## ADDENDUM

**DATE:** June 9, 2021  
**TO:** Commissioners and Interested Parties  
**FROM:** South Central Coast District Staff  
**SUBJECT:** Agenda Item F9a, City of Santa Barbara Appeal No. A-4-SBC-21-0021 (Bike Share), Friday, June 11, 2021

---

The purpose of this addendum is to attach one letter of correspondence received from the appellant in opposition to the staff recommendation of no substantial issue, two letters received from members of the public in support of the staff recommendation, five letters received from members of the public in opposition to the staff recommendation, and one letter received from a member of the public regarding a circulation issue in the city that is not related to the subject project. The letters from members of the public raise issues related to visual impacts and pedestrian safety; both issues have already been addressed in the staff report. The appellant's letter asserts that the City could obtain extensions for the subject coastal development permit to extend the pilot period for up to six years. However, time extensions for the coastal development permit could only be obtained if commencement of the development has not yet occurred. Therefore, as explained in the staff report, the coastal development permit subject to this appeal is limited to a three-year term. All of the letters are available under the Correspondence tab for this item on the Commission's website.
