## Coastal Development Permit De Minimis Waiver Coastal Act Section 30624.7

Based on the project plans and information provided in your permit application for the development described below, the Executive Director of the Coastal Commission hereby waives the requirement for a Coastal Development Permit pursuant to Section 13238.1, Title 14, California Code of Regulations. If, at a later date, this information is found to be incorrect or the plans revised, this decision will become invalid; and, any development occurring must cease until a coastal development permit is obtained or any discrepancy is resolved in writing.

**Waiver:** 5-18-0281

**Applicant:** City of Santa Monica. Public Works Department, Attn: Tom Shahbazi

**Location:** City of Santa Monica, Los Angeles County

**Proposed Development:** Install 1,250 new bike racks and stripe roads for bike lanes at various locations. Install video detection cameras on existing traffic signals poles for safety. Install one camera at the corner of Montana Ave. and Ocean Ave. and install two cameras at the corner of Santa Monica Blvd. and 4th St.

**Rationale:** The City issued an approval in concept for the project on April 3, 2018. The bike racks will be installed at approximately 200 locations throughout the Coastal Zone on City owned property. The location of the bike racks will not impact coastal access, and are designed to enhance access around the coastal zone. The City has required that pedestrian access is maintained throughout the installation period. The installation of the video cameras will not have any impacts on coastal resources. The construction will not commence until after the peak visitor season.

The proposed development will not adversely impact coastal resources, public access, or public recreation opportunities, and is consistent with past Commission actions in the area and Chapter Three policies of the Coastal Act, nor will it prejudice the local government's ability to develop a Local Coastal Program.

This waiver will not become effective until reported to the Commission at its **July 11-13, 2018** meeting and the site of the proposed development has been appropriately noticed, pursuant to 13054(b) of the California Code of Regulations. The Notice of Pending Permit shall remain posted at the site until the waiver has been validated and no less than seven days prior to the Commission hearing. If four (4) Commissioners object to this waiver of permit requirements, a coastal development permit will be required.

Sincerely,

John Ainsworth  
Executive Director
