**Subject:** Public Comment on December 2022 Agenda Item Friday 13a - Application No. 1-22-0616 (Strachan, Humboldt County)

Dear Commissioners,

I support this project. It is an *extremely modest project* and involves no adverse Coastal Act or environmental impacts whatsoever.

My question is why is it even on the agenda? This project should have received a CDP Waiver. At a minimum I recommend your Consent Calendar so as not to spend any further time on this humble proposal.

The significant resources required via your time, staff analysis and time, and the costs and burdens on the applicant related to so unobtrusive a proposal exhausts the public's patience, your time, administration of the Coastal program and our collective ability to absorb and appreciate statewide coastal development proposals in a rational fashion. Need I remind you that *other* Humboldt County projects involve 20,000 foot homes on top of Native American sacred sites??

Please encourage your staff, and your trust in staff and the Coastal Act, to utilize the waiver process more regularly. Thank you and with continuing support of your work and efforts,

Mark Massara
