## ADDENDUM

DATE: August 9, 2021

TO: Coastal Commissioners and Interested Parties

FROM: South Coast District Staff

SUBJECT: **ADDENDUM TO ITEM W15A, COASTAL DEVELOPMENT PERMIT EXTENSION APPLICATION NO. 5-90-789-E27 AND -E28 FOR THE COMMISSION MEETING OF WEDNESDAY, AUGUST 11, 2021.**

---

### I. CORRESPONDENCE FROM AGENT

Since publication of the staff report on July 22, 2021, Commission staff has received correspondence from the project agent requesting a 60-day item postponement. The applicant was notified in January 2021 that staff would recommend denial of the material extension. Staff reached out to the applicant's representatives multiple times in July 2021 to seek and provide information, but did not receive response until August 4, 2021 (following report publication), wherein the agent requested a postponement. The staff report has already been published and the applicant does not have the right to postponement of extension requests; thus, staff continues to recommend that the matter be heard at the August hearing. Staff will be available to continue working with the applicant to address this matter through a new coastal development permit application for the project.
