TO: Commissioners and Interested Parties

FROM: John Ainsworth, Acting Executive Director

SUBJECT: **Santa Barbara County Local Coastal Program Amendment No. LCP-4-STB-14-0834-2-Part A (Carpinteria Agricultural Overlay District View Corridor Map Change):** Executive Director's determination that action by the County of Santa Barbara, acknowledging receipt, acceptance, and agreement with the Commission's certification with suggested modifications is legally adequate. This determination will be reported to the Commission at the April 15, 2016 meeting in Santa Rosa.

On December 10, 2015, the Commission approved Santa Barbara County Local Coastal Program Amendment No. LCP-4-STB-14-0834-2-Part A with one suggested modification. On February 2, 2016, the Santa Barbara County Board of Supervisors adopted a Resolution (attached) acknowledging receipt of the Commission's certification of Local Coastal Program Amendment No. 4-STB-14-0834-2-Part A and accepting and agreeing to the modification suggested by the Commission. The document was transmitted to Commission staff on February 9, 2016.

Pursuant to Section 13544 of the California Code of Regulations, Title 14, Division 5.5, the Executive Director must determine that the action taken by the County of Los Angeles acknowledging receipt and acceptance of, and agreement with the Commission's certification of the above referenced Land Use Plan amendment and Local Implementation Plan with suggested modifications is legally adequate and report that determination to the Commission. The certification shall become effective unless a majority of the Commissioners present object to the Executive Director's determination.

I have reviewed the County's acknowledgement and acceptance of, and agreement with the terms and suggested modification of Local Coastal Program Amendment No. 4-STB-14-0834-2-Part A, as certified by the Commission on December 10, 2015, and find that the County's action and notification procedures for appealable development are legally adequate to satisfy the terms and requirements of the Commission's certification. I therefore recommend that the Commission concur in this determination.
