April 14th Agenda Item 18d, Long Beach Grand Prix

I live on Ocean Blvd, Downtown Long Beach, on turn 9 of the Grand Prix. The race takes place below my bedroom window. I have no problem with the race itself, I knew about it prior to moving in and enjoy it. It is the Drifting both the weekend prior to the race and in the evenings of the race, that wrecks havoc on the residents that live on Ocean Blvd. The drifting is an environmental hazard of the first degree. It is noisy, air polluting and dirty. The noise and smell drive me out of my home and when I return my patio is covered in tire dust from the drifting cars. What is that dust doing to the lungs of residents within a few feet of the race course. I implore you to eliminate the drifting or move it away from residences.
