EXECUTIVE DIRECTOR'S DETERMINATION (continued):

The Executive Director hereby determines that the proposed development is a category of development which, pursuant to PRC Section 30624, qualifies for approval by the Executive Director through the issuance of an administrative permit. Subject to Standard and Special Conditions as attached, said development is in conformity with the provisions of Chapter 3 of the Coastal Act of 1976, will not prejudice the ability of the local government to prepare a Local Coastal Program that is in conformity with the provisions of Chapter 3, and will not have any significant impacts on the environment within the meaning of the California Environmental Quality Act. If located between the nearest public road and the sea, this development is in conformity with the public access and public recreation policies of Chapter 3.

FINDINGS FOR EXECUTIVE DIRECTOR'S DETERMINATION:

The applicant proposes to replace an existing water and sewer main on Stearns Wharf. (See Exhibits 1 and 2.) The existing water main is 8 inches in diameter and the existing sewer main is 6 inches in diameter. The replacement water and sewer mains would be the same size, but not located in exactly the same location. Presently, the water main is located under the Wharf decking, while the sewer main is located near the edge of the Wharf decking. The project would relocate portions of the water and sewer mains on the edge of and slightly below the level of the wharf decking to aid access for maintenance and repairs. The replacement and relocation would not result in any expansion of significant visual impacts to the Stearns Wharf.

The proposed project would not modify or change the existing intensity of uses of the Stearns Wharf, or conflict with any applicable policies of Chapter 3 of the Coastal Act. The Executive Director therefore finds that the proposed project is in conformity with the applicable policies of Chapter 3 of the Coastal Act.
