Complete, comprehensive description of communication content (attach complete set of any text or graphic material presented):

I had a meeting Dr. Susan Skinner who is incredibly supportive of the disabled access that would be realized by the proposed 280-foot paved pathway. She would also like to see an ADA compliant lift in the future on the North Visitor Dock, as being able to access a boat is very therapeutic, and with only 4 ADA lifts in all of coastal California, it would be a welcome addition to the area.

Complete, comprehensive description of communication content (attach complete set of any text or graphic material presented):

I had a meeting with Penny Elia and Sunjana Supekar about their concerns with this proposed application. Their concerns surround the potential for lost access to public space, as well as opportunities for improvement with regards to the confusion about parking lot directional access and better signage for coastal access. Also, the ADA access points needs to be repainted and kept clear for 24/7 access. Their concern with the concrete pathway on the sand is the potential for future deterioration due to sea level rise.
