**Re: Northeast MB, LLC
Application No. 6-21-0353 — Mission Bay RV Resort**

Dear Chair Brownsey and Commissioners:

On behalf of the applicant, Northeast MB, LLC, for the above referenced project located at 2727 De Anza Road, Mission Bay Park, San Diego, I want to thank San Diego District Coastal staff for their cooperative work on Northeast MB, LLC's revised project over the last six months, and communicate our support for staff-recommended action to approve Coastal Development Permit (CDP) Application No. 6-21-0353.

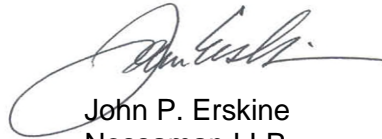

We would request that staff correct just a few minor items in the Staff Report, as follows:

- The reference in Special Condition 6a) and 6b) to "applicants" should be consistent with the rest of the Special Conditions and refer to "applicant." **The applicant is Northeast MB, LLC.**
- Page 24 should state, "The applicant is an affiliate of the operator of the neighboring 45-acre Campland on the Bay RV Resort..."
- Also on page 24, it is our record that pursuant to the Consent Agreement approved by the Commission at its September 9, 2021 hearing, the March 25, 2022 Public Access Plan was approved by the Executive Director on March 28, 2022.

I will be in attendance at the Wednesday, July 13 hearing in Fort Bragg; Michael Gelfand will be available via Zoom, as will our civil engineer/water quality consultant, Ian Adam of Fuscoe Engineering.

Thank you for your review of the application; our client looks forward to removing the long-abandoned mobile homes currently on the site and expanding public access and recreational opportunities on the De Anza Peninsula.

Sincerely,

A handwritten signature in dark ink, appearing to read "John P. Erskine", with a large, stylized loop at the end.

Re: July 13, 2022 Agenda Item Wednesday 20b- Application No. 6-21-0353 (Northeast MB, LLC, San Diego)

Dear District Supervisor Prahler and Coastal Commissioners,

On behalf of the City of San Diego, I thank you and California Coastal Commission staff for your commitment to ensuring safe public access to Mission Bay and respectfully urge your expeditious approval of Northeast MB, LLC's Coastal Development (CDP) related to the cleanup of De Anza Cove.

This CDP will allow Northeast MB, LLC to safely remove the vacant, abandoned homes at Mission Bay RV Resort, convert approximately 150 mobile home sites to interim campsites, remediate overgrown landscaping, and repair roads and waterfront bicycle and pedestrian path.

As you know, the CDP is needed to move forward with this project. While the mobile home areas are contained within fencing and routinely patrolled, they continue to pose environmental and public safety risks and constrain public access and recreation. Under its lease agreement with the City of San Diego, Northeast MB, LLC is to safely remove these hazards, and timely approval of the CDP is critical to improving safe public access to De Anza's coastline.

Additionally, by allowing Northeast MB, LLC to move forward with removing the homes and reconfiguring portions of the site's coastal bike and pedestrian paths, the CDP will help improve coastal accessibility. It will also expand access to affordable coastal accommodations by allowing Lessee to repurpose existing homesite infrastructure for interim RV and tent camping. These interim affordable accommodations are consistent with the potential for future wetland restoration and the City's long-term revitalization of northeast Mission Bay, and consistent with the terms of Northeast MB's lease.

In closing, approval of this CDP application will allow Lessee to move forward with critical short-term repairs, safety measures and public access improvements at De Anza, provided for as part of its lease agreement with the City of San Diego, passed by the City Council on June 24, 2019. As a result of these improvements, De Anza Cove will not only be safer, but also more accessible to the public.

For these reasons, I respectfully urge the Commission's expeditious consideration and approval of Northeast MB, LLC's CDP to allow this critical project to move forward.

Sincerely,

Penny Maus (07/11/2022 09:27 PDT)

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on July 13, 2022

Agenda Item: W20b

July 7, 2022

Dear Chairman Padilla and members of the Commission,

I am writing to offer my support and urge approval of Northeast MB, LLC's CDP application related to the clean-up of abandoned mobile homes and the expansion of camping opportunities at Mission Bay RV Resort.

The need for affordable coastal access is always growing. Campgrounds on the water are especially valuable as RVing has grown exponentially as a way to travel safely and spend more time outdoors.

Campland and Mission Bay RV, located on the edge of Mission Bay, offer affordable overnight accommodations, and extensive recreational amenities for families to enjoy without breaking the budget. City coffers and area businesses benefit from RVers.

We need Coastal Commission help to move forward with cleaning up decades-old abandoned/blighted mobile homes, upgrading infra-structure, fixing pedestrian/bike paths, adding RV spaces, and more.

It's a safe, clean, affordable place for local family "stay-cations" and they bring every kind of toy for land or water. Many are "Campland Raised" - grandparents brought their kids and grandkids, who now bring their kids, for generations.

Management are super-good stewards, take pride in protecting the environment, have 50 years of experience, and are dedicated and proactive. Their "best interests" include Coastal Commission "best interests".

Campland and Mission Bay RV offer an affordable way for families to stay overnight at the coast. It's a treasure for all to enjoy without breaking the budget.

Thank you,
Barry Homer

**Re: Public Comment on July 13, 2022 Agenda Item Wednesday 20b- Application No. 6-21-0353
(Northeast MB, LLC, San Diego)**

Dear Chairman Padilla and members of the Commission,

I am writing to offer my support and urge approval of Northeast MB, LLC's CDP application related to the clean-up of abandoned mobile homes and the expansion of camping opportunities at Mission Bay RV Resort.

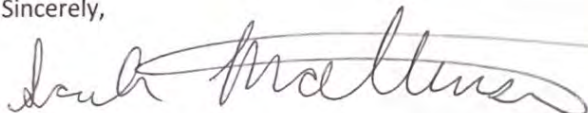

As a resident/business owner of San Diego, I value the importance of a clean, accessible and affordable coastline for all, and strongly support this CDP application to help clean-up De Anza Cove and improve safety, accessibility and waterfront recreation in this cherished portion of our coastline.

Thousands of outdoor enthusiasts and nature lovers seek out De Anza Cove specifically for the bike and pedestrian opportunities, direct coastal access, and camping access it provides. In fact, the unique access to recreation and affordable accommodations offered in this corner of Mission Bay is quite unlike anywhere else in San Diego, making approval of the CDP especially meaningful for our community.

Approval of this CDP application will allow for the removal of unsightly, abandoned mobile homes, which limit opportunities for public enjoyment of this area and pose risks for the surrounding environment. It will also allow for much-needed repairs to the popular coastal bike and pedestrian path around the peninsula of De Anza Cove, and expand access to affordable coastal accommodations by making 150 interim campsites available to the public. At a time when so many are facing economic hardships due to COVID-19 impacts, waterfront camping opportunities are more important than ever, especially as people seek out safe, affordable ways to spend time together outdoors.

For these reasons, this project at Mission Bay RV Resort is critical, as it will help provide a cleaner, safer, more accessible coastline for all visitors of Mission Bay. I thank you for your time and attention to this matter and for all that you do for our coastline.

Sincerely,

**Re: Public Comment on July 13, 2022 Agenda Item Wednesday 20b- Application No. 6-21-0353
(Northeast MB, LLC, San Diego)**

Dear Chairman Padilla and members of the Commission,

I'm writing to express my support and encourage that Northeast MB, LLC's CDP application for the removal of vacant mobile homes and the expansion of camping options at Mission Bay RV Resort be approved. I strongly support this CDP application to help clean-up De Anza Cove and improve safety, accessibility, and waterfront enjoyment in this prized section of our coastline because I respect the importance of a clean, accessible, and affordable coastline for everyone.

De Anza Cove is specifically sought after by thousands of nature lovers and outdoor enthusiasts. The fact that this area of Mission Bay offers a special combination of affordable accommodations and unique opportunities makes the approval of the CDP particularly significant for our community.

The removal of abandoned mobile homes, which restrict chances for the general public to enjoy this area and pose risks for the surrounding environment, will be made possible by the approval of this CDP proposal. Additionally, it will enable repairs to be made to the well-used coastal bike and pedestrian path that round De Anza Cove's peninsula and expand access to affordable coastal accommodations. Waterfront camping opportunities are more crucial than ever at a time when so many people are struggling financially as a result of COVID-19, as people look for safe, affordable ways to spend time together outdoors.

These factors make this Mission Bay RV Resort project crucial because it will contribute to the creation of a cleaner, safer, and more accessible coastline for visitors. I thank you for your time and attention to this matter.

Sincerely,

Subject: Public Comment on July 2022 Agenda Item Wednesday 20b - Application No. 6-21-0353
(Northeast MB, LLC, San Diego)

Thank you for the opportunity to comment on this issue. I believe the city of San Diego made an egregious error in the arrangement they made with Terra Vista Management, or the new entity Northeast MB, LLC. They did not put this project out to bid, the negotiations were all done behind closed doors, with the full knowledge they were giving away space that, in 2003, the city determined was to be used for "more open park space."

I would like register two (of many) objections to the application being considered. The application has an expiration date of 6/30/2027. The NEMB, LLC's lease expires on 6/30/2024 with potential extensions up to 2027. The Coastal Commission permit, if issued, should also expire on 6/30/2024 to avoid outliving the applicant's lease. At the very LEAST there should be a clause added that if the city terminates the lease at any time before 6/30/2027 the CCC permit will expire at the same time.

I find it problematic that the CCC does not think testing the water quality in this part of DeAnza Cove is not necessary during and after demolition and reconstruction. Currently we know that the water quality in this part of Mission Bay "tends to be of poorer quality." Campland Beach has been under a County Advisory for high bacterial levels since June 29th. With all the development anticipated and recreational growth insuring water quality should be of the highest priority.

This entire process could have been conducted so much more sensitively and efficiently. Prime real estate for the real restoration of the De Anza peninsula is at stake. Please don't impede the process before it starts. You at the CCC have listened and responded very thoughtfully in the past. Please help us mitigate the city of San Diego's misguided decisions.

Dear Chairman Padilla and members of the Commission,

We are writing to share the attached letters from more than 2,000+ San Diego residents, Californians, and frequent visitors of northeast Mission Bay from across the country who support the approval of Coastal Development Permit Application No. 6-21-0353, related to the cleanup of De Anza Cove. Unfortunately, when we submitted letters by the deadline for the previously scheduled hearing, they were not made available to Commissioners. We respectfully request that the attached comments be submitted into the official record and shared with Commissioners in advance of the July 13 hearing to reflect our input and thank you. A link to the letters can also be [found here](#).

De Anza Cove is a cherished destination for campers, outdoor enthusiasts, birdwatchers, bicyclists, and recreationists alike. The clean-up of the abandoned homes at the site will provide immediate benefits for residents, visitors, and the environment. Approval of this CDP application will also improve accessibility to the coastline, enhance affordable camping access and allow for much-needed repairs to the popular coastal bike and pedestrian path around the peninsula. For these reasons, this project is critical, as it will help provide a cleaner, safer, more accessible coastline for all visitors of Mission Bay. We thank you for your attention to this matter and again urge your support at the May 11 hearing.

Thank you on behalf of the many who have submitted the attached letters and to the hundreds of thousands of campers and recreationists who visit this corner of Mission Bay's coastline each year.

Sincerely,
Respectfully,

Elizabeth Van Clief, Terri Campbell, and Sean Schwab
San Diego residents and Co-Chairs of Friends of Campland

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Pat Monahan

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

For more than half of my life my family (and many others from the Imperial Valley) have spent the greater part of our summers at DeAnza, now known as Mission Bay RV Resort. These abandoned homes are attracting many rodents, squatters and not to mention are a huge eye sore to San Diego Bay!

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Let's not forget all of the businesses we patronize while we are in San Diego. We stay at Campland and other campgrounds in the San Diego area several times a year and we frequent a lot of the restaurants and stores from Chula Vista all the way to Pacific Beach and beyond. We have been doing this for years and have made a lot of friends. We are on our second travel trailer with plans in the future to purchase a newer one and continue our visits to San Diego. Please don't take this great vacation park away from us, this is the best place to be!!!

!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!WE LOVE SAN DIEGO!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Thank you,

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

My family and I are reaching out as a Mission Bay San Diego camping family. We are 3 generations of camping at Campland and DeAnza Mission Bay RV resort and strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline as we live in the California desert of Imperial Valley where temperatures reach up to 120 degrees this time of year. Camping on Mission Bay is our escape from this extreme heat for the Coyne Family grandparents, children and grandkids as well as many in our desert community and Arizona. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

I am a RV and Powersports dealer in the Imperial Valley. Are you aware that RV retail and motorhome sales are an all time record high over the last 2 years? The general public has taken to camping instead of flying to hotel resorts for their families health and safety created by the Covid pandemic. This in it self will create a huge continued growing demand for additional RV sites for many years into the future. We can only hope that the city of San Diego and the State of California are planning ahead for the demand for RV sites. In fact during our stay at Campland over the 4th of July weekend both RV parks of Campland and Mission Bay RV were sold out which caused some of our families and friends not to join us from our desert community where temperatures hit 112 degrees. Even local RV'ers are staycationing due to inflation and the high costs of fuel!

We and many others are amazed that it has taken so long to get the De Anza area cleaned up and revitalized back to a viable RV park and recreation destination where doing so cleans up the area of blight, creates economic development for the city, jobs, taxes and continue to introduce families of all types to the San

Diego beaches and bays of California.

Thank you, and please support this very important project.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Agenda Item: W20b

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Michael Ottevanger

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

LET THEM CLEAN UP AND GET ME MORE CAMPING OPTIONS

Thank you for your time and consideration.

Public Comment on July 13, 2022 Agenda Item Wednesday 20b - Application No. 6-21-0353

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Public Comment on July 13, 2022 Agenda Item Wednesday 20b - Application No. 6-21-0353

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Public Comment on July 13, 2022 Agenda Item Wednesday 20b - Application No. 6-21-0353

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Cindy Scott

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I attended Crown Point Elementary School and Pacific Beach Jr High and have lived on Mission Bay since the late 1960s when the bridges were wood and most of the bay a black muck experience. It was an undeveloped estuary and I thought then that development would ruin this resource. I can now attest that Mission Bay is teeming with life below and above sea level and see daily that the shellfish , baitfish and gamefish are all at immediate highs. Never seen Mission Bay healthier than in the last 10-30 years and that includes the now common birdlife never witnessed in decades past. This is seasonal Snow Geese and Canadian Geese. The resident birdlife appears also at highs with abundant shellfish and baitfish and the many miles of available shoreline. Adding Campland was a huge bonus and I believe that RV Park expansion is needed by the community and offers huge upside to all involved with little chance of negative impact on the Baylife itself.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Public Comment on July 13, 2022 Agenda Item Wednesday 20b - Application No. 6-21-0353

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Julie Ramsey

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving the this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Public Comment on July 13, 2022 Agenda Item Wednesday 20b - Application No. 6-21-0353

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Elaine Courey

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

We have often enjoyed camping here over many years. For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

Dana Swallows

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Curtis Owens

wayne@owenspi.com

San Diego, CA

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to DENY Coastal Development Permit Application No. 6-21-0353 to allow the owners of Campland to clean up the former mobile home park at De Anza Cove and install hookups for RVs. This is a veiled attempt by Campland to take over the land for their use. With the homeless problems in San Diego and people living in RVs, what do you think will happen if this is approved? It will become a filthy mess riddled with drug use and other crimes. In addition, who wants to look at tents and RVs on the bay? I would rather see a beautiful resort that would generate hundreds of jobs and significant tax revenue for the City of San Diego.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive, but that does not mean replacing it with asphalt and dirt covered with tents and RVs.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Your support will finally allow us to clean up the blight at De Anza.

How can anyone on this planet, including you and the Audubon society, believe leaving this toxic waste there longer, is a better alternative than Campland cleaning it up?

This is your opportunity to shine in San Diego. Help us help the environment. By allowing Campland the opportunity to pay for, coordinate, manage, document, and follow YOUR PROTOCOL it will positively support:

Enhanced and much needed and valued affordable public access to the coastline especially for our disabled community.

Increase and encourage family friendly recreational opportunities.....the same opportunities you want for your family and friends.

Protect the natural environment which is your mission..so why would you create hurdles to prevent the very mission you strive to accomplish?

And the most glaringly obvious....remove unsightly long term abandoned mobile homes in an abandoned,(neglected by you the city, county ,state,) trailer park with over grown landscaping and create a more welcoming coastal surrounding for Everyone.

This is an embarrassment to all of us. Please do the right thing. Permit Campland to Clean up this disgusting mess. Make us proud of your commission instead of cringing over the inaction.

Please help us. We live here and see this mess daily.

Thank you.

Thank you,

Terri Campbell

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Also: As a former Seattle resident my wife and I have enjoyed 10 years of 4-6 month stays at Campland, and have witnessed the excellent management of such a busy operation, and most importantly our exposure to generational enjoyment for a great part to families of San Diego families. We believe that Campland is an excellent operation that makes a great impression on locals and distant travelers alike. They have shown that they try to do the right thing to blend in with the community and the local environment.

Please help them out.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. Some so called "environmentalists" may argue that we shouldn't establish camping and access to this area. That is not justified. Mission Bay Park and this area were established for people to enjoy and have access to the coast and shore line. The most inaccessible area of Mission Bay Park is Kendall Frost Marsh with chain link and barbed wire separation. Humans and the environment are compatible and we should be enhancing that relationship. We need more low-cost accessibility.

The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project.

If you haven't been there, you should go! You will see people of all shapes, sizes and color. You will see tents, trailers and Other RVs. You will see kids on bikes and everyone watching out for them. Senior can live there very inexpensively. I have lived here all my life and it's important to me and to San Diego.

Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Annette Saarikoski

myfriendannette@gmail.com

San Diego, CA

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

David Rubalcava

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Xen Jones

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Dan Alvarez

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Diana Clegg

dianalclegg@gmail.com

Lompoc, CA

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

It is atrocious what has been done to this land. People were kicked out of there homes for multiple years now and for what? This mess needs to be cleaned up immediately and should be turned into a family friendly camping/park environment.

Thank you,

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Tim Grady

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Yvonne Roper

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove.

Thank you for your time and consideration.

Campland and its' campground are one of the few places in San Diego middle class Americans can enjoy the beach and bay. It is one of the few cost effective vacation alternatives in San Diego. I store my trailer there and get a kick out of the hundreds of kids of all ages playing, biking, playing dodge ball and swimming. There is nowhere else like it in San Dlego.

As stewards of the coast, part of your mandate is to maintain public access. Cleaning up the DeAnza eyesore and opening more of the Bay to reasonably priced recreation, is a great idea and good for San Dlegans and visitors, particularly kids who could not come here otherwise.

Please approve the project.

thank you.

Jeff Barton.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Paula Chichester

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Stephanie Fairchild

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove.

I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

William Hinder

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

William Hinder

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Robert Robinson

shovelhedbob@netzero.net

Moreno Valley, CA

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

It's a bit late to point fingers to those responsible for the sad conditions of De Anza Cove. Maybe irresponsible owners, simply abandoning their campers after years of dis-use and neglect. Maybe too, Campland could have done something to prevent the condition and/or rectify it to prevent squalor. It's in our court now. Let's do the right thing and ensure the future of family traditions at Campland.

I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. We have enjoyed Camping at Mission Bay for many years and just last week we celebrated my 68th birthday at Campland. More families should have these opportunities! This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

Katherine Thomas

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I've been camping with friends and family at Mission Bay RV Resort for almost 10 years during Labor Day weekend. It's something we look forward to all year long. In recent years, the bike path has deteriorated and become unsafe, mostly due to the abandoned mobile homes that have been vandalized. I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide, especially at DeAnza cove which allows my family and friends to create precious experiences and connect with nature, unplug and bond/make new friends with fellow campers.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Maridee Fox

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Billy Marks

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Allison Hesler

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Danielle Delaney

ddelaney@cox.net

Oceanside, CA

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Lisa Holloway

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Toni Charette

tlcharette17@yahoo.com

Riverside, CA

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Katie McKinney

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I visited the Rv Park in 2017, I can't believe this hasn't been resolved. Why do our people in public offices drag their feet on such items? Have any of you seen this eye sore along your beautiful beach area?

This is ridiculous hurry up! So I can go back and visit.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Paula Welsh

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

Michael Garrison

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Orange, CA

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Please support Coastal Development Permit Application No. 6-21-0353.

Although I live in Northern California, I support this remediation/renewal project. We camped in the city-owned RV park adjacent to this site several years ago, and were disgusted at the level of neglect and abandonment next door. This neglect spilled over to the RV park, which had to warn us not to enter the abandoned mobile home area. Even though we stayed on the walking path (which was suffering itself), we could not avoid seeing and smelling this area. Removal of the asbestos laden units, improving the utilities and waste management, and upgrading the entire area will be a boon for Mission Bay and for its environment.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove.

I am a native of San Diego, born there in 1953. I have long enjoy the beaches on the coast and at Mission Bay. I now live out of the area, however, I still return to camp at Mission Bay RV Resort. A great place to enjoy with my grandkids - EXCEPT FOR the mess at De Anza Cove's old mobile home park. This area is a hazard to all who visit, especially my grandkids.

Your oversight of the Coastal areas is very important to me. This clean up is way over due and will provide for a beautiful area at the bay to again be used and enjoyed by many.

I ask that you approve this cleanup and allow for this area to be restored to use. It truly is a hazard and eye sore that you can fix with your approval of this permit.

Thank you.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Jeanette Hocking

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper and a naturalist, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and without it we could not travel due to my significant food allergies and health problems. It is essential that we clean up the toxic, decaying mess left behind by those abandoned mobile homes, then restore that area both with native plants and coastline, but also ecofriendly camping and RV experience. It is possible to do both with your help.

Thank you,

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans (and more) can have enhanced access to affordable coastal camping options. Please hear our plead!!

Thank you,

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Bryan Montgomery

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving the this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Sean Kelly

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

A little additional information why I personally want this park to stay and expand. 17 years ago my father bought a motorhome. This park was one of the first places we rv'd as a family. As the years went on we would go back once or twice a month sometimes more. We have so many memories here. Fast forward to 5 years, my mother was diagnosed with stage 4 breast cancer. This park brings her healing and peace. Unfortunately she is terminal, but still loves visiting this park. Please keep this park around and allow it to grow, so our memories can continue to grow.

Thank you for your consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Kathleen Hairabedian

riverfolks4u@yahoo.com

Whittier, CA

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

Gae Mccoy

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am reaching out to you as a San Diego native and frequent Mission Bay camper. Having grown up in Pacific Beach this area is tremendously important to me and an area I love getting back to several times a year. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project.

This situation has been a public eye sore for decades now and needs to be dealt with. Sitting on prime property in the middle of one of the nations most beautiful park, recreation and camping environments, I truly cannot believe this ghost town has been allowed to remain as it is for so long. The Coastal Commission and the City should be ashamed of itself.

Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area. It will also turn a money wasting, ugly eye sore into an area that generates revenues and allows for more visitors to the area to spend in our city.

Thank you, and please support this important project.

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

Robin Smuda

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site. Furthermore, it is heart-breaking to know residents were forced to vacate these homes many years ago, just for those sites to degrade and become a hazard for people enjoying the surrounding area. It's time to let the public use this wasted space.

Thank you for your time and consideration on this important matter.

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

What is TRULY sad about this is how the former residents of DeAnza had to abandon their homes because "the lease was up." It is a shame that they were not allowed to stay on until SOMETHING was finally decided about what was going to be done on the point. I vacationed at DeAnza every summer in the 60's, 70's, 80's, 90's and even after, and was so sad to see the destruction after the 50-year lease was up.

I honestly cannot believe that there is any argument over this issue. I have been camping in Mission Bay for years, and have watched this tragedy unfold. The area was a nice little community, and now it is a vermin infested dump. I cannot believe you have allowed the property to deteriorate as long as you have. If you are not going to remove the abandoned structures, then why did you kick all of those people out?

Please allow the area to be cleaned up and put to use as soon as possible. The clean-up will allow the area to be used by people who love it.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving the this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Public Comment on July 13, 2022 Agenda Item Wednesday 20b - Application No. 6-21-0353

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Agenda Item: W20b

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

We not only own a condo in San Diego, we are full time mobile home rver's. We believe making these improvements to the M.B. RV Resort will add to the tourist revenues the city receives, will have other positive financial impacts to the local community and attract a group of tourists the city would otherwise not visit San Diego. Please approve the development permit application.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

W20b

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for July 13, 2022

Agenda Item: W20b

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

On top of this, the economic benefit to the whole area only helps by providing more jobs and more tax revenue to the City, County and State. The economic multiplier of people staying at Campland has to be at least 3, so for every dollar spent directly with Campland and other vendors nearby, at least 3 more dollars are generated by the employees and owners of said businesses. We're talking millions of dollars every year.

My wife and I are planning on staying at Campland for a few nights at the end of June, so we'll be leaving a couple thousand bucks of our own there.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove.

San Diego has been waiting decades to see the De Anza mobile homes removed.

Now that Campland management is stepping up to get the homes removed, we think that Campland should be encouraged, appreciated, and rewarded with a secure business future.

Campland & Mission Bay RV Resort has continued to make this wonderful corner of Mission Bay safe and inviting, and has brought countless RV families from far and wide to San Diego. City and local economy has benefited for decades. Why not guarantee continued prosperity for their successful efforts to be a good citizen.

Campgrounds for both small and large RVs are in demand. Why start over when San Diego has two of the best already in place? Let's keep them both right where they are serving a public need.

Thank you,

Barry Homer

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

We have been coming to this location for the past 20 years with our family, along with 5-8 other families. This has been hard to look at for too long and the loss of so much space that could be transformed into additional families to enjoy for many years to come is to good of an opportunity to pass up for all parties involved. Please pass this request!

Thank you,

William Gray

will.gray@pivium.com

Peoria, AZ

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

The abandon De Anza area mobile homes are a blight on an otherwise beautiful San Diego Bay. They have been there way too long and should be an embarrassment to you.

Please support Coastal Development Permit Application No. 6-21-0353.

We love to visit San Diego (and spend money) and find the Mission Bay area an ideal base for our RV.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

Donald Miles

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer and winter traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

We have spent many winter month's from Colorado until COVID hit. The last two trips I rode my bicycle 300 miles each trip during each month of our stay (and I am 81 years of age). This campground is our favorite of all campgrounds and does your City proud.

I am amazed that the old abandoned homes still have not been removed.

Thank you for your concern.

Thank you,

Richard Roberts

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project.

This project will not only clean up hazards and unsightly derelict buildings from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

We (my husband and I) are writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, and when we come to CA in the winters, we have always enjoyed the time spent with family in this corner of Mission Bay. The grand babes especially enjoy it! This experience is a significant part of many families' traditions and we would love to see the area be restored so that countless people can have enhanced access to affordable coastal camping options. These last two years have been challenging and more people have been interested in the camping experience that would never have considered it before-with this exponential interest has come capacity issues and great difficulty in booking sites-to allow expansion of available spots once the site is cleared would be so wonderful! Also, business revenue for San Diego would be enhanced with more visitors spending dollars in the area. If people are unable to book a site, they will go elsewhere, out of the area, and that is lost revenue. Thank you for your consideration!

Thank you,

Wanda Holderman

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Thank you, and please support this important project.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

Agenda Item: W 17a

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out as a Mission Bay camper. I strongly urge you to approve Coastal Development Permit Application No. 6-21-0353 for the De Anza Cove clean-up project. Every summer, families like mine look forward to camping on Mission Bay and rely on camping being available in this corner of the coastline. This project will not only clean up hazards from the site, but it will help ensure more options for coastal accommodations and recreation as the City determine its long-term plans for the area.

Seems a shame that such a beautiful shore in MissionBay is left in ruins, when it could be cost effectively repurposed into many more site accommodations, helping increase tourism to San Diego. While getting rid of such an eye sore.

Thank you, and please support this important project.

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

Vital to the retirement community who Pay to stay at Campland and Mission Bay RV. We NEED THIS PLACE CLEANED.

W17a

Applicant: Northeast MB, LLC

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I humbly urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Carole Adams

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. Like myself, thousands of Californians hold the Campland and Mission Bay RV Resort campgrounds very near and dear to their hearts, as we have made life-long memories at these remarkable coastal destinations. It is important that the abandoned homes are removed, and I strongly support replacing them with interim RV and tent camping sites for improved coastal accessibility. This is especially important post-COVID as campgrounds around the state are booked for months on end because demand is higher than ever for affordable coastal accommodations, and campgrounds are disappearing rather than being developed. Approving this CDP application will also increase meaningful outdoor recreation opportunities for families like mine and the hundreds of thousands of campers who enjoy these campgrounds each year.

Thank you for your time and consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.

I was born and raised in San Diego. It is ashame the condition the cove is in

When I come home for 5 months out of the year, doing this for 5yrs, I always stay at Mission Bat RV.

It would be nice to have the area cleaned up and to have Mission Bay RV stay and expand. Campland allows too much partying. It's out of control

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City’s long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay’s campgrounds.

Thank you for your time and consideration on this important matter.

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

Please support Coastal Development Permit Application No. 6-21-0353. The abandoned asbestos-filled homes that occupy the De Anza site need to be immediately removed for the health and safety of the environment, and to ensure a more accessible coastal camping experience. It is also important that the conditions of the bike and pedestrian paths be improved so that visitors can fully enjoy the outdoor activities offered on the property.

Please approve this permit, which would provide numerous benefits for residents, visitors and the environment.

Thank you for your consideration.

CDP Application # 6-21-0353

Scheduled on the Coastal Commission Agenda for May 11, 2022

Agenda Item: W 17a

I am reaching out to encourage you to support Coastal Development Permit Application No. 6-21-0353 for clean-up of De Anza Cove on Mission Bay. There are many benefits to approving this project. The abandoned homes that occupy the campground are a hazard, and the community has waited far too long to see this blight removed.

The permit will enable the former mobile home stalls to accommodate interim RV and tent camping sites, which would improve public access to waterfront camping at a time when options are increasingly scarce and increase recreation opportunities for coastal visitors who will also be able to enjoy repaired bayfront pathways.

For these reasons, I urge you to approve this permit application, which will restore access for residents and visitors, and support the City's goals for protecting wetlands and revitalizing the area.

I lived in San Diego over twenty years ago when these homes were first purchased by the city and can not believe they're still sitting there -- what eyesores!

Thank you for your time and consideration.

I am writing to strongly urge you to approve the Coastal Development Permit Application No. 6-21-0353 related to De Anza Cove. As a camper, I have always enjoyed the time spent with my family in this corner of Mission Bay. This experience is a significant part of many families' summer traditions and we would love to see the area be restored so that all San Diegans can have enhanced access to affordable coastal camping options.

Thank you,

I am reaching out to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 to clean up the former mobile home park at De Anza Cove. The abandoned homes at the campground pose risks for visitors and to the surrounding natural environment. This applicant has stepped up to the plate to address these challenges and help address environment risks and blight in this treasured corner of the bay.

This property needs to be immediately cleaned up and restored so that our surrounding habitats can continue to thrive – it simply cannot wait until the City's long-term planning process is completed. Approving this project would also enhance coastal access for the public in the near-term and expand opportunities for people to enjoy our beautiful coastline. This includes families on a budget who cannot afford waterfront hotels and rely on Mission Bay's campgrounds.

Mission Bay RV Resort has become a wonderful destination for us. Each time we return we look over the green "visual blocking" fencing and can see the plants that have gone wild, the trailers that are trashed and shake our heads with sadness that even just removing the trailers has become bogged down in bureaucracy. Even if the next stage is years down the road clearing the land of ugly, hazardous trash should be a get it done priority.

And in doing that you open additional camping and extended stays to the area....Woohoo!! De Anza Cove and the RV park are an asset to the area.

I'm aware that you have a much larger project in mind for the whole area and my husband and I are looking forward to seeing how this develops as well. One note here, we discovered that you are planning eliminating Campland on the Bay and moving all camping to DeAnza Cove. And I understand what you are trying to achieve, but here is the however, please maximize the camping. It's the only way my husband and I could afford to be this close to the ocean in such a vibrant city. The plan I saw a month or so ago mentioned losing 200 camp sites.... Really??? With the number of people who use both Campland and Mission Bay, losing 200 sites is a lot!

Anyway, thank you for your time and consideration on the important matter of removing the mobile homes. It is way past time to get this done.

I am writing to strongly encourage you to approve Coastal Development Permit Application No. 6-21-0353 related to the cleanup of De Anza Cove. I am a longtime camper in San Diego, and like so many families, my family and I cherish Mission Bay's historic campgrounds for the unparalleled coastal access they continue to provide. Beyond just providing a place to camp, resorts like Campland and Mission Bay RV Resort create precious experiences where outdoor enthusiasts and everyday Californians can connect with nature, unplug and bond with family – which is increasingly needed amid the COVID pandemic.

The permit before you will provide numerous benefits for residents, visitors and the environment, and I humbly ask that you support it.

Thank you,

Charles Williamson

Please approve Coastal Development Permit Application No. 6-21-0353 (Northeast MB, LLC, San Diego) related to De Anza Cove. Currently, the asbestos-filled homes are environmental hazards that constrain public access and recreation. The removal of these homes and the addition of temporary RV and tent camping sites will greatly expand affordable waterfront public access for San Diego residents and visitors, which is critical as access to California's coastline is scarce.

For these reasons, I humbly encourage you to approve this plan to clean up the site.

Thank you for your time and consideration on this important matter.
