CORRESPONDENCE

Congress of the United States
House of Representatives
Washington, DC 20515-0552

July 7, 2022

Donne Brownsey
Chair
California Coastal Commission
455 Market Street
San Francisco, CA 94105

Dear Chair Brownsey,

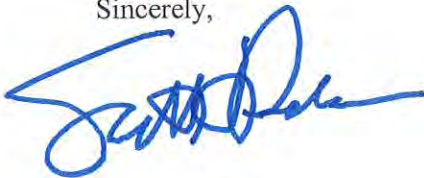

I write to urge the Commission's support for the City of San Diego's "Spaces as Places" ordinance and for the outdoor promenade at Avenida de la Playa in La Jolla in particular. As a 30-year resident of La Jolla, I can attest first-hand to the success of this community space. While created in response to difficult circumstances – to keep restaurants afloat and patrons safe during the COVID pandemic – this outdoor dining space has become a wonderful attraction and asset for the town and for visitors.

As a former Coastal Commissioner, I know you must consider coastal access and parking as part of your decision making. Not only has this innovation not deterred access, it has also drawn people to our beach and encouraged greater pedestrian activity along this block. The parking spaces utilized for the dining area are not places where beachgoers parked because they are short term. They are spaces used by people frequenting the restaurants and shops, and these retailers and eateries are all in agreement that this new place has been a boon to their business. Visitors to the beaches park in the lot in the public lot several blocks away or along the nearby residential streets. And many of them stroll to and through the promenade during the day to shop and eat and enjoy "downtown La Jolla Shores."

I have been a strong advocate for walkable communities and this new space as a place is a great example of how the pandemic got all of us to think about community and recreation in a new way. It is a highlight of what was otherwise a few tough years.

I urge your support and thank you for your consideration.

Sincerely,

Scott Peters

Karl Schwing,
District Director
California Coastal Commission, San Diego
7575 Metropolitan Dr., #103
San Diego, CA 92108

Dear Mr. Schwing:

On behalf of the community of La Jolla, I ask California Coastal Commission staff to look favorably upon the City of San Diego's "Spaces as Places" ordinance.

I understand the Coastal Commission staff and the City's Planning Department are in discussions; further, that the Commission itself will ultimately decide whether the ordinance complies with Local Coastal Plans. I write to offer local input in your evaluations and share one situation in particular.

In response to the pandemic and the call for outdoor dining, nearly two years ago restaurants and shops along the 2100 block of Avenida de la Playa in the community of La Jolla worked with the city and the community to create an outdoor dining promenade in the public street. The promenade saved the restaurants financially. The community, business owners, diners, shoppers, and the beach-going public quickly adjusted to the one-block street promenade. The beach-going public did not lose coastal parking nor vehicular access; pedestrians had easy access on sidewalks and through the new promenade. Two years in, a new "normal" in this coastal neighborhood has comfortably been realized.

Importantly, there was no disruption to accessing the popular "boat launch" at the ocean-end of Avenida de la Playa. Kayak, surf, and paddle board shops on that block remained open and thriving as customers secured their rentals and made their way through the promenade to the beach.

Kellogg Park and La Jolla Shores Beach are located several blocks to the north and remained unaffected by the promenade. On popular days, the parking lot serving the beach quickly fills to capacity and beachgoers seek on-street parking in the adjoining residential streets to the east. The limited number of on-street parking spaces on the 2100 block and the residential blocks to the south are not sought after by La Jolla Shores beach-goers.

My office has not received complaints regarding beach accessibility; likewise, there have been no complaints about on-street parking.

Thank you for your consideration. We are available to discuss at your convenience.

Sincerely,

Joe LaCava
Councilmember
City of San Diego, District 1

Re: Outside Dining at 2100 Block of Avenida de la Playa

Dear Mr. Schwing:

The La Jolla Shores Association (LJSA) holds the permit for the Outside Dining promenade on the 2100 block of Avenida de la Playa in La Jolla Shores. This permit has been in force for almost 2 years. During that time, this one block promenade has been very successful and popular with businesses, residents, and visitors.

LJSA requests that the California Coastal Commission allow this successful and popular event to continue. This promenade has benefitted both visitors to The Shores and the businesses. In addition, this area does not involve immediate beach parking.

In making this one block a promenade, it has allowed increased pedestrian and bicycle traffic in this area. Because of the layout of this block of Avenida de la Playa, its closure has enhanced the experience for visitor and locals to the entire Avenida de la Playa area.

This area is so unique that we invite you to come meet us and let us give you a tour of the area. In that way, you can truly understand how this promenade enhances the area for all concerned.

The LJSA requests that the California Coastal Commission approve the continuation of the promenade street closure on the 2100 block of Avenida de la Playa.

Thank you for your attention to this matter.

Sincerely,

Janie Emerson
President
La Jolla Shores Association

Karl Schwing
District Director
California Coastal Commission, San Diego
7575 Metropolitan Drive #103
San Diego, CA 92108

Dear Mr. Schwing,

The La Jolla Traffic and Transportation Board, a joint committee of the La Jolla Community Planning Association writes today in support of the City of San Diego's "Spaces as Places" ordinance and in particular, San Diego City Council member Joe LaCava's District One letter dated June 2, 2022, to your office.

Our board considers all proposals affecting La Jolla's streets (striping, stop signs, traffic calming) and parking (curb colors, time limits). It also hears special events that require traffic control, street closure or effect on-street parking. Recommendations are forwarded to the LJCPA for ratification and then sent to the City of San Diego for recommended completion.

During the establishment of outdoor dining as a response to the pandemic, we provided recommendations to the draft regulations process for the use of the parking areas and right of ways that were to be used to the city's Spaces as Places ordinance. Specifically, the recommendations given for the 2100 block of Avenida de la Playa in the community of La Jolla and located in the La Jolla Shores Beach community.

We concur with the points that Councilmember LaCava makes in his letter, that the community and beach going public adjusted quickly and did not see or feel the effects of the loss of parking. In fact, it has created a new environment of enjoyment for the coastal area of San Diego giving opportunity to walk and enjoy the area for which parks and recreational activities as well continuing to provide the necessary avenues for safety, emergency vehicles and merchant deliveries through adjacent alley and street access.

Thank you for your consideration of our region's Spaces as Places. This will have a positive effect on the future of outdoor dining and the continued popularity of the beach going public.

Sincerely,

Brian Earley, Chairperson
La Jolla Traffic and Transportation Board

Re: Outdoor Dining at Avenida de la Playa

Dear Janie,

The COVID-19 pandemic has brought its fair measure of tragedy, challenge and disruption. Over the past nine months there have been few bright spots.

One of these has unquestionably been the opening of outside areas as extensions of established dining establishments. It is our view that, in La Jolla, the most successful and impactful of these openings has been the section of Avenida de la Playa at La Jolla Shores. Restricting the central section of Avenida de la Playa to pedestrian-only access and permitting the restaurants there to expand their outside dining areas into the street has had some major benefits.

First, it has enabled these renowned restaurants to maintain a reasonable level of business, through what might otherwise have been a disastrous period.

Second, it has radically improved the appeal of the area and the route of access to the beach at La Jolla Shores, to both residents and visitors alike.

Third, dedicating this short section of street to a pedestrian thoroughfare and outdoor dining area will serve as an example, even an inspiration, for similar efforts in other neighborhoods. It seems so natural, with the blessings of the climate and environment that we have here in San Diego, that we make more use of our outdoor spaces across the city in this sort of way.

As La Jolla residents, we strongly urge that this arrangement be continued through 2021. Something special has been created. Let us all benefit from its continuance.

The Bird Rock Community Council provides our wholehearted support for this extension.

With all best wishes,

Bird Rock Community Council
John M Newsam (President)

Special Events Coordinator
City of San Diego

RE: *La Jolla Shores Outdoor Dining on Avenida de la Playa*

Dear Ms. Kodama

The La Jolla Town Council strongly endorses efforts to help businesses survive these difficult times. In particular, as you know, we worked early and diligently to raise awareness of the various options for dining expansion this summer and

We continue to endorse these efforts and in particular, request that you allow the Outdoor Dining on Avenida de la Playa to continue for as long as possible into 2021, or until the restrictions arising from COVID-19 concerns are no longer in effect.

We commend LJ Shores Association and community for their efforts to help keep our businesses in business and hope you will approve their permit request for the Outdoor Dining program to continue to operate for the benefit of the community.

Sincerely

Ann Kerr Bache

RE: Avenida de la Playa - Street Dining

Gentlemen,

I am a resident of San Diego and strongly object to discontinuing the on-street dining services that were recently permitted, for the first time, on Avenida de la Playa in La Jolla Shores, in response to the elimination of indoor dining options during the COVID-19 pandemic. These visitor-serving additions to La Jolla Shores have truly enhanced the area, creating a great dining destination that has developed its own identity, much like "Old Town" or "Little Italy" in downtown San Diego. Although on-street dining has taken 20 parking places out of service, these new dining facilities can accommodate hundreds more beach-going patrons daily. **The net effect is a positive one**, allowing many more people the opportunity to spend a day at the beach with full dining facilities close at hand.

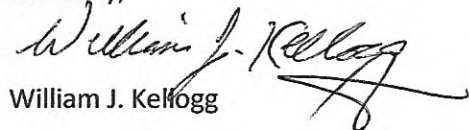

The new permits, which became effective in July of 2020, at the height of COVID, saved all of the restaurant and retail operations on this one stretch of street and also saved jobs at this most critical time. More importantly, these permits created an outstanding al fresco dining atmosphere that was totally new for the City of San Diego. What a spectacular setting to sit at one of the street dining tables during sunset and look down the street to see the beautiful Pacific Ocean.

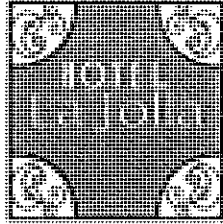

The parking spaces taken out of service were never able to be used by beach goers since there is a 90-minute parking time limit in that area. These parking spaces were used in the past by restaurant and retail customers located along this one short block. Since removing the parking spaces, the number of customers visiting the Avenida de la Playa restaurants actually appears to have increased. The removal of those spaces does not appear to have negatively affected either the number of people spending a day at the beach or the number of customers at those restaurants and stores.

It's a new world out there with many new public transportation options that don't require parking spaces. Today, it is quite feasible to get to our beaches without using a personal vehicle. In fact, with gas prices rising rapidly, that may be the wave of the future.

On-street dining on Avenida de la Playa truly generates improved access to our coastal resources and greatly improves the beach experience for those who visit the beach at La Jolla Shores. I urge you to extend the permits that allow this to happen.

Sincerely,

William J. Kellogg

RE: Avenida de la Playa Street Dining Event

Gentlemen,

As a local Business of "The Shores" area of La Jolla Hotel La Jolla finds it unbelievable that The Coastal Commission would consider to an end the Street Dining on Avenida de la Playa over their use of a limited number of public parking stalls. Hotel La Jolla hosts tens of thousands of guests each year. Our guests have provided feedback about how wonderful this walkable, accessible this area is during their visits.

This event, which began July, 2020, at the height of Covid, saved all of the restaurant and retail operations on this one stretch of street. The event saved jobs at this most critical time. More importantly, this event created an outstanding al fresco dining atmosphere that was totally new for the City of San Diego. What a spectacular setting to sit at one of the street dining tables during sunset and look down the street to see the beautiful Pacific.

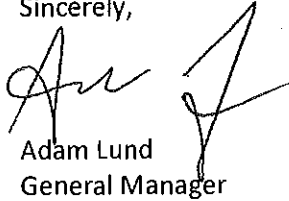

The event, does not distract locals and tourist from visiting this one stretch of the Pacific. Actually, the event is a draw since it's a well valued amenity to the area. Visitors come knowing if they go kayaking or visit Kellogg Beach there is available outdoor dining for them to enjoy.

The parking spaces, in question, are not used by beach goers as the stalls have a 90 minute time limit. These stalls are really for the benefit of the restaurants and retailers located along this one short block and no one is complaining.

It's a new world out there with the use of public transportation being encouraged. Today, there are all forms of public and private transportation available to get to our beaches without having the need for a parking stall for every visitor.

We urge the Coastal Commission to see that the Avenida de la Playa Street Dining Event easily generates more access and creates a far greater lifestyle than a limited number of parking stalls.

Sincerely,

RE: Avenida de la Playa Street, La Jolla Shores dining event

Dear Mr. Schwing and Mr. Llerandi,

As a business owner with operations on Avenida de la Playa, we would like to offer our support of the closure of the block on Avenida de la Playa.

This event, which began in July, 2020, at the height of Covid, saved all of the restaurant and retail operations on this one stretch of street! The street closure preserved individual jobs at this most critical time, while both protecting and enhancing our beach community by creating an outstanding al fresco dining atmosphere while minimizing vehicular traffic.

As a stakeholder, we are impressed with the positive impact it has had on safety by creating a traffic calming solution at a formerly hazardous intersection which has had numerous critical traffic accidents.

There are sufficient parking spaces, there is a welcoming community atmosphere, and being able to eat outside means that there is more accessibility to everyone including the immunocompromised who cannot dine indoors.

The street event draws numerous beach goers to the area, visitors that normally would not consider visiting La Jolla Shores. The closure of this one short block of Avenida de la Playa does not inhibit anyone from accessing the beach or boat launch nor does the taking of a minimal number of parking stalls. It is a win-win-win for businesses, community, and visitors to the area.

We urge the Coastal Commission to see that the Avenida de la Playa Street dining event is beneficial to our present and future generations.

Thank you for the work you do, it is appreciated!

Sincerely,

Coco Tihanyi

RE: Avenida de la Playa Street Dining Event

Gentlemen,

As a resident of San Diego I find it unthinkable that The Coastal Commission would consider causing this fine event to end over their use of a limited number of public parking stalls.

This event, which began July, 2020, at the height of Covid, saved all of the restaurant and retail operations on this one stretch of street. The event saved jobs at this most critical time. More importantly, this event created an outstanding al fresco dining atmosphere that was totally new for the City of San Diego. What a spectacular setting to sit at one of the street dining tables during sunset and look down the street to see the beautiful Pacific.

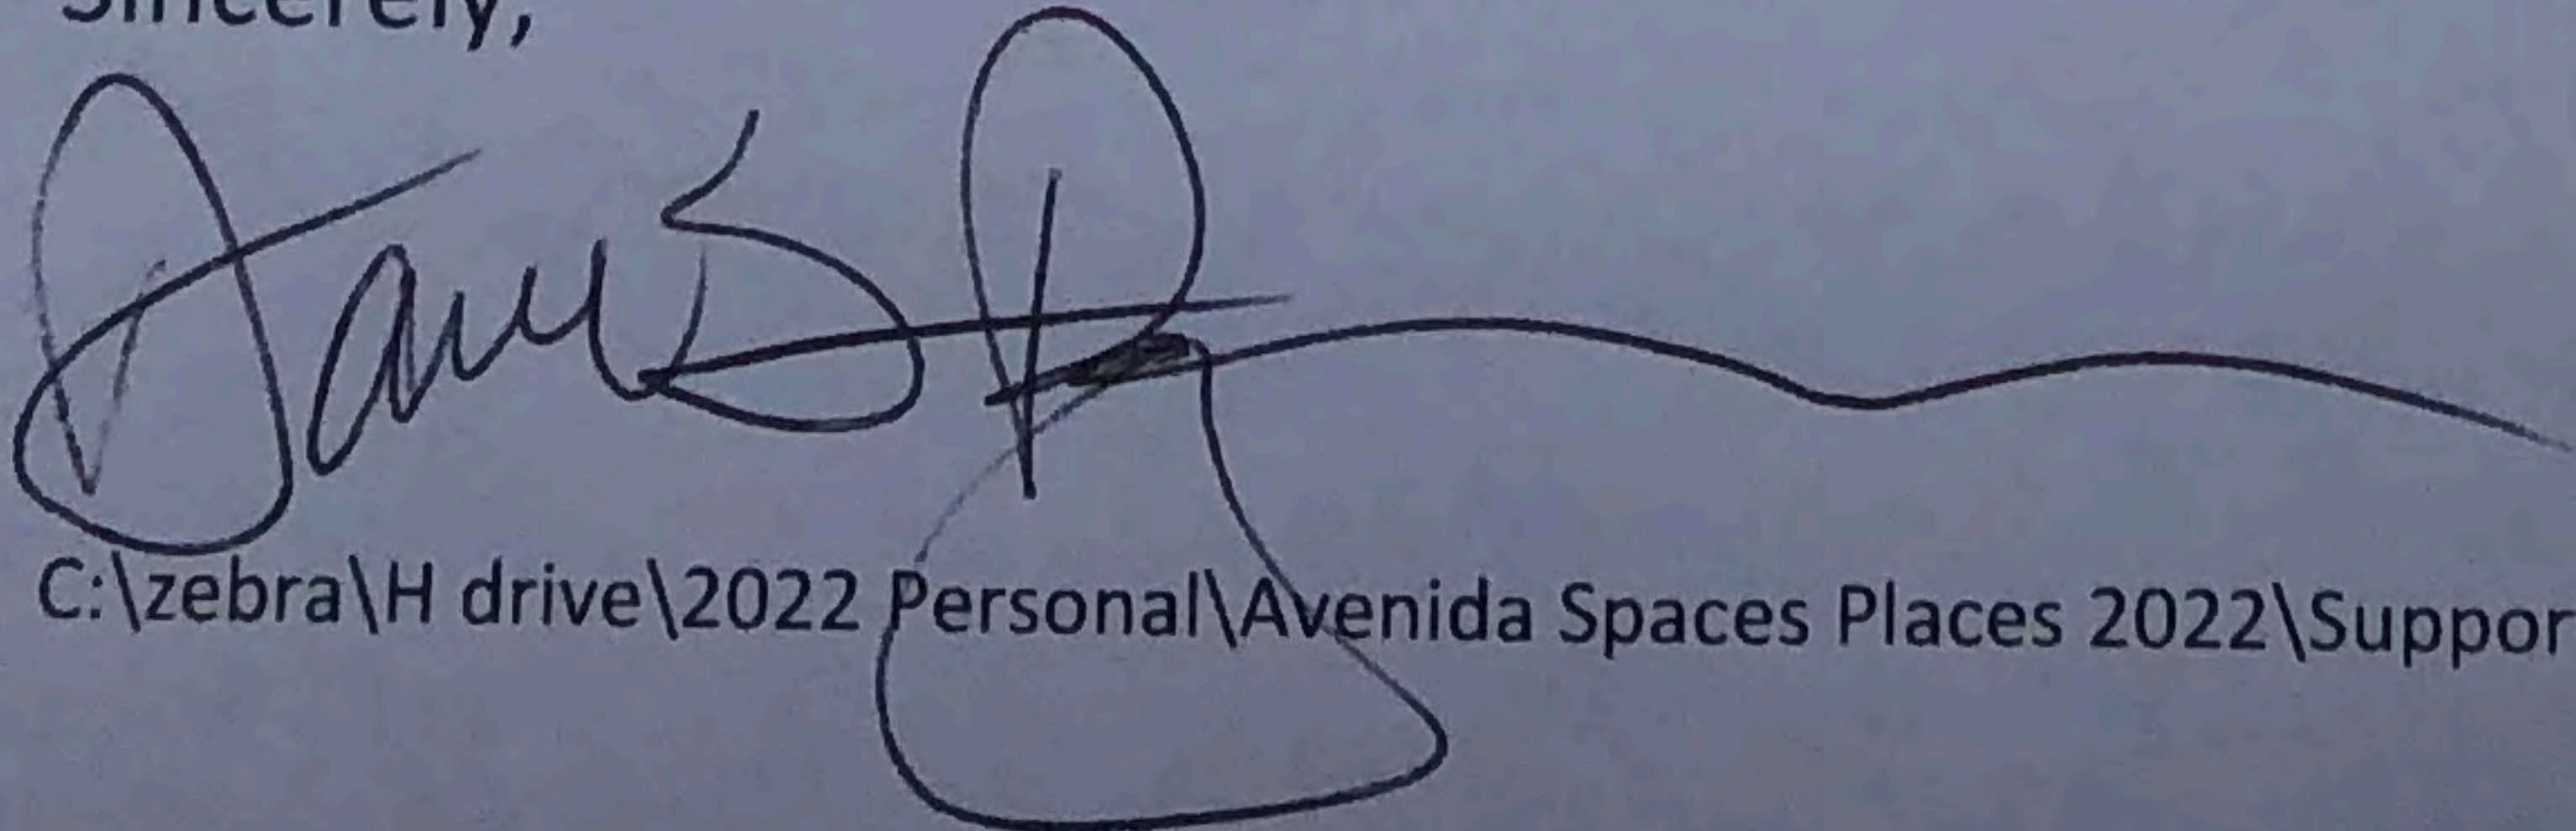

The event, does not distract locals and tourist from visiting this one stretch of the Pacific. Actually, the opposite is true as the event draws additional visitors to the coast since it's such a positive added amenity to the area. Visitors come knowing if they go kayaking or visit Kellogg Beach there is available outdoor dining for them to enjoy.

The parking spaces, in question, are not used by beach goers as the stalls have a 90 minute time limit. These stalls are really for the benefit of the restaurants and retailers located along this one short block and no one is complaining.

It's a new world out there with the use of public transportation being encouraged. Today, there are all forms of public and private transportation available to get to our beaches without having the need for a parking stall for every visitor.

to me

Dear Coastal commission, Paul and I use the outdoor space for dining often, in summer and with heaters supplied by the restaurants in other seasons. Outdoor dining near the Shores beaches attracts many happy locals as well as tourists and people from east county, north county etc. Please do not take this away from us. Give us the temporary permit until we can complete whatever is needed to make this year round. Good La Jolla citizens, Edith and Paul Sanchez

San Diego CA 92108

Dear Mr. Schwing:

I completely support the continued operation of the outdoor dining promenade in the one short block of Avenida de la Playa that was begun during the early days of the COVID pandemic. It has clearly not only saved the restaurants and businesses financially, in my wife's and my opinion, it has optimized and enhanced the dining and coastal experience. Pedestrians move freely through the area and diners are pleasantly not part of the traffic mix of people looking for parking.

Although I know there is concern over some 15-20 parking spaces "lost" in the process, there is plenty of on-street parking along the adjacent streets with a short, scenic walk to the restaurant promenade. The La Jolla Shores parking lot, at Kellogg Park, a couple of hundred yards north has several hundred parking places, and my wife and I routinely park there and take a pleasant stroll down along the beach to reach one of the restaurants. Although that lot is busy on warm summer days, by late afternoon and early evening it is usually emptying out and we have no trouble finding parking that is free of charge. For us it has become part of the coastal dining experience. Although that lot closes at 10:00 p.m., most diners (like us) are gone by then and even more street parking has opened up for those coming later.

The boat launch at the west end of Avenida de la Playa is easily accessible by merely going around a short block and continues to be actively used. I've seen no traffic issues with that.

For us, the remedy of allowing the on-street dining during the pandemic has provided a 'silver lining' of an enhanced coastal enjoyment and dining experience and we would strongly support the Coastal Commission in allowing it to continue, and to search for other similar areas along the coast where this enhancement could be further perpetuated. The street dining is especially important to us as my wife lost both her legs and one arm years ago, shortly after we were married. She also suffers from Parkinson's Disease so as long as Covid exits it's impossible for us to dine indoors.

Thank you for your consideration of this matter,

David W. Hodgens

to Covevu@gmail.com

To whom it may concern:

As a La Jolla resident since 1962, I know and have witnessed both locals and tourists going to the Beach at the Shores over those many years. They do NOT park in the tiny business district for that purpose. First choice is obviously the large parking lot which is adjacent to their destination, and, when that is full, the nearby residential streets, even going up the La Jolla Shores hill and the Calle del Oro hill are the destinations.

Furthermore, since the pandemic, the opportunity to sit outside near the many restaurants to enjoy the varied fare has been welcomed by all. To see the seats filled in the evening and in the afternoon has lifted the neighbors' spirits. It is a festive sight, but, even beyond that, more of us have taken advantage of the outdoors venue than we ever could have in the past.

My husband and I would fully support a permanent permit for this terrific addition to continue on into the future indefinitely.

Sincerely yours,

Edith S. Kodmur

RE: La Jolla Shores “Avenida de la Playa Street Dining”

Dear Sirs:

My wife and I, our family members, friends and guests frequently have lunch and dinner at the La Jolla Shores “Avenida de la Playa Street Dining” area which was created and authorized by the City of San Diego to ensure the survival of the small restaurants, food related businesses and merchants during the COVID-19 pandemic. It succeeded and hundreds of jobs were saved and continue to be preserved. This outdoor dining area is now greatly appreciated by the residents of La Jolla Shores, La Jolla proper and the many visitors to La Jolla.

It has come to our attention that the California Coastal Commission is reviewing the Avenida de la Playa Street Dining with a potential to deny approval, reportedly related to twenty (20) street parking spaces currently used for Avenida de la Playa Street Dining. As a practical matter, the preservation of restaurants and other merchants in that area and all the employment they provide to citizens of San Diego greatly outweighs the dispossession of this small number of parking spaces.

Due to climate change and impact of fossil fuels on the environment, Governor Newsom has advocated the use of public transportation or, where that is not readily available or convenient, use ride-share companies such as Uber or Lyft. Our kids, friends and others who enjoy the Avenida de la Playa Street Dining all use these ride-share platforms, especially if alcohol is consumed, thus eliminating the need for parking in that area.

We petition the California Coastal Commission to approve and preserve the Avenida de la Playa Street Dining.

Regards,

Eric Dye

RE: Avenida de la Playa Street Dining

Gentlemen,

As a resident of La Jolla for over 30 years, I cannot emphasize how much of an amenity to the local community the outdoor dining on Avenida De La Playa is. It creates a unique coastal environment and encourages MORE people to come down to the La Jolla Shores and enjoy the public beach, because they can find a nice place to eat and have lunch/dinner outside.

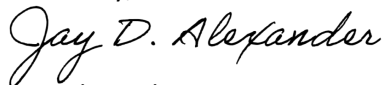

If the Coastal Commission canceled this outdoor eating area/event, it would be counter to preserving public access to the California Coast. This lively outdoor experience enhances the public's enjoyment and access to the beach and encourages more public use of the beach.

This event, which began in July 2020 at the height of Covid, kept the restaurants and retail operations on this one stretch of street in business. The event saved jobs at this most critical time. More importantly, this event created an outstanding al fresco dining atmosphere that was totally new for the City of San Diego/La Jolla. I personally see visitors coming back from kayaking and having dinner at "The Playa" as the outdoor area has become affectionately known to residents.

The approximately 20 parking spaces in question that will be displaced are not used by beach goers. The stalls had a 90-minute time limit and were primarily for the benefit of the restaurants and retail shops. Note that there is now a valet parking service, which more efficiently handles parking for visitors. Since the local retail and restaurant shops are in favor of this event, the parking is really a non-issue. Typically, when we go to The Playa, we will take UBER or LYFT.

We urge the Coastal Commission to see that the Avenida de la Playa Street Dining Event generates additional public enjoyment and access to our Coast, and that offsets an inconvenience of repurposing a limited number of parking stalls.

Sincerely,

Jay Alexander

RE: Avenida de la Playa Street Dining Event

Gentlemen,

As a resident of La Jolla Shores I find it unthinkable that The Coastal Commission would consider causing this fine event to end over their use of a limited number of public parking stalls.

This event, which began July, 2020, at the height of Covid, saved all of the restaurant and retail operations on this one stretch of street. The event saved jobs at this most critical time. More importantly, this event created an outstanding al fresco dining atmosphere that was totally new for the City of San Diego. What a spectacular setting to sit at one of the street dining tables during sunset and look down the street to see the beautiful Pacific.

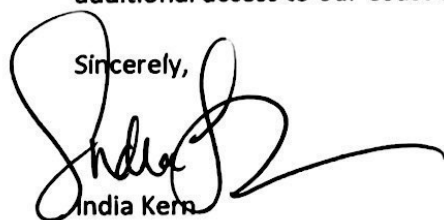

The event, does not distract locals and tourist from visiting this one stretch of the Pacific. Actually, the opposite is true as the event draws additional visitors to the coast since it's such a positive added amenity to the area. Visitors come knowing if they go kayaking or visit Kellogg Beach there is available outdoor dining for them to enjoy.

The parking spaces, in question, are not used by beach goers as the stalls have a 90 minute time limit. These stalls are really for the benefit of the restaurants and retailers located along this one short block and no one is complaining.

It's a new world out there with the use of public transportation being encouraged. Today, there are all forms of public and private transportation available to get to our beaches without having the need for a parking stall for every visitor.

We urge the Coastal Commission to see that the Avenida de la Playa Street Dining Event easily generates additional access to our Coast and creates a far greater lifestyle than a limited number of parking stalls.

Sincerely,

To whom it may concern:

As a La Jolla resident since 1962, I know and have witnessed both locals and tourists going to the Beach at the Shores over those many years. They do NOT park in the tiny business district for that purpose. First choice is obviously the large parking lot which is adjacent to their destination, and, when that is full, the nearby residential streets, even going up the La Jolla Shores hill and the Calle del Oro hill are the destinations.

Furthermore, since the pandemic, the opportunity to sit outside near the many restaurants to enjoy the varied fare has been welcomed by all. To see the seats filled in the evening and in the afternoon has lifted the neighbors' spirits. It is a festive sight, but, even beyond that, more of us have taken advantage of the outdoors venue than we ever could have in the past.

My husband and I would fully support a permanent permit for this terrific addition to continue on into the future indefinitely.

Sincerely yours,

Edith S. Kodmur

RE: Avenida de la Playa Street Dining Event

Gentlemen,

As a resident of Gardnerville, Nevada, who frequently visits La Jolla, I find it unthinkable that the Coastal Commission would consider causing the Avenida de la Playa Street Dining Event to end over the loss of a limited number of public parking stalls.

This event, which began July, 2020, at the height of Covid, helped all of the restaurant and retail operations on this one stretch of street to survive the closures. The event saved jobs at this most critical time. More importantly, this event created an outstanding al fresco dining atmosphere that was totally new for the City of San Diego. What a spectacular setting to sit at one of the street dining tables during sunset and look down the street to see the beautiful Pacific! What fun!

The event, does not distract locals and tourists from visiting this one stretch of the Pacific. Actually, the opposite is true, because the event draws visitors such as my wife and I to the coast. It is such a positive added amenity for the area! Visitors come knowing if they go kayaking or visit Kellogg Beach there is available excellent outdoor dining for them to enjoy.

The parking spaces in question are not used by beach goers as the stalls have a 90 minute time limit. These stalls are really for the benefit of the restaurants and retailers located along this one short block and no one is complaining.

It's a new world out there with the use of public transportation being encouraged. Today, there are all forms of public and private transportation available to get to our beaches without having the need for a parking stall for every visitor.

We urge the Coastal Commission to consider that the Avenida de la Playa Street Dining Event generates additional access to our Coast, contributing a lot more to the lifestyle than a have a few more parking places.

Sincerely,

Steven L. Ré

RE: Avenida de la Playa Street Dining Event

Gentlemen,

As residents of San Diego we respectfully request that you would consider approval of the Avenida de la Playa Dining Event.

This event, which began July, 2020, at the height of Covid, saved all of the restaurant and retail operations on this small stretch of street. The event saved jobs at this most critical time. More importantly, this event created an outstanding outdoor dining atmosphere that was totally new for the City of San Diego and an excellent resource for the dinners from both in and outside the area. What a spectacular setting to sit at one of the street dining tables during sunset and look down the street to see the beautiful Pacific.

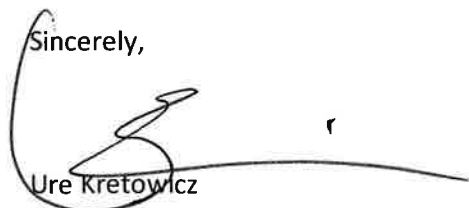

The Event does not distract locals and tourists from visiting this one stretch of the Pacific. Actually, the opposite is true as the event draws additional visitors to the coast since it's such a positive added amenity to the area. Visitors come knowing if they go kayaking or visit Kellogg Beach, there is available outdoor dining for them to enjoy.

The 20 parking spaces in question are not used by beach goers as the stalls have a 90-minute time limit. These stalls are really for the benefit of the restaurants and retailers located along this one short block and no one is complaining.

It's a new world out there with the use of public transportation being encouraged. Today, there are all forms of public and private transportation available to get to our beaches without having the need for a parking stall for every visitor.

We urge the Coastal Commission to see that the Avenida de la Playa Street Dining Event easily generates additional access to our Coast and creates a far greater lifestyle than a limited number of parking stalls can provide.

RE: La Jolla Shores “Avenida de la Playa Street Dining”

Dear Sirs:

My wife and I, our family members, friends and guests frequently have lunch and dinner at the La Jolla Shores “Avenida de la Playa Street Dining” area which was created and authorized by the City of San Diego to ensure the survival of the small restaurants, food related businesses and merchants during the COVID-19 pandemic. It succeeded and hundreds of jobs were saved and continue to be preserved. This outdoor dining area is now greatly appreciated by the residents of La Jolla Shores, La Jolla proper and the many visitors to La Jolla.

It has come to our attention that the California Coastal Commission is reviewing the Avenida de la Playa Street Dining with a potential to deny approval, reportedly related to twenty (20) street parking spaces currently used for Avenida de la Playa Street Dining. As a practical matter, the preservation of restaurants and other merchants in that area and all the employment they provide to citizens of San Diego greatly outweighs the dispossession of this small number of parking spaces.

Due to climate change and impact of fossil fuels on the environment, Governor Newsom has advocated the use of public transportation or, where that is not readily available or convenient, use ride-share companies such as Uber or Lyft. Our kids, friends and others who enjoy the Avenida de la Playa Street Dining all use these ride-share platforms, especially if alcohol is consumed, thus eliminating the need for parking in that area.

We petition the California Coastal Commission to approve and preserve the Avenida de la Playa Street Dining.

Regards,

Eric Dye

RE: Avenida de la Playa Street Dining Event

To Whom It May Concern:

The purpose of this letter is to add my full support for the continuation of the Avenida de la Playa Street Dining and Retail Event.

This Event has been a great boost to the restaurant and retail participants. The Event has also been a great help to the local business in the immediate area, even those that are not direct participants.

The local Shores residential community is benefiting greatly being able to dine in a safe "al fresco" venue. Those of us who live in the immediate area truly enjoy being able to dine safely, in a local venue that also helps the businesses that participate.

I urge Special Events to issue a new permit for the year 2021 allowing the event to continue on a seven (7) day per week basis.

Sincerely,

A handwritten signature in black ink that reads "Ross Rudolph MD". The signature is fluid and cursive, with the letters "MD" written in a slightly more formal, blocky style at the end.

Dear Phil:

I can't thank you enough for all the effort you went through to allow our little community restaurants to survive this awful pandemic. Without you and the others I'm sure some of them would have closed and we would have lost a great deal of community comradery. These restaurants have brought us together and brought new people into our village.

With Avenida de la Playa closed off for the one block it's truly provided us with a little bit of normalcy in this otherwise crazy year. It's so nice to see our friends dining in our favorite places again. The way they have set up each restaurant space, keeping in mind social distancing, is amazing. It truly brings harmony and joy.

Let's hope all of this can continue until we are through this awful time and back inside where so many of us enjoy the great food each restaurant has to offer.

THANK YOU! (and I'm sure I'm speaking for a lot of my neighbors as well)

To Whom it may concern,

As a long time participant in several La Jolla Planning Organizations, as well as other planning groups in the City of San Diego, and being raised in La Jolla, I support La Jolla Shores Association street dining event on Avenida de la Playa.

It creates energy for the residents, businesses, and patrons of the area. It also provides a good economic benefit for the businesses and the City of San Diego.

Thank you for considering my request.

Best regards,

Avenida de la Playa Street Dining Event

We, the undersigned, all residents of La Jolla Shores, fully support the Avenida de la Playa Street Dining Event.

We understand that the current permit expires December 30th, 2020 and we are in full support for a new permit to be issued by the Special Events Department of the City of San Diego allowing the event to continue through 2021 as long as there are Covid restrictions.

The current event has been most helpful allowing the participants to remain in operation and to keep their staff fully employed. The event has created an excellent vibe in the area and has benefited local residents as well as the many tourists that visit the area.

Dear Mr. Schwing,

As a local resident of "the shores" area of La Jolla, I'm very much aware of the Street Dining that has been established on the 2100 block of Avenida de la Playa. As a physician who has practiced at the San Diego VA Medical Center and as a Professor at UCSD specializing in Infectious Diseases and Clinical Virology, I am fully aware of the great benefit that's been achieved by this modification to Avenida de la Playa since the inception of street dining in mid-July of 2020. This has provided a safe eating environment during the Covid pandemic. Both locals and visitors to our local beach community were provided an environment for diners to feel safer and more reassured, as well as provide seriously challenged businesses and their employees an opportunity to stay open.

As an Infectious Diseases physician and clinical virologist, I have been intensely involved in the Covid pandemic for the past two and a half years. Despite the emotional and political pressures to conduct business as usual, the reality is that the SARS-Cov-2 virus will not be eliminated. It will continue to circulate for many years and will evolve to continue to confer morbidity and mortality locally and globally. This devastating impact will especially impact those over 65 and those with medical conditions that impair their immune systems and for which vaccines have lower efficacy. It is important to note that as I write this letter, rates of hospitalization and intensive care unit occupation due to Covid are dramatically rising in San Diego.

For this reason it's imperative that outdoor street dining on the 2100 block of Avenida de la Playa be allowed to continue. Without such al fresco dining, numerous residents and

visitors to this popular venue will be faced with the difficult decision of either refraining from dining at the local restaurants or taking the risk of eating indoors and increasing their risk of Covid. Ventilation has a major impact on the transmission of this virus.

The Avenida Street event also created a 20 foot wide pedestrian walkway used by the tourists who patronize to local stores in lieu of walking down the crowded sidewalks adjacent to the restaurants. Many of these tourists are from out of town and may or may not be vaccinated. Ending the street dining program will force the kayak and other patrons onto the crowded sidewalks, which will only increase the chance of spreading Covid.

This street event has been a boon to our beach community. It brings visitors from all over the county, State and Nation to Kellogg Beach. Closing the venue will be dangerous, from a health perspective and it will be discriminatory as it will be a real disincentive for our elderly and those with medical conditions to dine out. I strongly encourage the Commission to maintain the street dining venue, which has both created an excellent opportunity for residents, visitors, and businesses to conduct life in these difficult times, but perhaps more importantly to reduce morbidity and even mortality during this pandemic.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Richman". The signature is fluid and cursive, with a large initial "D" and a stylized "Richman".

RE: Avenida de la Playa Street Dining Event

Gentlemen,

Closing one block of Avenida de la Playa Street in La Jolla Shores was one of the best things that happened during Covid. It saved jobs of some of our most vulnerable people, kept the restaurant business alive, (although on life support), and showcased the beauty and weather which draws people from all over the world.

Keeping that one block open can, and will, have an even bigger impact on the lives of those of us who live here and have chronic physical or medical conditions. I am a triple amputee and in a wheelchair full-time now. Closing that block has had a calming effect on La Jolla Shores by making it safer and easier for people with impaired mobility to get around. This is important in communities such as La Jolla with large populations of elderly people.

An even more important reason for keeping permanent outdoor dining is that the public health issues of Covid and its continuing mutations are not going away anytime soon. People with chronic illnesses will need to be vigilant for a long time. I have Parkinson's Disease (PD) and am reading more and more reports that when people with PD get Covid, it makes their PD symptoms worse. For many, these do not improve after they recover from Covid. I, for one, will not be eating indoors for the foreseeable future. This is true for many people I know.

I strongly urge you to keep the Avenida de la Playa Street Dining open and make it a permanent part of our community. It is a win-win situation for everyone.

Sincerely,

Linda K. Olson, M.D

Karl.Schwing@coastal.ca.gov

San Diego, CA 91208

Dear Mr. Schwing,

We have resided in our home in La Jolla for forty-three years. At the onset of the Covid Pandemic, our family refrained from any form of indoor dining. As a Critical Care/Pulmonologist, I am potentially dangerous to be in any indoor restaurant setting.

For our family, the outdoor dining on Avenida de la Playa was an opportunity to safely “go out to dinner.” We enjoyed many evenings of family meals with our offspring, including our youngest child. About traffic on the blocked-off street, we dined peacefully with a two-year old granddaughter who is “gifted” at extracting herself from a chair in record time .

As a pulmonologist, I am concerned that many in the general public believe “the pandemic is over.” Personally, I feel that may not be true.

I urge you to consider all measures that would allow the outdoor seating on Avenida de la Playa to remain in place. I also urge you to continue to safely block that portion of the street.

Sincerely,

Charles R. Brown, M.D.

RE: Avenida de la Playa Street Dining Event

Gentlemen,

As a resident of San Diego I find it unthinkable that The Coastal Commission would consider causing this fine event to end over their use of a limited number of public parking stalls.

This event, which began July, 2020, at the height of Covid, saved all of the restaurant and retail operations on this one stretch of street. The event saved jobs at this most critical time. More importantly, this event created an outstanding al fresco dining atmosphere that was totally new for the City of San Diego. What a spectacular setting to sit at one of the street dining tables during sunset and look down the street to see the beautiful Pacific.

The event, does not distract locals and tourist from visiting this one stretch of the Pacific. Actually, the opposite is true as the event draws additional visitors to the coast since it's such a positive added amenity to the area. Visitors come knowing if they go kayaking or visit Kellogg Beach there is available outdoor dining for them to enjoy.

The parking spaces, in question, are not used by beach goers as the stalls have a 90 minute time limit. These stalls are really for the benefit of the restaurants and retailers located along this one short block and no one is complaining.

It's a new world out there with the use of public transportation being encouraged. Today, there are all forms of public and private transportation available to get to our beaches without having the need for a parking stall for every visitor.

We urge the Coastal Commission to see that the Avenida de la Playa Street Dining Event easily generates additional access to our Coast and creates a far greater lifestyle that a limited number of parking stalls.

Sincerely,

Jim Morris, OFFICE TENANT AT 2223 AVENIDA DE LA PLAYA
