Subject: Addendum to Commission Meeting for Wednesday, August 10, 2022
Item W14a, CDP Application No. 1-20-0539
(Pacific Gas & Electric Co.)

This addendum presents a minor change to one of the staff-recommended special conditions of the July 26, 2022 staff report to correct an error. The condition relates to length of development authorization, and it references the incorrect hearing date to which the length of development authorization is tied. Staff continues to recommend that the Commission, upon completion of the public hearing, approve the coastal development permit with the special conditions and findings included in the staff recommendation of July 26, 2022, as modified by the changes recommended herein.

Bullets below reference page numbers of the July 26, 2022 staff report where changes are made. Text to be deleted is shown in ~~bold double strikethrough~~, and text to be added is shown in **bold double underline** format.
