Complete, comprehensive description of communication content:

The purpose of the tour was to assist my understanding of the Hollister Ranch resources primarily the beaches, beach access, the facilities including parking lots, the ingress and egress to the beaches on the private road and the trails and ramps associated with the several beaches of the Ranch. Farberow discussed the challenges from the Homeowner's Association and shared resource information about the ranch. He provided two documents: one a report with pictures and a letter from the Association's counsel that were submitted to the Commission and part of the public record. I read both prior to the tour when the item was scheduled on the October Commission meeting but subsequently pulled due to the Alisal fire.
