MEMORANDUM

BOARD OF
HARBOR COMMISSIONERS

Meeting of MAR 19 2001

Action ACCEPTED

DATE March 14, 2001
TO Board of Harbor Commissioners
FROM Robert Kanter, Director of Planning
SUBJECT Acceptance of Coastal Commission Certification of Port Master Plan Amendment #16

Background

On February 15, 2001, the Board of Harbor Commissioners adopted Port Master Plan Amendment #16 for submission to the California Coastal Commission for certification as an amendment to the Port Master Plan. Port Master Plan Amendment #16 amends the certified Port Master Plan to allow the construction of a 45.4-acre landfill in Slip #1 of Pier E and a portion of the East Basin between Piers D, E, and F within the Middle Harbor Planning District (District #5). The Amendment would also allow use of approximately 22.7 acres (inner-harbor credits) of the available Bolsa Chica mitigation credits from the Landfill Mitigation Bank established by Port Master Plan Amendments #8 and #11. The environmental impacts of the proposed project were analyzed in the Piers D/E/F Terminal Redevelopment Project Final Environmental Impact Report, which the Board certified on January 22, 2001.

On March 12, 2001, the Coastal Commission certified the Port Master Plan Amendment #16. The Commission made findings that the Amendment conforms with Chapters 3 and 8 of the California Coastal Act. The Commission further found that the Amendment would not have any adverse impacts on the environment, consistent with the California Environmental Quality Act (CEQA).

Recommendation

Under the Coastal Commission's administrative regulations, the Board of Harbor Commissioners must take an action accepting the Coastal Commission's certification of the Amendment. We respectfully request that the Board accept the California Coastal Commission's certification of the Port Master Plan Amendment #16 and authorize the Executive Director to transmit notice of such acceptance to the Commission for its acknowledgement.
