2017/2018
WHALE TAIL® Competitive Grants Program

Guidelines and Application Forms

Funded by:

The WHALE TAIL® License Plate Program

Voluntary contributions on the California state tax form

Supporting programs that teach California’s children and the general public to value and take action to improve the health of the state’s marine and coastal environments

A project of:

California Coastal Commission
45 Fremont Street, Suite 2000
San Francisco, CA  94105
(415) 904-5200
www.coastal.ca.gov
INTRODUCTION

The California Coastal Commission’s WHALE TAIL® grants support programs that teach California’s children and the general public to value and take action to improve the health of the state’s marine and coastal environments. Adopt-A-Beach programs, as well as other beach maintenance and coastal habitat restoration projects that have an educational component, are also eligible for the grants. Attachment A is a list of sample grant recipients.

BACKGROUND

This program distributes funds from two sources: (1) sales of the California Coastal Commission’s WHALE TAIL® License Plate (an official “specialty” license plate issued by the Department of Motor Vehicles for cars registered in California), and (2) donations to the “Protect Our Coast and Oceans Fund,” which is one of the “tax check-off” funds listed on the California state tax form.

The California Coastal Commission started the WHALE TAIL® Competitive Grants Program in 1998. For many years, all of the funding for this program came from the WHALE TAIL® License Plate. Proceeds from sales of the license plates also benefit the California Coastal Commission’s Adopt-A-Beach Program, California Coastal Cleanup Day, and other education and stewardship projects. In 2014, a “check-off” box was added to the California state tax return form to provide taxpayers the option to voluntarily contribute to the Protect Our Coast and Oceans Fund. Proceeds from contributions to the Protect Our Coast and Oceans Fund specifically benefit the WHALE TAIL® Grants Program. Since 2015, these donations have increased the funds available for the grants each year.

The California Coastal Commission is a state regulatory and planning agency that operates under the 1976 Coastal Act to manage the conservation and development of coastal resources in California. The Commission’s Public Education Program works to increase public knowledge of coastal and marine resources and to engage the public in coastal protection and restoration activities.

OTHER RESOURCES

In addition to this grantmaking program, the Coastal Commission’s Public Education Program offers other resources to enhance coastal and marine education and stewardship programs. These include a loan library for educators featuring recommended video and audio titles, “Waves, Wetlands, and Watersheds” science activity guide for K-8th grade, the Schoolyard Cleanup Program, the Creeks to Coast Directory of coastal, marine, and watershed organizations, the Coastal Stewardship Pledge,
and the “Our Wetlands, Our World” high school science activity guide. For more information, visit
[www.coastforyou.org](http://www.coastforyou.org). All items are free of charge and are available on-line or by contacting Public
Education staff at [coast4u@coastal.ca.gov](mailto:coast4u@coastal.ca.gov) or (800) COAST-4U.

We also encourage educators to become familiar with and integrate into their projects, as
appropriate, the [principles and concepts of ocean literacy](http://www.coastforyou.org), the state’s [Next Generation Science Standards](http://www.coastforyou.org), and the [Common Core Standards](http://www.coastforyou.org).

**PROGRAM OVERVIEW**

- **Size of Grants:** any amount up to $50,000 (25-50% of the funding will be allocated in small
  grants up to $12,000). A total of $327,337 will be distributed.

- **Categories of Grants:** The WHALE TAIL® Grants Program will fund projects that fall into
  any one of the following three categories: 1) Adopt-A-Beach programs; 2) youth programs;
  3) programs for the general public. In addition, applicants may request funding under a special
  subcategory for projects addressing climate change and/or ocean acidification.

- **Format:** Applications must be submitted on the attached application forms with attachments.
  Please print double-sided and use minimal packaging wherever possible.

- **Deadline for Applications (must be postmarked by):** November 6, 2017. Proposals may
  not be submitted via fax or e-mail.

- **Project Selection:** Staff will review all proposals and make recommendations to the Coastal
  Commission, which will vote at its February 2018 meeting (tentative date).

- **Notification:** Applicants will be notified following the Commission vote, most likely by the
  end of February 2018.

**ELIGIBILITY OF APPLICANTS AND PROJECTS**

Applicants must be either a non-profit organization or a government entity. For beach operation and
maintenance projects, the applicant must be a non-profit organization or local government agency.
For Adopt-A-Beach proposals, both current and new Adopt-A-Beach managers are eligible.

Grants will not be awarded to provide for an organization’s general, ongoing administrative
costs, or to fund advocacy work.

Projects funded by WHALE TAIL® Grants must serve audiences in California. Grants cannot be
awarded to programs that unlawfully limit participation based on gender, race, color, religion,
ancestry, ethnicity, or national origin, disability, medical condition, genetic information, marital
status, sexual orientation, citizenship, primary language, immigration status or membership in
any other protected group. Grants cannot be awarded for projects that include religious content
in their programming. The WHALE TAIL® Grants Program focuses on education about coastal and
marine environment. If a project will take place in an inland area or on a bay, the proposal
should address how the project includes coastal and marine educational content, including a
description of how the connections between bays or inland areas and the coast and ocean will be
emphasized.
Grant funds will be allocated primarily for projects not yet funded by this program, but repeat grants will also be considered.

**QUESTIONS?**
We encourage applicants to contact the Commission’s Public Education Program in advance of submitting an application. Staff is available to respond to your questions and discuss your project idea with you. Please contact Sylvie B. Lee at (415) 904-5271 / slee@coastal.ca.gov; or Chris Parry at (415) 904-5208 / cparry@coastal.ca.gov.

Also contact the Coastal Commission Public Education staff if you are interested in starting a new Adopt-A-Beach Program in an area that does not currently have a program. Adopt-A-Beach Managers are designated by the Commission staff to operate the program in a particular geographic area and serve as the liaison with the Commission. Local Adopt-a-Beach Managers have adapted, modified and added to the program to fit their interests and talents.

**CRITERIA FOR SELECTING GRANT RECIPIENTS (out of 100 points)**

1. **Educational Component (25 points):** Projects funded under this program should have a strong, high-quality educational component involving the marine and/or coastal environment. We encourage experiential, hands-on learning and incorporation of stewardship, where possible. The project’s educational content and mode of delivery should be age-appropriate and culturally relevant for the target audience. Projects aiming to improve the quality of beaches or coastal or marine habitats will be considered as well.

2. **Need (15 points):** Projects will be assessed on the degree to which they address an identified need (educational, ecological, social, etc.). Projects that reach audiences who are traditionally underserved in terms of marine education, including low-income populations, multicultural communities, and residents of rural and inland areas, are especially encouraged.

3. **Project Concept (30 points):** We seek thoughtfully developed ideas, technically sound concepts, and creative, innovative, culturally competent approaches. Project design that reflects research-based best practices are encouraged. The degree to which a project could potentially be expanded or continued after the grant ends, and/or build organizational capacity, will be considered. The degree of impact relative to cost will also be evaluated. Up to 5 points of extra credit will be awarded if the project will have a ripple effect beyond the project itself, by providing useful tools or knowledge to others in the field, helping to advance the field into new areas, or building fruitful collaborations with other entities.

4. **Proposal Content and Project Implementation (30 points):** The proposal should demonstrate that the concept has been fully thought out and developed into a concrete, feasible project with clearly stated, realistic goals and measurable objectives; a defined audience; a workable project design; and a clear plan for implementation. A sensible plan for evaluating the project’s success should be included, as should detailed and accurate cost information. The likelihood of the project’s successful implementation and completion will be considered, including the likelihood that project objectives and goals will be achieved, as well as the strength of the organization’s track record, and the qualifications and capabilities of project personnel.
RULES FOR GRANT AWARDS

Conditions for grant awards will include the following:

• Grantee agrees to put the California Coastal Commission logo on any promotional materials produced for the program.
• Grantee agrees to hold the California Coastal Commission harmless.
• Grantee agrees to use waiver of liability forms developed by the California Coastal Commission (or the equivalent) where appropriate.
• Funds cannot be used to purchase food, beverages, prizes or cash gifts, insurance, or items that will be sold.
• Projects may be of any length as long as funding concludes by April 15, 2020.
• Amount in grant for indirect costs (see page 8 for definition) must be capped at 10% of amount in grant for employee salaries and benefits.

OTHER GRANT REQUIREMENTS

1. **Administrative.** The grantee must assume responsibility for administering the project, including: employing any necessary staff or consultants, maintaining complete accounting and time records, and providing fiscal management. In preparing the grant application, applicants should refer to Attachment B (administrative requirements for grant agreements if a grant is awarded).

2. **Payment.** Grant funds will **not** be available in advance of expenditures. Expenses will be **reimbursed** no more than once per month upon submission of an invoice by the grantee. Reimbursement will be dependent upon successful completion of work as set out in the proposal.

3. **Schedule.** Because the funds for these grants were appropriated in state fiscal year 2017/2018, which ends on June 30, 2018, proposals must include work tasks that begin before June 30, 2018.

APPLICATION PROCEDURE

A complete application package will consist of **an original and one copy** of the following materials:

1. **Application Summary** (see attached form).

2. **Background/History** (at least one paragraph). Briefly describe the history of your project. How did it come about? Is it a new or existing project? If it’s an existing project, how long has it been operating, how was it funded in the past, and what results have you achieved? Have you previously received a WHALE TAIL® Grant for this project?

3. **Project Description** (3-6 pages for sections a-f, written in at least an 11-point font), including the following information organized under subheadings:

   (a) A concise list of the **goals and objectives** of your project. (Specific objectives help accomplish the broader goals.) Objectives should be simple, understandable and as specific and measurable as possible.
(b) **Description of the target audience(s) and recruitment plan** – Describe who will be served by your project, including the number of people, ages or grade levels, other demographics including ethnicity and other relevant socioeconomic information, and geographic area served by your project. (Note that your final project evaluation will be required to include detailed information on the audience served.) Describe your plan for recruiting your target audience (or a description of how you recruited your target audience). Explain why you decided to focus on this target audience.

(c) **Project details** – This section is a chance to elaborate on your goals and objectives with a narrative, step-by-step description of how the project will be carried out, including your plans for community outreach, publicity, and/or sharing the results of your project, as applicable. In this section you may discuss project design considerations such as cultural relevancy, age-appropriateness, inclusivity, and research-based best practices, as applicable. Also clarify if this is a one-time project or one that you intend to continue past the grant period. Repeat proposals for previously funded projects should include a summary of what was accomplished through the previous grant, how the new proposal builds on the previous work, past evaluation results, and a description of how these results informed or changed the project.

(d) **Key staff** – Describe the staff who will carry out the project and their specific roles, qualifications, and experience.

(e) **Statement of need for the proposed project** – please be as specific as possible as to the need(s) that your project is intended to address and include an explanation as to why this particular project is suited to meet the articulated need(s). A demonstration of the specific needs of the target audience can be included here, including the results of any needs assessment work that was used to develop your project plan.

(f) **Statement of need for the requested funding** – including a description of any other resources that are available. If the project is expected to continue beyond the end of this grant, explain the longer-term funding plan.

4. **Evaluation plan** (no page limit) – The WHALE TAIL® Grants Program has recently been putting more emphasis on evaluation. Understanding the effects of a project can help guide future improvements and mid-course corrections, as well as help to evolve the environmental education field as a whole.

The nature and extensiveness of the evaluation will vary depending on the type of grant and size of budget. As a very rough rule of thumb, consider allocating 5 to 15% of the budget on evaluation. Grant recipients will be required to submit evaluation results at the end of the project period as part of their final reporting. If your project has been previously evaluated and you are satisfied with this effort, you may not need to conduct a detailed evaluation at this stage. In that case, let us know about prior evaluations and their results, and how the results apply to the current project.

For this section, describe your evaluation plan; that is, how you will measure and document the outcomes and impacts of your project on your audience(s). Organize your evaluation plan using the goals and objectives articulated in your project description; in other words, describe the techniques that will be used to evaluate project outcomes and success relative to
each goal and objective. Examples of possible indicators of outcomes are audience satisfaction with the project experience; changes in their knowledge, skills, attitudes and/or behaviors; and changes to the environment. Also, describe the logistics of your evaluation - how and when you will gather evaluation data? How will you use the evaluation results (beyond the reporting requirements for this grant)?

In planning your evaluation, consider whether quantitative methods such as pre-post tests and surveys; qualitative methods such as interviews, focus groups, and observation; or a combination of methods is most appropriate for learning about your program and its impacts. If available, please include in your supporting documents any evaluation tools that you will be using. (Our online resource to assist you with the evaluation process is available at http://www.coastal.ca.gov/publiced/plate/wtevaluation.pdf.)

5. **Permits required** (if any).

6. **Tasklist and timeline** for the project. (Bear in mind that funds will not be available until March of 2018 and some work tasks must be scheduled to begin before June 30, 2018.)

7. **Budget** (using the provided Application Budget Form or a similarly formatted budget page).

8. **A resolution from the applicant’s governing body** that contains the following authorizations: authority to submit the proposal, authority to enter into a contract with the California Coastal Commission if the grant is awarded, and designation of the applicant’s authorized representative (name and title). If the authority to perform such tasks has already been delegated by the governing body, a letter from the person who has that delegated authority is sufficient.

9. **Description of the applicant’s organization**, including:
   - the year it was founded;
   - its qualifications for undertaking the proposed project, including its track record with any similar undertakings;
   - the organization’s current annual budget including sources of funds (budget information is not necessary for public schools or government agencies); and
   - the names and occupations of board members or organization leaders.

10. **The following attachments:**
    (a) For non-profits, proof of non-profit status in the form of an exemption letter from the IRS or California Franchise Tax Board.
    (b) A project site list and/or map.
    (c) Brochures from the applicant’s organization.
    (d) Any other supporting material you would like to provide such as newsletters, press clippings, or letters of support from project partners or others (such as schools to be served that are already identified, or landowners where habitat restoration will occur). Any letters of support may be addressed to “California Coastal Commission” or “Whale Tail Grants Review Panel.”

Total Budget

---

(1) Attach an explanation of rate(s) and hours for each position for which funds are being requested.
(2) Amount requested for benefits should reflect actual costs, not to exceed 46.5% of amount requested for salaries.
(3) Include a list of the major supplies and materials and how much they cost.
(4) Personal vehicle travel reimbursement currently paid at the rate of 53.5 cents/mile. Travel to or from outside California is not eligible for inclusion in the grant request budget.
(5) Indirect costs include, for example, a pro rata share of rent, utilities, and salaries for certain positions indirectly supporting the proposed project but not directly staffing it. Amount requested for indirect costs should be capped at 10% of amount requested for “Total Personnel.”
Examples of Past WHALE TAIL® Grants

- **The Ocean Foundation**
  - **Project Title:** Ocean Connectors
  - **Project Location:** National City (south San Diego County)

Ocean Connectors is a project of the Ocean Foundation that focuses on teaching low-income Latino students in National City about migratory marine life and conservation topics over the course of three years. In the fourth grade, students study the endangered sea turtles that live in San Diego Bay while learning about waste management, the problems with single-use disposable plastics, and the “3 R’s” (reduce, reuse, recycle). They also visit the Living Coast Discovery Center in Chula Vista to see the green sea turtle exhibit and other animal life. In the fifth grade, students learn about the migrating California gray whale as well as the issues of sustainable seafood and bycatch, and they go on a narrated whale-watching trip. And in the sixth grade, they study migrating birds and their habitats and also learn about the impacts of pollution and coastal development on the ecosystem. The six-graders’ outdoor experience is to go bird-watching and help restore habitat in the South San Diego Bay National Wildlife Refuge.

Ocean Connectors also includes a bilingual, cross-border “knowledge exchange” component in which students share artwork, writing, or short videos about their animals with other students who live in Nayarit, Mexico, near where the animals migrate. Migration of the animals illustrates the connection between different parts of the same ocean.

- **Aquarium of the Pacific**
  - **Project Title:** Connecting Communities to Climate Resilience
  - **Project Location:** Long Beach

In 2015, the City of Long Beach committed to becoming a model climate-resilient city by combating and adapting to climate change. The Aquarium of the Pacific was designated as a primary outreach partner in this effort to help connect the diverse and underserved populations of Long Beach with climate change resources and possible solutions. In this role, the Aquarium is receiving funding to develop and pilot-test demonstrations, hands-on activities, and materials to foster conversations about building climate resiliency during the Aquarium’s regularly scheduled District Nights, when each of Long Beach’s city council members invites their local constituencies to the Aquarium after hours at no cost.

These face-to-face conversations at an interactive outreach booth will foster climate resiliency awareness among an expected 8,000-10,000 Long Beach residents by communicating the causes and risks of climate change, and prompting discussions of opportunities to take action and adapt and plan for it. Aquarium staff will receive special training beforehand on climate change science as well as best recommended approaches to discussing this topic. This project will be documented as a model of community engagement, and once tested and refined, the activities and materials will be used for further outreach at other venues such as farmers markets or block parties.
Outdoor Outreach: YES San Diego: Youth Environmental Stewardship Project
Project Location: San Diego County

Outdoor Outreach provides adventure-based recreational learning opportunities to teens who face multiple barriers to accessing outdoors areas surrounding their communities. This grant supports outdoor environmental education and stewardship outings for 140 teens from urban San Diego areas recruited from low-income schools, social service organizations, and programs for foster youth, homeless youth, and youth in the juvenile justice system.

Through this project, Outdoor Outreach is taking these teens on a minimum of 17 outings to coastal locations in San Diego. At least six programs will take place at the San Diego Bay National Wildlife Refuge, where the teens will learn about coastal animals and habitats at the Living Coast Discovery Center, kayak on Sweetwater Marsh, and help restore native plants in Imperial Beach. At least three stewardship projects will take place at Border Field State Park, including installing native plants, removing invasive species, and removing trash during Tijuana River Action Month. At Cabrillo National Monument, at least five programs will take teens hiking down the coast then lead them on a guided tidepooling activity. Finally, at least three programs will take place in the Escondido Creek watershed, teaching the youth how pollutants flow downstream from Escondido to the San Elijo Lagoon and beaches.

Groundswell Coastal Ecology/Social & Environmental Entrepreneurs: Healthy Coastal Communities
Project Location: Santa Cruz

Healthy Coastal Communities is a project bringing together at-risk youth, adult community volunteers, and restoration professionals to improve habitat at highly-visited coastal access sites. In this project, students at underserved schools in the Santa Cruz area participate in Groundswell’s five-step science-based restoration curriculum, consisting of: lessons on the biodiversity of coastal flora and fauna, native seed harvesting and plant propagation, restoration planting, making scientific illustrations, and monitoring the habitat restoration outcomes. Participating schools have greenhouses on their campuses for growing the native plants.

Community volunteers work with agencies and land managers to prepare the planting areas ahead of time by removing invasive plants at coastal access points in Santa Cruz. Those access points are at Natural Bridges State Beach, Lighthouse Field, and Seabright Beach. Visitors to these spots will also be educated about the program through student paintings on wood of native flora and fauna serving as interpretive signs. There will also be participants explaining the project to visitors during the restoration and monitoring work days.
Bay.org

**Project Title:** Adopt the East Side: Shoreline Cleanups for San Francisco

**Project Location:** San Francisco

Bay.org is facilitating cleanup efforts on the east side of San Francisco under the leadership of one of its divisions, the EcoCenter at Heron’s Head Park. The cleanups hosted at Heron’s Head Park are taking place on Earth Day in April, World Oceans Day in June, Coastal Cleanup Day in September, and Martin Luther King, Jr. Day of Service in January.

Bay.org is also building upon existing field trip programs offered at the EcoCenter to further engage the K-12 community in Bayview Hunters Point in shoreline clean-up efforts and will develop additional marine debris messaging to add to the current content provided. Existing on-site field trip programs offered at the EcoCenter are focused on topics including the water cycle, native plant and wetland wildlife, ecosystem protection and restoration, climate change, and sustainability actions. All environmental education field trip programs offered at the EcoCenter differ by age level and are aligned to the Next Generation Science Standards (NGSS).

Additionally, EcoCenter staff will develop a new follow-up program involving the students in a deeper marine debris lesson at their school site as well as an action-oriented trash census on school grounds or at a park close to the school.

Staff will conduct extensive community outreach in Bayview Hunters Point to recruit adult volunteers for the cleanups as well as K-12 teachers for the school education component. The staff will be working to have Bayview Hunters Point community members ultimately assume leadership of a sustained shoreline stewardship program in the area.

Vida Verde Nature Education

**Project Title:** Multi-Day Coastal Environmental Education

**Project Location:** San Francisco Bay Area

Vida Verde Nature Center is located in the hills of coastal San Mateo County and hosts underserved, urban Bay Area students in grades 4-6 for a free, three-day, two-night environmental education experience. Vida Verde serves at least 750 children per year, one group each week. Close to 100% of the participants are low-income minority students and they are only eligible to attend if their schools don’t offer any other outdoor, overnight experiences. Activities include guided explorations through coastal beaches and tidepools, Pescadero Marsh, and a nearby redwood grove. Many of the children visit the ocean for the first time through this program.

Through a highly structured, activity-packed program featuring positive behavior management and many new but achievable challenges, students who are new to this type of environment learn science and environmental stewardship along with confidence and trust-building. They learn about topics such as tides, animal adaptations, beach ecology, and how a watershed connects their home with the ocean. Vida Verde has also developed a related curriculum for teachers to use once they are back in the classroom in order to increase the program’s impact.
ATTACHMENT B

Administrative Requirements

LOCAL ASSISTANCE AGREEMENT SUMMARY (STD 215)

A. The Grant Agreement transmittal form for cost-reimbursement types of local assistance grants must:

1. Advise whether the awarding agency, with the advice of the State Personnel Board, has determined that the reimbursable salaries do not exceed salaries payable to State personnel for similar classifications; and

2. Identify the classifications and rates involved if the reimbursable salaries exceed State rates, and state the reason for such higher rates, and how the agency’s interests are served by the agreement.

FISCAL CONTROL PROVISIONS

A. Payment provisions shall be on a cost-reimbursement basis with a ceiling specifying the maximum dollar amount payable by the agency. Grant agreements must set forth in detail the reimbursable items, unit rates, and extended total amounts for each line item. Among other matters, the following information should be documented:

1. Identify and justify direct costs and overhead costs, including employee fringe benefits;

2. Monthly, weekly or hourly rates as appropriate and personnel classifications should be specified, together with the percentage of personnel time to be charged to the contract, when salaries and wages are a reimbursable item;

3. Rental reimbursement items should specify the unit rate, such as the rate per square foot; and

4. If travel is to be reimbursable, the contract must specify that the rates of reimbursement for necessary traveling expenses and per diem shall be set in accordance with the rates of CalHR for comparable classes and that no travel outside the State of California shall be reimbursed unless prior written authorization is obtained from the agency.

TERMS AND CONDITIONS

Grant awards will include Standard Conditions and Special Conditions. Standard Conditions include items such as an indemnification requirement, an agreement to be audited, and a non-discrimination clause. Special Conditions include items such as an agreement to provide funding credit and responsibilities of Adopt-A-Beach coordinators.
COMPETITIVE BIDDING
Grantees seeking contractors to perform any services exceeding the cost of $2,500.00 shall select those contractors pursuant to a process that seeks three competitive quotations or adequate justification for the absence of bidding.

Grantees purchasing any articles, supplies, or equipment exceeding the cost of $2,500.00 per purchase order shall select those items pursuant to a process that seeks three competitive quotations or adequate justification for the absence of bidding.

GRANTEE CERTIFICATION CLAUSES
All grantees must sign GCC 1015, which includes clauses such as a drug-free workplace requirement and compliance with the Americans with Disabilities Act.
