August 25, 2000

TO:

Commissioners and other Interested Parties

FROM:

Peter Douglas, Executive Director

Steve Scholl, Deputy Director

Christiane Parry, Public Education Program Manager

SUBJECT:

Standard Agreement with San Diego State University Foundation

(For the meeting of September 12, 2000, in Eureka)

**Staff Recommendation:** Staff recommends that the Commission authorize the Executive Director to enter into a standard agreement with the San Diego State University Foundation to provide \$57,500 for project management of Phase II of the Commission's clean boating program, the "Boating Clean and Green Campaign." The funding comes from the Coastal Commission's Interagency Agreement with the California Integrated Waste Management Board.

<u>Motion:</u> I move that the Commission authorize the Executive Director to enter into a Standard Agreement to provide \$57,500 to the San Diego State University Foundation for project management of Phase II of Commission's clean boating program.

Staff Analysis: The Commission recently secured funding from the California Integrated Waste Management for Phase II of the Commission's clean boating program, the "Boating Clean and Green Campaign." The Campaign is the Commission's statewide effort to educate the boating community and facilitate the installation of services needed by boaters to reduce the emissions of oil and other pollutants associated with boating. Phase I of the Campaign went from April 1997 to May 2000 and was also funded by an Interagency Agreement with the Board's Used Oil Program. Phase II of the Campaign will begin in September 2000 and go through September 2001. The focus of Phase II is to coordinate and support the efforts of local jurisdictions seeking to reduce boat pollution.

To accomplish Phase II of the project, the staff proposes to continue to work with the San Diego State University Foundation and Miriam Gordon for project management services. This arrangement was established for Phase I of the Campaign, and proved to be effective.
