The California Coastal Commission (Commission) is seeking a new talented addition to its Statewide Planning Program. The Commission is a small State agency that is charged with protecting coastal resources and managing coastal development in California. The mission of the Commission is to implement the Coastal Act and to provide for the balanced use of the coastal zone and to protect, restore, and enhance coastal and marine resources for the continuing benefit of current and future generations. Employees at the Commission enjoy working on a broad range of issues to plan for and manage coastal land uses while protecting important coastal resources including wetlands, habitats that support rare and endangered species, scenic landscapes and views to the sea, public shoreline access and recreation opportunities. The Commission's staff includes dedicated planners, scientists, attorneys and administrative staff.

The Commission values diversity at all levels of the organization and is committed to fostering an environment in which employees from a variety of backgrounds, cultures, and personal experiences are welcomed and can thrive. We believe the diversity of our employees and their unique ideas inspire innovative solutions to further our mission of protecting and enhancing California's coast and ocean for present and future generations.

DUTIES will include but will not be limited to:

- Develop and conduct training classes and materials on coastal land use planning topics that may include sea level rise and other climate change issues, sustainability, housing, and general coastal program guidance for Commission and local government staff;
- Closely monitor Local Coastal Program (LCP) grant work related to sea level rise, climate, sustainability and other Coastal Act issues;
- Work on tasks funded through the Commission's federal grants;
- Update the Commission on progress made on Coastal Program implementation, including Sea Level Rise Guidance, through staff reports and staff presentations; attend conferences, workshops and other events to share information about the Commission's Guidance and LCP Grant Program;
- Serve as regulatory analyst on assigned coastal development permits and appeals with climate change, sustainability, and other issues of statewide priority such as those that

address fire prevention planning, agriculture, housing, lower-cost accommodations, short-term rentals, and other visitor-serving uses;

- Work as part of a team on emerging issues and special projects including those related to sea level rise, climate change, sustainability, and fire prevention planning; and
- Work on a range of environmental justice and Coastal Act issues in regulatory and planning actions.

DESIRED SKILLS & ABILITIES:

- Knowledge of the California Coastal Act; the California Environmental Quality Act (CEQA); current state planning law, and principles and practices of land use planning is. A background in land use planning, environmental studies, resource management, climate resiliency planning, or a closely related field is desirable.
- Ability to work cooperatively with other local, state and federal agency officials.
- Rigorous in identifying issues and pro-active in problem-solving efforts.
- Effective writing and verbal communication skills and the ability to work both independently and as a team member are critical.
- Experience with environmental justice and/or tribal consultation.
