/2020 8:33 AM
98	Inevitably many wild animals will flee their current habitat with more visitors and noise	5/6/2020 8:32 AM
99	Feasibility of protecting the finite natural resources in this area given the public's lack of education and respect for our planet.	5/6/2020 7:46 AM

Hollister Ranch Coastal Access Program: Public Survey #2

100	When the State is facing critical fiscal challenges, the State's (or County's) resources should be deployed to more efficiently manage existing State park infrastructure, particularly Gaviota State Park. It stretches credulity to claim that the State (or County) in this fiscally challenging environment can take on the proper and consistent operation and management of this access regime at a time when fiscal resources are scarce. And to prioritize spending to provide access to the ranch over much needed health, education and unemployment benefits to the many impacted citizens in the county and state is a misallocation of public resources.	5/6/2020 6:40 AM
101	Focus on protecting what we have, by protecting property rights. I don't want some one camping in my front yard because they like the view. As a tax payer funding this, why seek more when our current facilities and parks are underfunded.	5/6/2020 6:35 AM
102	Near impossibility of maintaining integrity of coastal habitats and ecosystems. Look at any Californian (or worldwide) beach with public access and observe the very limited marine life. Not that people believe this. Most people believe that beaches are home to lots of marine life and ecosystems, simply because they have no point of comparison. Now take a look at the tide pools and coastal regions of the Hollister Ranch. This area is teeming with diverse and fascinating marine life. It is only this way because of restricted access. I have personally witnessed the decimation of marine life from local beaches by people stripping them bare. I do not blame these people - many are from cultures which value this food source. Problem is that once it is stripped or even damaged with no bad intentions whatsoever,, the marine life cannot be replaced.	5/6/2020 3:02 AM
103	How about safety of the people? If you have a bunch of new people running around the Ranch, who looks after them if they get injured? Who is going to police the land to make sure what is private stays private? Who is going to educate the people about these rules and regulations prior to entry? How will you know they even understand them and will follow them? Again, Ranch owners police themselves. If someone breaks the rules, it doesn't take long for that person to be tended to and have the situation rectified. How will that be done for visitors that no one recognizes, and by whom?	5/5/2020 10:55 PM
104	lack of access to beautiful region that will be well respected and well treated by nature lovers	5/5/2020 10:41 PM
105	Keeping as much of the California coast line in as natural state as possible. The less humans, the less cars, the better it is.	5/5/2020 10:19 PM
106	General abuse of the natural resources that have been preserved there. It already accessible by boat and foot	5/5/2020 9:39 PM
107	How do you reconcile the use of private roads when we have paid so much to build and maintain them, and our state has horrible unemployment and families in need everywhere? It feels so callous to be spending more tax payor dollars on this project?	5/5/2020 9:18 PM
108	Snowy plover habitat destruction	5/5/2020 8:37 PM
109	plenty of coastline already ,why do you want to ruin something that is WORKING	5/5/2020 8:34 PM
110	I love the Ranch, I personally rarely get to use it, but when I do I appreciate the way hollister Ranch owners have preserved the Ranch.Any increased public access should have as little impact as possible on the rights of property owners. I intend to own one day and I want it to maintain the natural beauty the Ranch means to me. I grew up in Malibu, I live in Dana Point, and I surf San O, so I go to the beach that fits my spirit. If I want surf by a city I can go to Dana Point. I guess what I am saying is every beach has its own personality, and the Ranch is the Ranch	5/5/2020 8:25 PM
111	Trash, sanitation needs, and railroad track crossing safety.	5/5/2020 8:13 PM
112	where will access stop and start, who will miotigate and protect protery rights...all coastal ranches are at risk of public strays entering off limit areas putting them at risk	5/5/2020 8:10 PM
113	Safety of Ranch livestock and negative impacts on the cattle grazing operations, respecting of property owner rights and privacy, theft, vandalism, environmental degradation, trash, strain on scarce water resources, impact on wildlife including rare species, personal safety. increased risk of wildfires.	5/5/2020 7:48 PM
114	Respecting the Constitution and prevention of your Civil Liberties being destroyed for future generations.	5/5/2020 7:46 PM
115	One of the founders of UC Santa Barbara's Environmental Studies Department, once told me	5/5/2020 7:26 PM

Hollister Ranch Coastal Access Program: Public Survey #2

the following in a class I was taking from him circa early 1980s: Barry Schuyler said "If you want to do your part to protect the environment, keep the public out".

116	Roads are extremely dangerous, cattle often cross them, there are no train signals or crossing arms to speak of.	5/5/2020 6:19 PM
117	Destruction of pristine habitat	5/5/2020 5:51 PM
118	I am concerned about fiscal and managerial responsibility ie who is paying for and managing the program. I think we should take a hard look in terms of priorities as to what state resources should be devoted toward HRCAP	5/5/2020 5:01 PM
119	Fire danger. The area is subject to high winds and extremely dry conditions, and is difficult for firefighters to access. There is a risk of persons unfamiliar with the area lighting fires and losing control of them.	5/5/2020 4:50 PM
120	Who will be responisble when things go "wrong" in this islated area. Access to medical personel and evcuation is a serious concern.	5/5/2020 4:44 PM
121	The benefits outweigh the concerns. Many other areas deal with these concerns quite well. Also, these concerns place the concerns of the wealthy over the equity issues that should be addressed.	5/5/2020 3:51 PM
122	Everyone should have access to our coastal resources assuming the public will degrade the ranch is arrogant	5/5/2020 3:49 PM
123	Is it legal to take over private property for public use without compensating the property owner? I don't think so.	5/5/2020 2:10 PM
124	Water access is and has always been available	5/5/2020 1:04 PM
125	Trespassing on private property	5/5/2020 12:57 PM
126	The (suspended) rule that allows property owners to drive on the beach is a massive environmental degradation to begin with	5/5/2020 12:32 PM
127	All of these are very legitimate concerns. Why would the Coastal commision and a very, very small representation of the public go after the Hollister Ranch? Why wouldn't they confront more important and pressing issues like how freely waste is dumped into the ocean from the streets? or Poor water quality that causes mutation in fish and death and illness to whales and seals? or trying to reduce toe amount of microfibers found in our oceanic food chain? The Coastal Commission should be awarding the Hollister Ranch for their tremendous work environmental stewardship.	5/5/2020 12:30 PM
128	Costs of access, maintenance and enforcement to the county and state	5/5/2020 12:18 PM
129	Every one of the boxes for this question should be checked. It was apparent from the participation at the February 20th meeting that protection of the environment, cultural resources, agriculture were of the primary concern. Safety, feasibility, and costs to acquire and maintain access were a close second.	5/5/2020 12:10 PM
130	In today's times it is particularly egregious to prioritize leisure activities over the environment.	5/5/2020 12:08 PM
131	Wildfire	5/5/2020 11:58 AM
132	The cost benefit to the State of California is poor and there are more existing local Goleta state parks that need help and can offer more access And provide similar education to more people	5/5/2020 11:48 AM
133	This makes no sense, you want to preserve areas like this but you want public access . Anytime the public has access to something it will not be preserved. The state of CA cannot not maintain what they have now .The state of CA combined with public access will destroy Hollister Ranch.Why do we not have unlimited access from Santa Barbara to Hollister Ranch now. What about Brad Pitts property by El Capitan , they have signs that say no trespassing,I want to hangout on his beach, what about the property Charles T. Munger donated to UCSB at Las Varas Ranch (1800 acres),I want UCSB to let me use that beach. What about Hope Ranch Beach they have gates across the entry to their beach. This is taking away property rights for the public. You cant have it both ways.	5/5/2020 11:37 AM
134	Again, there is absolutely no easement through private properties other than a singular parcel that is surrounded by other totally private land. The public already does have access to the	5/5/2020 11:32 AM

Hollister Ranch Coastal Access Program: Public Survey #2

beach. They're demanding access through people's private property. The state is fully capable to buy an easement if they so desire. Instead the state is bypassing immanent domain process. They are forming laws that will override land owners' rights.

135	That Hollister Ranch will become like the rest of Southern California coast.	5/5/2020 11:11 AM
136	If you take in to account, the livestock and cattle grazing, cliff erosion, the overwhelming numbers of people and cars on those steep and windingcoastal private roads, the insane costs of reimbursement to property owners for taking of private property, there really is only one solution. A well managed plan that offers limited organized access. Cooperation is the key. Working with the Hollister Ranch instead of against the Hollister Ranch could be a win- win for everyone. Particularly for Santa Barbara county residents. The plan must be highly supervised and managed with limits on how many can access Ranch. Otherwise, the concept is ruinous for the environment and too expensive for the state of California to pursue.	5/5/2020 11:11 AM
137	none	5/5/2020 11:07 AM
138	Hollister Ranch is remote and the weather (wind and sun) is intense. Public safety is a major concern and I do not believe the State of California is in a position to provide safe and reliable access.	5/5/2020 10:59 AM
139	Hollister Ranch HOA has violated CA public Beach Access law for far too many years: State of CA should sue them for the many years they denied access	5/5/2020 10:45 AM
140	Acess to private property infringes on the rights of the ranch owners. It devalues their property. It unfairly targets Hollister owners when their are many other beaches along the SB coast that are not being targeted.	5/5/2020 10:42 AM
141	The place will get trashed, eroding cliffs, trains, lack of cell access, wildfires are real possibilities if opened.	5/5/2020 10:37 AM
142	The Hollister Ranch is residential private property and legally must be respected. Beach access is a different matter and should be addressed separately.	5/5/2020 10:32 AM
143	Increases trash and reduces security and safety. Even just outside the ranch where people part for gaviota park there is trash left alongside the road as well as vehicle break-in's	5/5/2020 10:28 AM
144	ample free parking for beach goers	5/5/2020 10:20 AM
145	Safety of coastal visitors (it is remote with no cell coverage for emergencies and no lifeguards, public restroom facilities, etc.	5/5/2020 10:19 AM
146	Continued efforts of Hollister Ranch and its lawyers to restrict public access to public beaches.	5/5/2020 9:25 AM
147	as a non Ranch owner or guest, my use would be quite respectful so i do not agree with those. I think education is key to all of that. Just like at Naples.	5/5/2020 9:14 AM
148	None. These are ruses regularly used by locals to "protect" the coast.	5/5/2020 8:29 AM
149	that disabled are denied resonable access	5/5/2020 8:14 AM
150	Social conflicts, especially among surfers, between Hollister Ranch property owners and others.	5/5/2020 8:01 AM
151	People = TRASH	5/4/2020 11:52 PM
152	A failure to provide a "negative control" for a coastal ecology that can be used as a reference for ESHAs up and down the coast.	5/4/2020 11:11 PM
153	(These are the landowners' bogus arguments)	5/4/2020 10:51 PM
154	No concerns	5/4/2020 10:33 PM
155	Protection and preservation of this last remaining piece of virtually untouched land for future generations. Not much left for them.	5/4/2020 10:25 PM
156	Loss of sense of remoteness and solitude through increased public access to the coastal resources; Respecting property owner rights and privacy	5/4/2020 9:44 PM
157	Lifeguards?	5/4/2020 9:37 PM
158	Safe access for surfers and other beach visitors	5/4/2020 8:53 PM

Hollister Ranch Coastal Access Program: Public Survey #2

159	Cattle are not native to Hollister Ranch and should not be considered a concern associated with increased coastal access. Also coastal access is a public right in California unlike many 3rd world countries where money buys access to beaches. Thank goodness California is not like many 3rd world countries who restrict access to beaches based on property ownership or wealth.	5/4/2020 8:26 PM
160	The State can barely manage its own beaches not even 10 miles from Hollister Ranch. Spending the money to allow the public into Hollister Ranch is not feasible if the State	5/4/2020 7:59 PM
161	None of the above	5/4/2020 7:43 PM
162	Transparency of process, inclusiveness, social equity	5/4/2020 7:32 PM
163	Environmental degradation of natural resources including wildlife (again) and (again)	5/4/2020 6:17 PM
164	My only concern is that, despite court orders, the Ranch owners will employ intimidation tactics (up to and including violence) to keep other people out.	5/4/2020 5:55 PM
165	Hassles from property owners	5/4/2020 5:46 PM
166	Need to prevent actions that would close access from Hollister Ranch owners and management. Need to guarantee public access through legal means. Need to properly mitigate any concerns that have validity and are not being presented simply as roadblocks, excuses to prevent access.	5/4/2020 5:15 PM
167	cost to the public. I do not agree with my tax dollars being spent this way	5/4/2020 4:59 PM
168	no concerns, the California Coastal Act should be applied. The owners of the ranch have to complied with the law. Otherwise this is anarchy !	5/4/2020 4:57 PM
169	I agree that current residence of the area have the right to privacy. By allowing safe access to the coast will actually help protect the privacy and property of the residents and livestock.	5/4/2020 4:23 PM
170	Ability to enforce laws and keep people from littering, bringing dogs, or smoking etc.	5/4/2020 4:18 PM
171	All of the above listed concerns are rooted in wanting to limit the public's access to their beach.	5/4/2020 4:15 PM
172	none	5/4/2020 4:14 PM
173	My only concern is that Hollister Ranch remain private with no public access to the beach. This is California, where the length of the coast is required to be open to public access and recreation.	5/4/2020 4:04 PM
174	If handled like other coastal access points, the "environmental degradation" concern could be ameliorate.	5/4/2020 3:55 PM
175	Restroom maintenance. Removal of whale fossils and artifacts from pristine coastline.	5/4/2020 3:40 PM
176	I think all of these are baloney! The only one with a shred of validity is the one about 'sense of remoteness'. This can be handled with appropriate management of users.	5/4/2020 3:39 PM
177	Hostility of residents to underserved communities	5/4/2020 3:37 PM
178	required road widening construction to meet the huge demand in visits if general access for vehicular travel is allowed.	5/4/2020 3:36 PM
179	The personal safety of the current residents and their homes with unlimited access, without publicly funded security in this quite remote area.	5/4/2020 3:30 PM
180	That the solution won't be long-lasting and changing politics will mean we'll have to fight this battle again.	5/4/2020 3:29 PM
181	I checked none of the above as all these concerns seem to be Hollister Ranch owners not residents of the local area.	5/4/2020 3:27 PM
182	none	5/4/2020 3:18 PM
183	No concerns whatsoever. The coastline is a PUBLIC resource.	5/4/2020 3:17 PM
184	Personal safety of visitors accessing the beach area	5/4/2020 3:17 PM
185	State will need to maintain, clean, have trash service.	5/4/2020 3:08 PM

Hollister Ranch Coastal Access Program: Public Survey #2

186	keeping our coast a public benefit, not for private development.	5/4/2020 3:07 PM
187	difficulty of getting the Railroad to install crossings to prevent train and auto collisions at the numbers crossings	5/4/2020 3:06 PM
188	None	5/4/2020 3:03 PM
189	Trash. Human waste. Disturbing tidepools. This proposal is contrary to resource preservation and misguided.	5/4/2020 2:58 PM
190	These are a good start.	5/4/2020 2:56 PM
191	As Edward Abbey said: "I find that in contemplating the natural world my pleasure is greater if there are not too many others contemplating it with me, at the same time."	5/4/2020 2:55 PM
192	These concerns are not relevant. Coast is a public resource and Hollister Ranch's \$\$ does not negate that, even if there are a few consequences they perceive as negative. Public access is all that matters - it's a RIGHT not an option.	5/4/2020 2:55 PM
193	lack of equestrian access to trail (s) in the public access component	5/4/2020 1:04 PM
194	Erosion of trails during rainy season causing more sediment flow.	5/4/2020 3:10 AM
195	(1)Concern that access will not be limited to a "reasonable" number of people on any given day though a permitting process (2) concern that HR residents will only allow demographic THEY want	5/2/2020 11:14 AM
196	I am deeply concerned about increased fire risk based on greater population influx, carelessness, and bitter aggressive behavioral choice to light fires punishing ranch residents.	5/2/2020 9:25 AM
197	Ruin the surf for everyone.	5/2/2020 7:35 AM
198	How can the State pay the hundreds of millions of dollars for public access when the COVID-19 pandemic is costing the State billions. Saving lives is more important than access to a beach that one can already walk to along the shoreline from Gaviota.	5/1/2020 2:56 PM
199	The enormous financial cost to the State of California (and hence it's citizens) to acquire the necessary property easements to allow for un-managed public access to exist.	5/1/2020 2:31 PM
200	the obscene financial cost of development and maintaining this project to CA taxpayers vs simply developing the coastal beaches between Goleta and Gaviota. So much more cost effective and easier access for the masses	5/1/2020 12:14 PM
201	All visitors make the experience enjoyable for all -- enforce Santa Barbara County beach regulations -- no drinking, nudity, firearms, motor vehicles on the beach, unaccompanied children, etc.	5/1/2020 8:47 AM
202	Hollister Ranch landowners fighting to close access.	5/1/2020 12:29 AM
203	lack of infrastructure to adequately manage and serve the needs of visiting public	4/30/2020 5:08 PM
204	Financial inability to maintain roads, restroom facilities, trash pick up, safety erosion control,for access program.	4/30/2020 4:12 PM
205	none	4/30/2020 1:54 PM
206	I cant say their any concerns from the questions above, that will not be addressed by State Park supervision.	4/30/2020 12:58 PM
207	I have no other such concerns.	4/30/2020 12:45 PM
208	Even increased passive visits place stress on native wildlife and beach habitat; if dogs allowed, even worse.	4/30/2020 11:58 AM
209	I have zero concerns	4/30/2020 11:48 AM
210	The public will overrun and destroy it. Leave it alone	4/30/2020 10:10 AM
211	Foot dragging and local resistance to coastal access thru litigation creating a hostile vibe.	4/30/2020 9:43 AM
212	The state is ignoring maintenance of the trails on the Goleta Coast that already exist	4/30/2020 8:37 AM
213	All of these and please refer to the 200 plus cars parked at Tajiguas Beach 4/24-4/26, and the	4/30/2020 8:01 AM

Hollister Ranch Coastal Access Program: Public Survey #2

amount of trash left behind.

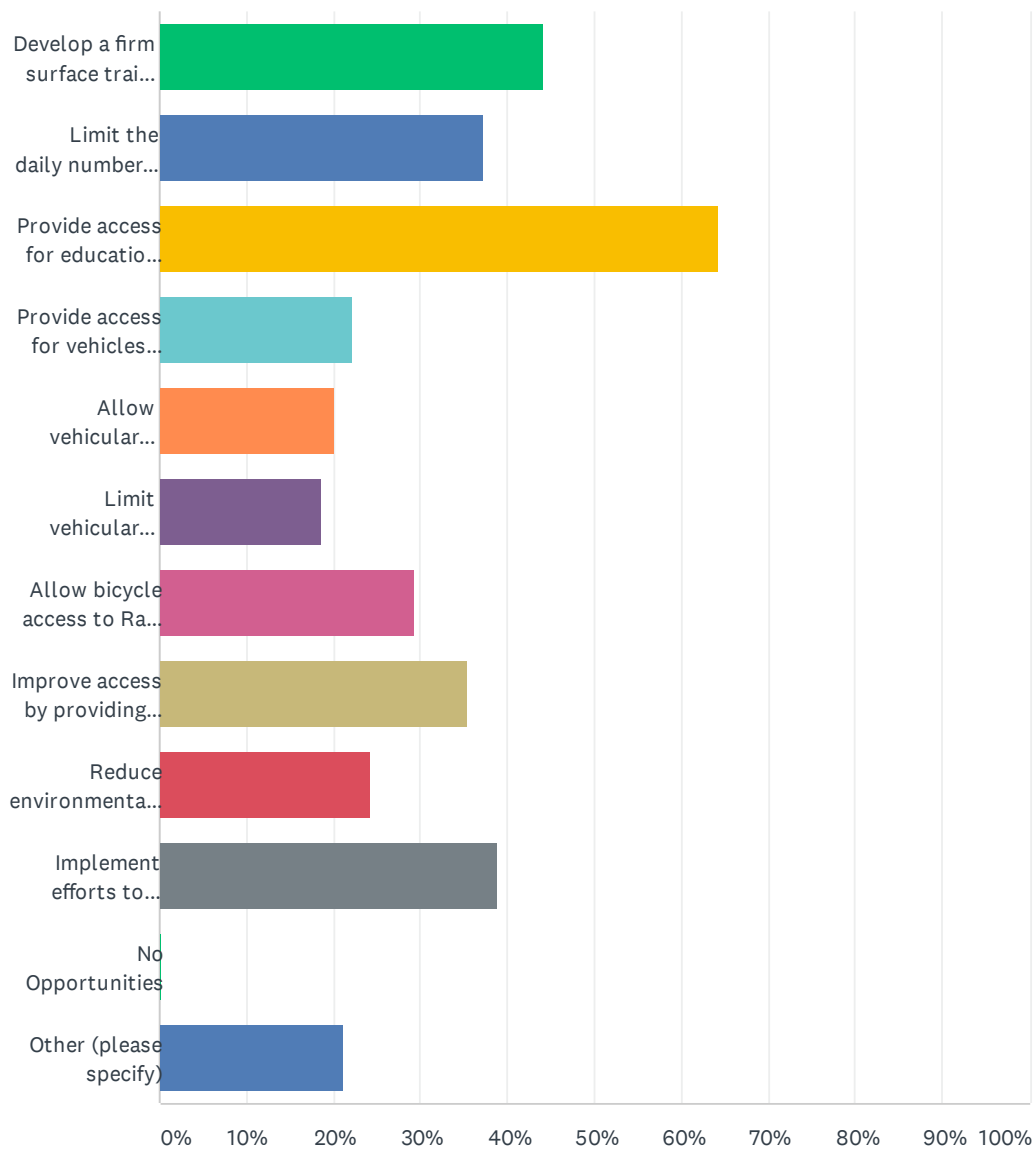

214	Concern that the increase in public access will be too limited	4/30/2020 7:38 AM
215	Plan requires dealing with trash	4/30/2020 6:58 AM
216	I'm concerned that the above issues will be used as an excuse to restrict access to coastal recreational resources that belong to the public. All of the above concerns can be effectively mitigated while allowing public access to the beach.	4/30/2020 3:50 AM
217	Deal with it. The California coast belongs to all Californians. Get over it.	4/30/2020 12:19 AM
218	I don't think these will be concerns with increased coastal access.	4/29/2020 9:07 PM
219	No concerns, as a visitor it is easy to be safe.	4/29/2020 8:25 PM
220	public access to beaches should be preserved	4/29/2020 8:04 PM
221	Aggressive ranch owners and others that believe they own the waves (ie.localism)	4/29/2020 7:47 PM
222	Where's the negative impact on ocean life and water quality	4/29/2020 7:35 PM
223	Strain on the very scarce water resources of the ranch, and the loss of an intact beach ecosystem. Most days out of the week up there, coyotes, bobcats, and mountain lions can actually be seen on the beach hunting. Not just at night (these animals are not nocturnal- only when forced to live in close proximity to humans do they become completely nocturnal) - someone at the last meeting mention busing in 500 people a day. These beaches are narrow, the cliffs are high and crumbling, that many people would make this stretch of pristine coastline look like Miami. The animals would be forced out, yet again, and this time from their very last south coast sanctuary. Carefully managed access that takes sustainability days of reprieve for the wildlife into account could mitigate these potential harms. I live in Santa Barbara, on the Mesa, and was born and raised in this community. The Ranch is a place that I love more than any other on earth- and it is my ardent hope that public access will be well managed and in tune with what the land and wildlife can handle.	4/29/2020 7:19 PM
224	More parking lots	4/29/2020 7:09 PM
225	Proper disposal of litter and the prevention of unsanitary conditions	4/29/2020 6:40 PM
226	The general public being excluded firm enjoying something they have every right too	4/29/2020 6:37 PM
227	Don't allow cars: only access by foot, bikes or shuttles	4/29/2020 6:17 PM
228	I don't agree with any of these concerns, but can't finish this without selecting some	4/29/2020 5:29 PM
229	I really have no concerns if a coastal access program that respects visitors and residents is adopted.	4/29/2020 5:12 PM
230	Fires caused by vehicles entering and careless visitors , smoking, cooking.	4/29/2020 5:10 PM
231	More crowded surf break.	4/29/2020 5:10 PM
232	Obstructive actions and behavior to public visitors by landowners.	4/29/2020 4:58 PM
233	No concerns. Going to the beach is not rocket science.	4/29/2020 4:55 PM
234	ability to provide infrasturcture for coastal access	4/29/2020 4:54 PM
235	Safety of livestock and wild animals due to increased traffic, and crowds walking on the beach.	4/29/2020 4:41 PM
236	Too many people	4/29/2020 4:25 PM
237	For wildlife motorized access should be limited by property owners and visitors alike	4/29/2020 4:19 PM
238	Loss of wilderness	4/29/2020 4:16 PM
239	None	4/29/2020 4:03 PM
240	I have no other concerns.	4/29/2020 4:01 PM
241	I don't have strong concerns. I have no doubt the access can be managed successfully with good will on all sides.	4/29/2020 3:41 PM

Hollister Ranch Coastal Access Program: Public Survey #2

242	This is way overdue	4/29/2020 3:36 PM
243	Boneheads coming there to be loud and turn it into a party place and trashing it.	4/29/2020 3:31 PM
244	Public access for all	4/29/2020 3:26 PM
245	Overcrowding	4/29/2020 3:22 PM
246	Private landowners continuing to restrict rightful access and imposing unreasonable rules.	4/29/2020 3:16 PM
247	I feel as though it can be managed. The cows are not native to the area and should be removed, so it's hypocritical to worry about nature when cattle are stomping all over plants etc.	4/29/2020 3:03 PM
248	None of these choices concern me.	4/29/2020 2:58 PM
249	Need to provide public restrooms and trash removal interfere with the natural environment	4/29/2020 2:58 PM
250	United States coastline is for all US citizens	4/29/2020 2:57 PM
251	Only practical if gov't gets fee ownership of coastal strip and uses railroad for access	4/29/2020 2:55 PM
252	Protecting and safeguarding the local flora and fauna and residents of Hollister Ranch is of paramount importance; it MUST be a win-win for all concerned parties.	4/29/2020 2:49 PM
253	The Hollister Ranch owners have consistently flouted the law to deny people's legal right to access the coastline and beaches.	4/29/2020 2:47 PM
254	Parking	4/29/2020 2:42 PM
255	2. Adequate Interpretive signage and educational programs to prevent impacts to coastal resources 3. Adequate funding to provide resources for public	4/29/2020 2:41 PM
256	I think environmental degradation is a valid concern, but the fact of the matter is we have many special places along the Gaviota Coast which tend to be accessed mainly by residents who are good environmental stewards.	4/29/2020 2:37 PM
257	VISITORS NOT SUFFERING THREATS/HOSTILITY FROM (A FEW) RANCH RESIDENTS	4/29/2020 2:22 PM
258	None	4/29/2020 2:21 PM
259	Intrusion of dogs improperly restrained, inoculated and cared for by owners.	4/29/2020 2:20 PM
260	Continued harassment of the public by Hollister Ranch Owners and their private police force	4/29/2020 2:16 PM
261	Trash. I would encourage limits about what can be brought to the beach or strict enforcement of "leave no trace" principles like, 2nd strike you're banned for a year or 2	4/29/2020 2:13 PM
262	Cost will be a considerable object in the development of any public access program. It is not reasonable to transfer that cost to owners at Hollister Ranch. If the State cannot provide adequate resources to develop and sustain any proposed access program, such a program should not be considered.	4/29/2020 2:09 PM
263	I dont want a bunch of hispanics showing up blasting mexican music and littering.	4/29/2020 2:07 PM
264	Ranch owners using intimidation to discourage public's use. uncivil behavior in the Surf zone by ranch owners.	4/29/2020 2:01 PM
265	Trash, overcrowding, destroying what makes it so special, becoming like everywhere else up and down the coast, costs, thefts and security of personal property and homes	4/29/2020 2:00 PM
266	california pigs having parties w/o supervision or cleanup	4/29/2020 1:57 PM
267	When property ownership trumps citizens rights to full access of our coast, that concerns me.	4/29/2020 1:57 PM
268	I am most concerned about possible degradation of the current pristine nature of the beach environment.	4/29/2020 1:55 PM
269	None of the above	4/29/2020 1:48 PM
270	The safety of visitors from aggressive Ranch occupants, e.g., vandalism of visitor's property, physical attacks, etc.	4/29/2020 1:43 PM
271	Protection of public access points from vandalism or obstruction	4/29/2020 1:41 PM

Q6 Given the benefits and challenges identified above, please select up to five (5) opportunities that you believe would work well for increased coastal access through Hollister Ranch. This list is derived from the most frequent answers provided by participants during the February 20th stakeholder workshop in Goleta.

Answered: 1,378 Skipped: 37

Hollister Ranch Coastal Access Program: Public Survey #2

ANSWER CHOICES	RESPONSES	
Develop a firm surface trail for bikes and pedestrians that would provide access to one or more beaches with a management system to limit the total daily number of users.	44.05%	607
Limit the daily number of people through a permit program, advanced registration, lottery, or other mechanism.	37.16%	512
Provide access for educational programs such as school programs, docent led walks/hikes, etc.	64.22%	885
Provide access for vehicles on existing private roadways to park at existing improved beach parking areas on the ranch.	22.13%	305
Allow vehicular access but limit the number of vehicles and parking permits.	20.17%	278
Limit vehicular access to shuttles or guided tours/adventures.	18.72%	258
Allow bicycle access to Ranch roads that lead to several beaches with a management system to limit the total daily number of users.	29.32%	404
Improve access by providing easier beach, boat, and/or pier launching from Gaviota State Beach or other nearby public facility.	35.27%	486
Reduce environmental impacts by requiring viewing of educational video or other material, followed by quiz, in order to get access permit (similar to USFS campfire permit).	24.17%	333
Implement efforts to manage and improve environmental resources through active enhancements and protections.	38.97%	537
No Opportunities	0.15%	2
Other (please specify)	21.12%	291
Total Respondents: 1,378		

Hollister Ranch Coastal Access Program: Public Survey #2

#	OTHER (PLEASE SPECIFY)	DATE
1	Increase coastal access for public through virtual tours with VR headsets available at state park visitor center. Interpretive Program coordinators can educate the public on the value of protecting the Gaviota coast through campfire programs and virtual reality tours (VR equipment and program can be set up in the interp building at Refugio point).	5/23/2020 5:47 PM
2	Opening up Hollister Ranch for public access and development for the sake of political policy has direct consequences of human interference failing conservation and the beauty of this uniquely preserved natural place. Just because you can develop it doesn't mean you should.	5/22/2020 3:53 PM
3	Develop a firm surface trail for bikes and pedestrians that would provide access to one or more beaches.	5/21/2020 7:00 AM
4	I don't know what the last option (above "other") means. The ranch road is too unsafe to permit increased vehicular access. Shuttles that bring in school or other groups are the only way to go. A permit system to allow private individuals to enter would work only if the numbers were very, very low, and if entry was for a limited number of hours.	5/20/2020 3:48 PM
5	Develop a firm surface trail for bikes and pedestrians that would provide access to one or more beaches. Allow bicycle access to Ranch roads that lead to several beaches.	5/19/2020 3:58 PM
6	The 30 miles of Gaviota coastline between Devereaux-Coal Oil Point and Gaviota State Park are beautiful and vastly undeveloped for recreational access, despite being largely bordered by the immediately accessible Coast Highway, often within a few yards of an affordable potential beach accessible staircase. Despite many miles of State land ownership, the State has only two staircases leading to the beach on the Gaviota Coast [both in the same place-at El Capitan]; only a single non-passable, deteriorated dangerous hiking-baking trail between El Capitan and Refugio (closed in disrepair for many years); and only a single decade-long closed-disabled pier and boat launch at Gaviota State Park. The already financially strapped California State Park system has, as of this week, been announced to be the further victim of another \$30 million budget cut. If the State cannot afford to operate and maintain its own properties and parks, the 2020 HRCAP should not be wishfully expanding a list of further State acquisitions, operations and maintenance properties across privately owned properties that are far distant from the Coast Highway. The wilderness of the Point Conception lands should be left alone. Balanced public access and preservation of the wilderness can go hand-in-hand. Public access should not mean "paving another parking lot," loading another tour-shuttle bus, constructing pedestrian tunnels, installing trash control and restroom facilities in the wilds of a pristine natural environment. Preserve the balance and the adventure in public access. As members of the public, we boat to the Channel Islands. We hike into the wilderness areas of our national forests. We boat or hike or paddle to the lineup in Big Sur and at Mavericks. We hike or paddle to Upper and Lower Trestles. We raft or paddle kayaks into the protected wild river areas. We skin or ski into the snows of the back country. No chair lifts, no cars, no buses, no parking lots, no restrooms, no day use concessionaires, no pollution, and no despoiling nature. Adventure access does not mean that public access is denied, merely consecrated, as it often is by those honoring the adventure "to go" into nature. The adventure of the journey through a natural environment is as significant a part and spirit as the preservation of the wilderness destination.	5/19/2020 1:03 PM
7	Too many of the options above all end with a limitation of use. That should be a separate question. The roads need work. The right of way needs to be planned. The rules about limits need to be discussed separately.	5/18/2020 6:12 PM
8	Have shuttles like they have at the Getty museum going from popular spots	5/18/2020 5:19 PM
9	Put this \$ into fixing the pier.....	5/15/2020 10:31 PM
10	I do not support any increased access. It pains me a bit to write this as a poor public land advocate that will never be able to afford property there. However, the state of the habitat there is far more important than the public having yet another piece of paradise which we can promptly love to death. Again, forget the rich folks and their private property rights. It's not about that to me personally. It's about the wildlife.	5/15/2020 8:49 AM
11	This is private property, and a working cattle ranch that should not be open to the public. People already can walk along the coast now, they can kayak in and they can boat in as well.	5/14/2020 9:28 PM
12	I don't believe providing access to another person's private property, while at the same time negatively impacting the existing ecosystem provides any benefit.	5/14/2020 9:26 PM

Hollister Ranch Coastal Access Program: Public Survey #2

13	Spending money on improving already owned land very close to the ranch is fiscally responsible and a much easier already requested project. It's the difference of a couple hundred thousand dollars to over a billion. Save the taxpayers money and maintain what is already there.	5/14/2020 5:37 PM
14	A limited number of decent lead group tours, traveling by shuttle van is the only practical option to consider for access over private lands. Developing a trail would be costly, environmentally damaging and little-used given the distance and terrain needed to travel. Unescorted public use of a private road through a working cattle ranch does not make sense and would create tremendous liability.	5/14/2020 4:53 PM
15	Everything above applies. but the parking permits should be daily.	5/13/2020 9:09 AM
16	Parking availability will automatically limit the number of people who would be able to visit HR.	5/13/2020 7:46 AM
17	everyone has the right to the beaches. We should not have to limit access.	5/13/2020 12:14 AM
18	I believe some sort of short term study should be conducted to determine the expected total number of daily users before limits are put in place. I further believe that this list of concerns is too heavily weighted on limits to access.	5/12/2020 6:28 PM
19	STOP RAILROADING THIS PROGRAM-WITH 40 MILLION PEOPLE IN CA. THE IDEAS WILL BE POORLY MANAGED	5/12/2020 4:12 PM
20	I believe that keeping limited access through water entry (similar to places that have limited visitation due to having to backpack in or access via water) is best to protect the resources of this part of the coast line.	5/12/2020 3:34 PM
21	Access for disabled persons.	5/12/2020 2:40 PM
22	Open access to all beaches without daily limit of visitors since its remoteness will naturally limit use.	5/12/2020 11:34 AM
23	Access should never be granted by a lottery system, access to the California Coast is a right not luck of the draw.	5/12/2020 10:10 AM
24	Properly maintain Gaviota State park. I has always has served as the gateway to this stretch of coastline.	5/12/2020 8:25 AM
25	The place is already at maximum capacity. Increased footprint is not a good phenomenon	5/12/2020 2:52 AM
26	Increased vehicular access to the ranch would be very challenging given the present infrastructure. Pedestrian access (such as the lost coast trail in Northern California) would be far preferable to vehicular access.	5/11/2020 11:39 PM
27	Keep existing plan	5/11/2020 10:06 PM
28	Opportunity for the state to set up bathrooms, haul water, haul sewage And employ a police force to manage all safety rules and to protect owners	5/11/2020 8:42 PM
29	If any access is ever granted it should be very limited and very controlled. The government needs to protect the owners'property rights and the local environment before the giveaway to the public at large.	5/11/2020 8:36 PM
30	Please DO NOT allow vehicular access by the public, we don't want tax dollars to pay for roads. walk/bike path only	5/11/2020 6:55 PM
31	Continue the Hollister Ranch access opportunities that exist presently.	5/11/2020 5:55 PM
32	These questions seem to be biased towards mostly positive outcomes, we think public access is full of challenges that are not mentioned as options?	5/11/2020 5:21 PM
33	Access should NOT be provided through existing private roadways unless the County and CCC take over maintenance of those roads and compensates Hollister Ranch HOA.	5/11/2020 5:12 PM
34	A good paved trail for pedestrians and bicycles is a good idea, but without limiting access. No motorized vehicles should be allowed. Requiring visitors to walk will automatically limit the number of visitors to those who are really committed. The trail to Trestles is a good example.	5/11/2020 5:03 PM
35	I checked the forth item on the list as it is the closest to an educational component that would provide an environmental, cultural, historical context to the area and stress the importance of	5/11/2020 4:03 PM

Hollister Ranch Coastal Access Program: Public Survey #2

protecting the biological diversity of the ranch's ecosystem.

36	Use the agreement that was already agreed to by the Hollister Ranch HOA and the Coastal Commission.	5/11/2020 3:42 PM
37	LEAVE IT ALONE	5/11/2020 3:40 PM
38	Native American cultural monitors for any improvements, construction and tourism in Native American cultural resource areas	5/11/2020 3:11 PM
39	Reasonable amounts of parking at a reasonable price; perhaps include the beach in the State Park system and allow pass holders to use their passes	5/11/2020 3:07 PM
40	If granting more convenient access to Hollister Ranch is truly a priority, why hasn't the Gaviota Pier been fixed? Your survey results should also include a clear answer to this question as it is something that everyone with any knowledge on this topic would like to better understand, it is the easiest and probably least expensive way to create more convenient beach access and I suspect it would be free from all controversy, unlike this current program.	5/11/2020 2:56 PM
41	Make Hollister ranch accessible for everyone, by maintain strict controls allowing most people to access either by bicycle or foot only. Those with disabilities should be provided equitable access via use of a shuttle to specific destinations. DO NOT ALLOW ACCESS by PRIVATE CAR TO ANYONE	5/11/2020 2:54 PM
42	Allow unlimited pedestrian bicycle access to Ranch roads that lead to beaches	5/11/2020 2:53 PM
43	Covered in previous responses.	5/11/2020 2:52 PM
44	No limits to public access. Period.	5/11/2020 2:45 PM
45	Shuttle people in like they do at Zion National Park! Reduce vehicle presence.	5/11/2020 2:44 PM
46	I do not believe that any changes to the current access status would be beneficial	5/10/2020 8:34 PM
47	Any expanded access program must protect the environmental and cultural resources of the area.	5/9/2020 5:21 PM
48	Potential to expand programs currently in place	5/9/2020 11:10 AM
49	In the past the Ranch has voluntarily administered an access program for school and scientific groups at no cost to them. The cost of this effort is significant and the volunteers available to oversee it is limited. I have yet to see any proposal or effort by the State or other public body to offer to compensate the Ranch or its owners to increase this access	5/9/2020 8:22 AM
50	Keep it as it is.	5/8/2020 2:10 PM
51	none	5/7/2020 10:38 PM
52	Leave the property to be managed by the owners of said property.	5/7/2020 10:25 PM
53	no more than 20 people per day with a permit required, day use only.... access starts at dawn and out by sunset. All "walk-in" visitors must sign a hold harmless agreement for the HROA when obtaining a day use access permit.	5/7/2020 8:13 PM
54	Entry only with state-mandated chaperone for the safety of the participants.	5/7/2020 6:04 PM
55	Can't think of one opportunity that would work well	5/7/2020 5:50 PM
56	I'm torn about allowing vehicular access but limiting the number of vehicles and parking permits ... seems reasonable, but could the County afford the staff time to do this?	5/7/2020 5:00 PM
57	Educate public at Gaviota state park that they are welcome walking up the open coastline, kayaking or boating as people do now to freely access that area	5/7/2020 4:10 PM
58	Don't allow public to access the ranch.	5/7/2020 3:43 PM
59	The existing Ranch road is not safe for public vehicles. It is narrow, windy, occupied in area by cattle and requires train track crossing. There would be liability issues. Although a surface trail seems more reasonable, the terrain would make that very difficult. Definitely any access would need to be limited to protect the environment	5/7/2020 2:26 PM
60	This is a rural area. Leave it like that. And no, I don't own property there. But the state is rarely	5/7/2020 1:43 PM

Hollister Ranch Coastal Access Program: Public Survey #2

a good steward.

61	I am sorry but I do not want to provide access to our private property. Access is available by water craft.	5/7/2020 1:10 PM
62	Why would the state be allowed to force land owners access to private land. Does this mean the state can also do this for my porperty?	5/7/2020 12:42 PM
63	include parking for horse trailers	5/7/2020 12:00 PM
64	There are no benefits to improved coastal access. We have more State beaches in the immediate surrounding areas than any other part of the California coast. Right now, this part of the coast is pristine and perfect as it is virtually untouched. The coastal commission efforts remind me of a story of a western anthropologist that studies a remote tribe for her documentary only to find out that her introduction of western lifestyle ruined the tribe and destroyed the natural environment. There is graffiti on trees on the trails in SB, Malibu beaches are filled with trash and all for what? Is more concrete good for the environment? Is Vandenberg going to open their beaches? The angle here is derived from a scary and larger social agenda led by people who are misinformed. Santa Barbara residents understand how many lies have been told by the LA times and other groups. It is negligent for Monique Limon to have written a bill that adversely effects a place she has never been...and it is only 30 minutes away.	5/7/2020 10:01 AM
65	respect the rights of private property	5/7/2020 8:57 AM
66	Open access to other surrounding beaches as well to help with potential overuse of the historical Hollister Ranch	5/7/2020 8:32 AM
67	don't think access should change	5/6/2020 10:57 PM
68	reducing the permitting fee. I just want to build a shed.	5/6/2020 8:59 PM
69	Leave it alone. Whatever options above are taken would only make the place LESS desirable.	5/6/2020 8:45 PM
70	None of the above	5/6/2020 6:50 PM
71	The Hollister Ranch environment is unique and has many plants and wildlife that is only found in this location and this should be taken into account when considering access of any kind.	5/6/2020 6:38 PM
72	Gaviota state park has a lot of issues that the state has not resolved. Examples would be closures due to flooding, weather with all of the wind, it is not a friendly environment to camp in. So why would you expect Hollister Ranch to be any better than Gaviota State Park.	5/6/2020 6:28 PM
73	Allow access but limit the land access to designated areas, and charge a day use entrance (aka) the Carmel 20 mile drive .	5/6/2020 6:02 PM
74	Opening up Hollister Ranch to the public access and the development thereof is a direct destructive force upon the beauty of this uniquely preserved natural place.	5/6/2020 5:56 PM
75	Spend time and money maintaining or improving existing infrastructure elsewhere. All other suggestions violate property rights, waste taxpayer money, and cause environmental damage to one of the last remote places on the CA coast.	5/6/2020 5:50 PM
76	allow everyone access to Hollister ranch at all times	5/6/2020 5:26 PM
77	None	5/6/2020 4:49 PM
78	Again, Gaviota Park is on land that was donated by the Hollister Ranch to provide for public access to wilderness and beach areas.	5/6/2020 4:47 PM
79	There in no opportunities that I believe would work well if access was increased throughout the Hollister Ranch.	5/6/2020 4:23 PM
80	if This does happen people should not be allowed to drive on the ranch roads. There would need to be some sort of security to ensure people do not leave the beach and trespass on private property.	5/6/2020 4:22 PM
81	None. Who is going to patrol and enforce any of the above listed measures?	5/6/2020 4:22 PM
82	People just coming in can be a disaster. There's little respect for a sensitive area. The variety of wildlife makes it important to protect it. We need this to educate kids from the city in a controlled	5/6/2020 3:33 PM

Hollister Ranch Coastal Access Program: Public Survey #2

	manner only.	
83	Implement a managed access program for environmental research and study	5/6/2020 3:11 PM
84	I do not believe Hollister Ranch should be open to the public, and I do not have a dog in this fight. California does not have the resources or money to manage what they currently control much less a vasyt new area like Hollister. The residents have been great stewarts of the land and it is shameful that it has become an enviromental shiny object because of the "Steve Lopez" article in the LA Times. There are ten of miles of beaches landlocked between Santa Barbara and Point Conception. Why are they not on the radar?	5/6/2020 2:48 PM
85	The State and County government cannot afford to act as benevolent uncle to the people who are too unmotivated to access the Ranch on their own either by boating, or by working, saving and purchasing.	5/6/2020 2:37 PM
86	If you want HR to be open to the public, have the pubic buy the owners out and turn it into a state park	5/6/2020 2:33 PM
87	NO BENEFITS	5/6/2020 2:20 PM
88	None. Private and educational groups can access now If they really desire.	5/6/2020 12:54 PM
89	Access means development. Access requests are developers in disguise. Were not buying what your selling.	5/6/2020 12:30 PM
90	limit access	5/6/2020 12:27 PM
91	I agree that the pier at Gaviota needs to be repaired so that boats can launch again	5/6/2020 12:14 PM
92	It's all private property accept the beach...so, I don't think these opportunities listed above should be assumed. The only one that doesn't infringe on property rights is improving the pier and boat ramp which have been neglected by the state for years... the state cannot and should not pursue any mandates or "opportunities" that infringe on owners legal right to their private property.	5/6/2020 12:04 PM
93	I think the state should focus on re-opening Gaviota State Beach Park, directly next door, and stop wasting taxpayer funds on this subject of opening the Hollister Ranch to the public.	5/6/2020 11:47 AM
94	Follow what the original access program was intended for which is for specific educational and to serve populations that otherwise do not have equal opportunities.	5/6/2020 10:58 AM
95	There are literally hundreds of other beaches in California. Leave Hollister Ranch alone, and let it stay in it's natural state. It's the last relatively untouched slice of California's coast.	5/6/2020 10:43 AM
96	I am a HUGE fan of bike, walk, boat access only, except for people with disabilities (ADA laws must be followed).	5/6/2020 10:12 AM
97	Even allowing a limited number of public vehicles per day will greatly degrade the Ranch's current pastoral environment. Witness the trash, road destruction, bonfires, and general chaos that occur at San Onofre State Beach Park every day! That is a limited use facility, that has become completely overrun. Cars line up at 4:00am to await the park opening at 6:00am. It is an environmental wasteland. The general public has no respect for the private property that they will be travelling across, and they do not realize the sensitivity of the beach environment. Hollister Ranch beaches will essentially be destroyed within 5 years.	5/6/2020 10:01 AM
98	"improved parking" means degraded nature and an attack on bio diversity. The roads cannot handle more cars - too dangerous. Not acceptable.	5/6/2020 9:58 AM
99	Some sort of trail seems to make the most sense considering the roads are private . Obviously some sort of regulation on the amount of people will have to be implemented as the land is too fragile to hold a substantial amount of people	5/6/2020 9:52 AM
100	Liability, eminent domain, rule enforcement, regular maintenance of facilities and managing access - all of these issues require significant funds and a diligent group of employees. I do not believe that all of these challenges can be met and well executed by the State Parks of California. That which is owned by everyone is owned by no one.	5/6/2020 9:45 AM
101	everyone in the state should adhere to the restrictions the property owners have agreed to in there by-laws every day since the Ranch agreement was signed by the state and the developers. Like first of all, its owners only, and they are very restricted.	5/6/2020 9:34 AM

Hollister Ranch Coastal Access Program: Public Survey #2

102	I don't think there should be access for the public. the area between El Cap /Gaviota is not used now.	5/6/2020 9:28 AM
103	There may be a misconception about our (HROA) ability to lead more docent tours (for free). In 1980 when my family became part of the ranch community, I signed up for the Conservancy Committee. While meeting monthly, we talked about how we could be good stewards of the land. We decided educating our fellow members would be a good activity so we started the first nature walks. I was 26 years old. All my work was (and is) done as a volunteer and has continued as such for 40 + years. The time it takes to put activities together is even more so at the Ranch due in part to the remote location. Some challenges are strong winds, lack of computer & cell phone access, caution about all kinds of safety like fires, snakes, getting vehicles stuck, privacy issues from other members, limited water, needing 4-wheel drive in the back country, care around the cattle, round-up season, extra trash (the list goes on & on). One reason I had confidence in leading nature walks, was because of my medical training and work in a doctor's office. I often used my first-aid kit.	5/6/2020 9:25 AM
104	educate the public that not all sensitive areas need to be accessed by everyone, but are better with as little human access as possible	5/6/2020 9:10 AM
105	Keep the ranch highly restrictive to protect the environment	5/6/2020 9:04 AM
106	All of these activities would imperial the natural habitat	5/6/2020 8:49 AM
107	Leave it natural and u touched	5/6/2020 8:33 AM
108	Do nothing. Put resources to improving access and facilities at the many other public locations around the SB coast. Don't attempt to fix something that isn't broken with respect to Hollister Ranch.	5/6/2020 8:27 AM
109	keep it private	5/6/2020 8:06 AM
110	develop a community of volunteers and/or a foundation to raise money and awareness if the state doesn't have the money.	5/6/2020 8:05 AM
111	Limit access. A 'daily' basis is too frequent. Limit visits to 5 days a month.	5/6/2020 8:00 AM
112	As currently proposed, there are no benefits to allowing the public to impact this special area on our coast. The public has destroyed enough of our marine resources.	5/6/2020 7:46 AM
113	Again, I think preservation and conservation should be the priority. Education for young people, conservation and clean up efforts are great ways to expose folks to the magic of the ranch. If it gets opened up, it will end up looking like every other beach parking lot in SoCal, do we really need that? Once it is gone it is gone forever.	5/6/2020 6:47 AM
114	Leave Hollister Ranch they way it is	5/6/2020 6:11 AM
115	Seriously? These efforts require substantial oversight/management at taxpayer expense.	5/5/2020 11:33 PM
116	Again, I fail to understand the basic concept of how a non-owner is allowed to drive on a private owner's land, period. I'm not a rich man, and I've saved my entire life to own the smallest portion I possible could because I wanted to live this lifestyle. I simply don't understand, no matter how much lawyerly, political spin you put on it, how a visitor who has done NOTHING is simply allowed to come across my property. If you had a beautiful waterfall in the backyard of your home that you saved your whole life for and worked hard to perfect, but I REALLY like that waterfall, should I just be allowed to walk through your house and get to check it out? I mean, it's a BEAUTIFUL waterfall - everyone should be able to see it, right? Who cares if it's your private home and land you worked for and were fortunate enough to have this lovely waterfall on - I WANNA SEE IT!!! ME ME ME!! Does that sound fair? Regardless, if I'm FORCED to choose one of your very slighted answers above, it would be very limited access by lottery or some other mechanism. Some of the stuff you listed, such as docent led hikes, ALREADY TAKE PLACE. And if you somehow get this through, the people sure as hell better be educated, because if people start destroying nature, it won't work out well.	5/5/2020 10:55 PM
117	If access limitations are imposed by headcount or vehicle count, then automated on-line system is necessary for visitors to check access availability before driving the distance to the Ranch. This system will conserve fuel and vehicle emissions to atmosphere and minimize trouble makers that enter the Ranch through unauthorized roads, trails, paths, bushwhacking	5/5/2020 10:41 PM
118	Sadly it's not acceptable to take private land and make public	5/5/2020 10:13 PM

Hollister Ranch Coastal Access Program: Public Survey #2

119	Follow the model of Sedgwick Reserve- access supervised by docents and on,y by appointment	5/5/2020 9:14 PM
120	Close access during snowy plover mating	5/5/2020 8:37 PM
121	Only access for owners and their guests	5/5/2020 8:28 PM
122	The public is in dent to Hollister Ranch owners for preserving the Ranch. Any measured amount of public access should be mananged by the Ranch it self. The state of the Ranch is paramount, and public access should not be allowed to physically change the Ranch or its function for the property owners.Every beach has its own spirit, and the Ranch is the Ranch. I live in Dana Point and grew up in Malibu, and each location has a differemt spirit. The Ranch must be allowed to be the Ranch, and not turned into something that can be found just down the road.	5/5/2020 8:25 PM
123	fix trail to beach	5/5/2020 8:21 PM
124	none	5/5/2020 8:19 PM
125	fix the hoist at the pier to allow boat launching	5/5/2020 8:17 PM
126	continue managed access for programs where people are being helped with their disabilities or for educational purposes like tide pool schools. Colleges could use the programs to enter to study an area not yet ruined by mans hand.	5/5/2020 8:10 PM
127	Zero reason why access would be beneficial. There's miles of existing coastline already available.	5/5/2020 7:55 PM
128	None of the above, the ranch should stay as is and not allow any of the above stated activities ever!	5/5/2020 7:49 PM
129	Increased access is a bad idea.	5/5/2020 7:48 PM
130	It's Private Property. Let the Owners decide what they want to allow or not allow. This question is Obviously designed to entrap the survey taker.	5/5/2020 7:46 PM
131	No access should be allowed, period! the Coastal Commission needs to protect this stretch of wild and undeveloped coaslinet, public access would ruin it forever. We should be considering access to land that we the people already "own", the stretch of coastline above Jalama Beach into lower Vandenberg Air Force Base. The public needs limited access on this section, it is not private property, and the infrastructure at Jalama County Park can be improved to accommodate this.	5/5/2020 7:26 PM
132	I would do nothing and try to make it the way it's always been. You either know or you don't	5/5/2020 6:58 PM
133	I would suggest having some of the Santa Barbara commercial vessels such as Island Packer, Whale Watchers, Etc. do trips to the Ranch and back	5/5/2020 6:19 PM
134	Work your ass off for 35 years and dream and then buy the place 5 times, that's what I did, it meant that much.	5/5/2020 6:07 PM
135	The Hollister Ranch owners have shown great concern for preservation of wildlife on this natural habitat and don't need oversight by separate especially governmental agencies to supervise these efforts. Review their lengthy and ongoing history of conscientious preservation while allowing small groups access to learn from and enjoy these resources. Preservation of natural habitat is extremely fragile and, once lost, is difficult or impossible to regain.	5/5/2020 5:27 PM
136	A limited managed access plan as stated before, dovetailing on the existing managed access plan seems most sensible.	5/5/2020 5:01 PM
137	I am not a property owner at hollister ranch but as a taxpayer it gives me great concern that my tax paying dollars would be used for infrastructure development on private owned land. While I'm sure there are benefits to California residents as a whole, I cannot imagine that the additional cost burden these programs would require is worth funding given that there are many public spaces available along the coaat line. I would much prefer my tax dollars be used towards existing state parks and beaches to ensure their proper upkeep or better yet be used to further fund our health care system that in these days should take priority over opening up access to surf breaks	5/5/2020 4:54 PM
138	The Hollister Ranch Owners Association currently provides, at its cost, a public access program	5/5/2020 4:50 PM

Hollister Ranch Coastal Access Program: Public Survey #2

for educational and scientific groups. The above list of "opportunities" ignores the issue of how to pay the COST of implementation. The cost factor must be included in order to make a meaningful evaluation of each opportunity. From my point of view, the current access program provided by the HROA is an excellent way of providing public access to the Ranch, and it could be enhanced if the State of California were willing to pay the cost of enhancement. Any of the other "opportunities" listed above are patently unreasonable given (a) the lack of a means of paying for them, and (b) the lack of a means of controlling persons visiting the Ranch so that they do not engage in behavior that is hazardous in terms of risk of fire, injury, or environmental degradation. Incidentally, it should be pointed out the the Ranch is private property and was created in accordance with all California laws when it was created. The State of California has no right whatsoever to any of the "opportunities" that are listed unless the people of the State are willing to pay the cost of implementing them.

139	Just keep it as it is	5/5/2020 4:31 PM
140	No access except by the residents	5/5/2020 4:02 PM
141	Leave it the way it is, the state of California doesn't have a comparable beach that exists in the state that exemplifies The highest levels of stewardship and environmental custodial thinking that exists and has on the Hollister Ranch since it's inception	5/5/2020 3:51 PM
142	There should not be increased coastal access. It would destroy nature.	5/5/2020 3:30 PM
143	The trail throught the ranch should connect with other trails that permit hikers and bicyclists to complete a coastal trail (with the exception of Vandenberg base, of course.	5/5/2020 2:23 PM
144	There is already access to the beaches along the coast including Hollister Ranch area beaches on foot or bicycle from the Gaviota State Beach Park, which is a short distance from the entrance to the ranch. The State beach provides reasonable access already, but the State beach is underfunded and the pier needs maintenance. The state should fund this maintenance and provide proper funding for the State beach before opening Hollister Ranch to the public.	5/5/2020 2:10 PM
145	Create a hiking trail from Jalama to Gaviota.	5/5/2020 1:57 PM
146	Allowing extra vehicles would be a terrible idea. Definitely do not do that.	5/5/2020 1:44 PM
147	The ranch is in a natural state, leave it that way	5/5/2020 1:04 PM
148	Public access to all the main beaches that the home owners already have access to. They have been thwarting the law and the constitution of our state far too long. They don't get to decide any longer. Full access. Of course this will be limited by the amount of parking available.	5/5/2020 12:58 PM
149	It needs to be managed by an escort for each group to prevent trespassing	5/5/2020 12:57 PM
150	I believe a permitting process would only work if it were run by a neurtral organization outside of the Hollister Ranch and the Conservatory	5/5/2020 12:32 PM
151	People already Safely access the Hollister Ranch coastline. Creating a trail or letting people freely roam on the land would be a logistical nightmare. Who's going to pay for a fire that wipes out property owner homes? who's going to pay for someone who breaks their leg on private property from falling of a cliff? or arson? hit by a train? or drowning? I hear the waves and rip currents get big there. how will these people be accounted for? The coastal commission should quit their losses and wrong use of tax payers dollars and work on improving the deferred maintenance of already existing beach access trails.	5/5/2020 12:30 PM
152	Any use of Hollister parking or roads should be paid by State as the ranch owners built them and maintain them and they are NOT for public use.	5/5/2020 12:19 PM
153	No vehicular access should be permitted as the roads are narrow and dangerous and cattle crosses the roads constantly	5/5/2020 12:18 PM
154	Ideas at the February 20th Goleta workshop that reflected a workable and practical understanding would be Box #3 (education) and Box #8 (repairing the Gaviota pier). The other concepts, except maybe the vaguely worded Box #10 (manage and improve resources), appear highly unworkable.	5/5/2020 12:10 PM
155	Just a question: Why are leisure activities, guided tours, boat launching, etc. at the beach considered a right? Anything that increases numbers by anything but a tiny amount is hazardous to this delicate ecosystem.	5/5/2020 12:08 PM

Hollister Ranch Coastal Access Program: Public Survey #2

156	Geographically and from an infrastructure standpoint, there are tremendous health risks and excessive and arguably unnecessary capital improvements costs associated with allowing individual public access on the existing road system at hollister ranch, car accidents, fires, restrooms, policing are expensive and poses high liability to the state of california and to the taxpayers of california. California should place priorities elsewhere in Goleta state parks or their inner cities versus wasting time and tax payer money providing limited access into this ranch when there are 30 miles of similar coastline south that offers public great beaches and nature experiences.	5/5/2020 11:48 AM
157	With no mention of the cost or challenges to implement any of these it is impossible to select some of the options. How will the State pay for the use of a private road and its maintenance and upkeep? How will the State pay for beach parking facilities and restrooms? Asking responders to pick among alternatives that may not even be feasible or financially viable does not seem like the way to elicit meaningful responses.	5/5/2020 11:46 AM
158	It's far too dangerous for bikers to be near the road and it's near to impossible to even develop foot or bike trails. The lands is extremely mountainous and it would be difficult to develop extensive safe trails for the public that are not in vehicles, and it would be an overload for the road system if the amount of vehicles is increased.	5/5/2020 11:32 AM
159	I do not want Hollister Ranch to become accessible to the public	5/5/2020 11:20 AM
160	The liability of the public using private property to access public beach is a huge liability issue. The privately owned roads are narrow and not up to Caltrans specifications. How will public vehicular or bicycle traffic navigate a private road without lawsuit.	5/5/2020 11:19 AM
161	I do not believe the public should access the Hollister ranch beaches unless through current legal methods.	5/5/2020 11:15 AM
162	Provide a pedestrian trail system for day use.	5/5/2020 11:11 AM
163	Wide open access will ruin this pristine coast and the wildlife. Only thoughtful planning around a limited number of people. It must be managed and regulated. Anything else would be wrong. Also, I would think Property owners would need to be reimbursed for loss of value to their properties. That would only be fair if the state planned to seize Private property.	5/5/2020 11:11 AM
164	None of these should be implemented. The Hollister Ranch private property and property rights should be respected.	5/5/2020 11:07 AM
165	I strongly believe that any (firm or not) trail will become an unsafe highway for electric bikes, traditional bikes, and under-prepared pedestrians; people will get hurt and California will be responsible for their injury and potential death.	5/5/2020 10:59 AM
166	Permits. To environmental groups limited access based on Fire season's	5/5/2020 10:53 AM
167	1. It's not the public's right to access a private road. 2. There are other neighboring ranches that are also coastal, surf rich and private. 3. You would not appreciate the public having the right to walk on your private property, front driveway or backyard. This issue has much bigger implications than simple coastal access.	5/5/2020 10:53 AM
168	Don't let people in!	5/5/2020 10:46 AM
169	Again, the environmental degradation that would accompany any of these opportunities outweigh the benefits.	5/5/2020 10:45 AM
170	PROPOSING LIMITATIONS ON VEHICLE ACCESS WITHOUT ANY DATA IS EXTREMELY SUSPICIOUS TO ME. FEELS LIKE THE HOLLISTER RANCH HOA IS HAVING THEIR WAY WITH STATE AND LOCAL OFFICIALS. PEOPLE OF CA SHOULD APPEAL ALL THE WAY TO THE FEDERAL LEVEL IF FULL ACCESS PER STATE STATUTE IS DENIED. I WISH WE HAD FEDERAL OVERSIGHT AND LEGAL REVIEW TEAM TO ENSURE THE RIGHTS OF GENERAL CA POPULATION IS PRIORITY 1 FROM THEIR ELECTED OFFICIALS. I USUALLY I AM PATENTLY AGAINST FED INTERFERENCE BUT THE PROPOSALS FAVOR THE HOLLISTER HOA AND THEIR AG STATUS SHOULD BE REVIEWED AND PROPERTY TAXES RE-ASSESSED	5/5/2020 10:45 AM
171	Taking away private property rights, in this case, is fundamentally against all norms. In order to overcome that, controlled access from the gate by public transportation to a specific location would be desirable	5/5/2020 10:43 AM

Hollister Ranch Coastal Access Program: Public Survey #2

172	This Private property where cows and horse roam, where wild boar, bobcats, and coyotes are seen often is not meant to have 100's of cars, bikes, or people carelessly moving through it. As owners we have much respect and we school our guests on proper behavior and conservation. Fire is also a real concern. We all come together to prevent any disasters.	5/5/2020 10:42 AM
173	I don't understand why the state does not provide a staircase down to the beach that is closer to the HR property line so that people can walk into the ranch. The ranch is not stopping people from walking in and if they built a staircase it would be about a mile to walk in. This would safeguard the natural resources by self limiting the number of people walking in. Also fix the hoist at Gaviota.	5/5/2020 10:37 AM
174	coastal access should be greatly limited.	5/5/2020 10:35 AM
175	Limit visitors by activity (x amount of hikers per day, x amount of surfers, etc.)	5/5/2020 8:51 AM
176	Allow walk ins w/out bikes.	5/5/2020 8:29 AM
177	Walk in only	5/5/2020 7:38 AM
178	You guys can,t even fix the pier how can you be trusted with Hollister Ranch.	5/4/2020 11:52 PM
179	Close significant stretches of coastline, inland and near-shore environment to access; this survey is loaded towards increased access rather than protecting and restoring ESHAs; this is a project that should have the participation of the OPC, at least based upon their enacting legislation.	5/4/2020 11:11 PM
180	I dont think access should be limited. I think numbers will be controlled by the size of the parking lots. Some trails or paths should be handicap accessible.	5/4/2020 10:33 PM
181	Any access opportunities requiring development, improvements, maintenance, or oversight must be funded by the state	5/4/2020 9:44 PM
182	I live adjacent to Newport Beach and Huntington Beach. I don't believe monitoring the number of visitors. If one beach is too crowded here people just go to another one. I think Hollister Beach should be owned and operated by the state like Crystal Cive in southern Calif. and El Capitan in Central Calif. I've never seen El Capitan too crowded. I believe limiting the numbers is just another control that Hollister Home owners want to maintain. They have held Hollister Beach captive for long enough. This has got to stop.	5/4/2020 9:37 PM
183	Allow unlimited foot, bicycle access to coastline via coastal access corridors or existing roads.	5/4/2020 8:06 PM
184	There are no public restroom facilities - how are you going to manage that with people coming to those beaches? You should limit the number of people allowed to walk on foot into the ranch on one beach.	5/4/2020 7:59 PM
185	Include under represented communities, consider equity	5/4/2020 7:32 PM
186	make sure it is handicap accessible as well - meaning a person who is handicap can drive or have an alternative to access the area.	5/4/2020 6:45 PM
187	I strongly encourage an emphasis on human-powered travel (biking, running, walking) along paths and trails. This would include construction of a new, dedicated, environmentally sensitive trail system which would traverse the entire length of the Ranch, east to west. This would not only satiate some of the Ranch owners' demands, it would encourage people to actively be in nature, and would almost certainly lead to greater appreciation for the unique ecosystem that is the area around Point Conception.	5/4/2020 5:55 PM
188	Use an adaptive management strategy, whereby implemented policies that are not working are revised to solve any issues that may arise.	5/4/2020 5:15 PM
189	Provide reasonable number of vehicle parking spots that by definition would limit the number of visitors. If permits are needed, do it on the spot for those who find parking. Keep it simple.	5/4/2020 5:14 PM
190	DO NOT allow motor vehicle traffic, if that is allowed the state will have to pay for the roads and the it's unfair to owners of HR	5/4/2020 5:13 PM
191	Allow pedestrian and bicycle access to Ranch roads or to new trails that lead to several beaches whitout any quotas	5/4/2020 4:57 PM
192	I'm not clear by the choice of 'implement efforts to manage and improve environmental resources through active enhancements and protections". What would these be, specifically?	5/4/2020 4:23 PM

Hollister Ranch Coastal Access Program: Public Survey #2

Also, I assume that the firm surface mentioned in the first choice would allow launching of kayaks wheeled onto the path, in order to launch kayaks from the area.

193	All of the options are about limiting the public access.	5/4/2020 4:15 PM
194	provide some additional parking space for visitors, not residents, then limit number cars and total visitors; require HOV of 2+ (no single occupant cars)	5/4/2020 4:11 PM
195	Ensure any system is ADA accessible, eg. if only bikers/pedestrian access allow a number of ADA permits for drive in.	5/4/2020 4:10 PM
196	Limit locations cars can go but create plentiful hiking trails	5/4/2020 4:06 PM
197	I do not think this Ranch coastal area is any different than the other established beach sites in the Goleta/Santa Barbara areas.	5/4/2020 4:00 PM
198	Any increase in human access to this wild, remote and beautiful coastline will be degrade the unique flora and fauna of the Hollister Ranch.	5/4/2020 3:46 PM
199	NO limits	5/4/2020 3:17 PM
200	Limit the number of vehicles by limiting the number of parking spaces. Limit the size of the vehicles. NO big RV's, trailers, etc. The permit process is too easy to be manipulated. Provide plenty of trash cans and pick up frequently. Stay on path rules, etc. The Ranch surfers and ALL of the public come to our neighborhood of Sunset Cliffs and our City and residents deal with it. We keep it clean. Teach kids to respect their environment and leave no trace. Too late for many adults, unfortunately.	5/4/2020 3:08 PM
201	allow access just like there is access to Venice Beach where I live. The beach is not a private amenity, but a public good.	5/4/2020 3:07 PM
202	This beach should be treated the same as other California state beaches. Just because the neighbors are rich is no reason to create special requirements for the public to use the resource.	5/4/2020 3:04 PM
203	* private roads could be maintained by county resources	5/4/2020 3:00 PM
204	Any access should be with docents, supervised.	5/4/2020 2:58 PM
205	Fix the pier	5/4/2020 2:55 PM
206	These limits are not appropriate. Full public access means just that. I should not have to sign up or win a lottery to go to the beach.	5/4/2020 2:55 PM
207	provide equestrian access, and parking area/trailhead for equestrian use (possibly outside the property) with trails linked the ranch	5/4/2020 1:04 PM
208	I agree with developing a firm surface trail to reduce erosion in the rainy season, but I don't agree with limiting the total daily number of users, unless overuse becomes a problem. I doubt it will.	5/4/2020 3:10 AM
209	We support a firm trail for (non-electric) bikes and pedestrians, but no limit to daily users. People who want to walk that far should be able to.	5/3/2020 12:23 AM
210	Allow permitted visitors to enter by vehicle up to Razors, but require that they leave HR within 30 minutes of sunset. This could allow owners to still enjoy the majority of coastline without non-owners and preserve their property value.	5/2/2020 6:06 PM
211	A very smart friend of mine who is n Owner, a lifetime resident and a successful architect thinks limited permit access through Bixby is the best answer.	5/2/2020 7:35 AM
212	Provide for the use of active coastal recreation such as surfing, kayaking, etc. for at risk and under privileged groups and wounded veterans.	5/1/2020 2:31 PM
213	Require a visit to an Environmental/Cultural visitor's center before coming to the Hollister Ranch, for information, education, safety, etc. The Center could be located at Vista de las Cruces school.	5/1/2020 11:48 AM
214	A major challenge is how will this all be funded? And how much will it cost? This is especially crucial in this upcoming time of financial crisis in which state budgets are being stretched and should only be used for essential purposes.	5/1/2020 11:42 AM

Hollister Ranch Coastal Access Program: Public Survey #2

215	Develop a firm surface trail for bikes and pedestrians that would provide access to one or more beaches.	4/30/2020 9:57 PM
216	Implement efforts to manage and improve environmental resources through active enhancements and protection	4/30/2020 7:01 PM
217	The last option says implement plans to improve. However the environmental aspects of the ranch need only to left alone with no "improvement" necessary. This is pure bureaucracy at it's worst. The owners have managed this for fifty years, that is why it is so special in the first place. Through their diligent management.	4/30/2020 5:51 PM
218	Limit access to one HR beach only...near to Ranch gate entrance, with limit on daily number of users. Phase 1	4/30/2020 4:12 PM
219	Increasing educational, managed access programs already in place should be studied through cost/benefit lens	4/30/2020 3:57 PM
220	provide firm surface pedestrian hiking and bicycles that would provide access to entire 8 miles of Hollister coastline which is public beach per California state law. Of course, maintaining respect for private property is utmost as in all areas where public has access. Road access with parking would be wonderful because older poeple such as myself and my partner (68 / 70 could drive there and then hike and beach recreate from there. Long bicycling and hiking is too much activity for us.	4/30/2020 3:39 PM
221	NO limits	4/30/2020 1:54 PM
222	There are plenty of nearby public beaches	4/30/2020 10:40 AM
223	Programs that provide access for educational programs, docent led walks and surfing groups already exist. The sensible way to provide more public access is to expand these programs. Allowing unrestricted public access would be a disaster in terms of safety, security & environmental degradation.	4/30/2020 10:31 AM
224	Organized group tours focused on wildlife such as birdwatching with docents.	4/30/2020 10:16 AM
225	Keep people out of there. They will destroy it	4/30/2020 10:10 AM
226	There is no way the general public should be allowed to drive into Hollister Ranch. This is private property.	4/30/2020 8:52 AM
227	Improve, repair and expand the existing trail systems throughout El Capitan, Rufugio, and Gaviota State parks.	4/30/2020 8:37 AM
228	IMPROVE AND REDO GAVIOTA STATE PARK + BEACH COMMON AREA FOR THE PUBLIC! PLEASE MAKE THIS AN OPTION BEFORE ACCESS TO HOLLISTER RANCH!	4/30/2020 8:01 AM
229	Extend a footpath, the California Coastal Trail, across the length of Hollister Ranch	4/30/2020 7:38 AM
230	Hosted responsible access	4/30/2020 7:04 AM
231	Not happy with any of these choices except perhaps the educational aspect for the children is SMALL group. Allow a very specialized tour guide along with security guide to guide a very limited number of people to view the scenery at the beach. They would have to be tested for health conditions	4/30/2020 7:02 AM
232	Soft trail access with permitted parking for handicap access	4/30/2020 6:54 AM
233	I believe that there should be NO restrictions on the number of people who can access the beaches of Hollister Ranch on a daily basis. A single, all-weather trail to a beach that would allow lateral access to all of the other beaches would be sufficient.	4/30/2020 3:50 AM
234	(These options further indicate the 'preciousness' of the landowners)	4/30/2020 12:19 AM
235	Keep it like it is now.	4/29/2020 11:06 PM
236	Much as I'd love to drive in, allowing private cars will ultimately increase trash, loose dogs, etc. Bicycles and shuttles would limit these effects.	4/29/2020 8:37 PM
237	Allow up to x vehicles a day or pay by hour	4/29/2020 8:25 PM
238	keep public access	4/29/2020 8:04 PM

Hollister Ranch Coastal Access Program: Public Survey #2

239	Environmental research carried out by qualified scientists and students who are supervised.	4/29/2020 7:53 PM
240	Local residents respect and maintain the property more than visitors would	4/29/2020 7:41 PM
241	You can already walk into and enjoy the beaches of the ranch.	4/29/2020 7:35 PM
242	there is access by boat and walking at high tide	4/29/2020 7:17 PM
243	Create managed access program to showcase Ranch history, wildlife, flora & fauna and western heritage to preserve it as it is.	4/29/2020 6:58 PM
244	Provide rest rooms at the ends of shuttle access roads at each beach. Provide staff for daily litter clean up and removal	4/29/2020 6:40 PM
245	Allow free open unfettered access to the entire area	4/29/2020 6:37 PM
246	Increased access is not a benefit	4/29/2020 6:35 PM
247	There are so few wild coastal areas left in Southern California. We need to keep this one wild.	4/29/2020 6:21 PM
248	trail for bikes and pedestrians, no limit of daily users.	4/29/2020 5:29 PM
249	Develope a limited access, walk-in system. A limited number of day passes (5 or 10) would be available on a first come, first serve basis. A similar number of passes would be available via reservation. Charge a reasonable fee. This is similar to the Nature Conservancy system used on the McCloud River.	4/29/2020 5:09 PM
250	Walking biking trail no limits on beaches or users	4/29/2020 4:55 PM
251	dont limit number of people accessing site. Can require education video, but no permits for access.	4/29/2020 4:54 PM
252	No public access is best.	4/29/2020 4:50 PM
253	Fix the pier hoist	4/29/2020 4:25 PM
254	Keeping trails natural and parking at minimum will limit use without the need for trail quotas	4/29/2020 4:19 PM
255	Preserve the Ranch as a designated wilderness area. Restrict further development of any kind. Limit access.	4/29/2020 4:16 PM
256	Early morning (pre-dawn even) access is critical for surfers, so any access granted needs to allow early AM parking/access.	4/29/2020 4:09 PM
257	Do not intrfere with owner's enjoyment.	4/29/2020 4:05 PM
258	People can kayak or walk in along the beach from Gaviota state park as this is the way I've always done it. Public access is allowed up to the mean high tide line	4/29/2020 4:05 PM
259	Tour buses sound very problematic. I suspect large groups of people from buses will trample sensitive vegetation, litter, and erase any sense of being in nature. I do support limiting vehicle access so pedestrians and bikes have safe and reliable access on the roads. Pedestrians and bikes should be the primary road users. However, limiting car access needs to be done in a equitable way. Before supporting parking permits I would want to hear some case studies of how this has worked in similar situations.	4/29/2020 4:00 PM
260	I think it's a bridge too far to expect unsupervised vehicle traffic over the entirety of the ranch road to access beaches. Also, to access most (if not all) of the beaches below the mean high tide mark is possible with access to the first stream outflow. The only reason we don't all walk into the ranch on a regular basis is the point of land that is approximately parallel with the guard gate. Once around that point on the beach the remaining 8 miles is walking accessible.	4/29/2020 3:52 PM
261	Risks outweigh benefits	4/29/2020 3:49 PM
262	Fix the pier and improve the existing trail to the beach.	4/29/2020 3:46 PM
263	My concern with lottery or other regulatory manners will not be equitable to a general public member	4/29/2020 3:36 PM
264	Na	4/29/2020 3:34 PM
265	I have doubts this is possible.	4/29/2020 3:33 PM

Hollister Ranch Coastal Access Program: Public Survey #2

266	Develop a way for cyclists and pedestrian access (no limit)	4/29/2020 3:16 PM
267	Allow horses on some trails and beaches perhaps near the cattle.	4/29/2020 3:03 PM
268	leave it alone. do not allow any access.	4/29/2020 3:01 PM
269	This question is leading me and I don't agree with it. I don't agree with any limitations. The ranch owners are selfish bastards and this is not about the environment at all. There is a road already. It should be made public. Take down the Kiosk and allow people to drive up the coast. Maintain the road and improve parking around the key surf spots and beaches.	4/29/2020 2:58 PM
270	Improve coastal access along freeway 101 that does not effect 100s of property owners	4/29/2020 2:58 PM
271	You are overlooking using the railroad (trolley) for access--avoiding the ranch road--a trail would be too damaging	4/29/2020 2:55 PM
272	I do not favor vehicle or motor access of any kind. I do favor restricting access and ease of accessibility to maintain the quality of the environment and ecology	4/29/2020 2:49 PM
273	no limits	4/29/2020 2:48 PM
274	Access should be by shuttle bus, bicycle or walking [hiking] with parking at Gaviota. For the bicyclist and hikers there should be suitable overnight campgrounds [one night only] spaced along the coastline and beaches.	4/29/2020 2:47 PM
275	California Coastal Trail Connectivity	4/29/2020 2:41 PM
276	Consider walk-in access from the old Bixby Ranch.	4/29/2020 2:35 PM
277	We don't feel access should be limited, however there should be paid parking.	4/29/2020 2:31 PM
278	Can't we give nature a place to live peacefully without human pressure?!	4/29/2020 2:30 PM
279	CREATE/ALLOCATE 40 PUBLIC USE PARKING SPACES, AND RUN TRIAL PHASE (18 MOS.?) TO DETERMINE IMPACTS	4/29/2020 2:22 PM
280	Provide a trail that will eventually link Gaviota State Beach to Jalama County Beach for hikers and bikers.	4/29/2020 2:16 PM
281	Opportunity - Dont make it too easy to access (like drive up beach parking). Require a little work like a 1/2 mile hike in. Requiring a small amount of effort to access the beach will deter most disrespectful people. I would love to kayak there though, so a 'walk in boat launch' is ideal as well	4/29/2020 2:13 PM
282	Relocate Gaviota Camp ground to the east to avoid the flooding that occurs during the winter	4/29/2020 2:12 PM
283	Special permitting for ADA qualified beachgoers	4/29/2020 2:05 PM
284	Inform voters of the cost and feasibility of a safe, sustainable access and management plan, and allow voters to decide if they want their tax money spent in that way.	4/29/2020 2:03 PM
285	Develop a firm surface trail for bikes and pedestrians that would provide access to one or more beaches. or Allow bicycle access to Ranch roads that lead to several beaches. .	4/29/2020 2:01 PM
286	No limits to users	4/29/2020 2:01 PM
287	Create a new organization that is run by the ranch as an Enviornmental control group to ensure access is not harmful to either nature or the owner's way of life	4/29/2020 2:00 PM
288	contains an in correct presumption "would work well"dont you get it?increased access WILL fuckit up-get real	4/29/2020 1:57 PM
289	unlimited bike access	4/29/2020 1:56 PM
290	I only have four answers here	4/29/2020 1:55 PM
291	This is all.	4/29/2020 1:49 PM

Q7 Please share with us one of your favorite beaches along the California Coast (please also list the City or County where the beach is located):

Answered: 1,366 Skipped: 49

ANSWER CHOICES	RESPONSES	
Beach	99.56%	1,360
City or County	98.61%	1,347

Q8 Think of the beach you just mentioned. Select up to five (5) reasons that make that beach one you like to visit?

Answered: 1,384 Skipped: 31

Hollister Ranch Coastal Access Program: Public Survey #2

Hollister Ranch Coastal Access Program: Public Survey #2

ANSWER CHOICES	RESPONSES	
Opportunities for passive beach recreation	48.05%	665
Opportunities for active beach recreation	40.03%	554
Easy to access via multiple forms of transportation	18.50%	256
Easy access due to proximity to my primary residence location	25.29%	350
Scenic resources	54.41%	753
Length and/or conditions of beach for walking or running	33.67%	466
Paths for walking, biking, skating, etc.	10.69%	148
Free or low-cost entrance fees	31.65%	438
Support facilities such as lifeguards, restrooms, and parking	15.03%	208
Amenities such as picnic or shade shelters, playgrounds or fitness areas	2.89%	40
Peace and quiet based on lower use levels	46.03%	637
Great wave conditions for surfing, body surfing, or sail-boarding	26.81%	371
Calmer conditions for beach use, wading, and swimming	7.66%	106
Water quality	22.04%	305
Opportunities to learn about and experience coastal plants, wildlife, or geology	18.50%	256
The feeling that the public is welcome, not "trespassing"	25.87%	358
No Reasons	0.14%	2
Other (please specify)	16.62%	230
Total Respondents: 1,384		

Hollister Ranch Coastal Access Program: Public Survey #2

#	OTHER (PLEASE SPECIFY)	DATE
1	Remoteness	5/25/2020 9:45 AM
2	Infrastructure already in place for trash collection, and on-site law enforcement by a peace officer (CA state park ranger).	5/23/2020 5:47 PM
3	It's the closest beach to my family home and was where I was born and raised. Snowy plovers have space to nest, seals have room to come up on the beach without too much human interference, the tidepools teem with sea life, and there's little to no pollution on the beach. It's a treasure.	5/22/2020 4:08 PM
4	Santa Barbara County Beaches have all of the above to offer, and why I listed three beaches for the different qualities each beach offers to meet my preference for beach access at any given time. >Santa Claus Beach is for water quality, water activity –wading, swimming and body surfing. > Sands Beach-Coal Oil Point Nature Preserve is for nature beach walks, tide pools, the scenic view of the Gaviota Coastline and a serene remote experience in coastal nature. > El Capitan State Beach is for family beach time, easy access, bathroom & lifeguard amenities, dolphin watching and long beach walks.	5/22/2020 3:53 PM
5	Restricted access limits abuse of the remaining natural wonders of Southern California	5/22/2020 3:26 PM
6	Jalama Burger	5/22/2020 2:55 PM
7	This is a favorite beach because it is remote and not easily accesible via vehicle	5/22/2020 2:35 PM
8	I like many other beaches, including Santa Monica & Manhattan Beaches in LA County which are close to my home and swimmable. But it should not be inferred from this that I think the beaches at Hollister Ranch should be like them. They are crowded and littered; there is little sea life. They are beaches the public should go to for recreation. The HR beaches serve a different purpose and should be preserved as is.	5/20/2020 3:48 PM
9	Free.	5/19/2020 3:58 PM
10	Preserve the Wilderness and the "Last Endangered Species" of the lands of Point Conception . They are THE LAST remaining remnants of the natural lands and beaches of the Southern California coastline. There are no more. They are endangered lands without an "Endangered Species Act" to protect them. Today's "California adventurer" has to travel several days deep into the off-road back country of Baja California coastline to find any similar undisturbed preserved coastal lands in "Southern" California.	5/19/2020 1:03 PM
11	More people will ruin the Ranch. It will mean no more Deer walking the beach no more wild Bore no more,it will mean no more wild life. I do agree with no more driving on the sand...	5/15/2020 10:31 PM
12	state park	5/15/2020 2:51 PM
13	clothing optional	5/15/2020 10:02 AM
14	Oh wait it doesn't matter cost because the government ruined that one too.	5/14/2020 5:37 PM
15	Less people given it's remote location. Peace and quiet,	5/14/2020 5:02 PM
16	Marine Preserve	5/14/2020 4:53 PM
17	All the above	5/13/2020 9:09 AM
18	places to eat nearby	5/12/2020 4:41 PM
19	PEOPLE HAVE'T VIOLATED IT	5/12/2020 4:12 PM
20	Access for disabled persons	5/12/2020 2:40 PM
21	Naples is isolated, has small crowds (if at all), and is respected due to its far walking distance.	5/12/2020 10:01 AM
22	Has been preserved in an undeveloped state	5/11/2020 11:39 PM
23	wildlife	5/11/2020 9:44 PM
24	First came to Refugio Beach in 1956, and have enjoyed it ever since except for the general lack of maintenance.	5/11/2020 5:55 PM
25	Not impacted by humans	5/11/2020 4:46 PM

Hollister Ranch Coastal Access Program: Public Survey #2

26	Because it is easy to access and you do not have to pack your car up like your going camping for a week and it is only a 5 minute drive from my house.	5/11/2020 3:42 PM
27	The natural beauty.	5/11/2020 3:02 PM
28	Hard to access, requires physical ability.	5/11/2020 3:01 PM
29	Find childhood memories	5/11/2020 2:56 PM
30	N/a	5/11/2020 2:52 PM
31	Peace and quiet	5/11/2020 2:41 PM
32	Bird sanctuary that is guarded by docents from UCSB. Snowy plover breeding site	5/11/2020 12:28 PM
33	The parking lot here is too small, and on busy weekends, tempers flare over lack of parking places. This was a flaw in the original plan. There is no where else to park to access this beach.	5/11/2020 11:10 AM
34	The long hike to get there and the amazing waterfall that falls onto the beach	5/11/2020 9:48 AM
35	family friendly	5/11/2020 8:15 AM
36	Hike in only, very few visitors as a result	5/9/2020 6:22 PM
37	I love LA's South Bay beaches for the broad sand beaches, the warm water, the ability to easily and relatively safely swim in the ocean; I like Big Sur beaches for their remote rugged coastline; I like knowing there are special beaches along the Lost Coast that I may never visit.	5/9/2020 5:21 PM
38	The feeling that the general public is not welcome	5/9/2020 1:51 PM
39	Access requires walking, the beach is less crowded and wild	5/9/2020 1:37 PM
40	Its a large beach from the start to the water	5/9/2020 8:29 AM
41	it was close to where I lived.	5/9/2020 8:22 AM
42	It is well preserved and presented to the public in a way that ensures its sustainability for the next generation	5/9/2020 7:27 AM
43	Railroad and tracks present! Just need more trains.	5/8/2020 11:47 AM
44	remote, difficult to access = clean, quiet and beautiful	5/7/2020 8:25 PM
45	It's a private beach hat requires access through residents and can only be accessed by public through boat if not called in by resident	5/7/2020 6:15 PM
46	This is not a relevant question to Hollister Ranch as it is such a different and special place.	5/7/2020 6:08 PM
47	It is environmentally protected	5/7/2020 5:50 PM
48	It is environmentally protected	5/7/2020 5:30 PM
49	beach is close to metropolitan area, and has good sunset viewing	5/7/2020 4:31 PM
50	Its out of the way location protects it environmentally from the devastation the general public brings with there soda containers, styrofoam chests, condoms, cigarets, and environmental and public disregard for the area	5/7/2020 4:10 PM
51	Jalama Rd. is a beautiful bicycle ride to the beach and back.	5/7/2020 3:13 PM
52	Near my relatives	5/7/2020 3:09 PM
53	There are many state beaches to enjoy the California coast. Crystal Cove is close to me. It is similar to El Capitan and Refugio,	5/7/2020 2:26 PM
54	Peaceful. Usually. Not so much in the summer sometimes.	5/7/2020 1:43 PM
55	A private beach that dates back hundreds of years managed by envirnmentalists	5/7/2020 1:10 PM
56	Trail head contains parking for horse trailers	5/7/2020 12:00 PM
57	I go for the beauty and tranquility of nature. I dont go to see concrete restrooms, parking lots, amenities as these are all things that adversely effect the environment.	5/7/2020 10:01 AM

Hollister Ranch Coastal Access Program: Public Survey #2

58	Ability to meet friends there with ease.	5/6/2020 11:43 PM
59	I like it because it is beautiful and uncrowded. It's beautiful because it is privately owned and looked after by people who care. Go down the coast 30 miles and you will not find the same thing. Why. It's easy because it's a public beach and it's a known fact that privately owned property will be looked after better than publicly owned land.	5/6/2020 8:45 PM
60	historical preservation and protection	5/6/2020 8:11 PM
61	Quiet, peaceful and solitude, if a bit windy	5/6/2020 6:38 PM
62	My friend was a lifeguard there and I would stay with him from time to time during the summer when I was in collage. Hanging out with all the guards during the day and during the off hours was fun.	5/6/2020 6:22 PM
63	Natural Beauty. The epic Surfing and shorelines should be limited and controlled through managed restrictions. d S	5/6/2020 6:02 PM
64	The opposite of just about all the above. Getting there is part of the adventure. A summit parking lot would be better.	5/6/2020 5:59 PM
65	Santa Barbara County Beaches have all of the above to offer, and why I listed three beaches for the different qualities each beach offers to meet my preference for beach access at any given time. >Santa Claus Beach is for water quality, water activity –wading, swimming and body surfing. > Sands Beach-Coal Oil Point Nature Preserve is for nature beach walks, tide pools, the scenic view of the Gaviota Coastline and a serene remote experience in coastal nature. > El Capitan State Beach is for family beach time, easy access, bathroom & lifeguard amenities, dolphin watching and long beach walks.	5/6/2020 5:56 PM
66	Close to home and usually quiet, however existing access it is terribly maintained, dangerous, and is taking years to remedy.	5/6/2020 5:50 PM
67	Bulito is one of the most beautiful beaches I've ever been to. It's located on the ranch and I was fortunate enough to grow up there. This beach is in the condition it's in because the ranch is private. It will no longer be in the same conditions if the ranch was opened for public access.	5/6/2020 4:23 PM
68	There are plenty of beaches in Santa Barbara county that all of these recreational facilities can be done at. The only thing that separates the ranch from others is the surf, so if someone really wants to surf the ranch they can buy a cheap boat and launch out of Gaviota.	5/6/2020 4:22 PM
69	That it's clean and quiet and preserved. There's no trash or debris, no crime, an abundance of wildlife who haven't been ran off.	5/6/2020 4:22 PM
70	Wildlife and ecosystem protections	5/6/2020 4:07 PM
71	I go there to run. It's great exercise.	5/6/2020 3:33 PM
72	I've always regarded this beach as a "poor man's" Hollister Ranch. Isolated, serene, and limited use, mainly by surfers. Access to this beach has long been contested, and this might be a good alternative to the costly pursuit of the HR access process.	5/6/2020 3:18 PM
73	Less people on the beach. This questionnaire is one sided, clearly not representative of the community meeting.	5/6/2020 3:11 PM
74	remoteness and lack of accessibility make the beach a better experience	5/6/2020 2:20 PM
75	There are many beaches in California that provide people with opportunities to enjoy and access.	5/6/2020 1:55 PM
76	Teeny parking lot, no overnight camping, no bathrooms, no RV hookup, no path...a long, foreboding staircase...no nearby restaurants or services...and guess what? It is the ONLY pristine beach anywhere near LA...should we "fix this problem" by grabbing the land to build a parking lot? And an elevator to the beach? Are we not trampling the civil rights of every American who does not own a house on Big Dune? By not giving them drive-up access, and a parking space for their Cadillac Escalade? And a toilet within 20 feet of their beach umbrella? And an elevator to the sand? And a hot dog cart packed with single-serve paper and plastics? Maybe, if we put in beach showers and bathrooms, like those at LA County beaches, then the homeless could build out camps, like those that cover every inch of the Venice and Santa Monica boardwalks...the police will be prohibited from moving them, for the same reason they cannot move them in LA: That would be a big win for everyone, right?	5/6/2020 1:09 PM

Hollister Ranch Coastal Access Program: Public Survey #2

77	I mostly try to get away from other people.	5/6/2020 12:14 PM
78	All the above factors are great but they're not relevant to the key issue which seems to keep being circumvented on this survey...Trestles is not on private property so these benefits/amenities cannot be transposed onto Hollister. If the state wants to "buy out" residents and make the land a reserve than go for it...but you can't mandate access to private property no matter your case for "public benefit".	5/6/2020 12:04 PM
79	Hope Ranch has private road access, but public access via beach walking. It has low impact, better tide pools, better sea life and bird life than its surrounding beach areas. The public may walk and enter the beach area from two sides and does so daily.	5/6/2020 10:01 AM
80	The open space and peacefulness of the area , in the winter	5/6/2020 9:52 AM
81	Access across a private field for pedestrians only, results in a calm clean beach. No public facilities, just the possibility of lost access if private land owner feels that the public users do not properly respect the beach and keep it clean.	5/6/2020 9:45 AM
82	I like how remote it feels. Like you're separate from the rat race for a minute. I like the hike in. Feels like an adventure.	5/6/2020 9:39 AM
83	Pristine quality of the natural resource and remote access	5/6/2020 9:39 AM
84	Very restricted access, good surf, great open beach	5/6/2020 9:34 AM
85	My family has used this beach for 60 years.	5/6/2020 9:28 AM
86	Undisturbed nature.	5/6/2020 9:24 AM
87	close to home	5/6/2020 9:04 AM
88	The contrast of the ocean and beach to the urban environment.	5/6/2020 8:27 AM
89	The trails to the south require difficult hikes to access the beach and when you get down there you don't see any cars. It's a natural setting that California is slowly losing with its increasing population density. Humans ruin everything	5/6/2020 8:00 AM
90	Closed to public access	5/6/2020 7:04 AM
91	I learned to surf at county line with my uncle when I visited Ca as kid, it holds a special place in my heart. The biker bar Neptune's Net, proximity to PCH and all the action make it a fun spot.	5/6/2020 6:47 AM
92	remoteness and lack of people	5/6/2020 6:15 AM
93	It's public property and is well maintained by the county	5/6/2020 6:11 AM
94	Regulated & monitored by UCSB	5/6/2020 5:32 AM
95	It's serene	5/6/2020 12:32 AM
96	These are PRIVATE beaches. Actually, they are not private; no beach is private up to the mean high tide line. But the land up to the cliffs above them IS private. That greatly limits the crowds, virtually everyone knows each other, there is order and friendliness in the surfing lineups, and it's a very positive, upbeat atmosphere.	5/5/2020 10:55 PM
97	beautiful natural resources not over run by public	5/5/2020 10:41 PM
98	I love Rincon but the easy access and crowds have ruined the beach. Its great to go at night or surf during a full moon. I am saddened that Rincon has deteriorated compared to how my father got to experience it	5/5/2020 10:19 PM
99	It's ran by state and guarded against the public which would ruin it if let.	5/5/2020 10:13 PM
100	This beach is closed from the access point of Casmalia, but it was once open to the public. This area has old roads that could be updated and maintained. This beach was once known as Paradise Beach and it could be opened with further input from SB County Board of Supervisors and California Coastal Commission.	5/5/2020 10:04 PM
101	It is and has been a public beach for many, many years. I enjoy the surf break there, off season, during the week. I also enjoy the tide pools at low tide.	5/5/2020 8:50 PM
102	remoteness	5/5/2020 8:34 PM

Hollister Ranch Coastal Access Program: Public Survey #2

103	Jalama Store	5/5/2020 8:28 PM
104	A place that is tranquil	5/5/2020 8:13 PM
105	restrooms for the large amount of people there. Camping also makes it a great place and it's a well kept beach unlike gaviota state park	5/5/2020 8:10 PM
106	Local food and restaurants. If an emergency which I have health issues would be safe and ideal.	5/5/2020 7:55 PM
107	I live on the sand in Del Mar, it is ridiculously over order and keeps getting worse through the years, parking is a nightmare, garbage everywhere, loud parties, kids screaming, dogs barking, there is absolutely no tranquility whatsoever. There needs to be SOME BEACH in the state of California that is free from all the hectic nature of beach goers.	5/5/2020 7:49 PM
108	It's a great place to not only surf, but to show others, especially kids that it's totally okay to not let humans enter into certain areas in order to protect the snowy plovers. They shut down the sand dunes and everyone celebrates this. Now the same people want to forcibly destroy the one section of sovereign coastline just down the coast because it's not controlled by Sacramento but private ownership...?	5/5/2020 7:46 PM
109	We the public already own these beaches along the Gaviota coast, so we don't need to infringe on private property rights. Since they have limited access and parking, the beaches do not get ruined by the masses.	5/5/2020 7:26 PM
110	It's got a Submarine canyon so winter swells with long interval can get real making real barrels	5/5/2020 6:58 PM
111	Oh the Pacific Law Foundation just won that legal battle, it's still closed.	5/5/2020 6:07 PM
112	Secluded	5/5/2020 5:55 PM
113	Volleyball courts	5/5/2020 5:10 PM
114	Most beach goers enjoy mild wind and surf conditions, want restrooms, food vendors and activities like kayaking, swimming and just plain lounging. After living at the Ranch for over 40 years I can testify to the fact that the ranch is a harsh environment both in and out of the water. I think if the state wanted to expand its beaches they would look at areas closer to the population centers. There is 2 miles of beach just acquired by UCSB at the Las Varas Ranch just south of El Capitan State park. This has easier/safer access as well as calmer winds and seas. This is what I believe the general public wants. That said there is a small segment of the public that has a more environmental viewpoint and for those people a managed access/docent led tour of the ranch would be ideal. If you could see what the beaches look like 90% of the time, especially in the afternoons due to winds your average beach goer would not want any part of it. That sai wants	5/5/2020 5:01 PM
115	N/A	5/5/2020 4:50 PM
116	the beach is located next to a well maintained park with organized parking, picnic areas and rest rooms. these costs are paid for by the city of Santa Barbara. ies	5/5/2020 4:44 PM
117	Because it looks the same as photographs from the 1930s and is as clean as a operating room	5/5/2020 3:51 PM
118	Just the surf is accessable and only by boat.	5/5/2020 3:10 PM
119	very few people, beautiful drive to big Surprise	5/5/2020 2:40 PM
120	I often park at Stinson Beach public parking (it is currently closed for the covid19 crisis of course) and then walk or ride my bicycle on the beach to the channel at Bolinas. The road at the north end of Stinson Beach is closed to the public where the Seadrift development is located, but the beach is open to walking and bicycling. This is a good arrangement, and the same would be fine at Hollister with access from Gaviota State Beach. There is no reason for the public to need access to private roads on private property.	5/5/2020 2:10 PM
121	There are no facilities, one small cabin, it'a 10 mile hike, and it is pristine.	5/5/2020 12:32 PM
122	Some of these questions and options are very biased and should be deeply reconsidered	5/5/2020 12:30 PM
123	I like this beach because it fits so well with the character of the place. I think the Hollister Ranch Access plan should be the same. That means keeping it remote, wild and fitting with the character of the old California coastline. Allowing anything beyond that would unfortunate.	5/5/2020 12:25 PM

Hollister Ranch Coastal Access Program: Public Survey #2

124	surfing	5/5/2020 12:16 PM
125	It is undeveloped. You have to work a bit to get there. This keeps it nice.	5/5/2020 12:16 PM
126	None of the boxes to check for Question #8 fit for me. I'd have to say that of all the things that add a wild beach or coastline or an intertidal zone to a desire to experience it is, as the writer Wallace Stegner put it, that we "... take pleasure in the fact that such a timeless and uncontrolled part of earth is still there".	5/5/2020 12:10 PM
127	Remote and private	5/5/2020 12:02 PM
128	The best places for beach visits take an effort to get there. It's a remote, relatively unspoiled, and biodiverse area.	5/5/2020 11:58 AM
129	Challenging pedestrian only access keeps it pristine and enjoyable	5/5/2020 11:57 AM
130	This has beautiful secluded beach spots, no public parking, so just street parking limits crowds.	5/5/2020 11:48 AM
131	Getting to Cojo Point requires a boat or kayak and once there it is uncrowded and scenic. The lack of easy access is what makes it such a beautiful spot.	5/5/2020 11:46 AM
132	Waves	5/5/2020 11:46 AM
133	Remoteness	5/5/2020 11:45 AM
134	It's not marred by public use and pollution from foot traffic. Wildlife also flourishes from low human population. We experience very minimal trash pollution, which would increase with public access. The people who currently have access to the beach have the utmost respect for its pristine conditions. The Gaviota State Park gives access to the public and there is trash on the side of the roads. Many people in the general public have been given access to a portion of the coast line and they have proven they are not capable of maintaining the cleanliness standards of Hollister Ranch. We experience little to no littering. The amount of littering would increase drastically. Owners and their guests are monitored and have to uphold a certain standard, which the Ranch can control.	5/5/2020 11:32 AM
135	I don't see any correlatiion with this question to this survey	5/5/2020 11:29 AM
136	Lack of easy access, lack of parking, lack of roads and lack of web cameras etc keep these places so sacred to me. A few friends and I share a cheap plastic kayak and paddle up on our days off. It is literally what we live and work for. If these beaches were easy to access they would turn into the crowded smoke and boom box filled beaches that littler the rest of southern CA. and I would be shattered.	5/5/2020 11:29 AM
137	Not a heavily used beach. No crowds and limited access to the public.	5/5/2020 11:18 AM
138	Hollister ranch should not be accessed by the public unless current legal methods are used.	5/5/2020 11:15 AM
139	Beautiful cove in a wilderness state only accessible by a challenging trail without any improvements whatsoever.	5/5/2020 11:11 AM
140	Santa Barbara County has preserved the Gaviota coast for its residents. The parks are limited to only so many people and there is a zero tolerance for littering. It's the finest stretch of coastline in California. That being said, I do scratch my head as to why the Hollister Ranch has become such an issue when we have more than 15 miles of wonderful beach access available already.	5/5/2020 11:11 AM
141	It's empty, and not overwhelmed by the public	5/5/2020 11:06 AM
142	Sentimental. I grew up body surfing and wandering Venice Beach.	5/5/2020 10:59 AM
143	Warm ocean water in the summer and fall and clean	5/5/2020 10:53 AM
144	Leadbetter is a true beach~ were you tell you friends to meet you to spend the day. They have bathrooms and easy parking all are welcome because it doesn't infringe on anyone's home. We can grab a taco and take a swim or teach the kids to surf. It is safe and there are lifeguards. This is all needed if the masses converge~ this is not what makes sense at the ranch.	5/5/2020 10:42 AM
145	Unpopulated and private location	5/5/2020 10:38 AM
146	It is remote and a very small number of people attend this beach. Which allows to keep a natural beauty that 90% of beaches in California don't have anymore	5/5/2020 10:37 AM

Hollister Ranch Coastal Access Program: Public Survey #2

147	Difficult to access, makes it very private and pristine	5/5/2020 10:37 AM
148	Campground with beach access	5/5/2020 10:36 AM
149	Proximity and lack of crowds	5/5/2020 10:35 AM
150	Although this is a heavily used state beach, because i grew up in goleta and live close enough i can go at times that are bot crowded. Beautiful beach for walking and exploring.	5/5/2020 5:59 AM
151	This is not private land.	5/4/2020 11:52 PM
152	The solitude of walking along the wrack when storm and surf have cleansed the shore of humanities largess... It should be added that this beach(es) is special in that it still has the potential to restore itself even without my presence.	5/4/2020 11:11 PM
153	Camping	5/4/2020 10:33 PM
154	Requires effort to get there via a long walk. No bikes or cars!	5/4/2020 8:19 PM
155	Hendrys beach is well managed by the county with existing parking, rangers, lifeguards, and facilities. The county, rangers, lifeguards do not have the capacity to manage this at Hollister Ranch since there is no existing infrastructure at the Ranch.	5/4/2020 7:59 PM
156	It's remoteness and pristine beauty. It is less traveled.	5/4/2020 7:49 PM
157	I believe that access at the Ranch could be managed much like it is at Point Sal- allow for low-impact human powered travel, and allow people to experience the place while respecting its inherent qualities.	5/4/2020 5:55 PM
158	No direct car access. People have to walk about 15 min to go to the beach. I assume that the numbers of beach goers is decreased because they have to make an effort to go to the beach.	5/4/2020 4:57 PM
159	It seems more wild there. I see whales migrate, dolphins, marine mammals, there are tide pools and a slough and many trails to explore. It changes with the seasons and it always changes. It has a great community feel where all seem welcome, likely due to its transient population of students. It is big and holds lots of people yet you can feel very remote at times.	5/4/2020 4:36 PM
160	Lol, I picked the first 5, but essentially all the choices apply except for 'amenities' and 'restrooms'	5/4/2020 4:23 PM
161	Active management for preservation of wildlife, scenic and ocean resources (e.g. snowy plover & MPA monitorin programs)	5/4/2020 4:10 PM
162	Cliffs make beach feel private	5/4/2020 4:00 PM
163	242 steps from the house	5/4/2020 3:55 PM
164	Dog friendly beach	5/4/2020 3:34 PM
165	Get to see the Western snowy plover birds that are on the threatened species list that have re-taken Sands Beach as a nesting site. Learning about the Lesser Terns that also come and are threatened species as well. How lucky we are to have such a wonderful and diverse bird population here.	5/4/2020 3:27 PM
166	Allow dogs off leash	5/4/2020 3:21 PM
167	Fabulous bird life due to low human impact	5/4/2020 3:12 PM
168	we don't go to the beach, we stay in our yard or visit the neighbors.	5/4/2020 3:06 PM
169	Not too many other people	5/4/2020 2:55 PM
170	Access for equestrian use	5/4/2020 1:04 PM
171	Rare/pure California before the rest of the Southern California coast (private industry, a few public members who ruined it for others) was tainted by people who do not respect sacred places.	5/2/2020 6:06 PM
172	Great walking paths along the coastal bluffs above and south of the beach	5/2/2020 12:45 PM
173	Secluded, not devastated by public access with the concomitant trash, waste, habitat degradation	5/1/2020 12:14 PM

Hollister Ranch Coastal Access Program: Public Survey #2

174	Greatkayak access	4/30/2020 8:32 PM
175	Dog friendly	4/30/2020 6:56 PM
176	the idea of ANY of the opportunites mentioned just makes me shutter. I do not agree with any of these suggestions in regards to the ranch. Just look at the bikeing and hiking path that connects El Capitan state park to the Refugio state park. It has been in dire need of attention for more than ten years and nothing has happened to make it safer, or improve access or improve the natural experience. If you want more access to trails and biking then come up with a plan to connect a trail and bike path from el Capitan State Park to the Gaviota State park, this would certainly make more sense.	4/30/2020 5:51 PM
177	Not as many people, able to avoid beach crowds, enjoy wildlife	4/30/2020 4:12 PM
178	This beach feels much like Hollister Ranch, but it's already accessible and doesn't require additional meaningful state resources	4/30/2020 3:57 PM
179	No dogs allowed so birds are plentiful and undisturbed.	4/30/2020 11:58 AM
180	I prefer uncrowded beaches for walking and riding bikes at low tide. Both qualities currently exist at Hollister Ranch beaches and it would be a shame to see it change. Beaches with parking lots, lifeguards and snack bars do not interest me.	4/30/2020 10:31 AM
181	The burger shack	4/30/2020 10:00 AM
182	Every beach the state has taken over gets ruined. The state doesn't have enough money or man power to take care of its existing beaches. So why mess with the Hollister Ranch.	4/30/2020 8:52 AM
183	Sheer Beauty	4/30/2020 8:37 AM
184	I can walk there from my brother's house.	4/30/2020 8:18 AM
185	Very few other hmans encountered except in surf during swells.	4/30/2020 7:04 AM
186	There is not much parking available so not a lot of people populate the area except for major holidays which are OVERRUN and trash is left everywhere and it is basically just a big drinking fest. Needles have been found which is obviously major concern for the safety of the people.Clean up is usually one by the locals... There is a terrific Junior Guards program for the kids that is very well run but also run by certified lifeguards and paid for by the students' families.	4/30/2020 7:02 AM
187	Remote, quiet and "wild"	4/30/2020 6:54 AM
188	Before the CCC forced the gate open, it was clean, friendly and uncrowded	4/29/2020 11:06 PM
189	State Beach that is patrolled	4/29/2020 10:42 PM
190	Don't need or want "facilities" or "improvements"	4/29/2020 8:37 PM
191	No camping	4/29/2020 8:25 PM
192	This is a ridiculous question, Dillon Beach is a public beach but Hollister Ranch is private property. There is no public access on private property and there SHOULD NOT be access, unless the property is purchased by the state.	4/29/2020 7:53 PM
193	Lower crowd levels and natural beauty	4/29/2020 7:41 PM
194	Undeveloped	4/29/2020 7:35 PM
195	People didn't go there, it was secret and took effort to go, it was wonderful. Last weekend I saw 57 cars parked on the side of the highway at that beach. Very sad. There used to be Plover's and killdeer nesting in the driftwood there. Not this year.	4/29/2020 7:19 PM
196	it is harder to access because of the many steps to get to the beach so it is less crowded and more natural	4/29/2020 7:17 PM
197	The remoteness.	4/29/2020 7:14 PM
198	no oil in the water	4/29/2020 7:08 PM
199	Usually empty with minimal buildings and structures. Just ocean and rolling hills	4/29/2020 7:04 PM

Hollister Ranch Coastal Access Program: Public Survey #2

200	If access is granted to the public to the Hollister Ranch, the same access should be provided to the Dangermond Preserve.	4/29/2020 6:58 PM
201	Because there is no 'public access' it remains a special place	4/29/2020 6:37 PM
202	Hard to get to so it is less exploited.	4/29/2020 6:35 PM
203	Less destroyed by overuse than many other beaches.	4/29/2020 6:21 PM
204	Great bicycling destination	4/29/2020 6:17 PM
205	It's close to home	4/29/2020 5:55 PM
206	It's so beautiful that it feels magical.	4/29/2020 5:12 PM
207	Walking into this beach adds to its feeling of remoteness. This makes me appreciate the experience more.	4/29/2020 5:09 PM
208	Coastal homeowners understand the California coast is everyone's	4/29/2020 4:55 PM
209	Keep the ranch private	4/29/2020 4:50 PM
210	Difficult to access and usually empty	4/29/2020 4:25 PM
211	Remote and unspoiled.	4/29/2020 4:16 PM
212	Have been going there all my life--since 1958. I feel deeply bound to the area.	4/29/2020 3:41 PM
213	Na	4/29/2020 3:34 PM
214	It's not possible. The area will be destroyed by overuse.	4/29/2020 3:33 PM
215	Easy to find parking compared with Southern California beaches	4/29/2020 3:22 PM
216	The walk down the entrance trails makes it very special	4/29/2020 3:16 PM
217	Availability of food	4/29/2020 3:09 PM
218	It is a beautiful scenic beach that already has easy access right near a highway that provides quick access to first responders if needed. The city has worked on preserving what has already been harmed (ie snowy plovers) vs. having to make a new path on unsteady cliffs that are private property and home to an abundant ecological system that will suffer with increased access to more people.	4/29/2020 2:58 PM
219	Remote, contemplative, untamed, untouched	4/29/2020 2:49 PM
220	Can still explore these beautiful beaches in relative solitude	4/29/2020 2:35 PM
221	Remote	4/29/2020 2:17 PM
222	Remote, not many people, able to find seclusion	4/29/2020 2:13 PM
223	Sunset Cliffs takes some effort to get to, especially the southern "pocket" beaches. You can't just drive right up there; there is a stairway of 100 steps that is necessary to get down to it. Locals have resisted any alternative easier way to access the area precisely so it won't get more crowded.	4/29/2020 2:09 PM
224	I dont like how theres trash and dogpoop everywhere! used diapers too! the public is disgusting.	4/29/2020 2:07 PM
225	Due to prevailing currents the water is warmer here	4/29/2020 2:05 PM
226	love the bike path between El Capitan and El Refugio	4/29/2020 2:01 PM
227	isolated from INCREASED ACCESS- get it?	4/29/2020 1:57 PM
228	Its remoteness is of great appeal.	4/29/2020 1:55 PM
229	Solitude and being surrounded only by a select few who truly respect the environment	4/29/2020 1:49 PM
230	I like beaches that feel clean and relatively empty.	4/29/2020 1:43 PM
