## RECORD PACKET COPY

August 20, 1996

TO: COMMISSIONERS AND INTERESTED PARTIES

FROM: PETER DOUGLAS, EXECUTIVE DIRECTOR

SUBJECT: EFFECTIVE CERTIFICATION OF PORT OF SAN DIEGO MASTER PLAN  
AMENDMENT NO. 22/A-9 Anchorage (for Commission review at its  
meeting of September 10-13, 1996)

BACKGROUND

At the Commission meeting of April 11, 1996, the Commission reviewed and approved Amendment #22 to the certified Port of San Diego Master Plan pertaining to the creation of Anchorage A-9. The anchorage area, located off Harbor Island near Convair Lagoon, would accommodate approximately 30 cruisers (traveling vessels whose owner/occupant is not a resident of San Diego County) for up to 90 days, or noncruisers for up to 72 hours. The proposed amendment was approved as submitted.

By their action on May 28, 1996 (Resolution #96-131), the Board of Port Commissioners has concurred and accepted the Commission's certification of the master plan amendment, as submitted. The Board has therefore adopted the master plan amendment as certified by the Commission.

As provided for in Section 13632(e) of the Commission's Code of Regulations, certification of the master plan amendment is not final and effective until the port governing body takes formal action adopting the amendment as certified by the Commission and the Commission has accepted the formal action. The Board's action has been reviewed and determined to be adequate by the Executive Director. To finalize Commission review of this port master plan amendment, the Commission must accept the port governing body's action. The attached letter would be sent to the Port of San Diego after Commission endorsement.

RECOMMENDATION

Staff recommends that the Commission ACCEPT the Board of Port Commissioners' formal action adopting the port master plan as being consistent with the Commission's certification.

Re: Certification of the Port of San Diego's Master Plan Amendment #22 (A-9 Anchorage)

Dear Chairman Van Deventer:

The California Coastal Commission has reviewed the Port District's resolution, together with the Commission's action of April 11, 1996 certifying Port Master Plan Amendment #22 pertaining to creation of the A-9 Anchorage.

By its action on May 28, 1996, the Port has formally acknowledged and accepted the Commission's certification of the amendment, which was to accept it as submitted. In accordance with Section 13632(e) of the Commission's Code of Regulations, I have made the determination that the Board's action was legally adequate to accept the Commission's certification of the master plan amendment. The Commission has accepted the Board's formal action as consistent with its certification at its meeting of September 10-13, 1996.

The Commission's action results in effective certification of the port master plan amendment. If there are any questions, please contact Deborah Lee at the San Diego Area Office.

Sincerely,

Peter Douglas  
Executive Director

RESOLUTION 96-131

WHEREAS, the Board of Port Commissioners of the San Diego Unified Port District (Port District) amended the Master Plan of the Port District by incorporating therein Master Plan Amendment No. 22, A-9 Anchorage; and

WHEREAS, said Amendment was transmitted to the California Coastal Commission for certification on December 11, 1995; and

WHEREAS, on April 11, 1996, the California Coastal Commission approved and certified said Amendment, as submitted and modified, NOW, THEREFORE,

BE IT RESOLVED by the Board of Port Commissioners of the San Diego Unified Port District, as follows:

That the Board of Port Commissioners concurs and accepts certification of the Port District's Master Plan Amendment No. 22, as submitted and modified, by action of the California Coastal Commission, and hereby directs that notice of this formal action be delivered to the California Coastal Commission.

ADOPTED this 28th day of May, 1996.
