Subject: Memories at Oceano Dunes

Categories: Oppose Staff Recommendation

To Whom it May Concern:

I want to voice my opinion on the possible phasing out of OHV and camping use of the Oceano Dunes. Camping and riding on the dunes has been a favorite pastime for our family since my kids were babies. We have spent many weekends (and sometimes weeks) camping and riding. Our kids learned to ride out there. Our trips there are some of our fondest memories spent with family and friends. We always go into town and shop and eat at the local restaurants such as Pancho's, The Bling Boutique, Hoagie's, Pismo Fish & Chips, Mo's, etc. We purchase our gas there on Grand, and do our grocery shopping at the Vons on Grand or the Walmart in AG. It's our home away from home. Please seriously consider the many people who have made these trips part of their family's memories, and just how much we spend in the area when we are there. I can't imagine not having this available to escape to.

Thank you for your consideration of our request to keep the Oceano Dunes open to camping and OHV.

The State Parks proposal would create a bigger mess of a mess that is yet to be cleaned up. First of all how did a state agency become beholden to a group who has essentially taken over the Oceano Dunes State Park. This beach belongs to all the people. The residents of Oceano cannot even walk on their beach because of 4x4's, ATV's, and dune buggies. In government terminology it is called regulatory capture. A special interest group that serves the interest of an ideological group. Oceano Dunes State Park has been corrupted for many years to where it has become the norm.

Over the years 'Parks' has dragged their feet on sand fencing, native habitat restoration, not protected endangered species, and has missed deadlines continuously to improve conditions at the Dunes.

Their proposal is to expand the Dunes southward to the Phillips 66 oil refinery [which closes operations in 2023] and to Oso Flaco State Park is even more irresponsible. It spreads out the airborne particulate matter [PM or sand dust] to a wider area. The scientific studies have shown continuously the elevated concentrated levels of PM 10 and PM 2.5 in the surrounding communities which cause respiratory problems.

I urge you to stop or phase out the dune riding at Oceano Dunes State Beach.

Respectfully,

Vincent Chavez

Subject: Oceano Dunes, please KEEP all vehicle access, we OBJECT to the CCC's Staff recommendations!

Categories: Oppose Staff Recommendation

Dear Coastal Commissioners,

We are residents of Oceano. We absolutely LOVE Oceano Dunes SVRA. This is our beach, our community, our backyard, and our playground! Oceano Dunes is THE reason we all call this place home, and for all of the incredible recreational opportunities we have all thanks to vehicle access! We love to drive on our beach, we love to camp on our beach, and we love to ride out in our dunes! We love every inch of this spectacular park!

We are so grateful to live here, it's our slice of heaven, often referred to as "the gem of the central coast". There are many beach towns up and down the California coastline but there's only one Oceano Dunes. You can visit those beaches anywhere, but you can only have this amazing experience of driving here, on our sands! It's a magical, unique, one of a kind Park that offers such an amazing sense of freedom, independence, and accessibility for so many here in our community! It's the only state park in CA that allows vehicle access, something that people travel across the whole WORLD to come and experience. This is more than just a park to us, this is the heart and soul of OUR community!

Every single day you will find us out on our beach! We drive out to our favorite spots, to do so many of our daily routines including, exercise, entertainment, spiritual practices, mental health, stress release, to have quality family time, to decompress after a long day, to enjoy our unbelievable sunsets, to watch the stars, to breathe the fresh air, feel the sand on our feet and to listen to the waves crash, all with our vehicles nearby, a necessity for many of us here in town!

Oceano is a quaint, quiet, beach town and we want to keep it that way!! The Staff report tries to compare Oceano to other nearby cities like Pismo Beach or Avila and they envision turning Oceano into something similar. The majority of Oceano residents do not want to see this happen, in fact, Oceano streets are not set up the same way and we could never be reimagined this way. Why is the Staff interested in doing so, what stakes do they have in this, it seems like they have another agenda in mind and have their hands in the cookie jar...

We OBJECT the Staff recommendations, we OBJECT their plans phase out OHV access over the next five years, we OBJECT to their vision for OUR beach, for OUR dunes and for OUR community!! We have no doubt that it will decimate and destroy our town and our economy!

Staff Recommendations:

1. To phase out all OHV access over the next five years
2. To close down the Pier Ave entrance to the Park as early as THIS July
3. To move camping and day use to the areas between Pier Ave and Grand Ave
4. Expand beach activities such as walking and swimming, along with hiking, biking, horseback riding, and birdwatching.

To phase out OHV access would completely change the intent of the park as an OHV designated, State Vehicular Recreation Area since 1983. Generations of FAMILIES have been living and vacationing here since the early 1900's!! This would severely impact our community and businesses who rely on the tourism and the money that it brings to our community, in fact, 1.8 million visitors, $243 million and 3300 jobs. It is the only State Park that allows off roading, camping and beach driving in California! Many people travel from all over the state, other states and internationally to visit our Park! Families have made it their tradition to recreate at our beach and dunes for 100 years, we don't want that to change, why is some government agency whose members don't even live or vacation here trying to decide for US?

Closing Pier Ave makes no sense! They claim that they want to close it to give us, the "underserved" residents of Oceano a chance to redevelop and reimagine our town. First off, that is very insulting! Second, we are a proud and diverse community that loves our beach and the vehicle access that we have, who asked us? In the report they name a group of vocal locals who are against keeping the beach open as their main source of input on this matter. How is that a fair representation of our community? This group has FIVE members. They do NOT speak for us, our friends, neighbors and countless others that we have spoken to who live in OUR community!! We love that we live here, in a quiet beach town. There isn't room on the 1/2 mile stretch of street to do such grand redevelopment and we already have established homes and businesses there, where would this take place!?!

Moving camping and day use to the 1 mile area between Pier and Grand is absurd and dangerous! Currently we have 5+/- miles of coastline including 1500 acres of Park access. How does it make sense to shrink that down to only 1 mile of beach? Anyone who has been on this beach in that area knows it often (almost daily) has tide conditions that do not support beach camping! How are we to camp, under water? How many campsites and day passes will they allow and how will we recreate safely in this small area, now with only one entrance/exit point??? And they mention that after the 5 year period they want to move camping even more north, where would that be exactly????

The activities they mention above are CURRENT activities that take place at our beach everyday and have for generations, this is nothing new! The beauty of Oceano Dunes, is that there's something for everyone! We can all share in the amazing recreational activities that we and generations have all been doing for 100 years!!!

We feel that their report and ideas are extremely biased, one sided, and we would like to know where they got their data to support this recommendation! Was neutral, third party data collected, from what it sounds like, the answer is NO!

Please consider what this will do to OUR lives, the people who actually live and work here in this community! Please REJECT the Staff's recommendations! State Parks has been working extremely hard on their PWP/EIR. Is it perfect? No, but we need a chance to work together to have a compromise. It can't be all or nothing!

Sincerely,

Jennifer and David Rokes, Oceano Residents

Gina McMahon, Oceano Resident (fifth generation)

To whom it may concern,

I urge you to do everything within your power to maintain Oceano dunes SVRA as a recreation area for camping and OHV riding.
My family has been camping and riding these dunes for close to 30 years. Of the entire coastline of the state of California, families have ONE beach where we can camp and ride. Oceano dunes has been our children's favorite vacation spot from the time they were babies. No tv. No hook ups. No arcade. Just fabulous family time and good, healthy outdoor activities. Why does one small group of individuals who chose to purchase homes near an established OHV / camping recreation area have so much power as to cause the already shrunken riding area, and the threat of losing this place entirely? Science has proven their dust theory wrong. Period. We pay taxes for all of our ATV's and these fees are intended to grant us access to this park and the few other riding areas with access in California. We also spend a significant amount of money at the surrounding businesses and the money brought in by all those who camp and ride is significant.
To cave in to this small group seeking to destroy the family recreation at the Oceano Dunes SVRA would be a huge mistake. Please listen to those of us who have been trying to get our message through. We love this place and there is no substitute for it.
Thank you.
Tina Whittington

Subject: Ocean Dunes Comment: Cal Poly Student Input on Oceano Dunes

Categories: Oppose Staff Recommendation

Hi California Coastal Commission,

I would like to give some input on the plans for the Oceano Dunes. Over my five years of studying at Cal Poly, I have come to appreciate the dunes as a very unique place and have seen how the dunes are central to the Pismo area, both culturally and economically.

Culturally, the dunes are an important place for many people, with special memories of time with family and friends. The dunes offer an opportunity for friends and families to bond and enjoy the outdoors together in a unique setting, in a type of place that is non-existent in many other parts of California. I even have family Northern California who have visited the dunes to appreciate the uniqueness of the experience and location. Decreasing use of the Oceano Dunes will prevent enjoyment of this unique place. It will particularly hurt those who have difficulty accessing the beach from normal locations, such as people who are restricted to wheelchairs. These dunes are a special place with special opportunities that should not be shut down.

From an economic standpoint, many local businesses are based around visitors to the dunes and rely on these visitors to support their business. Decreasing access to the dunes in any way means hurting these businesses and hurting economics in the Pismo area.

Thank you for taking the time to read this comment, and I encourage the Central Coast Commission to not restrict access to the dunes in any way. This is a special place that needs to stay completely open, both from a cultural and economic standpoint.

Regards,
Michael Charonnat
Cal Poly Graduate Student

Dear Honorable Coastal Commissioners,
It has come to my attention that your body is attempting to deny access to a very valuable natural resource based upon faulty analysis of data as well as succumbing to a group of very vocal minority of property owners. I spent 29 years working at Oceano Dunes as a State Park Employee, now retired. I can attest to the fact that the matter regarding PM 10 is not as critical as local representatives make it out to be. Any foriegn substances found in the air column arise out of the pool of warm water from the Diablo Canyon Nuclear Power Plant. I have read the report myself.
As for members of the public opposed to vehicles being allowed on the beach who testified at a public hearing about the use of vehicles on the beach, I observed a group of elderly citizens wearing nasal cannula attached to small oxygen tanks sitting and jovially socializing in the anteroom of the Grover Beach City Hall without any difficulty breathing. When the agenda item that they were wishing to comment on was called, they suddenly and in unison started coughing so loudly as to disturb the board members who were trying to listen to other testimony.
My point in bringing this to your attention is that many outspoken critics of vehicle use on the beach have a very self serving, narrow minded attitude about recreation and what is appropriate for the area.
What is known about recreation at Oceano Dunes SVRA, is that it is a family environment in the camping area. There are no other places on the California coast where people of low income may take friends and family to camp along the shoreline much like has been done historically for over 100 years. If this resource is taken away from the public there must be a replacement opportunity, and In my opinion there are no other suitable opportunities for such a recreational pursuit.
Remember Maslow's Hierarchy of Needs states that recreation is a way for people to recreate themselves, find happiness and become more productive in the workplace.
Lastly if this recreational resource is taken away, what public benefit programs will the commission suggest be eliminated or drastically reduced so as to be useless after the tax revenue has stopped from the income derived from vehicle recreation on the beach? With the closure of Diablo Canyon Nuclear Power Plant set to happen by 2025, the doubled economic impact will be devastating to the county's budget.
I implore the commission to not recommend closure of the park and instead continue to work with State Parks to improve the recreational experience for the visitors who come from all over the world and to maintain public access that has been happening for over 100 years.
The commission could assist State Parks to determine a smaller number of camping vehicles allowed on the beach and reduce the number of vehicles overall allowed on the beach. This would represent a favorable collaborative approach and would be respected by all c oncerned.
Respectfully,
Robert K Tolin
SSPPO #636, Retired

Subject: Comments - Oceano Dunes State Park

Categories: Public Comment

Dear Commissioners,

I would like to express my comments in opposition of the proposed, Draft EIR concerning Oceano Dunes State Park and express my support for the Coastal Commission's staff recommendations.

I am a resident of Santa Maria, CA and am a regular visitor and birder to Oso Flaco Lake. As a matter of fact, my first job in California was as an intern for The Nature Conservancy, being hired by Chuck and Nancy Warner who worked at the Carrizo Plain Natural Area. They later moved on and I believe were instrumental in building the boardwalk that is now used at the Lake. I mention this because I can assure you their intent for this area and the others who planned and built this access, was not to see an expansion of OHV use at and near the Lake. Like many conservationists, they and I understand that it can take many years for wildlife, (including birds), to become accustomed to a change in habitat and some may never become accustomed and move on. In a world where the pressures on wildlife, expecting wildlife to adapt or move on is not an option (if it ever were). To accept any of the changes that State Parks is proposing would be so incompatible with the intent of Oso Flaco and the surrounding dune habitat and would be devastating. Rare plants and animals would become only more so and we would have one less gem on the Central Coast. I also wonder why, in the midst of climate change, would we be encouraging more use of vehicles that run on fossil fuels? Why invite more noise, lights and dust? How are any of these things compatible with preserving our coastline and the quality of the experience most visitors expect at our beaches? They are not.

Please deny State Parks this outrageous example of expansion for tourism dollars and recognize our coast and the dune complex for what it is - a rare and beautiful, functioning ecosystem that maintains a bit of wildness and is something that should be preserved.

Thank you for your thoughtful consideration.
Sincerely,
Kathy Sharum

Subject: Ensure Sustainable Management of the Oceano Dunes

Categories: Public Comment

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Julie Osborn

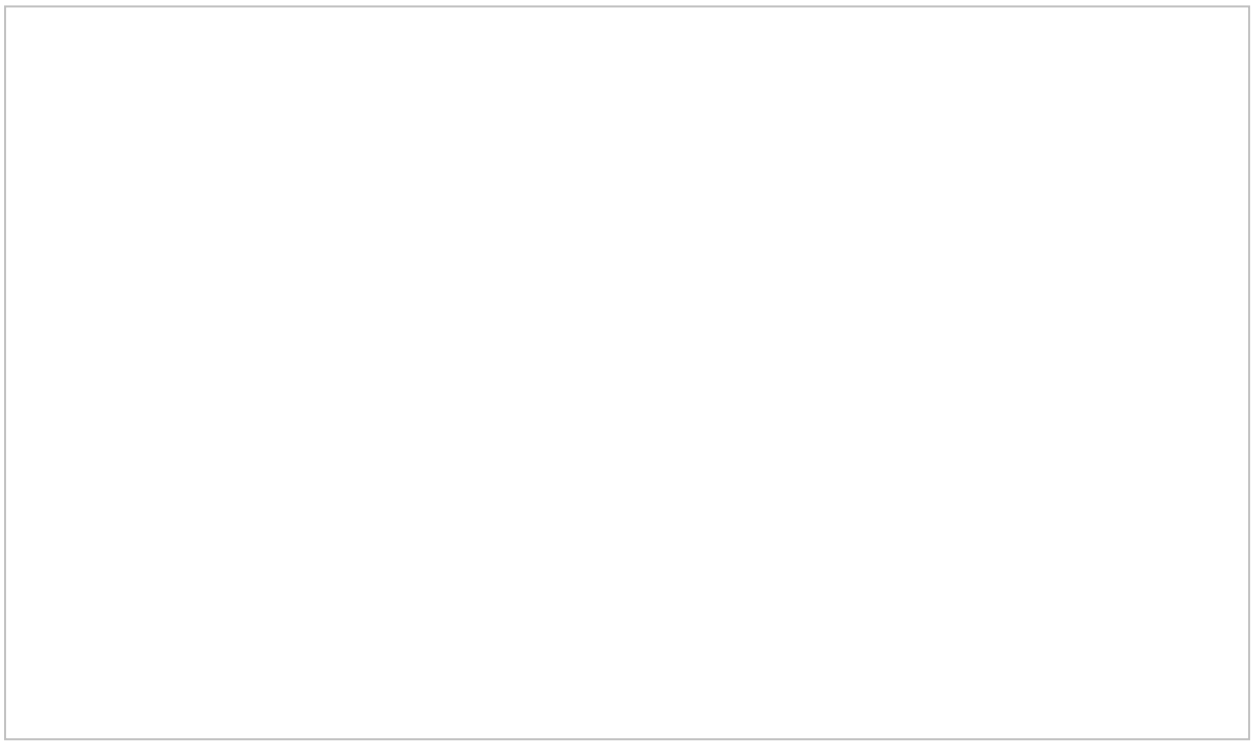
ODSVRA has 6 miles of beach. This is less than 0.5% of the length of California's coastline.

Support Staff Recommendations



Cynthia Replogle <cynthia.replogle@gmail.com>

Fri 3/12/2021 12:05 PM

To: OceanoDunesReview@Coastal <OceanoDunesReview@coastal.ca.gov>

I am a Director on the Oceano Community Services District Board but comment as an individual. Please adopt staff's recommended changes to State Parks' CDP for Oceano Dunes and Pismo State Beach. These changes are long overdue to bring operations and management into compliance with the Coastal Act and Local Coastal Programs.

In its unacceptable and unapprovable PWP, State Parks proposes to make the Pier Avenue vehicle entrance permanent. Not only would this continue decades of environmental and economic injustices against the disadvantaged, majority-minority community of Oceano, but it ignores the ever-increasing risk of flooding due to sea level rise and tsunamis. Recent king tides gave us a preview of the future, with the ocean lapping high up the vehicle ramp, almost to the gate.

It is therefore imperative to close the Pier Avenue vehicle entrance soon and restore the natural beach and dunes to protect Oceano's critical infrastructure, homes and businesses.

While Oceano has already been waiting decades for justice and the recommendations add five more years until we have a safe, vehicle-free beach, immediate closure of the vehicle entrance will at least allow our community the opportunity to start creating a pedestrian- and bicycle-friendly main beach street and business corridor while we await access to a normal California beachfront.

I know that voting to implement staff recommendations isn't without risk. Offroaders have threatened to dox, hack, rape and kill me for my advocacy on environmental and justice issues. Some of them are my neighbors, they know where I live, and last month I found a razor blade in my car tire. But still I stand up and speak despite their attempts to intimidate me, knowing that I am the voice for many people who have been silenced. In the words of John Lewis, "When you see

something that is not right, not fair, not just, you have to speak up. You have to say something; you have to do something."

Please do something today. I urge you all to find the courage to uphold the law, make your EJ policy more than just words on paper, and finally do the right thing.

Best,
Cynthia Replogle

California Coastal Commission
OceanoDunesReview@coastal.ca.gov

Subject: Oceano Dunes Coastal Development Permit 4-82-300 Review

Dear California Coastal Commissioners,

I am writing to express my support for the Commission to amend the base CDP to include conditions that will ensure that uses and intensities of use at the Oceano State Parks Beach are consistent with the Coastal Act and the LCPs. I would urge the Commission to adopt Staff's recommendations by moving toward healthier and safer beach activities that can be accessed by all and truly live up to the Coastal Act by providing access to all, while protecting the habitat.

I have followed this travesty for years and have made public comment at both State Parks' meetings and the Commission's meetings, including power-points to help identify some of the egregious effects that OHV use has on the Dunes, including numerous deaths resulting from OHV activity.

I am aware of the health effects OHV use has on individuals who live, for example, on the Nipomo Mesa, and as an asthmatic myself, I am unable to enjoy the Dunes because of the degraded air quality and the deplorable way in which the beach is used. In Jan. 2018, a letter was sent to the SLO APCD telling them to fix their dirty air. A former director of the SLO APCD told the Commission at a September, 2017 meeting, that the level of pollution at the Dunes was the highest in the country!

State Parks is not living up to its mission by allowing OHV use in Oceano. Our **Mission:** To provide for the health, inspiration and education of the people of **California** by helping to preserve the **state's** extraordinary biological diversity, protecting its most valued natural and cultural resources, and creating opportunities for high-quality outdoor recreation."

State Parks' PWP is quite frankly, an insult to direction given to them by the Coastal Commission in addressing a plan to help resolve the issues. When I read that State Parks plans to expand vehicular and OHV use, in addition to a weapons range, and other concerning issues, I was stunned!

I could speak on numerous issues that affect the Dunes and its habitat, but you have limited time to read volumes of correspondence that I anticipate you will be receiving.

Thank you for the opportunity to comment on this most important issue facing the Commission, and thank you for your service and dedication to the Coastal Act and all that it means for our golden state.

Respectfully,

Tina S. Dickason

Arrest made in Saturday night Oceano Dunes shooting

By **GRETA MART** • **MAY 5, 2019**

Campers and OHV riders at Oceano Dunes SVRA.
COURTESY OF THE FRIENDS OF OCEANO DUNES

Police have arrested a man suspected of shooting and injuring six people late Saturday night at Oceano Dunes State Vehicular Recreation Area in San Luis Obispo County. There were no fatalities in the shooting incident. 19-year-old Francisco Orozco of Oakland, California was arrested Sunday on charges of attempted murder. The county sheriff's office is leading the investigation, and San Luis Obispo County Sheriff's Office spokesperson Grace Norris says State Parks received 911 calls about shots fired around midnight. CalFire SLO first responders provided initial treatment to six people, who were then transported to local hospitals. Norris says sheriff deputies are still collecting evidence and interviewing people at the scene, and that the department believes the shooting was "an isolated incident." Early reports Early reports mentioned five victims, but according to a release published by Norris at 8:30 a.m. Sunday, six people were injured.

The park remains open to "day" visitors and campers.
The Sheriff's Office is asking for information on the shooting, which can be provided anonymously through Crime Stoppers by calling (805) 549-STOP (7867) or through the website www.slotips.org.

This story will be updated as more information becomes available.

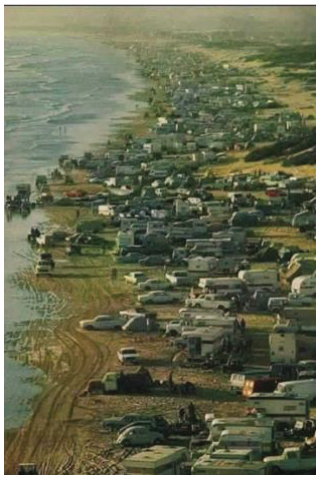
Re: Th3 - Oceano Dunes CDP Review

Dear Chair Padilla and Coastal Commissioners:

Now is the time to allow the beach and dunes at Oceana Dunes to continue their “Coronavirus closure” transformation into a vibrant, safe, and clean environment for beachgoers of all kinds. Now is the time to protect all of the finite natural resources and endangered species in this entire area. Contrary to testimony you have heard in the past, OHV enthusiasts are not an endangered species.

Pictures are worth thousands of words and you will be hearing more than thousands of words next Thursday. I will keep my words to a minimum and ask that you please keep these pictures in your mind as you decide on the fate of this natural resource that has been abused for far too long.



This is what we should see on this beach:

This should be discontinued in all manner, shape and form:

Thank you for supporting your staff’s efforts to protect and preserve this precious ecosystem.

Sincerely,

Penny Elia

Re: Comments for California Coastal Commission March 18 meeting (ODSVRA)

Submitted via email: OceanoDunesReview@coastal.ca.gov

Dear Commissioners,
Following years of preparation and direct coordination with the California Coastal Commission, California State Parks released their draft Public Works Plan (PWP) in December 2020. Per the deadline, the PWP was delivered as promised by State Parks to the CCC. Rather than this Commission taking the opportunity to discuss and evaluate the Oceano Dunes PWP at your March 18 meeting, you have taken the drastic action to instead move forward with a vote on your Staff's recommendation for the 5 Year Phase out of OHV at Oceano Dunes SVRA.

In an effort to appease the CCC, State Parks went to pain staking measures to assure that the PWP had directly addressed each of this Commission's concerns and demands. This was done at the expense of State Parks offering no actual benefit to the OHV users and campers of the Park in the PWP, but instead drastic new reductions and restrictions imposed to the Parks current operations.

This Commission's intention to phase out OHV at ODSVRA is nothing less than an overreach of power, a violation of statutory mandate, a total dismissal of the PWP and a huge slap in the face to California State Parks and Director Quintero. In the spirit of collaboration, I would think that this Commission would recognize the good faith efforts put forth by State Parks, to find compromises and solutions for the longer term sustainability of balanced recreation and natural resource protection at the Park. By this Commissions outright dismal of the PWP, in favor of your Staff recommended 5 year plan, you are demonstrating your conscious lack of willingness to work with State Parks toward real solutions, in favor of a unilateral decision for this Commission to unlawfully change the designation and uses of ODSVRA.

I find it disgraceful that your Staff believes to hold the moral authority and high ground to dictate the future demise of an entire community. Your staff's recommendation would displace this entire community, destroying businesses and a vibrant local economy depending on this Park, rob healthy recreational opportunities from families and restrict disabled access to the only fully ADA accessible section of California coastline. All in an effort to fit your staff's biased objective to destroy over 100 years of well documented vehicle recreation at the Park. This is

what we call gentrification, and it is in fact an intentional act of discrimination. I have heard from staffers that the local families, businesses and community will find ways to adapt to these proposed changes at the Park. This just is not right.

It appears that your Staff has not considered the immediate and long terms consequences that this 5 Year Plan will have on the disabled community, residents, businesses, surrounding communities and on affordable recreational opportunities for families all over the state and country. Oceano Dunes SVRA is the crown jewel of the California experience for tourists who travel here from all over the world. Our Park should be serving as a model for how responsible recreation can coexist in balance with natural resource protection and management.

It is time for this Commission to recognize the many successes the OHV Community has provided through the funding of our incredibly successful endangered species programs and natural resource protections. The Coastal Commission should be working with State Parks and the Off Road community, to build upon these successes, and to model them for use at other coastal State Parks programs. There is much we can do through collaboration and working together, but this would require willingness by this Coastal Commission to not take unilateral action on your staff's recommendation.

I urge this Commission to reject your Staff recommendation for the 5 year phase out of OHV use at Oceano Dunes SVRA. I urge this commission to come to the table and sit down for collaborative discussions with CA State Parks towards further work to develop the PWP.

My family has spent 3 generations growing up on the Dunes, and I would like my young daughter to grow up with these same wholesome family experiences that are so near and dear to our hearts. My family will stand with State Parks to ensure the current recreational opportunities at Oceano Dunes SVRA will be here for generations to come. We urge this Commission to vote NO on the 5 year plan!

Sincerely,

Jared Macleod
VP, Friends of Oceano Dunes
VP of Education, California Off Road Vehicle Association (CORVA)
aviatormacleod@gmail.com

Dear Chairman Padilla,

I have to say the letter below which I received and is being circulated by the President of Visit SLO CAL is really self serving and simply about unfounded economic impact. The reality is most of the out of town visitors who participate in off road vehicular recreation at the dunes don't spend much money here. They carry everything they need from their hometowns and unfortunately the only things they leave behind are trash and destruction of the environment. The proposed guidelines to limit activities at Oceano Dunes are about the health and safety of not only our community members but the survival of the dunes and its essential natural habitat. I strongly support the adoption of the proposed plan to limit activities at Oceano. I chose public and envronmental health over money.

Thanks you for your consideration!

Tony Salome

Los Osos, CA

California Coastal Commission
45 Fremont Street, #1900
San Francisco, CA 94105

Dear Chair Padilla and Commissioners:

My name is BLANK and I am the TITLE at the PROPERTY NAME in CITY, and I am writing to express my concern for the upcoming March 18th hearing in regards to the Oceano Dunes Vehicular Recreation Area (ODSVRA). Given that we do not understand the larger economic impacts of a segmented or full closure of the ODSVRA, and that our community has no representation on your board, I am asking for the California Coastal Commission to postpone this important decision until these two issues are resolved.

The Oceano Dunes SVRA is a unique and critical asset to the tourism infrastructure that attracts many visitors to San Luis Obispo County (SLO CAL) and the surrounding Central Coast Region. Additionally, the ODSVRA provides a significant economic impact to the businesses in south county and contributes to the overall economic vitality of our county. Each year, thousands of domestic and international travelers flock to the ODSVRA and the surrounding communities to experience the only beach in California accessible to both street-legal vehicles and off-highway vehicles. These visitors support our local economy by staying in our hotels and short-term rentals, shopping, dining at local stores and restaurants, and using other services to support their recreational activities. The 1.5 million annual visitors generate a sizeable amount of economic activity in the southern portion of San Luis Obispo County. If the commission decides to adopt the current staff report, these important financial contributions will be lost to our communities.

It is important to note that at this time there has not been a definitive or unbiased economic impact assessment that is needed to present the real impacts of the ODSVRA and potential segmented closure. Previous studies do not provide precise data or conclusions on the measurable impacts. The staff recommendation requests the California Coastal Commission to request 1) limiting the existing camping area; 2) restrict the street-legal driving area and; 3) phase-out the off-highway vehicle area (OHV). We need an economic impact assessment to

present definitive data that outlines the actual impacts these decisions could have on our small businesses and local economy.

The Coastal Commission staff recommends limiting the existing camping area and street-legal vehicle driving component to the ODSVRA. By restricting these two popular components of the park, removes the equitable accessibility of our scenic coastline and the main reasons why people travel and stay in our communities. Generations of families that come to visit the ODSVRA and enjoy the spectrum of outdoor activities will not be able to enjoy our beaches, and our south county businesses will regress significantly.

It is no secret that aside from the environmental attractions, the most popular component is the OHV area. And while off-roading enthusiasts travel from all over California to ride along our scenic coastline, the ODSVRA also attracts a large population of international travelers each year. The OHV area in particular provides our international guests with the ability to enjoy this unique opportunity that is not available elsewhere in California. International travelers tend to stay longer and spend more money compared to domestic travelers, and we cannot afford to lose their visitation to SLO CAL, and without this asset, international visitation would be significantly reduced.

In addition to the international visitors, the ODSVRA also attracts the film industry. Due to the convenient access to the Dunes system, and our local lodging accommodations, the ODSVRA is particularly enticing to filmmakers, musicians, adventure photographers, and other artists. When filming occurs, the artists and their crews increase revenue for State Parks and generate revenue in local hotels and the community in which they stay. The potential loss of not only the OHV area but limited camping and vehicle beach driving takes away the main reasons why people travel here to experience the ODSVRA.

Additionally, our community is left without representation on the California Coastal Commission. The South Central Coast seat has been vacant since the beginning of the year, and we firmly believe a weighted decision such as this cannot be made with the absence of that seat. The staff report recommendations will have a huge impact on our county. We need a commissioner who understands the history and complexity of ODSVRA and will make decisions with our communities'' best interest in mind. Representation of the South Central Coast District is critical.

Considering these factors, I ask that you hold this item for consideration at a later date. It is vital that we have a representative who understands all the potential outcomes of the ODSVRA decision, in addition to having economic impact data and analysis necessary to implement sensible solutions moving forward.

Thank you for your time and consideration.

All the best,

SIGNATURE/NAME

March 12th, 2021

Mr. Steve Padilla, Chair
California Coastal Commission
45 Fremont Street, #1900
San Francisco, CA 94105

Dear Chair Padilla and Commissioners:

My name is Jedidiah Bickel and I am the General Manager at the SeaCrest OceanFront Hotel in Pismo Beach, and I am writing to express my concern for the upcoming March 18th hearing in regards to the Oceano Dunes Vehicular Recreation Area (ODSVRA). Given that we do not understand the larger economic impacts of a segmented or full closure of the ODSVRA, and that our community has no representation on your board, I am asking for the California Coastal Commission to postpone this important decision until these two issues are resolved.

The Oceano Dunes SVRA is a unique and critical asset to the tourism infrastructure that attracts many visitors to San Luis Obispo County (SLO CAL) and the surrounding Central Coast Region. All the best,

Jedidiah Bickel

My family and I are longtime residents of Grover Beach, we have always enjoyed the dunes as a place to reconnect with one another. Being able to off-road in this beautiful, scenic, and tranquil place has a majestic way of restoring balance to one's soul inspiring a sense of well-being.

This past year has been tough for everyone and the dunes have provided a safe environment for people to get away from the realities of the COVID-19 pandemic. I can personally testify that those 6 months when the dunes were closed was quite disheartening because I was unable to go to my "happy place" and get re-centered.

The dunes have so much to offer, closing them would be a severe tragedy everyone in our community and the surrounding areas. With all of the shutdowns we as a society have faced this past year, closing the dunes would further crush the soul of so many.

On a less personal note, the dunes are wonderful place for encouraging community service and care

for the environment. I have seen several people and groups actively showing their love for the dunes by clearing litter. Closing them would completely delete the opportunity for community and environmental awareness in our area. During this time of division and isolation, why shut down a place that unites people, heals them and gives them a sense of purpose by caring for our environment.

Sincerely

Tara & Matt Beecher

Considering these factors, I ask that you hold this item for consideration at a later date. It is vital that we have a representative who understands all the potential outcomes of the ODSVRA decision, in addition to having economic impact data and analysis necessary to implement sensible solutions moving forward.

My own opinion is that a solution for all needs to be reached. Limiting day use and OHV traffic is a good start. It's a lot more peaceful out there right now. I think it's a major asset to be able to camp on the beach; where else can you do this in CA? What about phasing into requiring EV's only in 10-15 yrs? Electric quads and motorcycles do exist and they're a clean and non-noisy solution. What about increasing the entry fee but giving a redemption if you bring trash back? I was shocked when we went out there recently; the first time since childhood because I've written it off as "un-safe" until now, to find there is so much glass, plastic, and old rusty parts in the dunes. Charge a $15.00 entry fee but if you bring a bag of old trash out you get a redemption of $5.00 at the kiosk when you leave for the day. Also, the caution tape thing is a real bummer. People should be limited to the size they can make their campsites with caution tape.

Thank you for your time and consideration.

All the best,

Sarah Selzer

Chairman Padilla
Vice Chair Brownsey
California Coastal Commission
OceanoDunesReview@coastal.ca.gov

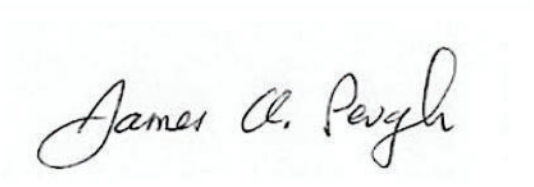
Re: Recommendations for Recreational Use at Oceano Dunes

Dear Chairman Padilla, Vice Chair Brownsey and Commissioners,

On behalf of the San Diego Audubon Society and our members, we are writing to voice our support for the proposal by CA Coastal Commission staff to phase out off highway vehicle (OHV) activity over a five year period in favor of more environmentally benign public access and stronger wildlife protections at Oceano Dunes. We ask that these recommendations be adopted and that the State Park's Coastal Development Permit be amended to reflect these changes, and that the phase out of OHV use take no longer than five years, ideally less than.

Oceano Dunes is home to two listed species, the Western Snowy Plover and the California Least Tern, which rely on the coastal sand dunes of California as their primary nesting habitat. Both species are on the decline due to poor reproductive success, human disturbance, habitat loss, and high rates of predation from urban species. While efforts by wildlife agencies and land managers are attempting to remedy these threats, when combined with the worsening impacts of climate change and sea level rise, the successful recovery of both species is far from assured. The state-wide population of California Least Terns, for example, has declined by over 50% over the last decade.

Both species have seen high levels of nesting success at Oceano Dunes over the last decade, especially in comparison to state-wide averages. Oceano Dunes produces one of the highest numbers of CA Least Tern fledglings on an annual basis, and in 2020 supported 200 nesting pairs of Western Snowy Plovers, an extremely significant proportion of the entire population, which is estimated at 1,500 pairs.



Despite the recognized importance of Oceano Dunes to these listed species, they continue to suffer from the negative impacts of uncontrolled OHV use, resulting in unacceptable numbers of "takes" of adults, nests, eggs and chicks. OHV use also tramples native dune vegetation and degrades this rare and declining habitat, which is a federally designated Natural Landmark on account of its large expanse within the Guadalupe-Nipomo Dunes Complex.

Public access to our coasts and natural habitats is an essential quality of life issue, but allowing one user group to dominate and degrade this area to the detriment of all others (bird watchers, campers, hikers, wildlife photographers, etc.) is not fulfilling the mission of the Coastal Act. Instead of moving forward with expanded OHV use, it is more appropriate to invest resources into truly equitable uses that complement the biological richness of the area, such as low impact or car-camping opportunities in less sensitive areas. The state of California offers dedicated

OHV areas at eight other State Parks and 70 public areas, where the impacts to biological resources have been minimized, and OHV users should be directed there.

Please keep San Diego Audubon notified regarding any further updates or major milestones on this issue. Thank you for your time and consideration.

Respectfully,

James Peugh
San Diego Audubon
Conservation Committeee Chair
peugh@cox.net

03-12-21

Mr. Steve Padilla, Chair
California Coastal Commission
45 Fremont Street, #1900
San Francisco, CA 94105

Dear Chair Padilla and Commissioners:

My name is Heather Barr and I am the owner at The Locked Inn in Grover Beach and I am writing to express my concern for the upcoming March 18th hearing in regards to the Oceano Dunes Vehicular Recreation Area (ODSVRA). Given that we do not understand the larger economic impacts of a segmented or full closure of the ODSVRA, and that our community has no representation on your board, I am asking for the California Coastal Commission to postpone this important decision until these two issues are resolved.

The Oceano Dunes SVRA is a unique and critical asset to the tourism infrastructure that attracts many visitors to San Luis Obispo County (SLO CAL) and the surrounding Central Coast Region. Additionally, the ODSVRA provides a significant economic impact to the businesses in south county and contributes to the overall economic vitality of our county. Each year, thousands of domestic and international travelers flock to the ODSVRA and the surrounding communities to experience the only beach in California accessible to both street-legal vehicles and off-highway vehicles. These visitors support our local economy by staying in our hotels and short-term rentals, shopping, dining at local stores and restaurants, and using other services to support their recreational activities. The 1.5 million annual visitors generate a sizeable amount of economic activity in the southern portion of San Luis Obispo County. If the commission decides to adopt the current staff report, these important financial contributions will be lost to our communities.

It is important to note that at this time there has not been a definitive or unbiased economic impact assessment that is needed to present the real impacts of the ODSVRA and potential segmented closure. Previous studies do not provide precise data or conclusions on the measurable impacts. The staff recommendation requests the California Coastal Commission to request 1) limiting the existing camping area; 2) restrict the street-legal driving area and; 3) phase-out the off-highway vehicle area (OHV). We need an economic impact assessment to present definitive data that outlines the actual impacts these decisions could have on our small businesses and local economy.

The Coastal Commission staff recommends limiting the existing camping area and street-legal vehicle driving component to the ODSVRA. By restricting these two popular components of the park, removes the equitable accessibility of our scenic coastline and the main reasons why people travel and stay in our communities. Generations of families that come to visit the ODSVRA and enjoy the spectrum of outdoor activities will not be able to enjoy our beaches, and our south county businesses will regress significantly.

It is no secret that aside from the environmental attractions, the most popular component is the OHV area. And while off-roading enthusiasts travel from all over California to ride along our scenic coastline, the ODSVRA also attracts a large population of international travelers each year. The OHV area in particular provides our international guests with the ability to enjoy this unique opportunity that is not available elsewhere in California. International travelers tend to stay longer and spend more money compared to domestic travelers, and we cannot afford to lose their visitation to SLO CAL, and without this asset, international visitation would be significantly reduced.

In addition to the international visitors, the ODSVRA also attracts the film industry. Due to the convenient access to the Dunes system, and our local lodging accommodations, the ODSVRA is particularly enticing to filmmakers, musicians, adventure photographers, and other artists. When filming occurs, the artists and their crews increase revenue for State Parks and generate revenue in local hotels and the community in which they stay. The potential loss of not only the OHV area but limited camping and vehicle beach driving takes away the main reasons why people travel here to experience the ODSVRA.

Additionally, our community is left without representation on the California Coastal Commission. The South Central Coast seat has been vacant since the beginning of the year, and we firmly believe a weighted decision such as this cannot be made with the absence of that seat. The staff report recommendations will have a huge impact on our county. We need a commissioner who understands the history and complexity of ODSVRA and will make decisions with our communities'' best interest in mind. Representation of the South Central Coast District is critical.

Considering these factors, I ask that you hold this item for consideration at a later date. It is vital that we have a representative who understands all the potential outcomes of the ODSVRA decision, in addition to having economic impact data and analysis necessary to implement sensible solutions moving forward.

Thank you for your time and consideration.

All the best,

Heather Barr

To Whom it May Concern:

My name is Raneile Jeffers I am a Taxpayer, Local Resident and Day Program Director for Individuals with Disabilities. I have been a member of this community my entire life. I was raised here in Oceano, California. My father owned a diner on Pier Avenue, Oceano and My husband and nephews made their livings working for local ATV vendors here on our beach. My family grew up meeting down on the beaches of Pismo, Grover and Oceano. Riding our vehicles and ATV's through the dunes with my family and now my children has been a tradition and way of life for 4 generations. Driving down onto the beach and parking to watch the sunsets is something that has become a way to relax and destress from the hustle of everyday life for my husband, myself and my children. I purchase an annual pass so that we can access whenever the time permits. Family and friends meeting up for bon fires and camping with the ability to drive onto the beach with all the supplies needed to carry out these activities. My Mom would load all us kids up regularly in her car and drive us down to the beach with a packed car ready for the day and now it is a regular activity I share with my children and family. We were never a family that could afford expensive vacations but felt fortunate to live in a place that people would travel to for the unique opportunities the SVRA offers. This beach has been a way of life for all who grew up here and the revenue that the SVRA generates has provided jobs for many local people and businesses I know.

Working and caring for adults with disabilities I naturally take them to the beach so that they can access the water and the sand. They are members of this community like you or I. Our beaches do not have adequate access for individuals in Wheelchairs or people who do not have the ability to navigate soft sand all the way from the parking lot. The only way to take them to the beach as a group so that they can get onto the hardpacked sand is to drive them down and assist them out of a wheelchair accessible van. You are not just taking access away from me but from the people that can't speak for themselves. People who are not able to write letters, emails or get on calls and tell you how they feel. People who depend on others to advocate for their rights. Oceano does not have adequate parking for people to access our beach or dunes. It is vital for vehicles to access the beach so that beach goers are able to access the sand if unable to walk the distance needed, maneuver wheelchair or walkers, bring the necessary items needed down onto the beach (clothing, food, pop up tents, ice chest, water and sand toys, fishing gear, wind surfing equipment, jet skis, surfboards, skim boards,boogie boards, metal detectors, camping equipment, off-road vehicles etc). The List can go on and on.

I don't feel that we are being properly represented by the California Coastal Commission. There is no one elected on the commission for our area. Most of the local population does not even know of the intentions of the CCC and their 5-year plan. The CCC has been flying under the radar and not making it publicly accessible to the residents of San Luis Obispo County of their upcoming plans for our futures. These people that are speaking on our behalf do not have most of the the resident's best interest in mind. The SVRA generates funding for protection of the environment and testing to ensure that the coastline is protected. Miles of the beaches have been set aside for the wildlife to thrive and SVRA has been able to coexist for over 100 years. During the COVID pandemic and vehicle access closure it was proven that the vehicles did not cause uprising of sand and dust to blow in areas where individual where having health problems. There is plenty of space for everyone living here to carry out the activities they enjoy. If you want to hike, walk, horseback, birdwatch, fish, camp, ride ATVs there is a space for everyone even the individuals that want to walk on the beach but don't like being where the vehicles have access. There are plenty of coastal areas where there is no vehicle access to get in the way of you enjoying nature. Why has this been turned in to such an issue 100 years later. The state park ensures safety guidelines, speed limits and laws are enforced in the park. If off-roading and camping is not for you it is not fair to take it away from the ones that have enjoyed it for over 100 years.

The CCC has intentions of closing the Pier avenue access as soon as July of 2020 which would be devastating to the already problematic traffic and parking issues that come from people trying to access the beach. The July 4th holiday is fast approaching and cause a major traffic issue already. This will affect Highway 1 thru Pismo and Oceano, Grover Beach including 4th st and Grand ave. Our local beach vendors and ATV rental companies rely on these big weekends to survive making their accessibility nearly impossible to even run their businesses.

Closing my beach is taking away jobs, revenue for our town and rights of ALL people Including the ones that cannot speak up for themselves. We are asking you to do the right thing!!! Hear the people who have made this small area of the California Coastline their sanctuary. People who travel here from all over the world, people that have moved here for that purpose, people with disabilities that are able to be included in the same activities as everyone else. KEEP ACCESS FOR ALL.

Sincerely Concerned,

Raneile Jeffers

RECEIVED
MAR 12 2021
CALIFORNIA
COASTAL COMMISSION
CENTRAL COAST AREA

Dear Commissioners;

What follows are verbatim messages from two nieces of mine who live in Arroyo Grande:

I love all the wildlife at the beach, It is very important to me at the beach that the wildlife is protected and it stays calm and peaceful there. I hate seeing cars and trucks on the beach. I've had many experiences where I am being chased on my horse by noisy trucks and kids shouting. It completely destroys the experience there. I feel that if you want to travel here and come to our beaches, you shouldn't drive your trucks in it, you shouldn't be loud and obnoxious, you shouldn't pollute it and you should obey the laws. I remember seeing one person reading a sign that told him to stay out of a fenced off bird nesting zone and then watched him climb right into it. It gets really annoying when people come here from all over the place, trash our beach that we live with and then just leave. That is my opinion.

Kathleen, age14

I like the lagoon where we can take the ponies swimming. And I love the people side of the beach, but the cars spook the ponies, well, some of them, some just park, but I feel the beach is a peaceful place for those who choose to enjoy it and you can park in a parking lot and walk through the sand and have a picnic or whatever you choose to do there. But many, many people drive down the beach at high speeds and ruin the experience for everyone else.

Mae, age 12

Please take their messages to heart and vote "Yes" on the staff report, with one caveat. Please reduce the time frame to three years instead of five years. By any measure, five years is too long.

Thank you for serving and for adhering to the Coastal Act.

Regards,

John Pobar

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Let's stop trashing our environment with motorized access to our beaches (and mountains and all public spaces)!

These noisy and polluting toys should have no place in our environment! In order for public space to be enjoyed BY ALL, it needs to be peaceful, quiet and unpolluted!

Sent: Wednesday, March 10, 2021 2:55 PM
To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Ray Ambler

Dear California Coastal Commission,

I have many delightful memories of visiting the sand dunes on our beautiful coastline as a child. I also remember my incredulity when visiting the Oceano dunes, the noise of the ATVs at night and the restrictions that off road vehicle use placed on our walking and playing. I come from a family of ranchers and farmers and have driven an ATV since I was a child. There are many places where ATVs can and even should be driven. The Oceano coastal dune complex is not one of them; It is a fragile coastal ecosystem and our state has the responsibility not to degrade its own resources.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Dear California Coastal Commission,

Not only do the dunes need to be protected, but the use of fossil fuels needs to be reduced if we are to stem the heating of the earth that is worsening ocean rise. The ecological systems are inextricably connected. The dunes are not the place for motorized recreation.

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

The Oceano Dunes State Park should be closed to all motor vehicle use...both regular vehicles & off road dune driving vehicles.
This is a complete detriment to the environment there.
There will still be many tourists that continue to use the beach, park, & camp, etc.
It will draw a different type of tourist, which respect the environment. Including myself.
Thank you,
B. Langdon

Hello,

I'm writing regarding the proposal to ban vehicles from the Oceano Dunes.

This site has been important to my family and friends for years, bringing us together for vacations and frankly getting us to spend a lot of money in the local community. Not only do we enjoy riding ATVs on the beach, but we care about the people and businesses that allow us to do it.

Please keep the dunes as-is.

Thank you.

Regards,
Alex Gilblom

Dear California Coastal Commission,

OHV activity is so destructive and disruptive. I've endured it firsthand when I wanted to walk in peace. Please bring it to an end in this beautiful place. State Parks has had 2 years to fix this and hasn't. You MUST take charge.

Dear Chairman Padilla and Commissioners

I am 73 years old and own 2 quads . I pay green sticker fees for both quads which go to support the OHV areas in this state . I live in Tehachapi ,CA which is a 3 hour drive from Pismo Beach. I love to ride in the Dunes . when I go the Dunes I spend several nights in the Pismo Beach area which helps support the areas economy . Please do not close this area off to OHV fun.

Subject: Keeping Oceano Dunes SVRA Open is a positive community benefit

Categories: Oppose Staff Recommendation

Keeping The Oceano Dunes SVRA open is a must as it provides an avenue for public recreation & enjoyment of our Pacific coastline and parkland, also in the State of California. Based on ongoing grant activities and a previous permit for the closure in an affordable manner for thousands, restricted SVRA the cross-city, separation and limited overall OHV ridership, and consideration that are placed on the Southern Ocean

Additionally, please be informed that the California Ecosystem Act, Chapter 12, Section 21, 2001 – states:

The position expressed within the recommendations made by personnel of the Coastal Commission was not the impartial, rational, ground-truth Noteworthy Notice. Instead of the public, or consensus of concerned citizens that could be accommodated into the property in already endangered, protected flora and fauna?

Personal experience of the Oceano Dunes is also a good Pre-Covid-19 activity for promoting the Coastal Access as a legitimate activity of the communities in the Americas. Please keep the Oceano Dunes open as it

Thank you

Manish Bhakta

Sent: Wednesday, March 10, 2021 2:02 PM
To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

cliff clifford

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Please reject the Public Works Plan for Oceano Dunes State Park. This plan doesn't adequately protect coastal resources or endangered species, and it doesn't comply with the Coastal Act.

Your commission directed State Parks to evaluate phasing out off-roading and transitioning the park to nonmotorized recreation. But this plan prioritizes off-road recreation over protection of wildlife and doesn't address the resource-protection issues your agency raised. It utterly fails to evaluate the five-year off-road vehicle phase-out, limited beach driving and camping alternative proposed by your staff.

The plan punts on solutions to specific issues you requested be addressed, such as Arroyo Grande Creek crossing, endangered shorebird nesting plans, nighttime off-road riding, and vehicle and camping use limits. Instead, the plan offers inadequate interim measures and promises future studies and plans with uncertain outcomes.

The Public Works Plan would open more sensitive dune habitat to off-road vehicles and slash protected breeding areas for threatened snowy plovers and least terns by one-third. It also proposes a massive 120-acre development near Oso Flaco Lake, including yet more off-roading, hundreds of campsites, huge parking lots, offices, residences, and other infrastructure. Leaving little room for wildlife, the development would destroy one of the best birdwatching spots in San Luis Obispo County.

Please reject this plan and impose your own permit conditions and a phase-out of off-roading, as recommended by your staff.

Sincerely,
Janet McClain

Dear California Coastal Commission,

Please consider ensuring that nature conservation is the main goal in our state parks. Please consider a long term, science based conservation plan so California?s natural treasures and greatest pleasure last for many generations just like how the great redwoods we saved by President Teddy Roosevelt. And today redwoods are still a revered symbol of California and beloved by millions. Without Roosevelt, I would never have seen them. There are so many other recreational opportunities available to minimize damage to the environment. Why can?t we not be open and flexible to change. Thank you for your attention.

Subject: Eliminate OHV/Off-roading

Categories: Public Comment

Dear Coastal Commission,

We understand that access to the Oceano Dunes and Pismo Beach State Beach by OHV/Off-roading is being reconsidered. My wife was born and raised in Pismo Beach, and her father was the Postmaster of Pismo in the 1950s-1970s.

We as a family have long grieved over the destruction caused by dune buggies and irresponsible campers. We would ask you to stop allowing off-road vehicles to destroy the dune and beach habitats at Oceano Dunes and Pismo State Beach and instead bring State Park's operations into compliance with the Coastal Act.

My wife was nearly killed by a dune buggy when riding horses in the dunes when she was a high-schooler in the 1960s. This is a pristine area that needs to be brought into compliance with preservation efforts and responsible recreation.

Thank you,
Lynne A. Melia Wilkins and Michael J. Wilkins, Ph.D.

Dear California Coastal Commission,

Please save the Dunes and phase out OHV use!

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear Coastal Commission Committee Members,

I am writing in strong support of closing Oceano Dunes to off-road vehicles and other forms of recreation that damage the dunes, disrupt Native American artifacts, and destroy wildlife habitats. I am a California resident and I am committed to ensuring the protection of our coasts and desert communities from the harmful effects of off-road vehicles, concessions, and camping in the Ocean Dunes area.

Thank you for your time and consideration.

Best wishes,
Michelle Raheja

From: Oakley Duarte [Oakley_Duarte@yamaha-motor.com]
Sent: Wednesday, March 10, 2021 1:28 PM
To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Oakley Duarte
6555 Katella Ave
Cypress, CA 90630

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Katherine Nolan

Subject: Dignity and Respect for Oceano

As the OHV division and their well funded corporate proxy groups make their last desperate attempt to suppress a vote by the Coastal Commission at their March 18 meeting, I find it interesting they are now telling people what flags to bring to the Oceano Dunes.This is code for do not bring the confederate flags and other symbols that have become part of the embedded history and culture at the Oceano Dunes.

Turning this page in the history of the Oceano Dunes with a new conditional use permit is long overdue for our communities, civil rights, and the rule of law. After deconstructing all the lies and misinformation their is really not much left to debate on the facts and truth. This conditional use permit proves our democratic institutions continue to work, even for a small low income-environmental justice community like Oceano.The residents have taught me some valuable lessons about systemic discrimination and inspired me. I hope my voice helps them achieve their dreams to just walk safely on the beach, revitalize the community, reduce poverty, improve community health, protect the environment and to just be treated with some respect and dignity.

I have complete confidence in the Coastal Commission and staff. All the hard work, research, discussions, and documentation that have been completed to just reach this point will never be fully understood or appreciated by others. I salute you with respect for your dedication.

It is time to move forward and make environmental justice history not just for Oceano but for all environmental justice communities.

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

John Charles

Subject: Ensure Sustainable Management of the Oceano Dunes

Categories: Public Comment

Dear California Coastal Commission,

I have personally visited and extensively photographed the wild part of the Oceano dunes. While there, I witnessed its supreme beauty and desolate silence. The cacophony of dust, chaos and noise wreaked by the distant dune buggies was a stark contrast, showing in one place the beauty of a place preserved, in the other, the ugliness of nature destroyed. Please protect the rest of Oceano Dunes. Make Oceano whole again and preserve it for future generations to respectfully appreciate with light feet and full hearts.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Justin Lowery

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Dear California Coastal Commission,

Please save a unique, natural treasure of California, the Oceano Dunes. It is time to protect the wildlife and environment so that the Dunes can remain a beautiful habitat as well as a place all can enjoy; vehicles running rampant over the Dunes make it a single-purpose space and damage the species that live there. Please help.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Tammy Grills

To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Paul Weller

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Subject: Ensure Sustainable Management of the Oceano Dunes

Categories: Public Comment

Dear California Coastal Commission,

Please do the right thing and protect the dunes. Once lost, diverse ecosystems like this are gone forever. Plant and animal communities need these ecosystems, and we do too?humans are part of the ecosystem and we rely on these systems for our health, happiness, and survival. It's too easy to erode protections for places like this, so please take strong, decisive steps to protect the dunes.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Michael Arnold

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Dear Coastal Commissioners,
Please support the February 16, 2021 staff recommendations for the Oceano Dunes SVRA and reject the State Parks' draft PWP/DEIR.

These thoughtful recommendations would finally resolve the long-standing conflict in the dunes and it's the right answer for the Central Coast, from the perspective of public health, wildlife protection, environmental justice, economic vitality, compliance with the Coastal Act, and equal access for all to the coast.
And please shorten the OHV phase out plan to no longer than three years. Five years is too long by any measure.

Thank you.
Liz Murray.....Nipomo Resident

Dear California Coastal Commission,

I have never understood the need of humans to bring their big, loud machines into pristine natural habitat. It's like rape, big over powering the small and vulnerable. The dunes and wetlands of our state provide a critical role in protecting not only wildlife and wildlife habitat but the coast line itself. Please keep the unnatural out of the natural.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Dear California Coastal Commission,

OHVs are not compatible with the protection of a fragile coastal dunes complex, threatened species, and environmentally sensitive habitat area. For those reasons and more, OHV use must be phased out at Oceano Dunes in favor of traditional, low-impact beach recreational use.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Ravin Carlson

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Kevin Cook

Subject: Support of CCC recommendations

Categories: Public Comment

My wife and I are residents of Nipomo, and **we support the CCC recommendations**. Air pollution here is getting worse and should be addressed as an **immediate public health issue**. Just as smoking in the workplace, on aircraft, in public places is no longer tolerated, **OHV riders on the dunes should not be allowed to threaten the health of nearby residents**.

More specifically:

We support all the CCC staff recommendations.

We support upholding the Coastal Act and San Luis Obispo County and Grover Beach Local Coastal Plans which prohibit vehicles driving in Environmentally Sensitive Habitat Areas (ESHA).

We support the phasing out of vehicles driving in EHSA, south of Pier Avenue by January 1, 2025

We support year-round protection for the threatened and endangered species found in the Oceano Dunes ESHA including California Least Tern, Western Snowy Plover, California Red-legged frog, Tidewater goby, Steelhead, and others.

Given most of the OHV riders on the dunes come from the Central Valley, **they need to find a place in the Central Valley to ride**. This would avoid their commuting cost and the ESHA destruction and air pollution their vehicles cause both on the beach and during their commute to Oceano Dunes.

We believe Parks is misinterpreting their mandate. The top priority should be to provide recreation for the nearby citizens who want to walk and camp on the beach. These citizens cannot walk or camp on the beach when OHVs are riding for fear of being run over. There are a lot more citizens who want to be able to walk on the beach than OHV riders. The PWP should be revised to support **only non-motorized recreation on the beach.**

OHV enthusiasts have eight other inland parks that allow OHV riding and 70 other public OHV areas in California. Realistically, the local residents, especially low-income residents, only have their local beach.

Regards,
Martin & Jennifer Fieger
Nipomo, CA

Comments to California Coastal Commission

Public Hearing Date March 18, 2021

Oceano Dunes Coastal Development Permit 4-82-300 Review

Agenda Item Th3

March 10, 2021

Dear Commissioners,

You are faced with a difficult decision. There are two opposing visions before you for the Oceano Dunes state park. You will determine the future of this wonderful natural resource.

The draft Public Works Plan (PWP) from CA State Parks proposes expansion of off-highway vehicle riding areas at the dunes, a new campground, new Southern entrances, new concessions, a weapons range, and permanent closure of the protected Western Snowy Plover nesting area.

State Park's PWP completely rejects direction given by this commission at your July 2019 public hearing to incorporate 15 conditions in their plan. The conditions were put forward to bring the park closer to compliance with the Coastal Act, to make it a safer recreational area for all visitors, to lessen environmental impacts and threats to native species, and to improve air quality downwind of the dunes. In its accompanying Draft Environmental Impact Report (DEIR) the proposed plan states that a "no vehicle alternative" for the Oceano Dunes was not even evaluated because it conflicts with the mission of State Parks to maximize motorized vehicle recreation.

We are counting on this Commission to uphold and enforce the California Coastal Act. The PWP as presented violates Sections 30240 and 30241 of the Act because it fails to protect Environmentally Sensitive Habitat Areas (ESHA), and proposes further development in areas adjacent to ESHAs. It fails to maximize the amount of prime agricultural land for continued production to protect the area's agricultural economy. The PWP also fails to comply with the California Environmental Quality Act (CEQA), because it does not fully identify and disclose significant environmental impacts that exist today under current ODSVRA conditions, let alone how these impacts would be exaggerated by expanding destructive activities. The plan assumes it won't make conditions any worse than they are today under the status quo.

Coastal Commission staff has presented a very different future vision for the Oceano Dunes. They envision new ways for all Californians to enjoy the beach that do not threaten endangered species who nest there, or humans who live downwind of the park and breathe the polluted air. Their vision includes the phasing out of motorized vehicles on the dunes and a return to compliance with the Coastal Act.

Some voices are expressing dire warnings of economic ruin if OHV riding on the dunes is phased out. Yet a study published by a reputable Cal Poly College of Business faculty member refutes this false claim by showing in fact during the six-month closure of the dunes to vehicles, from March through October 2020, tourism related revenues actually went up in communities near the park. Bed taxes collected from hotels were up over the previous year despite the Covid closures and restrictions. This indicates strong interest to visit the Oceano Dunes for other non-OHV beach related activities.

As Californians we know our beaches from Mission Bay in San Diego, Santa Monica, Pismo Beach, Point Pinos in Monterey, and Santa Cruz, all enjoy thriving beach communities despite the lack of motorized vehicles on the beach. Oceano Dunes can be equally successful with our collective support.

Yes, it's true some local businesses would be impacted if their primary source of revenue is OHV rentals. But if anything, the pandemic has shown us businesses can be creative and resilient, even if their business models have to change. They will adapt and find new sources of beach-related revenues like kayak and surfboard rentals, boogie boards, bicycles, scuba gear, cabanas and umbrellas, and more. With all of us supporting them they will be successful.

You will also hear claims that all the downwind air pollution problems can be easily solved by erecting an 80-ft tall wind fence around the OHV riding area. Yet how exactly does this square with the goal of access for all to the beach? And how does an 80-ft fence stop a particulate matter dust plume that quickly climbs up to 1,500 feet in the air – well above the tall Eucalyptus trees that line the coast highway? The dust plume often travels South through Guadalupe, as far South as the city of Santa Maria.

This Commission has been more than patient in allowing State Parks two years to develop and present their promised plan. Now it is clear that plan falls far short of any reasonable attempts to address ongoing problems for those who live, work, and go to school near the Oceano Dunes. It fails to comply with the Coastal Act and CEQA. It clearly demonstrates that State Parks has no intention of complying with direction from this Commission.

We call on you to rescind the temporary Coastal Development Permit CDP 4-82-300 that enables continued operation of the Oceano Dunes OHV park. We urge this Commission to direct State Parks to commence the process of preparing to phase out destructive OHV riding, within a specified timeframe. State Parks must begin the process of restoring the Oceano Dunes to more natural conditions that will enable all Californians, both visitors and locals alike, to have full access to safely enjoy our beach and preserve the natural resources for generations to come.

We endorse the new vision put forward by Coastal Commission staff in their "Project Overview" document posted in February 2021. We stand ready to work with staff, elected officials, local interest groups, and all other interested parties who are willing to work together towards achieving the new vision of what the Oceano Dunes can become in the future. The park can be transformed into a true gem that all Californians may enjoy.

Thank you in advance for your careful consideration.

Sincerely,

Yvonne Williams
Nipomo, CA

Dear California Coastal Commission,

Please don't allow OHV's on Oceano Dunes! As stated, there are 70 other public OHV areas in California, we don't need another OHV area. Thank you.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Michelle Sparks-Gillis

Dear California Coastal Commission,

Enough is Enough! Off the road vehicle activity must be controlled! With a growing human population and a diminishing animal population hobby/sportsmen and women need to join to come up with regulatory solutions, ie. designated places away from populated areas and sensitive specie and plant habitats and reservation systems.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Categories: Public Comment

Dear Chairman Padilla and Commissioners:

Oceano Dunes – March 18, 2021 Meeting

As a Nipomo Mesa **please support and implement your staff's recommendations** for the Oceano Dunes.

STOP GIVING STATE PARKS MORE TIME: They have continued taking you for a ride. In July 2019, when the former State Park's Director promised you that State Parks would address the issues raised by your staff you believed them. Just this one more time. Please no more.

Reject the PWP it is not what the Commission asked for and it does not protect our air quality or improve the environment.

Thanks, Jim

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Rosie Atkison

Dear California Coastal Commission,

please, for the sake of fragile marine life, bird life and vegetation. Do what is right for the planet and for future generations to be able to enjoy a lovely coastline park

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Samantha Moulton

Categories: Public Comment

Dear California Coastal Commission,

California has a large population as well as tourists that flock to out natural areas all year . Please protect these for future generations. There are so many accidents caused by these vehicles as well.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Diane Mongelli

Please do not develop the Oso Flaco Lake area. It is a very quite, peaceful and beautiful place to visit as it is. The walk to the beach permits access and it is an area used a lot by families. We need to preserve the natural beauty and the environment for wildlife and animals.
Thank you

Sent: Wednesday, March 10, 2021 9:43 AM
To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Chris Frank

Dear California Coastal Commission,

My grandparents arrived in San Diego 1920. I was born there in 1945. During that time I have watched the rampant destruction of much of our state's beauty by overpopulation, greedy developers, and the idiots who use ORVs.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Dear California Coastal Commission,

Save the dunes from these bike freaks.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

There are many places that have been already damaged irreversibly and that's perhaps where OHVs can be still used. However, allowing OHVs in highly fragile areas crucial for survival of endangered species is not acceptable! Please commit to prohibiting any OHVs in the area.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear Coastal Commissioners,

I am urging you to please support the February 16, 2021 staff recommendations for the Oceano Dunes SVRA and reject the State Parks' draft PWP/DEIR.

These recommendations would finally resolve the long-standing conflict in the dunes and it's the right answer for the Central Coast, from the perspective of public health, wildlife protection, environmental justice, economic vitality, compliance with the Coastal Act, and equal access for all to the coast.

And it would be advisable to have the OHV phase out plan no longer than three years. Five years is too long by any measure.

Thank you for your support of this position.

Jim Murray
Resident on the Nipomo Mesa

Dear California Coastal Commission,

As a local resident, I want to speak on behalf of the wildlife in these areas. During the closure, it was wonderful to see shorebirds foraging at the water?s edge, rather than stressed by constantly dodging vehicles at Oceano. Oso Flaco is an amazing refuge for wildlife, that should not be touched. We can assure you that the economy will thrive by protecting both Oceano and Oso Flaco.

Thank you for your thoughtful responses and support the staff recommendations.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

This seems a win-win situation to me. Off-roaders still have lots of space and we have the privilege of protecting this valuable and fragile ecosystem.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

I urge the California Coastal Commission to require State Parks to phase out off-highway vehicle use on the Oceano Dunes. Vehicle use on the dunes has been documented to harm the dune wildlife, including nesting snowy plovers, and create local and regional air pollution. It also makes it impossible for non-vehicle riders to enjoy the beach.

All of us Californians pay taxes to sustain Oceano Dunes public lands, so they should be managed in an environmentally sustainable manner that benefits all living species.

To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Tammi Helms

Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Aaron Black

Subject: Please phase out OHV use at Oceano Dunes

Categories: Public Comment

Dear Commissioners,

I am alarmed that State Parks is proposing to keep and even expand off-highway vehicle (OHV) use at Oceano Dunes. I am in full support of the Commission's recommendation to phase out off-highway vehicle (OHV) use at Oceano Dunes over 5 years. Having lived in San Luis Obispo County for 7 years, I never visited the Oceano Dunes because of the OHVs on the beach. It was not until the COVID-19 pandemic when the beach was closed to OHVs that I dared visit the it with my kids. On our walk, I was astounded by the profound beauty of this beach, and was looking forward to visiting again, until it was once again opened to OHVs.

The benefits of phasing out OHV's on Oceano Dunes would be enormous for current and future generations. It would improve the environment - both the dune habitats and native species, improve the air quality for local residents, and make it more accessible and affordable for the general public to enjoy the beach and dunes in non-vehicular ways.

Thanks for your consideration,
-Joyce Tseng, MPH
San Luis Obispo resident

Dear California Coastal Commission,

I really enjoyed camping and staying near the oceano dunes, but I was shocked when I saw what felt like a parade of cars driving by at all times on the beach. I get that the water is frigid cold and it may not feel like the beach is durable for swiming but it is. It would be more enjoyable if it didn't feel like an avenue with traffic. If people want to ride atv vehicles there should be a dirt track specially made for them. That way natural spots are not damaged for the sake of recreation.

Dear Chairman Padilla and Commissioners

Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Paula Harden

Dear California Coastal Commission,

Please consider the fragility of the Oceano Dunes ecosystem, and please protect it. Thank You.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. Driving on the Beach (why or why not)

Can you remember what fun it is to take a kite and fly in the wind down on the beach? If I told you that doing this activity increases the fatalities in the snowy plover beach bird would you think twice about flying that kite on the beach? This is just one human activity that harms the well being of the snowy plover. The mixed recreational activities that are common at the Oceano State Park are dangerous to humans as well as the endangered snowy plover. The snowy plover has been protected by the Endangered Species Act since 1993 due to the drastic decline in their population.(Valdez-Ward) Humans are at risk as well since 1992 there have been 44 recorded accidental deaths at Oceano State park! Both people and snowy plovers are threatened at this point with these activities. That is one reason why driving on the beach should be limited and phased out.

Snowy plovers live, breed, raise their young and feed on our central coast beaches year round. And some people may enjoy driving and camping on the beach, but those are two of the main reasons these birds are in trouble. When a baby snowy plover senses or is warned of danger it's immediate response is to lay on the ground as flat as it can, to hide from danger. Humans driving their cars, walking their dogs and flying kites are all threats. These tiny birds are so vulnerable out on the beach hiding in plain sight from danger, they can be smashed by cars and killed by dogs running off leash. Another problem with camping and increased human activity on the beach is that often there is trash left behind which attracts ravens. Ravens are snowy plovers' greatest natural predator! They come for the trash and leave with snowy plover eggs, because these adorable birds nest on the ground with little protection. When the snowy plover sees a kite flying above they think it is a

predator and the adult birds will often flee their nests to avoid the “threat”, leaving the eggs to get cold and or eaten by ravens or dogs. Driving and recreating in off-road vehicles can be very dangerous to humans as well.

In 2019 six people died in motor vehicle accidents 44 were seriously injured and there were 237 vehicle accidents in just that single year. (Cart) This is the highest known death toll at Oceano Dunes State Park due to recreational vehicle use on the beach. All of this could be avoided if driving on the beach was stopped. This is a dangerous activity that is putting lives at risk. A total of 44 people have died since 1992 at Oceano Dunes.(Tribune Editorial Board) Your family could be hanging out enjoying the beach at the bottom of a dune and up over the hill comes a car and crash! You could even just be on the flat part of the beach and a distracted driver could hit or run you over, this is a real danger. The dunes is a great place for families to enjoy the beach and get outside more, but it must be done in a safe way.

The Oceano State Park is approximately 3500 acres and includes 5.5 miles of sand for driving on the beach. Camping and driving on the beach in Oceano is great fun and provides a tourist attraction to the small beach community of Oceano. There are also businesses that thrive from these tourists and visitors to the dunes, selling or renting off-road recreation vehicles and camping gear. Many families for generations have enjoyed traveling to and camping on the dunes. A recent study done by a Cal Poly associate professor found that during the 2020 coronavirus-related restrictions that closed camping and driving on the beach did not significantly impact the local economy. Pratish Patel’s study actually found that the lodging revenue increased in Oceano from March 2020 through August 2020. (Shuman) The park re-opened to visitors driving on the beach and camping has returned.

We find ourselves asking the obvious but very recurring question, “Is Money worth life?” The risks far outweigh the benefits of opening the state park to drivers and campers on the beach. We must protect the native flora and fauna of the Oceano Dunes to ensure the future of the dunes. Driving and Camping on the beach and dunes poses a great risk to humans, we must enjoy the beach in a safe and respectful way without vehicles in this beautiful park.

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Lonny Mancusi

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

I enjoy birding the coastline of Ventura County and I'm thankfully that these beaches and dunes are vehicle free.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Dear California Coastal Commission,

It is upsetting and concerning to me that the Oceano Dunes area is not yet following staff recommendations to preserve this ecosystems. With global warming, we need to do all we can. And this "little" piece of fix is good for all, including the use of locals and tourists.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

I worked in an orthopedics and rehabilitation ward. I would say that hang-gliding, dune buggy riding and motor cycle riding were the 3 major causes of spinal cord injury resulting in paralysis or death. Limiting dune buggy riding is good for the environment and good for limiting these catastrophic accidents.
Thank you, Ellen Holm

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

At the very least, implement NOW the short term recommendations. Then phase out ORV use of the dunes. You could perhaps at least for short term allow limited use by ORV in a few specified patrolled areas and charge for the privilege.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Dear California Coastal Commission,

Dear Coastal Commission,
Please, Take the step to phase out OHV in State Parks. These areas are important resources for wildlife habitat and humans as well to escape disturbance, noise and pollution from vehicles and machinery.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Billie Parker

I live very close to Oceano Dunes and believe that the California State Parks proposal for the Phillips 66 site is horrible. However, I am in favor of the California Coastal Commission plan.

We need to protect this unique and valuable resource. We SHOULD NOT be encouraging or promoting more vehicular traffic of any sort. Vehicular traffic should be reduced and eliminated, not encouraged. Vehicular traffic is a health hazard for those nearby. In addition to carbon dioxide poison polluting the air, the particulates in the sand thrown up and blown in-land are also harmful. The coastal climate carries these dangerous particulates far beyond the immediate area.

Further, we should not encourage weapons usage either. A weapons range is a spectacularly horrible idea.

I am in favor on non-vehicular recreational access and preserving/saving the natural beauty of our coastline.

Thank you.

Dear California Coastal Commission,

Protect the CA Coastline and all state parks from OHV! Also, protect the CA coastline from State Housing Law, terrible!!!

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Elena Thompson

Dear California Coastal Commission,

Please consider our plea and act on it immediately. The dunes used to be so beautiful and so rich in life if you take the time to sit and watch and listen. Now it isn't safe to sit quietly be you man, beast, or plant - and it isn't quiet any longer. Even worse, with the advent of the fat tire ebikes, access has opened to even more and younger yahoos. Please save the dunes and everything that lives there!

Dear Chairman Padilla and Commissioners

From: Eric Stockwell [Eric_Stockwell@yamaha-motor.com]
Sent: Wednesday, March 10, 2021 7:11 AM
To: OceanoDunesReview@Coastal
Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Eric Stockwell

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Robert Jensen

Subject: Dignity and Respect for Oceano

Categories: Public Comment

As the OHV division and their well funded corporate proxy groups make their last desperate attempt to suppress a vote by the Coastal Commission at their March 18 meeting, I find it interesting they are now telling people what flags to bring to the Oceano Dunes.This is code for do not bring the confederate flags and other symbols that have become part of the embedded history and culture at the Oceano Dunes.

Turning this page in the history of the Oceano Dunes with a new conditional use permit is long overdue for our communities, civil rights, and the rule of law. After deconstructing all the lies and misinformation their is really not much left to debate on the facts and truth. This conditional use permit proves our democratic institutions continue to work, even for a small low income-environmental justice community like Oceano.The residents have taught me some valuable lessons about systemic discrimination and inspired me. I hope my voice helps them achieve their dreams to just walk safely on the beach, revitalize the community, reduce poverty, improve community health, protect the environment and to just be treated with some respect and dignity.

I have complete confidence in the Coastal Commission and staff. All the hard work, research, discussions, and documentation that have been completed to just reach this point will never be fully understood or appreciated by others. I salute you with respect for your dedication.

It is time to move forward and make environmental justice history not just for Oceano but for all environmental justice communities.

Dear California Coastal Commission,

Please vote to stop OHVs from damaging the Oceano Dunes. This earth is precious and State Parks need to save this beach for all people to enjoy, not the ones who use vehicles to destroy. Thank you! Kaia McLaughlin

Dear California Coastal Commission,

I would also like to add that I know of many people who have lost their lives due to reckless use of dune buggies combined with alcohol, one person I knew personally - he was a school friend's brother and only 15 years old. Another was in the ICU near one of my family members, and after talking with his wife (holding their newborn son at the time) that her husband had been goofing around out on those dunes in a dune buggy as well. I don't know if he survived, but his injuries were severe. Please eliminate the atmosphere and opportunity for these unfortunate accidents to occur. These reasons, coupled with the duty to protect sea and plant life should be sufficient to convince you; I hope that it does. Thank you.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Richard Beckman

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Jon Grant

Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Chad Reimer

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Jackie Pope

Dear California Coastal Commission,

Providing a place for OHV use is important. That place should not be sensitive coastal sand dunes. It?s time for State Parks to phase out the use of OHV?s and to return the beach to non-invasive activities.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Todd Romig

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Merris Weber

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

Phillip Speligene

Dear California Coastal Commission,

Our relatives live in Pismo/Arroyo Grande, and last time we visited from the bay area we stayed in Oceano. I was appalled to see all the big trucks, SUVs, dune buggies, etc lining up to drive on the beach! I couldn't believe this was still allowed on a CA beach w/ sensitive flora and fauna and possibility of oil and gas pollution from vehicles. People really do not need to "own" the bech w/ their vehicles. Please stop this activity. Thank you.

Dear Chairman Padilla and Commissioners

Subject: Please oppose restricting or ending powersports access to Oceano Dunes SVRA

Categories: Oppose Staff Recommendation

Dear District Supervisor Kahn,

As an outdoor enthusiast who enjoys powersport activities, I'm concerned about the proposed Public Works Plan (PWP) for Oceano Dunes State Vehicular Recreation Area (ODSVRA) which was released on December 30, 2020. I am opposed to several provisions in the proposed PWP.

As drafted, the proposed PWP supports reducing and ultimately even eliminating off-highway vehicle recreation at ODSVRA. Within the PWP, the most concerning proposals are:

• Proposes an immediate 42 percent reduction of OHV day-use limits, from the current 1,720 vehicles/day, down to 1,000/day (p. 78 of the PWP).

• Proposes ending OHV/ATV rental concessions when their current contracts expire in 2022. Phasing out of OHV rental concessions would require visitors to bring in their own OHVs and would impact low- and middle-income individuals. (p. 79 of the PWP).

• Proposes an Environmental Impact Review (EIR) alternative to consider phase-out of OHV recreation over five years (see Volume 3, Chapter 2, Alternatives).

• Proposes to conduct an "independently peer-reviewed carrying capacity study" to determine appropriate limits for beach camping and day-use by OHVs and street-legal vehicles and update use limits accordingly, which could further limit access/use by OHV in the SVRA (p. 76 of the PWP).

The off-highway vehicle community strongly advocates for responsible use of our natural resources and ensuring powersports enthusiasts are well-trained in the proper use of their vehicles to foster an enjoyable and safe riding environment. Many people cannot afford to purchase their own vehicles and eliminating the rental option is something that would not only kill local jobs, but would also disenfranchise lower income individuals who rely on the ability to rent powersports equipment. The Oceano Dunes SVRA has been a significant part of many individuals' lives in the outdoor recreation community. It has been a place for people worldwide to gather and enjoy powersport use and beach camping. The proposed PWP could end access to the park for many Californians, hundreds of thousands of individuals, and their families who have been recreating the dunes for decades. At a time when so many people have turned to outdoor recreation as a form of stress release, we should be looking at ways to expand recreation opportunities, not eliminate them.

Please strike these provisions from the PWP and preserve access for a diverse group of recreation interests at Oceano Dunes SVRA.

Sincerely,

David Mitas

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

The plover impressions of Human should not come from the roaring and polluting vehicles that man has created to monopolize on transport, rather it should come from them seeing us stroll by while on a hike or walk which is far more healthier and comforting. Please do not encourage this bashful behavior which is proving to be problematic, instead be apart of the solution

Dear Chairman Padilla and Commissioners

Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

Dear California Coastal Commission,

.....I went to the School of Architecture at Cal Poly, one of our closest friends lives not far from the dunes, and we visit him often. So, we know the dunes well and would very much like to see them thrive in their natural state.
Thank you for your consideration,
Dennis McGuire, Idyllwild, Ca.

Dear California Coastal Commission,

Consider the issue from an economical standpoint. Coastal dunes are significant in protecting civilians against rising sea levels. If they were to be hindered, imagine the costs in infrastructure damage needed to withdraw. Imagine the statistics on civilian deaths. Imagine what such factors would do to the reputation of those overseeing this sector of California. Protect coastal dunes. Why rid of nature and risk the fact you will economically and publicly suffer? Latino culture is rooted in the very essence of nature itself. By dislodging such environmental issues, you are severing your familial connection to your ancestors who respected nature. Chairman Padilla, there is a reason why I voted for you. Be the culturally-progressive representative of your ancestors. Be a representative of nature.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

Many benefits from not preserving the significance of such an ecosystem will only be realized after it is too late. Consider the issue from an economical standpoint. Coastal dunes are significant in protecting civilians against rising sea levels. If coastal dunes were to be hindered or gone, imagine the costs in infrastructure damage needed to be pulled out. Imagine the statistics on topics such as civilian deaths. Imagine what such factors would do to the reputation of those overseeing this sector of California. The solution is simple. Protect coastal dunes. Why bother doing away with nature and risk the fact that you will have to economically and publicly suffer in the long-run? The Latino culture is rooted in the very essence of nature itself. By dislodging such environmental issues, you are essentially severing your familial connection to your ancestors who respected nature. Chairman Padilla, there is a reason why I voted for you. I truly hope you hear me out, like many others, and understand our concern. Be the progressive continuation your ancestors have passed down upon you. Be a cultural representative of your ancestors. Be a representative of nature.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Claire Ucovich

Dear California Coastal Commission,

This issue matters deeply to me because of how interconnected nature is to our everyday lives. Many benefits from not preserving the significance of such an ecosystem will only be realized after it is too late. If you cannot see it from an environmental activist's perspective, then I hope you are able to understand it from an economical standpoint. Coastal dunes are significant in providing civilians protection against rising sea levels. If coastal dunes were to be hindered or even gone, imagine how much costs in infrastructure damage that would need to be pulled out. In addition, imagine the statistics on topics such as civilian deaths. Imagine what such factors would do to the reputation of those overseeing this sector of California. The solution is simple. Protect coastal dunes. Why bother doing away with nature and risk the fact that you will have to economically and publicly suffer in the long-run? Most importantly, the roots of Latino culture are rooted in the very essence of nature itself. By dislodging such environmental issues, you are essentially severing your familial connection to your ancestors who respected nature. Chairman Padilla, there's a reason why I voted for you. I truly hope you hear me out, like many others, and understand our concern. Be the progressive continuation your ancestors have passed down upon you. Be a cultural representative of your ancestors. Be a representative of nature.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

We urge you to get damaging vehicles off of the sensitive 3,500-acre Guadalupe-Nipomo dune complex known as Oceano Dunes. These dunes stretch across eight miles of beach and shoreline and comprises the most extensive dune system on the west coast.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

Categories: Public Comment

Dear California Coastal Commission,

Please reject the Public Works Plan for Oceano Dunes State Park. This plan doesn't adequately protect coastal resources or endangered species, and it doesn't comply with the Coastal Act.

Your commission directed State Parks to evaluate phasing out off-roading and transitioning the park to nonmotorized recreation. But this plan prioritizes off-road recreation over protection of wildlife and doesn't address the resource-protection issues your agency raised. It utterly fails to evaluate the five-year off-road vehicle phase-out, limited beach driving and camping alternative proposed by your staff.

The plan punts on solutions to specific issues you requested be addressed, such as Arroyo Grande Creek crossing, endangered shorebird nesting plans, nighttime off-road riding, and vehicle and camping use limits. Instead, the plan offers inadequate interim measures and promises future studies and plans with uncertain outcomes.

The Public Works Plan would open more sensitive dune habitat to off-road vehicles and slash protected breeding areas for threatened snowy plovers and least terns by one-third. It also proposes a massive 120-acre development near Oso Flaco Lake, including yet more off-roading, hundreds of campsites, huge parking lots, offices, residences, and other infrastructure. Leaving little room for wildlife, the development would destroy one of the best birdwatching spots in San Luis Obispo County.

Please reject this plan and impose your own permit conditions and a phase-out of off-roading, as recommended by your staff.

Sincerely,
Janet E Soderstrom

Hello California Coastal Commission, 3/2021

The following are my firsthand comments , suggestions , concerns , and observations regarding the proposed Oso Flaca State Development Plan.

A brief introduction of myself (Kenneth L. Wolf).

Original Board member for years when the Dunes Center (storefront) was first established in Guadalupe.

Trained members of the community to be Docents /lead walks at Oso Flaca Lake.

RECEIVED
MAR 10 2021
CALIFORNIA
COASTAL COMMISSION
CENTRAL COAST AREA

Lead Introductory walks at Oso Flaca Lake for many years.

Helped install the nails in the center of the bridge over Oso Flaca Lake.

Helped plant Willow Tree shoots near Oso Flaca Lake to prevent erosion .

Before the new boardwalk was installed people would use sheets of cardboard to slide down the dunes.

Attended and spoke at many public meetings regarding Oso Flaca Lake over the years from the late 1980's and on.

For years did nesting counts for the Snowy Plover and Least Tern.

Helped plan and work on the original relocation of the Dunes Center from the storefront.

Was a Docent leading walks for scheduled school children , night walks , and for private groups.

This greater area is a Preserve; The Chumash Indians respected the Dunes to support themselves for thousands of years. How can the wildlife be preserved with a real increase of people .I have witnessed visitors to Oso Flaca Lake taking natural "souvenirs" home with them i e. ;plants .rocks , and shells.

Will there be 24 hour State Park Rangers onsite ?.

People who camp out over night at the off –road area north of Oso Flaca Lake have in the past let their dogs run loose at night going into the Preserve. Will people staying overnight at Oso Flaca be allowed to bring their dogs with them.

Will the proposed overnight campsites at Oso Flaca lake area impact the nesting sites of both the Snowy Plover and Least Tern ?.

Protection of archaeolgical sites and locations is a must.

No remote controlled boats (toys) or motorized boats must not be allowed on the lake.

There are many types of wildlife in the Oso Flaca Lake / Dunes environment area that are on the Threatened and Endangered list.

Here it is now 2021 and I am still having to address matters and issues to protect and preserve the Oso Flaca Lake /Guadalupe –Nipomo Dune complex.

Sincerely,

Kenneth L. Wolf

RECEIVED
MAR -9 2021
CALIFORNIA
COASTAL COMMISSION
CENTRAL COAST AREA

John Ainsworth, Executive Director
California Coastal Commission
455 Market Street #300
San Francisco, CA 94105

Dear Mr. Ainsworth,

First, I would like to thank your staff for their informative, well-intentioned staff report regarding the Oceano Dunes Coastal Development permit 4-82-300 Review.

Unfortunately, implementing their recommendations will not solve any problems, and will actually make the situation worse in the Grover Beach/Oceano area.

I commend the staff for their recommendation to close the Pier Avenue entrance to vehicles. It's a nice start, but all of the Pier Avenue traffic will simply enter the beach at West Grand Avenue. **There will be no fewer vehicles on the beach and no less hazard to passive beach users, if there are any.**

Vehicle entrances to the beach at both Pier Avenue and West Grand Avenue must be closed permanently and immediately.

In 1982, those entrances were allowed on a temporary basis. 39 years have passed, and State Parks have done nothing to find a more suitable entrance. **So, close the vehicle entrances at Pier Avenue and West Grand Avenue and be done with it.** With both entrances closed to vehicles, parking must be expanded and enhanced at both entrances to accommodate the hundreds of people, families with children, who will now feel safe and will use the beach in great numbers.

Any entrance to the proposed camping area between West Grand Avenue and Pier Avenue must not allow any driving on the beach. State Parks must find an entrance through their administrative area or somewhere off of West Grand Avenue through the dune area. Any camping must respect strict environmental constraints.

No special events should be allowed, except those related to passive beach use, like organized nature hikes. In the past, events like Huckfest have been held, and

these events have attracted large crowds and have caused environmental damage and encroachment into restricted and protected areas. Music events have also been proposed. These, too, should not be allowed because they attract large crowds, disrupt wildlife and the crowds encroach into sensitive and protected areas.

Proponents of vehicles on the beach will argue that driving on the beach is a historical use in Oceano and should be continued. **Well, people used to smoke in restaurants, but that is not allowed anymore. So, too, vehicles on our beaches and in our dunes should not be allowed anymore either.**

I sincerely wish that those of you who haven't been to our lovely beach and dunes would come for a visit and see the damage that vehicles on the beach and in the dunes have caused. It will break your heart.

Sincerely,

Evelyn Delany

Sacramento, California 95814

RE: California Coastal Commission Phase Out Oceano Dunes State Vehicle Recreation Area

Dear Governor Newsom,

The Central Coast Taxpayers Association (CCTA) is OPPOSED to the recent California Coastal Commission staff recommendation to the Commission that the Oceano Dunes State Vehicle Recreation Area (SVRA) be phased out over a five-year period. This is to be considered at the Commission's March 18, 2021 meeting.

Tourism is a significant economic driver in South San Luis Obispo County and the Oceano Dunes SVRA plays a major part in being that driver.

CCTA supports the many businesses throughout the County, as well as the tens of thousands of employees affected by the Oceano Dunes SVRA. May we respectfully remind you, they are taxpayers and that times are tough not only in San Luis Obispo County, but the entire State of California!

This past year Californians have had very little in this state to enjoy. Generations of families have shared the Oceano Dunes SVRA activity, and now is not the time to remove one of the few things available to them.

CCTA requests that you and the California Coastal Commission OPPOSE its staff recommendation regarding the phrasing out of the Oceano Dunes SVRA over a five-year period.

Respectfully,

Andrea Seastrand

RE California Coastal Commission Voting to Phase Out the Oceano Dunes Off-Highway Vehicle Recreation Area at March 18, 2021 Meeting

Dear Governor Newsom,

The Republican Party of San Luis Obispo County (RPSLOC) is writing in support of the many small businesses throughout San Luis Obispo County and their thousands of employees.

The RPSLOC is very much OPPOSED to the California Coastal Commission's March 18th meeting staff recommendation that the Oceano Dunes Off-Highway Vehicle Recreation area be phased out over a five-year period.

Due to the present lock down of businesses in San Luis Obispo County, this is not a time for government to further cause chaos and hardships for small businesses...its employers, employees and their families.

It is also interesting to note that California families are no longer allowed to have fun with their children, relatives and friends. Everything is now locked down and regulated! For the last year our children and families have had very little in California to enjoy. Generations of families have shared the Oceano Dunes beach activity and now is not the time to remove one of the few things available to them.

The economy of this county depends on tourism which is the significant economic driver with the Oceano Dunes Off-Highway Vehicle Recreation area being a major player.

The Republican Party of San Luis Obispo County requests that you and the California Coastal Commission OPPOSE the move to phase out the Oceano Dunes Off-Highway Vehicle Recreation area.

Respectfully,

Randall Jordan
Chairman
Republican Party of San Luis Obispo Party

MAR 09 2021

CALIFORNIA
COASTAL COMMISSION
CENTRAL COAST AREA

March 3, 2021

Honorable Coastal Commission Members,

This letter is in response to the State Parks new plan for the Oceano Dunes Complex. Please consider this my vote for closure of the dunes to OHV use.

CLOSE THE OCEANO DUNES TO OFF-ROAD VEHICLES PERMANENTLY

As you consider the ongoing issue of the Oceano Dunes reopening to off road vehicles please keep those of us who call this area home at the front of your mind. A very few business people are excited to be back in the business of selling wood for burning on the beach and renting OHV's to the out-of-town OHV crowd. Money talks around here, but a recent study indicated that the OHV crowd has little impact on the full economics in our area. The rest of us suffer quietly smelling the fires, pushed out of driving on our local roads, and wiping up the sand in our homes caused by the OHV riding that lifts the sand drifts into the air across all of our town.

I've heard that If a human touches a liquid, it will be spilled. Period. That goes for the gasoline and oil spilled and dripped on the beach, burned charcoal briquets, RV toilet chemicals, gray water dump, alcohol, food and all the leftover trash. It all washes into the ocean polluting the environment. Local folk must deal with this pollution daily and avoid the areas that the OHV riders frequent. You frequently see local residents out on their walks carrying bags and picking up leftover trash that the OHV crowd leaves behind.

It appears the State Parks has adopted a "camel in the tent" approach. They plan to start slow now to avoid local outcry. Well, residents know that this is ***only*** the beginning. With the new Parks plan, they look forward to changing our lives forever. The Oceano dunes will become the new Mecca for OHV riders everywhere. The new State plan doesn't conform to the commission mandate to close the dunes to OHV use in five years and the off-roaders say that they need MORE space on the dunes. It will not matter if they are given the entire coast to Vandenberg! The problem is not lack of area; it is the off-roaders themselves. Given more space, they will just bring MORE ATV's and RAZORS and the huge trailers full of ATV's now driven out on the dunes from our local off-road business people (who think they OWN the dunes) will just get bigger.

Please remove this scourge from the beach. The degradation of our local coast due to OHV's is extreme! Close the dunes to ALL off-road vehicles now. Our lives and the lives of living things on the beach depend on you.

PLEASE, CLOSE THE DUNES TO OFF ROAD VEHICLES FOREVER!!!!! BEFORE IT'S TOO LATE.

The dunes are a coastal treasure that should be preserved for future generations of Californians. Please act now to protect our beautiful coast.

Thank You, Terese Miller, local resident

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Pat Bryan

Dear California Coastal Commission,

OHV use must begin to be phased out at Oceano Dunes in favor of traditional, low-impact beach recreational use to protect the Environmentally Sensitive Habitat Area.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Holly Hall

Dear California Coastal Commission,

I have camped on the beach and found the sound and sight of vehicles stripping away the natural vegetation and scaring away the animals to be incompatible with the beauty of the dunes and ocean area.

Dear Chairman Padilla and Commissioners

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Please do not let mismanagement and OHVs destroy our wonderful CA treasures!

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Dear California Coastal Commission,

I still remember the terrible experience of camping on the beach and worrying every minute that I would be run down by some night rider. The experience was terrifying.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

These special areas that we in California are so fortunate to be a part of must be protected ,from ATV vehicles. It's plain to see that allowing any motorized vehicle on the Oceano Dunes is very dangerous as motorized vehicles are not allowing other people to enjoy these special places that are loved by all outdoor enthusiasts young and old. There is a very easy decision that needs to be made so the Oceano Dunes will be protected as a special place . We as care takers of the land are trusting the California Coastal Commission to make the right decision .Allowing car camping is not the right call .The big trailers and motor homes would take over and cause just as many problems as the ATV's.This is not the 1960's and I have seen it turnout badly .It's unfortunate if the correct decisions are not made the Oceano Dunes will never be in jeopardy. This could be a place that will be here for our Children's,Children's,Children. Lets look at the big picture at the present time our precious State Parks are in big trouble and adding a car park will not make Oceano Dunes a safe place. Adding tons of litter and garbage will not be helpful to the environment and adds a burden on our Parks.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Kristi Bride

Dear California Coastal Commission,

Don't let fossil fuel burners destroy Oceano Dunes natural environment, animal life, and vegetation while polluting this special place. Off-roaders can use others parks and public OHV areas.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

In addition to providing unique recreation experiences and defenses against rising sea levels due to climate change, these dunes are home to rare/threatened/endangered species such as snowy plovers that are priorities when protecting and enhancing California's biodiversity for years to come.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Dear California Coastal Commission,

It's no accident of language that thrill-seekers talk about "shredding" the landscape. It's a simple reality that we must protect our land from people who don't care about the common trust. Save the dunes!

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Wesley Rowe

Dear California Coastal Commission,

In the 1970's I served as a Pismo State Beach park ranger. My primary duty was to patrol the Oceano Dunes, ensure public safety, and respond to the many dune-buggy accidents that occurred in those dunes. There was a relatively small portion of those dunes that was protected from OHV use, and I was tasked with protecting those dunes from incursion by OHV users. The protected dunes were ecologically thriving and vibrant. The dunes set aside for OHV use were essentially a natural wasteland. This is a rare California ecosystem that has suffered tremendous abuse over the decades since I worked there. The current development and camping plans for the Oso Flaco Lake area actually further threaten an area that has already been significantly damaged ecologically. As a California park ranger, I always considered myself a defender of natural treasures, and I find it distressing to hear of current park administrators advocating further development that will, according to the Coastal Commission and other conservationists, further damage a sensitive and threatened ecosystem. I find myself baffled that an organization tasked largely with protecting the environment is advocating its demise. Please listen to the advice of the Coastal Commission regarding OHV activity and protection of this amazing California coastal dune ecosystem. As one of the main organizations entrusted with the protection of California's natural treasures, the California Department of Parks and Recreation should not be advocating policies that experts say are damaging and destroying sensitive and unique ecosystems.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

Please do the right thing for the Beautiful Dunes. I remember horse back riding on them with my family a time or two growing up and it was a slice of magic no mad capped dune buggies. I hope we can take the right road on this one and protect the dunes. Thank you.

Dear Chairman Padilla and Commissioners

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Bruce Bryan

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Armin Wright

Dear California Coastal Commission,

I grew up near the dunes in Santa Maria and always hated the way people competed with "dune buggies" to roar around and disrupt the dunes. Please stop this destructive practice that has been going on for way too many years. Let the dunes and wildlife recover.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

Further, the state is committed to achieving sharp reductions in green house gas emissions; what better way then by reducing the use of internal combustion engines to desecrate the California coast line. Low impact recreation without the air, noise, and water (from fuel leaks) pollution should be strongly encouraged.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Dear California Coastal Commission,

The dunes are for everyone's use, not just OHVs, which are destructive to the ecology of the dunes and beach areas. There is not much natural habitat left because of human activities and the remainder needs to be preserved for future generations.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Caroline Warren

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

It is not fair for the current residents and their descendants as well to allow this environment to be destroyed by people seeking short-term thrills. Further, it is not fair to the wildlife of this area, and it needs to stop now. Please preserve this coastline... please.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

The dunes and beachfront at Oceano should be accessible to all of us, not just the off-road dune riders. This dangerous, polluting activity should be phased out and the dunes and beach returned to the community.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

Dear California Coastal Commission,

I implore you to consider the long term effects of a decision to reopen this treasured part of California. Motorized vehicles have other places, not nearly as unique to Oceano, in which to play.

Save the coastline for future generations, do the right thing!

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

please heed these guidelines to save the Oceano Dunes

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Pearl Karon

Dear California Coastal Commission,

Public health considerations strongly push my opinion regarding discontinuation of OHV activity. I am looking forward to a future when my family and I can enjoy this area. I have lived here for 32 years and have not been able to enjoy the area except during the closure due to the COVID-19 pandemic.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

I respectfully ask that you implement the request to not let OHV access to the dunes. There is precious wildlife there that should be protected.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dunes protect our cities infrastructure, from the Ocean. Our dunes help to curb coastal funding, our sand dunes protect our coastal wildlife. Please help save our coastal areas.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

As Professor Emeritus of Zoology and Environmental Science, I am personally familiar with this area from research that I did in the 1970s and '80. Even then, the problems described above were in evidence. Please make sure this valuable resource is properly protected from OHV activity! Thank you.

Dear Chairman Padilla and Commissioners

Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

William Samuel

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

Dear California Coastal Commission,

We must safeguard the wildlife living and nesting among the dunes. Their continued existence is infinitely more important than an afternoon of motorized racing for a few humans.

Dear California Coastal Commission,

OHVs should be much more highly regulated.
Such unnecessary noise and air pollution not to mention the degradation of the landscapes they are driven over should all be things of the past, not the future.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Diana Koeck

Dear California Coastal Commission,

It is easy to enjoy the Oceano Dunes w/o destroying the habitat in the process. I have visited many times and never needed a high-speed destructive vehicle to enjoy them. The integrity of the Dunes' ecology is way more important than a cheap thrill.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Protect the Oso Franco Lake from OHV use. This has been an ongoing problem since the late 1970?s and State Parks plan makes it permanent.

This is a disastrous idea. It undermines the multi-decade efforts of The Nature Conservancy, the SLO Land Conservancy, the U.S. Fish and Wildlife Service and others in creating the Guadalupe-Nipomo Dunes Preserve, which protects thousands of acres of rare and pristine dunes hosting a multitude of flora and fauna

Dear Chairman Padilla and Commissioners

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. Dear California Coastal Commission,

I am an active motorcyclist. I have seen firsthand the damage that motorcycles and off road vehicles do to pristine areas. Total degradation is the norm. Destroy and move on is the normal attitude. There is no regard for the flora or fauna. Off road vehicle use should be phased out.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

I have been going to these dunes since I was a young child when my family moved into the area. Now, as an adult, I see the need to protect these dunes from motorized vehicles and the destruction they wraught on animals and plants. These dunes are precious and since we now understand the problems created by driving on them we owe it to our children to stop motorized vehicles in the dunes.

Dear Chairman Padilla and Commissioners

Dear California Coastal Commission,

My dear friend who died of cancer a few years back worked tirelessly on this issue to keep these dunes off limits to vehicles. Please help to do the same and protect the wildlife there.

Thank you,
Denise

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Jomay Skeoch

Dear California Coastal Commission,

I have been a volunteer doing Snowy Plover Surveys for San Francisco Bay Bird Observatory. Protecting bird species is incompatible with vehicle use. It is time for State Parks to protect these special places by prohibiting off-road vehicles. This particular recreational activity affects every other use of state parks. It is imperative to find non-sensitive places for off-road vehicle use. Thank you.

Dear Chairman Padilla and Commissioners

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Laura Dill

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

I have seen first hand the destruction of habitat that occurs when OHV are allowed to access dune areas. I am concerned about the destruction of sensitive habitat and the danger to wildlife from OHV activities. Please take efforts now to protect the Guadalupe-Nipomo dunes complex.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Dear California Coastal Commission,

As a beach camper I was greatly concerned for the native wildlife in and near the dunes. People ride without regard for anyone or anything in their way. It?s loud, and the exhaust takes your breath away. It is so beautiful when the Monarch butterflies show Up to roost in the Trees, bunched Together to stay warm. So many sites in the natural world that are abused so a few can burn up gas , throw sand around under oversized tires and spew smelly exhaust.

Dear Chairman Padilla and Commissioners

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Warren Hageman

Dear California Coastal Commission,

The shore is not a freeway, except for the significant wildlife that inhabits it and the people who cherish it. Take the noise, the pollution and the trash elsewhere.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Dear California Coastal Commission,

Allen McDonald taught in his classes that "Regret for the things we have done is tempered by time. But regret for things we did not do is inconsolable." And he was the one who risked his job to tell the truth about the Challenger Launch disaster. Please do not let the destruction of this important place continue!

Dear California Coastal Commission,

We have enough track areas, highways and freeways for the use of automobiles...literally thousands of miles. We need a small stretch of sand for snowy plovers and other diverse life. That's why God created Oceano Dunes.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Our beaches and public parks are no place for ORVs. Please return this beautiful place back to it's natural glory.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

Dear California Coastal Commission,

I stopped there to rest on a drive back to the Bay Area a few years ago and was astounded - flabbergasted - to see the vehicles on the beach. And tracks all Over the beach. Such a gorgeous beach with picturesque wildlife filled dunes. The beach and dunes absolutely need to be protected like so much of the rest of the California coast already is. Thank you.
Sherri de Coronado

Dear California Coastal Commission,

OHV activity on the beach is degrading the beach in many different ways, besides the majority of beach walker people are against it of having the OHV on the Beaches.
Action is way over due.
Please implement a plan.
I intend to move to Guadalupe.

Joe Kothe

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Please vote for the environment and the health of the people in Oceano and Nipomo by closing the Dunes to OHV activity over the next year. The argument that it will hurt the economy has recently been rebutted by a study completed by a Cal Poly professor. State parks has been dragging their feet for too many years.

Dear Chairman Padilla and Commissioners

I am a retired community health nurse from Washington state now living on the Central Coast. We moved here seven years ago for it's beauty and close proximity to some of the most amazing coastline in the West. I was appalled when I discovered our air quality was the worst in the nation on many days per year. My assumption was that California had some of the most stringent public health standards in the nation. To learn that off road vehicles were allowed to continue to destroy the environment of the dunes despite knowledge of the dangers to public health and the environment was very disappointing. During the ban of ORVs during the pandemic, walking on the beach was a delight. It was wonderful to see horses, sea birds, and families with children enjoying the beach. I appreciate that many Californians enjoy off roading but there are plenty of other options for them without impacting the environment.

Thank you for stepping up and protecting our coastline so all in the community can enjoy it.

Subject: Ensure Sustainable Management of the Oceano Dunes

Categories: Public Comment

Dear California Coastal Commission,

I truly think it?s time to take care of the Oceano Dunes.
We are the only ones that can conserve this beautiful place.
The natural habitat, the beauty of the dunes.
It is unsafe for people to walk.
It is time to protect these dunes.
Thank you, Mary Ett Brown

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Mary Ett Brown

Dear California Coastal Commission,

Please SAVE our Beautiful Coast. We need to protect our natural wonders. I would like future generations to enjoy our coast as much as I do.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. The plume of health-destroying particles from foredunes denuded of vegetation by off-road activity continues to stretch to Nipomo and Guadalupe. All of this is an environmental injustice. You know this, and you know State Parks is not fixing the problem and has not heeded your directive to come up with a plan to protect the Environmentally Sensitive Habitat Area. You must do so now.

Thank you,

Sincerely,

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.

The Park would continue to offer unique experiences such as car camping on the beach, along with walking and swimming, horseback riding, birding, fishing and hiking the dunes; the kinds of activities that characterize the healthy economies of every other beachfront community in California, with the exception of Oceano. Please dispense with the fears and economic arguments against doing this, which were rebutted during the park?s closure to vehicles from March to October of last year. Tourism continued, and supported the local economy, as it does the length of California?s coast.

The residents of the town of Oceano can?t walk on their beach without taking their lives in their hands, and they are watching the coastal dunes complex ? their defense against rising sea levels ? being eroded away. Dear California Coastal Commission,

The first time I visited the Oceano Dunes I was amazed that they existed. Please act to save them from needless destruction by OHVs, so that my grandchildren, yours, and all the others can visit and enjoy them too, and the birds and wildlife living there have a chance if surviving.

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Subject: Ensure Sustainable Management of the Oceano Dunes

Categories: Public Comment

Dear California Coastal Commission,

Dear Chairman Padilla and Commissioners

Please support and implement your staff?s recommendations for the Oceano Dunes and amend State Parks? Coastal Development Permit to bar night riding and driving across Arroyo Grande Creek, close the Pier Avenue ramp, preserve the plover exclosures, leave Oso Flaco as it is, and all other short-term management measures you have held in abeyance since July 2019, when you gave State Parks a year -- now stretching to 18 months -- to put these measures into effect on their own.

Above all, start the clock on the phase out of OHV activity.
