## STATEMENT OF EXPLANATION

### Changes without Regulatory Effect to Coastal Commission Regulations, Title 14, Sections 13012 & 13055

The proposed amendments adjust dollar amounts of fees charged and a certain project threshold to account for inflation. This Commission proposes the increases for each fiscal year (see, for example, Rulemaking 2021-0629-03N.)

Affected Regulations. Title 14, Sections 13012 and 13055. Section 13012 states the threshold for defining what is a “major” public works or major energy facility according to an industry index. Section 13055 states the fees charged to applicants for Coastal Commission processing of coastal development permits and other applications.

Authority for Changes. Section 30333 of the Coastal Act (Pub. Resources Code, Division 20) authorizes the Commission’s general rulemaking powers.

#### **Section 13012** Major Public Works and Energy Facilities.

Description of Proposed Change. Section 13012(a) is proposed to be amended to identify the current applicable threshold that defines a major public works project or major energy facility.

Statutory and Regulatory Basis. The definition of “major” public works project or energy facility sets a threshold amount for what projects may be appealed. (See Pub. Resources Code, §§ 30601(3), 30603(a)(5)). Regulation Section 13012, effective in 1977, set the initial threshold dollar amount of \$100,000. Inflationary adjustments are correlated to the Engineering News Record (ENR) Construction Cost Index.

No Material Impact. The current threshold for a major public works or major energy facility is \$329,691, a figure that is derived from the April 2022 value from the ENR construction cost index. See Exhibit A (ENR index and calculation). The ENR index is published in a periodical that is available only by subscription, thus the public cannot easily find the latest threshold. The proposed change makes the dollar amount transparent and available for use by staff, applicants, interested persons, and the public generally. The proposed amendment does not materially alter a regulatory element because it expresses the current threshold according the required index without changing the specific dollar amount.

#### **Section 13055**

Description of Proposed Change. Section 13055, subdivisions (a),(b),(e), and (f) are proposed to be amended to adjust application and other filing fee amounts for inflation.

Statutory and Regulatory Basis. The Coastal Act specifically authorizes the Commission to collect reasonable fees for applications and other filings. (Pub. Resources Code, § 30620(c).) The fees help offset the cost of processing applications.

Subdivision (c) of Regulation Section 13055 requires that the Commission adjust the fees annually for inflation. The subdivision requires that the adjustment be calculated based on percentage changes from 2008, as published by the California Consumer Price Index (CPI) for Urban Consumers.

The base year for calculations is 2008, when the regulation took effect and mandated annual increases. For the 2022-2023 fiscal year increase, calculating from April 2008 to April 2022, the change in the CPI is 41.2%. See Exhibit B (CPI calculation) and Exhibit C (Calculations of 2008, 2021-2022 (existing), and 2022-2023 (proposed) fees).

The proposed changes update all dollar-amount fees to reflect the cumulative 41.2% increase. No other changes are proposed.

No Material Impact. The Commission has no discretion in fulfilling this regulation, and no discretion to adopt a change which differs in substance from the fee increases required by the regulation. Applicants have full notice of increases due to inflation, because the increase and the standard for calculation are contained within Title 14, section 13055, subdivision (c).

Additionally, the changes are based on an objective measure that is commonly understood and available, the state's Consumer Price Index. The fee increases do not impact any other regulations outside the Coastal Commission's jurisdiction.

Based on the above reasons, the change does not materially alter any requirement, right, responsibility, condition, prescription or other regulatory element of any California Code of Regulations provision.
