As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Matt Paulus

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

I know this is a form letter but I wanted to add a personal note. My friend and I, two 78 year old women with knee replacements, have been walking the Great Highway every weekend since the pandemic. We both so appreciate having a flat, safe place to walk, not to mention the beautiful scenery. There are always loads of people walking, running, bicycling and teaching their children to bicycle when we are there. I can't think of a better use of the space than allowing people to enjoy the great outdoors.

Thank you,  
Arlene Waksberg

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, January 31, 2024 5:13:43 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Cj Takhar

Sunset resident of 14 years

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Finally as a father of two children living in San Francisco I cherish the opportunity for any space in the city where cars are not allowed. Our streets are so dangerous for kids! Do we really need a 4 lane highway plus literally adjacent feeder streets along our shoreline? Please for the future of our children, for the future of our City, keep cars off the great highway permanently.

Thank you,  
Vance Vredenburg, PhD

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065. **It should be obvious: a coastal park promenade increases coastal access and allows San Francisco more flexibility to protect coastal habitats by removing car pollution from the coast.**

I'm a 73 old, and having access to a car free space to bike and to get to the Ocean has been wonderful. Please keep this!

The permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Michael Borden

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

The Great Highway Park is one of my favorite places in SF, and I've been a proud resident for 23 years.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Sarah

---

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's Coastal Zone Permit for the Upper Great Highway pilot project. Please reject appeals 23-062, 23-064, 23-065.

I have lived two blocks from the Great Highway for 30 years. I drive on the street during the week and walk there every weekend. When walking, I love sharing the car-free space with the many people of all demographics on feet, bikes, wheelchairs, strollers, skates, skateboards, scooters, etc. I look forward to every Friday at noon. If I need to drive on the weekend, I choose another route: no problem.

This permit maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022. It clearly and effectively furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan. It provides clean, quiet, healthy and safe space for the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

It's a compromise that considers diverse needs. Drivers have the road 4 1/2 days a week. We drivers have hundreds of other streets at our disposal. Can we make this small sacrifice of our favorite car route for the huge environmental, health, and social benefits of the Great Walkway? Please!

Thank you,

Deborah Lee  
4430 Balboa Street  
San Francisco

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. My kids learned to ride their bikes on the Great Highway and the space is a lifesaver to my family. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset, which has greatly helped me as a resident on 48th avenue between Lincoln and Irving. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Garrett Spiegel  
Outer Sunset resident, father of 4

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, January 31, 2024 3:54:39 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Sent from my iPhone

---

Hello Commissioners,

My name is Kristin Tieche and I am a resident of D1, the Richmond District.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

I ride my bike to the Great Highway every Friday and I also volunteer at community events there like The Great Hauntway. I've organized my own bike events there as well. The space is really bringing community together in a way it never did before as a space for cars.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you,  
Kristin Tieche/94117

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

**Last Sunday I went for a long run from Eureka Valley down through Golden Gate Park, and along the Great Highway Park, before turning around and running home to the Haight. It was magical: families on a stroll with prams, bike riders, rollerbladers, walkers, runners of all levels, all enjoying the salt air and the community that this promenade has encouraged while carless. This place is magical, and I have been smiling about my San Francisco Sunday all week. Please protect it for all of us to enjoy.**

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. **Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Friday, February 2, 2024 10:00:19 AM

---

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Dear Commissioners, I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

Restricting vehicles to weekdays on Upper Great Highway has greatly expanded actual public access to that section of the coast. Rather than only transiting it at 45mph, people like me can experience it as a place where the sights and sounds of nature is sensed and appreciated for their own sake. The current temporary configuration is a compromise that serves different uses. It has functioned well in this interim period of evaluation. It merits being continued to accurately determine the benefits and disadvantages.

Thank You,  
Bill Taplin

**Date:** Wednesday, January 31, 2024 3:04:14 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

This has notably improved family life in the Outer Sunset and I use it regularly with my family.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Brad Wallace  
1481 38th Avenue,  
San Francisco, CA 94122

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, and simply enjoy the Pacific Ocean, the pilot program is crucial for my family's access to and enjoyment of the shoreline. As you know, this permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

A strong emphasis on child safety mentioned above. Anyone with a stroller and small children attempting to cross the great highway knows the stress associated with the act of attempting to simply enjoy the beach. The agreed upon compromise has been a blessing

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

In gratitude,

Samantha

**Date:** Wednesday, January 31, 2024 6:30:39 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Sent from my iPhone

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

I have lived in the outer sunset my entire life and have seen how much the hybrid closure has helped revitalize businesses and increased safe family access to the shoreline. This combined with finalizing the MUNI improvements along the L Taraval Line should be a priority to enable increased commerce and future added residences.

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Isao Kaji

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

I was born and raised in the Sunset and am currently a homeowner in the Outer Sunset. The walkable Great Highway is one of the best parts of our neighborhood. It provides community gathering spaces, and has been invaluable as I recover from surgery and can't walk on the beach with my newborn. Friends regularly come to our neighborhood on the weekends specifically to enjoy the Upper Great Highway without cars.

This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Please don't let this special space be taken away. It brings so much joy to our community.

Thank you,

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065. As an Outer Sunset resident at 41st Ave and Kirkham, I support the Great Highway Park. It brings profound value to our neighborhood and is a much safer use of space.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Ruth Selby

**Date:** Thursday, February 1, 2024 4:02:13 PM

---

Dear Neighbors & Commissioners,

Connecting our city to effective means of transportation by creating a robust network of safe mobility is a powerful tool to support the growth of San Francisco.

Please help keep the park a safe place to be as a pedestrian. Consider optimizing the beauty and access of our coast.

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park many weekends to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Tim, Katie, Quinn and Louisa Reilly - Zip 94129

Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

I live a few blocks away and the having the Great Highway closed to cars on the weekend is one of the biggest joys of our neighborhood. People are more active and elderly people especially enjoy a safe walking environment. Please take into consideration the healthy effects of having less cars on the highway during the weekends.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Danielle Marone

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

In a city of a million people, there are very few places a child can ride a bike for more than a block without navigating car traffic. We've surrendered the rest of the city to car traffic. Let us continue to enjoy a short stretch of the coast, even if only two days a week.

Dear Commissioners,

We are writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065 and to later make the park permanent.

As one of the thousands of San Franciscans who visit Great Highway Park on the weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. To be honest, it is one of our favorite parts of living in SF and cannot wait until it is a permanent fixture with more infrastructure. We live in Duboce and would not visit the Sunset as often as we do or at all without this pilot program. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to our safety when we walk, bike, and take the N to Ocean Beach and nearby businesses.

Thank you,  
Neville & Yao Hemming

**Date:** Friday, February 2, 2024 9:27:49 AM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This pilot has so greatly increased the number of people accessing and enjoying Ocean Beach. It is one of the best things I've seen the San Francisco government do to improve the recreational experience of residents in the city.

This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Ian

Honorable North Central Coast Coastal Commission,

Dear Supervisor Melgar,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

This pilot program has been a boon for both residents like myself and others who wish to enjoy Ocean Beach without the stress of automobile traffic. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
L Batz

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Stephanie

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, run bike along Ocean Beach, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

It is also one of the few car free spaces that we have in the city and is already a compromise that has been put in place until the access along Ocean Beach is removed entirely due to the issues with the erosion at the south end of Ocean Beach,

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

James Webb

Dear Commissioners,

Although the copy below was not written by me, I could not agree more. I live 2 blocks from the Great Highway and the access on the weekend means everything to us.

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Allan Gersten

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and to some extent furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline — even though it's only on weekends — and providing safe space on weekends for kids, seniors, and the entire community to benefit from the coast, even though it's currently on weekends only. Maintaining this pilot even though it's on weekends only allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway, which hopefully will be closed to cars completely every day of the week instead of on weekends only as it now is.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses, even though this is true on weekends only, and the rest of the week it's just as dangerous as ever for everyone who's not inside a car, which is supposedly antithetical to all the values San Francisco espouses, but nonetheless, there you have it.

Most sincerely yours — and please don't make this situation any worse than it already is by infringing even more on basic pedestrian safety than you're already doing —

Katherine Roberts

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

This park has been a boon for both residents like myself and visitors wishing to enjoy recreating safely by the ocean. The pilot program shouldn't be dismantled as it has been and continues to be a success. The permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
L Batz

Dear Commissioners, I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065. As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway. In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses. Thank you,

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for safe access to and enjoyment of the shoreline with my family. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Alison Warner

**Date:** Sunday, February 4, 2024 5:41:50 AM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Cliff Bargar  
Dogpatch

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

The Great Highway Park draws myself and thousands of others to the Outer Sunset, where we can freely travel and recreate without the dangers associated with mixed car and pedestrian traffic. It enhances the walkability of the surrounding neighborhood and draws people to local businesses. It is a great public space befitting of the city of San Francisco and the Pacific coast of California, and it's continued use and success will serve as a model for other cities.

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Finally, more people are coming to enjoy the beach because of the pilot, increasing a greater sense of community, a healthier environment for children and increasing opportunities for supporting small businesses in the Sunset district. The city's history always had a promenade, including Playland, the Cliff House and other landmarks that would create the same access and enjoyment of the beach that the pilot is recreating on a smaller scale today.

Thank you,

Melissa Bolandi

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

**Date:** Wednesday, January 31, 2024 2:51:49 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

**Date:** Thursday, February 1, 2024 8:54:50 AM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Gail Avila

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

Ever since the Upper Great Highway closed to cars during COVID, it has been a much-needed escape for my family. Our one-year-old loves to walk in safety on the street, picking up rocks and pointing out seagulls. We regularly meet up with other families on the Upper Great Highway whenever it's closed to cars, and it's a rare resource in an otherwise car-focused city.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
-Sam

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, January 31, 2024 6:08:27 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Vorani Davis Khoonsrivong

Dear Commissioners,

The idea that a highway walling off the coast from the city improves coastal access is patently absurd.

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065. The idea that a highway walling off the coast from the city

Dear Commissioners,

Great Highway Park is one of the very BEST things to come out of the pandemic and has been reaffirmed by voters! As a Richmond District resident whose son lives in the Sunset, I URGE you to uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of this space. It also allows people like me, a senior, to experience safely what it is like to get around the city car-free. We know we have to change. Our climate is dictating that we must. Providing beautiful car-free places for people to enjoy helps them try out alternative modes of transportation. We cannot continue car dominance everywhere.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend, the car-free use is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast.

The permit also authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses. Again, please reject these appeals and support the car-free weekend compromise.

Thank you,

Ruth Malone

**Date:** Wednesday, January 31, 2024 3:50:07 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Christopher Ulrich

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

My family of 3 uses the Great Highway Park from Friday evening through Sunday. It is such a gift to the very urban Sunset district residents. While I myself would prefer that we keep it free of cars everyday. I'd prefer we take the time to (like was done with the Embarcadero so successfully years ago) and invest in efforts to protect our coastline from erosion and beautify ocean access. However, I understand that others feel it is important mid week for car transport in the short term. So the weekend pilot seemed like the right compromise.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Alison

I'm a proud Outer Sunset home owner and we LOVE our neighborhood, city, community and especially this the Great Highway Park! My 5yo learned how to ride her bike on the park, my neurodiverse 8yo gets to get his energy out, and I walk or run in it every weekend, even in the rain. It is such a blessing to our family and community.

Thank you,  
Sarah

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, January 31, 2024 5:00:12 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park regularly, the pilot program is crucial for my enjoyment of the shoreline – and the well-being of everyone outside of a car. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Harold

Dear Commissioners,

The great highway weekend closure is extremely important to me. I believe the nature of compromise is that it to not ever be overturned, and I am dismayed to write this email at all. We are desperate for community in the outer sunset, do not take the (literal) small strip we have away from us.

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

I live in the Sunset and the Great Highway Park is a treasure for all San Franciscan's to enjoy. Here is a picture of my 9 year old daughter and I enjoying a ride home after visiting the Ortega library.

I have lived in SF for 21 years and I visit the beach more now that we have the Great Highway Park. I never needed to drive down the upper great highway, but today I use the great highway park to ride my bike to our local businesses. It's a great way to visit local businesses on Irving & Noriega.

This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Josh Kelly  
Outer Sunset

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, January 31, 2024 3:10:31 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

James Cutler  
389 Silver Ave, San Francisco, CA 94112

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

I have been visiting Great Highway regularly since 2020. It is one of the few bright spot in San Francisco from the pandemic. These low intensity, recreation use it most appropriate in the coastal area vulnerable to climate change. Please keep it this way. In the hindsight, it is not even an appropriate location to build a highway so close to the ocean in the first place. Please reject the appeal.

Thank you,

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Richard Perry

**Date:** Wednesday, January 31, 2024 8:27:04 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Sent from my iPhone

**Date:** Wednesday, January 31, 2024 5:54:38 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Eliza Panike  
D4 Resident

Dear Commissioners,

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As a resident of Supervisor District 1 in the Richmond, and one of the thousands of San Franciscans who delights in visiting Great Highway Park often to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and frequent nearby businesses.

Thank you,

Liz O'Donoghue

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Gabriel Goffman CFA

**Date:** Wednesday, January 31, 2024 3:45:00 PM

---

Dear Commissioners,

I write to urge you to uphold the Planning Commission's unanimous decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to urge you to reject appeals 23-062, 23-064, 23-065.

As one of many thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and enjoy the Pacific Ocean, the pilot program is critical for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. The pilot also allows City agencies to collect data and conduct community engagement to determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Frankly, I wish this area was permanently open to such access every day — not only on weekends and holidays. Having the ability to recreate in this much larger area has been especially impactful for me in this age of COVID, as I am immunocompromised and there are few safe areas to recreate in public without a mask.

Thank you for your consideration,  
Edith Schaffer

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

Things like this make our city incredible. I go every single weekend and see hundreds if not thousands of people walking, biking, laughing, scooting, running, etc etc. What an incredible loss it would be if it just went back to cars.

If we want to be a transit first city then let's act like it.

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Nazia Stevens

**Date:** Thursday, February 1, 2024 10:32:01 AM

---

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway, including smart planning for sea level rise, erosion, and decarbonization of our city's transportation emissions.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

A coastal park promenade increases coastal access for families, kids, and all San Franciscans, and allows San Francisco more flexibility to protect coastal habitats and adapt to climate change by removing car pollution from the coast. I urge you to uphold the spirit of the Coastal Act by rejecting the appeals, as voters did in 2022 when they rejected Prop I.

Thank you.

Hazel O'Neil

**Date:** Monday, February 5, 2024 10:25:33 AM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Adam Hall  
42nd Ave

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Rick Ehling

P.S. I honestly think the road, or at least the outer half, should be closed to cars all week. This beach and the dunes are a natural wonder. Reworking street traffic to unidirectional flow is under used in San Francisco, it needs to be done more.

---

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline and community getting access to open space and nature. In addition- sand regularly goes on the road leading to closures further proving the need for multiple uses for this space.

This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast.

Thanks for supporting the pilot and commitment to access to nature for us all,  
Kate Bueler

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses. My boyfriend was hit by a car riding on a raised bike lane on Masonic after they took a right into the lane without any awareness of his presence. He broke his wrist. He could've been seriously injured as he flipped over the car and thankfully only landed on his wrist. There are very few genuinely safe places to ride your bike in this city. We need to keep this as one of them.

Thank you,  
Lily Foucault

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

My family and I use the Great Highway Park every weekend. It's a local treasure to have such access to the Ocean - please do not return it to the cars. I drive and I'm happy to drive in other roads. This is a treasure to be preserved!

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

Personally, I've visited the beach and the local businesses in the Outer Sunset so much more often these last four years now that I can safely bike with my children to our beautiful shoreline. We often make a low-cost, low-carbon day trip out of biking from our neighborhood to the beach. The Upper Great Highway project has opened up a whole side of San Francisco to me and my family by creating a safe and lively open space at the beach.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Cole Rose

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Tuesday, February 6, 2024 10:01:21 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

David Young

Board of Appeals Meeting  
Wednesday, February 7, 2024 5pm

Hello Commissioners,

My name is Justin Hubard and I am a resident of the Portola neighborhood.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

Cars do not need advocates! People do! I visit this neighborhood solely for this attraction. FYI. I won't be visiting to walk my car there if things change.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Regards,

Justin

**Subject:** Keep UGH Closed!!  
**Date:** Wednesday, February 7, 2024 6:21:21 AM

---

Hello Commissioners,

My name is Jill Ellefsen and I have lived on the Great Highway for over 25 years. Thanks to the closure of the Upper Great Highway, our community has thrived and become stronger. Children have safely learned how to ride bikes and skateboards, older folks can walk on a car free smooth path using mobility devices and I often see multi generational families and friends strolling, talking, laughing and enjoying our beautiful seaside. What a gift to our city this has been!!! I run into a neighbor every time I walk on UGH and the vibe can only be described as joyful.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it!!!!!!

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

Hello Commissioners,

My name is Scott Rittman and I live on 28th Ave. between Taraval/Ulloa for the last 22 years. Prior to that 14 years in the Richmond on 16th Ave. and 42nd Ave. Except for 2 years in Noe Valley we have always lived on the westside of the City (Westside is the Bestside). So the beach has been a big part of life living here in San Francisco.

38 years in the City this April. Raised two children, 4 dogs here and our love for the City is unmatched!

Don't get me wrong, we have always gone down to the beach for swimming, boogie boarding, picnicking, hanging out for the day or maybe just for sunset.

But ever since the closure, we see so many more people, enjoying the beach and the Great Walkway in particular.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. Hello Commissioners,

My name is Samarth Vasisht and I am a resident who lives in the Inner Richmond.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The great highway is an absolute gem of a walking zone to have on weekends and opens up an otherwise crowded and fast-moving traffic zone into a pedestrian and bike friendly environment that helps everyone enjoy the beauty of SF's western coast without concern of getting hit by a car.

If you've ever had the pleasure of being out there on the weekends you could see how many people are out there enjoying the space it provides. Please let me know if there's anything I can do to help push this through (and if not - I would love to know why you think that the road should be re-opened and the feedback that led you to that decision).

Thank you,  
Samarth

Dear Commissioners,

I am a resident of Hayes Valley, and I regularly use my bicycle for exercise and recreation.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway Park is one of my favorite places to ride my bicycle. It is a great space for enjoying the wonder of the ocean. People of all ages can ride in a safe environment. And folks have plenty of room to navigate cyclists, skateboarders, rollerskaters, and hikers.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you,  
Sarah Buecher

**Subject:** Maintain the Coastal Zone Permit  
**Date:** Tuesday, February 6, 2024 2:24:04 PM

---

Hello Commissioners,

My name is Evan Minamoto and I live in Soma. I was the first designer of Palantir Technologies, a startup founder and born, raised and worked in the Bay Area.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

San Francisco is not a very nice place right now and removing one of the few nice things to come out of the pandemic era would be a shame. I use that stretch of highway when I do my loops around the city by bicycle and it's nice to not have to worry about the sand that inevitably encroaches on the shoulder, making the narrow shoulder hazardous to road bikes and their thin tires.

The perimeter of the city is one of the few areas where you're (mostly) safe from the careless, self righteous, rude, dangerous drivers that can increasingly be found in the city as well as the significant number of unpredictable, mentally ill people who inhabit increasingly larger areas of the city.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's Local Coastal Plan, the Ocean Beach Master Plan, Vision Zero plan and the Climate Action Plan.

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Evan

**Subject:** OPEN THE GREAT HIGHWAY to CARS again --especially ON FRIDAYS!!!!!!  
**Date:** Wednesday, January 31, 2024 3:35:04 PM

---

Dear Commissioners,

I am writing to ask that you absolutely reconsider OPENING THE GREAT HIGHWAY on Fridays and Saturdays if not 24/7.

As one of the 20,000 plus residents of the Sunset and Richmond who rely on that part of the city to commute to work, see family and travel North and South daily. We are forced DRIVE and the Great HIGHWAY is a respite Monday- Thursday for the incredibly frustrating time I spend trying to get home from work on Friday afternoons from my teaching job in Daly City. When I do want to walk, ride a bike or enjoy time with friends and family I use the many beautiful parks and beach front. We would never want to sit on a cement highway when so many beautiful parks are within walking distance of the Sunset and Richmond districts. Reopening the road again to cars is crucial for our access to and from work, getting to family quickly and avoiding the horrible back up of traffic on 19th ave and Sunset which ends at Lincoln Ave forcing all cars onto Lincoln and then on a long line of traffic to get across the park.

Thank you,  
Nancy Zerner

Fernando Rivera Librarian and 32 year resident of the Westside of SF.

**Subject:** Please \*reject\* the appeal of the Great Highway Park permit (Appeal No. 23-062/64/65, Feb 7)  
**Date:** Monday, February 5, 2024 11:46:20 AM

---

Dear SF Board of Appeals,

I'm writing to you as an SF resident to strongly urge you to \*reject\* the appeal of the coastal zone permit for the Great Highway pilot project (and therefore uphold the pilot project's permit).

As the SF planning memo (No. 21437) outlines, the pilot project is consistent with the city's planning. In addition, it's consistent with the city's goals such as the transit-first policy and also its environmental commitments. On a personal level, I've greatly enjoyed the increased bicycle/walking access to the coast and it's also helped provide a safer bike route for me to visit family members.

With regards to the appeal itself, the appellants' arguments are quite specious. For example, on the topic of public access to the coast the argument is made that access to the coast is only possible for certain populations by \*driving along (not even stopping to park at) the Great Highway\*. Even if this were true, the northern half of the road remains open to vehicular traffic and a leisurely drive for "breathing in fresh air" is quite possible there.

The appellants frame their argument in this narrow way because it would be ridiculous to claim that the project truly restricts automobile access to the coast. The vast majority of the beach parking is in the unrestricted north part of the Great Highway, for example. There also remains huge amounts of automobile parking along the lower Great Highway (compare this with the amount of bicycle parking).

Another example is the appellants claim that neighborhood commercial areas will be harder to reach with the pilot. Again, this is quite a strange claim as the vast majority of neighborhood streets do not directly connect to the Upper Great Highway. Traveling along the Sunset's street grid would be a far more direct trip for most.

Overall, these arguments are a stretch and you would have to ignore the huge benefits to the city's other goals (lowering carbon emissions, increasing non-automobile trips, etc.) to accept this appeal. So again, please \*reject\* the appeal and uphold the permit.

Thank you,  
Asumu Takikawa  
Richmond district resident

**Subject:** Please end the Great Highway Park weekend compromise. Approve appeals 23-062, 23-064, 23-065  
**Date:** Thursday, February 1, 2024 9:21:43 PM

---

Dear Commissioners,

I am writing to ask that you approve approve appeals 23-602, 23-064 and 23-065

As one of the thousands of San Franciscans who use Great Highway for its intended purpose ... driving quickly and safely along the west side of San Francisco.

The ongoing closure of this vital roadway has pushed heavy weekend traffic into our neighborhoods increasing pollution, noise and danger to pedestrians. Please open the highway for its intended use.

Beach users already have a walkway that parallels the highway at all times and of course easy access to the beach it's self for all recreational activities.

Thank you,

Shelly Horton

**Date:** Friday, February 2, 2024 12:34:32 PM

---

Dear Commissioners,

Chris Guichet here, I live in Nopa and bike to Great Highway Park on the weekends.

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

The levels of joy on this park on a sunny day are off the charts. The shoreline of our city is one of our most valuable resources. We should make it a place that people can enjoy, not a car sewer. It also makes the beach more accessible for people too young, old, or disabled to drive.

We learned that tearing down the Embarcadero freeway was the right move, the same is true for the great highway park.

Thank you for your time,  
Chris

**Subject:** Please Keep the Great Highway Open for Walking and Biking!  
**Date:** Tuesday, February 6, 2024 2:18:20 PM

---

Hello Commissioners,

My name is Candice Lin and I am a resident of Bernal Heights.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

I love walking on the Great Highway, bringing out of town guests to experience it, and then patronizing restaurants and businesses in the Sunset afterward. The Great Highway is an iconic destination in SF, much the way the Highline is in NYC. I've been a resident of SF for over 20 years and feel safe walking on the Great Highway. I can't say that about every neighborhood in SF.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's Local Coastal Plan, the Ocean Beach Master Plan, Vision Zero plan and the Climate Action Plan.

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.  
Thank you, Candice Lin

**Date:** Wednesday, January 31, 2024 3:15:02 PM

---

Dear Commissioners,

I moved to the Outer Sunset in 2017 to take advantage of the ocean access and greenspace present in our district. Since the pandemic hit in 2020 and the Great Highway was opened to pedestrians, I have spent hundreds of hours walking, running, and generally enjoying the Great Highway Park. My husband and I believe that this is a world class space that should remain open not simply for us, but for people outside of our District who are looking for valuable greenspace and nature to explore within the confines of San Francisco's city limits. There is no other park quite like the Great Highway and I believe it is incredibly shortsighted to give vehicles priority for a short stretch of highway that is not a main artery for a majority of Bay Area residents from a commuting stand point.

Therefore, I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for our access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses. I live on 45th Avenue and consistently witness speeding cars that make crossing intersections increasingly dangerous -- the Great Highway Park is one respite to increasing traffic, reckless driving, and unpredictable drivers. Limiting the park's availability to pedestrians as a car-free zone on weekends limits more than our right to access to healthy living and greenspace -- it puts us in greater danger when forced to take our walks on busy, overused neighborhood streets. The Great Highway is not going to solve traffic issues for the whole of San Francisco. As a park, it does not negatively impact the neighborhood, but does the opposite -- it brings people together to enjoy their shared community.

Thank you,  
Whitney Taylor

Dear Commissioners,

I'm writing to urge you to uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and further request that you reject appeals 23-062, 23-064, and 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park on weekends for recreation and to visit nearby small businesses, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk in the vicinity of Ocean Beach and nearby businesses. Please do not capitulate to a vocal minority who will never be satisfied with any change from the historical status quo. That is not the way forward for society.

Thank you,

Andy Collier  
San Francisco District 7 resident (Golden Gate Heights)

Dear Coastal Commissioners,

Please continue the Great Highway Park in San Francisco. I live two blocks from the Great Highway, and use the closed roadway on weekends for walking. I am impressed with the number of people who use the closed roadway to walk, jog, bike, stroll, and otherwise enjoy the car-free coastal access. When car-free, the Highway is much safer, and free of the car exhaust and noise.

Thank you,

Mark Aaker

**Date:** Tuesday, February 6, 2024 12:29:33 PM

---

Hello,

I am writing to you as a San Francisco resident who uses the pedestrian-only weekends on the Great Highway every weekend. I urge you to uphold the Coastal Zone permit and reject the appeals against it.

The Great Highway pedestrian-only days is one of the only good things that came out of the pandemic. It has become core to my life and has positively impacted my experience as a resident. I run on the Great Highway and it is the safest place I run in the city. I have seen people build a sense of community among others out there, and see that it is extensively used. It felt like a blow when it was reopened to cars mid-week, but I understand the rationale and need to compromise. However, a weekend closure would be devastating and a true loss for our park spaces and recreation opportunities in San Francisco.

Thanks,  
Rachel

**Subject:** Please keep weekends at the Great Highway Park & reject appeals 23-062, 23-064, 23-065  
**Date:** Thursday, February 1, 2024 10:20:04 AM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park regularly to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline.

This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses. It is in fact, the terminus of the only safe pedestrian route that goes through GGP - connecting to Page Street, the wiggle and my home. Please protect it.

Thank you,  
Thomas Lorne Christianson

---

Honorable North Central Coast Coastal Commission,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

I am a resident of Russian Hill in District 3 - but I find myself walking or riding on the Great Highway Park almost every weekend, along with thousands of my neighbors and visitors to the city. This program is crucial for the city's access to and enjoyment of the shoreline and one of the few truly safe places in San Francisco to walk, roll, and ride for people of all ages and abilities.

This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

**Subject:** PLEASE protect the Great Highway Park  
**Date:** Wednesday, February 7, 2024 11:18:15 AM

---

Hello Commissioners,

My name is Krish Sigler and I am a resident of San Francisco

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

Throughout the past several years, biking has been incredibly important to my health -- both physically and mentally. Having a safe space to bike, without having to deal with the stress and danger of cars, is a crucial component of building a city that prioritizes the health of its citizens. And I personally would be far worse off if the Great Highway is taken away from us and given back to the cars.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

**Subject:** Please reject appeal of Coastal Zone permit for weekend Great Highway project  
**Date:** Tuesday, February 6, 2024 1:31:36 PM

---

Dear Board members,

I was concerned to learn that after so many failed attempts, opponents have found another possible procedural approach to restore automobiles to the Great Highway on weekends. I hope this one will be rejected just like the others.

The Great Highway is not "closed" on weekends, but *open* - to cyclists and pedestrians. It is open to drivers, too, if they simply park in one of the ample spaces nearby and enjoy some fresh air and exercise with the rest of us. It encourages cycling and reduces carbon emissions on the West Side. It protects nearby plant and animal species far better than the expressway it becomes during the week. To endorse the weekend Great Highway project is to protect the coast, while is why I imagine the Planning Commission unanimously supported it.

Please do the right thing and support the coastal environment and public recreation, while striking a blow against climate change. Reject this appeal.

Thanks and Regards,

Jeff Trull  
(Potrero Hill)

**Subject:** Please Reject appeals 23-062, 23-064, 23-065 and keep the sunset safe  
**Date:** Saturday, February 3, 2024 6:44:45 PM

---

Dear Commissioners,

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project by rejecting appeals 23-062, 23-064, 23-065.

This appeal is a distraction and a waste of city resources to continually entertain the tiny minority of the city that is opposed to this great asset.

I use the weekend park regularly and the conversion to a pedestrian only experience has greatly enhanced the ocean beach area. I love bringing out of town visitors, who are always amazed and can't believe this beautiful park was once wasted as an arterial road. This park has also helped nearby local businesses. I visit the outer Taraval/noriega area far more often now because of the park, and so do many residents that travel from outside the sunset to enjoy the park.

The appeals claim of "environmentalism" is absurd. Reducing combustion and tire/break emissions near important native habitat is a positive change that should be upheld.

On the topic of traffic calming in the Outer Sunset, one has to only look at the failure of vision zero to know we need to take all the steps possible now to reduce pedestrian death and injury. I visit the weekend park and do all of my travel in the sunset by walking biking and transit. I have had enough close calls with drivers to know the traffic calming provided by this permit is essential to the neighborhoods health.

Thank you,

-Nathan Sibon

**Subject:** Please reject the appeal of the Upper Great Highway pilot project  
**Date:** Tuesday, February 6, 2024 9:44:49 PM

---

Dear Board of Appeals,

Please REJECT the appeal of the Coastal Zone Permit for the Upper Great Highway pilot project.

I am a resident of the Mission District (D9), and frequently go with my family to enjoy the Upper Great Highway and Ocean Beach. I love that it's one of the few places I don't need to worry about my kids getting run over by cars.

This permit is in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and [Climate Action Plan](#), and has been affirmed by the Planning Commission, Board of Supervisors, Mayor, and even the voters themselves (indirectly in their rejection of 2022's Prop I).

Please uphold this permit and reject the appeals.

Thank you,

Luke Swartz  
Mission District (D9) Resident & Father

Hello Commissioners,

My name is Selin Jessa and I am a new resident in the SF Bay Area.

I am writing to ask you to please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

I'm new to San Francisco and spend many of my weekends walking or biking down the Great Highway, and using it as an opportunity to get fresh air, exercise, socialize, and enjoy in the beauty of the San Francisco Bay Area. Cars have numerous prioritized routes throughout the city, and the Great Highway thrives as a public space for pedestrians and cyclists, and we can only enjoy that safety because it's closed to cars. **We need more public spaces like this in SF, not less.**

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Selin Jessa

Hello Commissioners,

My name is Kevin Campbell. I am a 24 year resident of Westwood Highlands. A charming West of Twin Peaks neighborhood.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

Many times each month my wife and I enjoy the approximately 2 mile walk along the Great Highway from Sloat to Lincoln. We particularly love the exquisite view of the Marin Headlands. This eye popping vista overtakes your spirit as it gently appears from behind the dunes at Santiago. The absence of traffic noise and exhaust smell makes this experience an affirmation of the San Francisco spirit. You don't get this enchanting panorama from a car.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you.

The Campbells

Hello Commissioners,

My name is Laurie Rittman and I am a resident of the Parkside/Outer Sunset neighborhood.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway is the best thing that has happened in the Outer Sunset. The ability to walk, run, dog walk, bike, roller skate and scooter is an important part of daily life for people in our neighborhood. We enjoy being active and seeing other San Franciscans being active without having to worry about cars and drivers. This has created a sense of community – a place to get out, meet friends, meet neighbors in a beautiful setting.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Dear Commissioner,

I'm a resident of Noe Valley. I typically walk or ride my bike to get around San Francisco and I frequently bicycle and walk along the Great Highway on weekends. Having recently been hit by a car on San Francisco streets while riding my bike, I especially value San Francisco's designated slow streets and streets that are closed to car traffic.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. Hello Commissioners,

My name is Michael Lee and I am a resident of Midtown Terrace in District 7.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway pilot has been great for me and my family along with the diverse groups of people I see using it. The city and its leaders should support this further by encouraging businesses to setup shop close by to further enhance the experience when users are down there. A good model to follow might be what Joel Engardio implemented with the night market in the Sunset.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Hello Commissioners,

My name is Zan Armstrong and I am a resident of the Inner Sunset.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Upper Great Highway as a walkway means that my family spends more time at the beach and near the ocean. It's great for mental and physical health, connection to our larger SF community, connection to nature, and for quality time with family and friends. For example, we spent hours at the surfing event last fall (even though we're not surfers) learning, creating & doing activities, and playing. And had an amazing time during the Great Hauntway including running into so many other families we knew from all over the city! My daughter rode her longest bike ride ever from our house all the way down to bike on the upper great highway (almost entirely on slow or pedestrian streets). And, I look into future and see the climate change challenges affecting her & her peers, I want to be able to tell her how our community was a leader.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

**Date:** Thursday, February 1, 2024 10:10:14 PM

---

My name is Ellen Koivisto and I live on the Great Hwy (between K and L), and have lived here for 36 years.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please, please, please reject the appeals against it.

The Great Highway is a fantastic park, and a great resource for people from all over the bay area. It is also an area we will be losing to the ocean, an area that suffers greatly from pollution from automotive traffic, a very dangerous straightway (originally a racetrack) that allows cars to try to double or triple the posted speed limit, and as a road for cars it is a silly waste of money and resources requiring SF to literally sweep sand off the beach, a la The Walrus and The Carpenter.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Ellen Koivisto  
the outer, outer Sunset, SF

**Subject:** PLEASE: Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, January 31, 2024 5:32:16 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

I live close to Great Highway Park, and use it every weekend, along with the thousands of others who walk, roll, jog, bike, and simply enjoy the Pacific Ocean. The pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood (although there's a long way to go) and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Nick Lanham

**Subject:** Preserve car-free weekends on the Great Highway PLEASE!  
**Date:** Tuesday, February 6, 2024 12:20:58 PM

---

Hello Commissioners,

My name is Erik Pawassar and I am a citizen is San Francisco.

PLEASE PRESERVE the car-free weekends on the Great Highway.

So many people and their families enjoy this beautiful stretch of coast for recreation. PLEASE let us be a slightly more modern city and move away from the tiresome and dangerous old-school cars-over-everything attitude!

Also, WHY do we need to have 2 lanes in EACH direction? Why not divide one side into a 2-way street and have a car-free side EVERY DAY?

Thanks,

Erik

**Subject:** Public Comment - Upper Great Highway Coastal Zone Permit: Board of Appeals Meeting Wednesday, February 7, 2024  
**Date:** Tuesday, February 6, 2024 2:05:01 PM

---

Dear Commissioners,

My name is Annette Bistrup and I am a resident of the Inner Sunset/Golden Gate Heights neighborhood, for over 20 years, and an SF resident altogether since 1989.

I grew up in a country (Denmark) with a long-term and very well-developed culture around bicycle and pedestrian traffic – and the consequent infrastructural adaptations necessary to support such modes of traffic. In Denmark, as in many other European countries, as I am sure you're aware, walking and biking are viewed as integral parts of traffic, and as an essential societal good.

Please **uphold the Planning Commission's determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project**, and please reject the appeals against it.

I and a number of my friends regularly make use of the Great Highway car-free promenade space (ie, on weekends). During Covid, when the space was car-free every day, we used the space for walking and biking multiple times per week. We never fail to observe/encounter so many others using the space, in so many ways: Walking, biking, roller skating etc. People of all ages, alone or in groups, with or without dogs, etc. It is truly a resource for the entire SF community – I know for a fact that “users” come from all over the City to avail themselves of this beautiful space. To me and my friends, just being there, being able to walk the length of it, it is a balm to the soul, in addition, of course, to being ideal for the physical exercise itself.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can **collect data to help determine the long-term future of the Great Highway**.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you,

Annette Bistrup

**Subject:** Public comment on Coastal Zone Permit for Great Highway pilot project  
**Date:** Thursday, February 1, 2024 5:19:04 PM

---

Hello Commissioners,

My name is Craig Persiko and I am a resident of the Castro district of San Francisco. I've lived here for over 20 years, and I bicycle for my primary transportation.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

My husband and I bike along the Great Highway almost every weekend. It is our favorite bike ride in the city on weekends when it is car-free, full of people enjoying the beautiful coast, while exercising safely! There are far more people using the Great Highway on these car-free weekends than I have ever seen there in cars. It's a great use of the coastline.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

**Subject:** Public comment: Please continue and expand the Great Hwy pilot program  
**Date:** Thursday, February 1, 2024 7:51:32 PM

---

Hello Commissioners,

My name is Daryl Rogers and I am a resident of the Lower Haight 94117.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

This is a valued space that my family (partner, daughter, and dog) visit multiple times a week. Usually Friday evenings and Saturday or Sunday mornings. We walk, run, ride bikes, on the closed hwy. It is truly a unique space and would be a huge addition to San Francisco public spaces if it were to become permanent. Because of this space we travel from our neighborhood to spend money in outer sunset businesses for breakfast, lunch, and dinner. We also do our grocery shopping in the area on our way back from the great highway.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you, Daryl Rogers 94117

Just following up as this is very important to me, my family, and my neighborhood.

Please reject appeals 23-062, 23-064, 23-065.

I cannot imagine what special interests or out-of-towners support converting some of SF's limited outdoor space back into a permanent roadway, but I hope it doesn't sway your gut feeling that we crave more spaces in SF to walk side-by-side with one another.

Hi Bree,

Thanks for giving me the opportunity to comment on the Tomales Bay State Park Forest Health and Wildfire Resilience Plan.

We all have a vested interest in getting things right when it comes to protecting this beautiful,

magical, spectacular place!

Chainsaws, chippers and pesticides are no way to go.

I trust you're receiving lots of public feedback on this important issue.

Thanks for all you do,

Abby Cunningham

**Subject:** Reject appeals against Upper Great Highway pilot  
**Date:** Tuesday, February 6, 2024 4:42:50 PM

---

Hello Commissioners,

My name is Calum You and I am a resident of Miraloma Park in District 7.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway closure to cars makes it a glorious space for pedestrians, cyclists and other slower traffic on weekends. I love being able to roll down towards the ocean and spend time in the evenings, without having to worry about car traffic. It's also a wonderful place to run when seeking flatter ground in our hilly city. In my opinion the pilot has been an incredible success and allowing appeal would be a tremendous loss.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Calum You

**Subject:** Reject the City of Pacifica's Coastal Armoring Program  
**Date:** Friday, February 2, 2024 11:14:30 PM

---

Dear California Coastal Commission Chair Donne Brownse,

I am writing to express my opposition to the City of Pacifica's Land Use Plan update, particularly its proposed coastal hazard policies. The City should pursue coastal planning solutions that address the long-term impacts of sea level rise in a manner protective of public resources - our beaches, bluffs and waves. More effective alternatives consistent with California Coastal Commission recommendations and the Coastal Act include strategic relocation, consideration of living shoreline options and avoidance of hard armoring. Proactive planning is essential for avoiding costly disasters such as the condemned blufftop apartment building on Esplanade Ave due to storm damage and bluff erosion.

As a local beachgoer, I support long-term solutions that benefit my right to beach access, protect coastal resources and habitats and preserve the coast from rising seas as required within the California Coastal Act. The City's plan will erode our beaches over time and make access impossible. The City's plan could be devastating for popular surf and recreational beaches such as Linda Mar, Rockaway and Sharp Park Beach. By failing to consider alternatives, it also dooms the beaches fronting Beach Boulevard, Esplanade and Palmetto to permanently drown as seas rise.

One third of the City's six miles of coast are already armored. More coastal armoring will fundamentally alter our remaining waves and beaches by exacerbating beach erosion and eventually drowning our beaches and waves.

Please reject the City's plan and approve the entirety of Coastal Commission staff's suggested modifications to protect our public resources and preserve our precious coast.

Sincerely,  
AJ Cho

**Date:** Thursday, February 1, 2024 2:25:33 PM

---

Hello Commissioners,

My name is Victoria Norman and I am a resident of the Richmond.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway has been such a critical space for safe walks on weekends and bike rides, healthy habits I developed during the pandemic. I recently became an American citizen (earlier this year actually) because I *feel* Californian and San Franciscan, because I am proud of living in this amazing city that is NOT car centric, that HAS spaces for people - pedestrians and cyclists alike. Ensuring the Great Highway stay open to humans rather than cars is something I feel very strongly about, as a new voting member of our society.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you.

Victoria Norman

Hello Commissioners,

My name is Joe Bryan and I am a resident of San Francisco.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

I use the Great Highway for running, and biking every weekend! The wide road makes for safe running with friends and family. We've developed healthy habits and community through access to this space. We meet up with friends from across town here to run, jump in the ocean if we're brave, and then go get breakfast and coffee in the neighborhood nearby.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Hello Commissioners,

My name is Erin Coull and I am a resident of the Mission District. I ride my bike with my family from our home in the Mission all the way out to the Great Highway a couple times a month specifically because it is car free (we never went there before). Now it's become one of our favorite in-city destinations and ways to enjoy riding a bike safely to and through our city.

I urge you to please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Concerned and long time citizen of San Francisco,  
Erin Coull (& Family)

Dear Commissioners,

My name is Ivonne Molina and I am a resident of Lower Haight.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway Park has been my favorite park in San Francisco since I first moved to the city in 2021. I love biking there every weekend and seeing so many parents, children, couples, seniors, and pets enjoying the space. The park brings so much joy to residents from all over the city and to visitors as well. Every time I post online videos or pictures of me biking on the Great Highway Park, I get an overwhelming response from people who find it fascinating that San Francisco has such a unique and beautiful space for people to explore and gather - "Only in SF!" they say. The Great Highway Park is a unique gem in our city.

Additionally, I personally wouldn't visit any of the Outer Sunset businesses if it weren't for the Great Highway Park. Devil's Teeth, Riptide, Java Beach Cafe, Hook Fish, Celia's By The Beach, and many other businesses near The Great Highway Park would suffer from losing not only my business, but the business of many others who frequent those spots **only** because they are along the park. Community events and gatherings like Great Hauntway would also be lost. This park is a unique place of refuge, community, laughter, and play for many people in our city. PLEASE SAVE THE GREAT HIGHWAY PARK!!

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and

reject the appeals. Thank you.

Best,  
Ivonne Molina

Hello Commissioners,

My name is Evan Owski and I am a resident of NoPa.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

I often take trips out to the Ocean Beach and the Great Highway with my wife and my friends. When I've been to the Great Highway when it's been car free, the difference is marked. I see more families, more children, and quite possibly more dogs in the area than when it's a busy thoroughfare for vehicles. It's a night and day difference, just as Car Free JFK has been. Let's keep investing in car free spaces in our city!

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Sincerely,  
Evan Owski

Hello Commissioners,

My name is Christopher Dawe and I am a resident of Miraloma.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

My family really enjoys the connectivity The Great Highway provides when it is car free to travel by foot and bicycle up and down the coast.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

My name is Ellen Koivisto and I live on the Great Highway, between K and L.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The change in the situation out here has been enormous: lots more people accessing the beach, more space for families and community events, a reduction in pollution (noise, Cu, CO2, etc.), a place for classes and gatherings, easier transition to marathons when needed, and so much more.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Dear Commissioners,

On behalf of its over 6,000 members, on March 18, 2023, Sierra Club San Francisco Group sent a letter to the Mayor, BOS, SFMTA, Rec and Park, and Planning Commission in support of a 24/7 Great Highway Park (see attached letter). We strongly urge you to continue that drive to transition this 17-acre community space into a full time community and climate resilient space by **rejecting appeals 23-062, 23-064, 23-065**

Undoing the pilot compromise will undo the environmental and community gains we have tangibly experienced thus far. Namely, putting us on track to:

1. Address our City's commitment to solve our climate emergency
2. Reduce VMTs and congestion
3. Improve traffic safety
4. Improve habitat for wildlife
5. Increase access to outdoor educational experiences especially for youth, and
6. Allow more exploration, enjoyment and protection of wild spaces such as Ocean Beach.

Best,

**Brian Reyes, D4**  
Vice Chair, Sierra Club SF Group

Charles Whitfield, D2  
Chair, Sierra Club SF Group

**Date:** Tuesday, February 6, 2024 2:04:12 PM

---

Hello Commissioners,

My name is Sarah Kho and I am a resident of Noe Valley.

I'm writing to ask you to please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

As both a driver and pedestrian, I am a strong advocate of creating a city that is very pedestrians. It is better for the environment by reducing pollution, and better for our community by allowing us to connect in a personal way. Specifically, I use Great Highway multiple times a month to run - it is incredible to see the community out there and connect to nature. I also try to run in our streets in Noe/Mission - on one evening, I almost got hit by cars 6x, who rolled through the crosswalk while I was trying to cross. We need to preserve and expand car-free zone.

Again, I strongly ask you to please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you.  
Sarah

Dear Supervisor Melgar and Commissioners,

My name is Justin Fraser and I am a resident of the Sunset.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

My family lives car-free in the Sunset neighborhood. We get around primarily by bike and MUNI and enjoy biking on the car-free stretch of the Great Highway several weekends a month.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's Local Coastal Plan, the Ocean Beach Master Plan, Vision Zero plan and the Climate Action Plan.

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Sincerely

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

The Great Highway Park is by far my favourite place in San Francisco. Despite San Francisco being surrounded by the ocean, there are very few ways to enjoy it without being surrounded by car traffic. I bike to it every other week and I love both foggy and sunny conditions. The permit authorizes important traffic calming in the Outer Sunset which has greatly improved the safety of the neighborhood and are vital to my safety when I bike to Ocean Beach and patronize nearby businesses.

**The Great Highway Park is a GEM and I wish to celebrate my birthday there every year.**

As one of the thousands of San Franciscans who visit Great Highway Park to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#) and enhances recreational use of the Ocean Beach shoreline by providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you.  
Zafarali Ahmed

Hello Commissioners,

My name is Adam Archer and I am a resident of the Inner Sunset. I have 3 children under 10 years old.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

My family and I bike, walk, roller skate or skateboard on the great highway typically many times per week. We absolutely love it and feel it's one of the major reasons to live in San Francisco.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Hello Commissioners,

My name is Esther, and I am a resident of North Beach.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

I moved to the Bay Area two years ago (Jan 2022) and it's completely changed my life. Once I graduated college and began working, I found my health declining year by year. Before moving to San Francisco, my health had compromised to the point that as a 27 yr old, I couldn't go on a 20 min walk without feeling ill for the rest of the day. Moving out to the Bay Area introduced my partner and I to the thriving running communities. We moved out here with no friends, no family, we knew no one. Becoming a part of the running community introduced us to a healthier lifestyle, a sense of belonging, and generous (& often nerdy) friendships. My now husband and I have gone on to run several marathons and ultra marathons! So many of our training runs have been through the Great Highway!! As we continue to pursue our love, passion and dreams in the sport, I hope that San Francisco will evolve with us in pursuit of health and holistic wellbeing.

In the midst of running, you often find yourself injured from time to time and of course I found myself pulled into the gravity of the cycling community out here! As a runner first, having the escape on two wheels to explore the hills and streetscapes of San Francisco as a secondary sport has enriched my life even more! While I do find myself deeply wishing for safer conditions for bikes in our city, there are portions of the city that I find myself able to breathe and enjoy the ride a bit more - those areas are the car free zones. From JFK, the Mill Valley Sausalito Path, to the Great Highway. There are so few places I can take a quick breather, enjoy the ride, chat comfortably with friends, and let my guard down from oncoming vehicles. There are far too many times I find drivers not looking both directions, not fully stopping, impaired with impatience where I fear for my safety on rides and runs. The safety factor and the stress of it actually deters me the most to join bike rides. I genuinely hope that we will continue to push the boundaries of this unfortunate vehicle centric society and choose to support new ways of providing safer access to the outdoors.

It's truly changed our lives and I know it holds true for many others.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and

get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you.

Esther JuEun Jeong

Dear Commissioner,

I'm writing to you about the hearing concerning the Coastal Zone permit.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

Having the space closed to cars gives myself and many others a safe place to ride a bike and enjoy the beach without fear of danger.

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you,  
Colin Dyer

Hello Commissioners,

My name is Laura Folger and I am a resident of Inner Sunset Parkside here in SF. Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

My personal experience over the last few years has been both as a bike rider, and after my bike accident on a Muni track, I became reliant on this area as a wonderful place to rehab my hip and walk. It's a great safe place to enjoy both activities either by myself or with friends there are a few places like that in the city. It's also community building. I'm familiar with the car traffic and the neighborhood and I don't really see any greater impact on the surrounding homes on a few days at this freeway is closed.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you  
- Laura Folger

Hello!

My name is Susan George, and I am a resident of Bernal Heights.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

Ever since the Pandemic started my husband and I have ridden our tandem from Bernal through the GG park and to the Great Highway on a regular basis. We enjoy the sea breeze, view of the beach, safe riding and the wonderful distance from our house. As a senior I am a cautious rider and thoroughly enjoy the car free space on weekends and holidays.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Sincerely,  
Susan George, MD

Hello Commissioners,

My name is Victoria Cheng and I am a resident of Pac Heights.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

As an avid cyclist and runner, it has been incredible the Great Highway available to enjoy the beauty of San Francisco and to have a safe space from cars. As a driver, it has not felt like an impediment to have it blocked to car traffic.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you,  
Victoria

**Subject:** Uphold permit for the Great Highway pilot project!  
**Date:** Wednesday, February 7, 2024 9:26:16 AM

---

Dear Commissioners,

My name is Ann Foley and I am currently a resident of Berkeley, CA. I lived in San Francisco from 1980 - 86, and my bicycle was (and still is) my primary mode of transportation. I have fond memories and photos of my many bike trips up and down the stretch of Highway 1 from the Cliff House to the Zoo. In more recent years, Sunday Streets events have been a fun reason to make the trip across the Bay.

I was thrilled to learn about the Great Highway pilot project, which promises to make the coastline even more inviting! It's a major sign that San Francisco is working to provide safer spaces for the community--as well as visitors and tourists--to get around and enjoy its spectacular vistas. This project will both increase safety and encourage more recreational use of the Ocean Beach shoreline. I hear that it will also enable the City to collect data on the future of the Great Highway itself.

I urge you to uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and \* REJECT \* all appeals against it. This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022, San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

Again--Please uphold the Coastal Zone Permit for the Upper Great Highway and reject these appeals!

Sincerely,  
Ann Foley  
Berkeley, CA

Hello Commissioners,

My name is W Chan and I am a resident of Hayes Valley.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway as a pedestrian and active transportation area is an invaluable outdoor resource for me and my family. It's incredible that we have ocean, beach, and coastal resources that members of my family including grand parents of all ages and ability can safely enjoy. We don't own a car so this access by public transport or active transportation is essential.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Best regards,

W Chan

## Board of Appeals Meeting

Wednesday, February 7, 2024 5pm

<https://www.sf.gov/meeting/february-7-2024/board-appeals-hearing-february-7-2024>

City Hall, 1 Dr. Carlton B. Goodlett Place Room 416

Hello Commissioners,

My name is Lourdes Gomez and I am a resident of the Inner Richmond, SF.

*Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it!*

Since moving to the city, one of my favorite activities has become biking through Golden Gate Park and down The Great Highway. I am a California native, but spent several years on the East Coast for graduate school, where I fell in love with the accessibility that bike lanes and public transit (trains and subway) options provided. I was hesitant to move back to California for a job offer, fully aware that our transit system is severely lacking. Thankfully, I fell in with a group of coworkers who have encouraged me to bike as often as possible- sharing favorite routes, and helping me gain confidence biking through San Francisco. Biking in and around the city has quickly become one of the greatest joys and advantages of living here for me. I feel such gratitude for all those who have lobbied to set aside safe spaces for pedestrians and cyclists to enjoy our great city, and I feel compelled to do everything within my power to keep these spaces open and accessible for all to enjoy, now and in the future.

The Coastal Zone permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves **safety and connectivity** for people traveling with **sustainable** forms of transportation. *These should be values that San Francisco champions!* The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of

the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Sincerely,  
Lourdes Gomez

**Date:** Tuesday, February 6, 2024 2:20:35 PM

---

Hello Commissioners,

My name is Susan Rifkin and I am a resident of the Diamond Heights neighborhood in San Francisco.

The Planning Commission's determination, wisely and thoughtfully deliberated, to unanimously issue the Coastal Zone Permit for the Upper Great Highway pilot project contributes to the wellbeing of all the residents of San Francisco. Please reject the appeals against it.

Open space for San Franciscans is particularly beneficial on weekends when children are not in school and families are engaging in outdoor activities together. We need the safe and open space for our physical and psychological wellbeing.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation, including walking. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Thank you,  
Susan Rifkin

**Date:** Thursday, February 1, 2024 6:30:19 PM

---

Please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Last Halloween, I rode my bike down to the Great Hauntway celebration. I figured it would be a couple of sad folding tables and a few parents dragging their children out, making the best of it in the wind and the cold.

I could not have been more wrong.

The event was so big you could not see all of it at once. It was curb to curb people, from the end of Golden Gate Park, all the way to Sloat. There were no corporate sponsors, only a few commercial tables. It was just a bunch of parents in the Sunset with an idea. And a whole lot of people who liked it.

The western edge of the city is going to fall into the Pacific eventually. The people who are appealing this permit and trying to get cars back onto the road are literally trying to hold back the ocean. They're idiots who can't face reality. And they don't like wholesome fun. Don't listen to them.

**From:** [Matt Kamenski](#)

**Date:** Tuesday, February 6, 2024 10:47:15 PM

---

Hello Commissioners,

My name is Matt and I have been a resident of Glen Park since 2020, and of San Francisco since 2011.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

I am an avid road cyclist throughout San Francisco, which I consider to be one of the most beautiful places to cycle in the world. I often ride on the Great Highway and love its car-free lanes along Ocean Beach on weekends. I think its stunning coastal views are breathtaking, and best experienced not in a motor vehicle. I think it is a truly unique, special place in our city that does not need to be spoiled by cars.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Best, Matt

**Subject:** Uphold the Great Highway Park Pilot Project & Reject appeals 23-062, 23-064, 23-065  
**Date:** Sunday, February 4, 2024 4:56:32 PM

---

Dear Commissioners,

I urge you to uphold San Francisco Planning Commission's decision granting a Coastal Zone Permit for the Upper Great Highway pilot project, rejecting Appeal Nos. 23-062 23-064 and 23-065 (items 5A, 5B and 5C on your Feb 7, 2024 agenda, for the following reasons:

1. Appellants claim that the Planning Commission lacks the authority to issue a retroactive permit, entitling an action that has already started or happened. From personal experience at both Planning and DBI, I know that this retroactive process is in fact commonplace. It is used to legalize situations where appropriate permits were not obtained before work commenced, but the work complies with existing codes, or is modified to comply with existing codes.
2. 23-062 in Sec E.2 asserts that public access will be reduced, and E.4.B asserts that access to the Neighborhood Commercial Districts will be adversely impacted. Yet there is no parking anywhere along the Great Highway between Lincoln and Sloat – there is no place to exit a vehicle to access the either the beach to the west, or the businesses to the east. On the other hand, when the Great Highway is closed, I have public transit access to numerous points: the 18 at Lincoln and Great Highway, as well as numerous stops on 46<sup>th</sup> (only 3 blocks from the Great Highway); the N at Judah and Great Highway, the 7 at Noriega/Ortega, the 48 at Rivera, the 43 and 18 at 47<sup>th</sup>/Wawona. Not only do I have beach access, but I also have much better access to the restaurants, cafes, and retail in the neighborhood – and now I actually have patronized some of those small businesses. The claims of reduced access are not supported by the actual experience.

And a shout-out to SFMTA operators – they are absolutely outstanding in helping mobility impaired passengers – be they using walkers, wheelchairs, or just a cane. And I have talked to wheelchair bound persons who arrived at the Great Highway on public transit – an existence proof that cars are not needed for access.

3. The appellants assert that there are significant adverse traffic impacts. A key point of this pilot is to assess the actual traffic impacts and identify mitigations. Neighborhood traffic in San Francisco has long been hazardous, but finally SFMTA is able to implement mitigations. I have seen firsthand how well Slow Streets programs have calmed traffic; I am very impressed at the ways Berkeley has reduced traffic flows on residential streets. This pilot is essential to understand how the closures affect traffic flows, and so design appropriate mitigations.
4. The appellants assert environmental damage to the dune ecosystems. Yes, absent interventions/mitigations, that would be a problem. Once again, the pilot is intended to help understand usage patterns and implement appropriate controls to protect the dunes. The good news is that we have seen how good management practices – signage and simple fences – protect sensitive beach areas. One excellent local example is the beach area along the Presidio waterfront, along Crissy Marsh and the Crissy Field beachfront, where this simple approach has kept the very large number of visitors from trampling on sensitive restoration sites.

In short, many of the Appellants assertions do not stand up to the actual experience of using the car-free Great Highway. And the other major concerns are issues that the pilot is intended to identify, so that appropriate mitigations can be put in place. Please uphold the Planning Commission approval of the pilot so that we can gather the data necessary to make appropriate plans.

Sincerely,

Paul Wermer

Dear Commissioners,

My name is Troy Peters and am a resident of the Miraloma Park neighborhood.

I strongly encourage you to uphold the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project. Please REJECT the appeals against this permit.

As a regular user of the Great Highway when it is closed to motor vehicle traffic, the benefits of this car-free recreational space for a wide variety of activities is abundantly clear. From the moment the gates close on Friday afternoon through the weekend, the space is filled with walkers, bikers, kids, seniors -- people with a wide range of mobility and interests. This singular space provides dramatic and deep benefit to the residents and visitors of San Francisco.

The Great Highway pilot project will show the long-term value of this space as open space enjoyed and used as a respite from the speed and pressure of our urban transportation environment. What better place for it?

Please REJECT the appeals to the Coastal Zone Permit for the Upper Great Highway and uphold the issuance of the permit.

Thank you,

Troy Peters

Hello Commissioners,

My name is [Jim](#) Stephenson and I am a resident of the Outer Sunset.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

We visit the Upper Great Highway every weekend to cycle up and down it with our 2 year old daughter, and it is a vital no-traffic area for us to walk with our child and exercise.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals.

Best regards,

Jim

Honorable North Central Coast Coastal Commission,

Hello. I am asking that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

The pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and are vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Sandy Carter

My name is **Deborah Lardie**

My email address is **dlardie@dlardie.com**

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Deborah Lardie

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

I have to use more gas to go around the detours to get to the Richmond district, that is not reducing my carbon foot print. It hurts businesses in the Richmond and outer Sunset district because of traffic issues it is easier for people to go shopping or out to eat in Daly City.

Sincerely,  
Paul Petterson

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Friday, February 9, 2024 3:36:49 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Kelsey Schur  
94116 resident

**Date:** Friday, February 9, 2024 1:45:39 PM

---

Hello Commissioners,

My name is Jim Moore and I am a resident of Cow Hollow in SF.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

My family and I ride bicycles on the Great Highway on most weekends. It has been one of the safest and most enjoyable experiences we have had in the City. On the whole, SF is not a safe bicycle city and we need safe places like the (closed to vehicle traffic) Great Highway to ride.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you,  
Jim Moore

Good morning,

Please review the attached **revised** documents for CPN23-0004 including the biological survey, grading plan, and septic plan. **Note that both the older initial referral documents and the new resubmittal materials are included in this e-mail.** The initial referral materials, linked below, may contain outdated information if items were revised by the resubmittal documents. If that is the case, the resubmittal materials should be considered the most up-to-date. Please note that this project was initially referred out on February 28, 2023, by Chris Wendt and has been reassigned to Jacob Sedgley for processing. As of today, Permit Sonoma has record of the Natural Resources Division and the Building Division responding to the initial referral with comments or conditions. If you have already responded and have record of it, please feel free to forward that information to Jacob Sedgley at [jacob.sedgley@sonoma-county.org](mailto:jacob.sedgley@sonoma-county.org). Otherwise, we appreciate your review of this permit application. Please respond by February 23, 2024.

**Date:** Friday, February 9, 2024 7:06:11 AM

---

Hello Commissioners,

My name is Chetan Maha and I am a resident of Mission district.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The closing of great highway for cars has been extremely valuable for me to bicycle in peace without the need for being afraid of speeding cars. This place brings the community together.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Chetan

**Subject:** Save the Great Highway Park!!  
**Date:** Friday, February 9, 2024 12:16:28 AM

---

Dear Commissioners,

My name is Jonas Mueller and I am a resident of Noe Valley.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway Park has been my favorite park in San Francisco since I first moved to the city in 2021. I love biking there every weekend and seeing so many parents, children, couples, seniors, and pets enjoying the space. The park brings so much joy to residents from all over the city and to visitors as well. Every time I post online videos or pictures of me biking on the Great Highway Park, I get an overwhelming response from people who find it fascinating that San Francisco has such a unique and beautiful space for people to explore and gather - "Only in SF!" they say. The Great Highway Park is a unique gem in our city.

Additionally, I personally wouldn't visit any of the Outer Sunset businesses if it weren't for the Great Highway Park. Devil's Teeth, Riptide, Java Beach Cafe, Hook Fish, Celia's By The Beach, and many other businesses near The Great Highway Park would suffer from losing not only my business, but the business of many others who frequent those spots **only** because they are along the park. Community events and gatherings like Great Hauntway would also be lost. This park is a unique place of refuge, community, laughter, and play for many people in our city. PLEASE SAVE THE GREAT HIGHWAY PARK!!

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and

reject the appeals. Thank you.

Best,  
Jonas

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Thursday, February 8, 2024 8:41:21 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Anthony Angulo

"Kindness is the language which the deaf can hear and the blind can see."

**Subject:** Temporary permit for an event at Tomales Bay Resort (Inverness, CA)  
**Date:** Thursday, February 8, 2024 5:07:39 PM

---

Hello,

I've been trying to reach someone at the coastal commission for a while now and I'm hoping you can help or point me to the right person :)

We're trying to run a pilot program for a small musical event at Tomales Bay Resort (12938 Sir Francis Drake Blvd, Inverness, CA 94937) on July 5 & 6th this year. Our planning is on hold because we want to make sure to go through the proper channels and see if we can get a permit for this event first. Below are a few details about the event. Happy to discuss further as needed.

Goal is to create a weekend getaway for people that live in the bay area to go out to Inverness, CA and stay at tomales bay resort (owners are already on board). This will be a community driven event, we're here to support local and growing artists, bands, food vendors, arts and crafts etc.

Total attendees: **Around 150 people** and planning to have them all book rooms at the resort. Activities: Outdoor stage on the private property, Kayaking, hiking, yoga, arts and crafts, outdoor sports etc. We're also planning to have a medic on site during this whole time.

It is a pretty small scale event for this first year but I want to make sure that we're following the right protocols for this to happen. Our main goal is to be able to have music outdoors past the 60decibal range during the day and provide a safe environment for the attendees to be able to enjoy music and activities for the weekend.

Let me know if we can talk about it a bit more or if there is any more information you need from me.

Thank you!

My name is **Josephine Murphy**  
My email address is **jomurphysf@aol.com**

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Josephine Murphy

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

**From:** [Kiley Rundle](#)

My name is **bill bisesto**

My email address is **bbisesto@gmail.com**

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
bill bisesto

---

My name is **Dave Roorda**

My email address is **wdogs@comcast.net**

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Judith Capellino

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Thursday, February 8, 2024 10:31:33 AM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Alison Forrestel  
Outer Sunset Resident

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Lori BWasscz

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, February 7, 2024 10:50:56 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Baxter  
Outer Sunset

Regards,

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

We in the Outer Richmond have been totally compromised in these unfair road restrictions, especially the combination of the Great Highway AND Lake Street. Those people in SFMTA making decisions for we who have paid dearly to live in this neighbourhood, don't even live in the City !!

Helen Galvin MD

Sincerely,  
Helen Galvin

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Kevin Brunner

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, February 7, 2024 6:46:44 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

**From:** [Robert Davis](#)

My email address is **bijanyashar@yahoo.com**

Let working people get to work. Stop making an already congested commute worse with this idiotic closure.

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Bijan Yashar

I oppose this nonsensical decision, which has been pushed by the self-interested bicycle coalition and bypasses the working individuals that use this HIGHWAY for transportation (as it was designed to do!!). I am sick of these rich, entitled people who work from home and take over tax-payer funded streets and highways that people RELY ON to get to work -- yes people work on weekends too!!! Ride your bike in the various parks and designated bike paths throughout the bay area...there are many! Enough of this! We are sick of people using "environmental concerns" for their own benefits and to push their own agendas. I live in this district and these activists have NO right to be taking over the streets that they don't use to get to work. Period.

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. **Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Wednesday, February 7, 2024 5:58:08 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

- Matt

Hello Commissioners,

My name is Abbey and I am a resident of the outer sunset in District 4.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

My family enjoys biking and walking the Great Highway every weekend! It is a safe and beautiful area for people of all ages to recreate. It has become a beloved part of our San Francisco community!

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Abbey Levantini  
D4 resident

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

My family and I visit the Great Highway park almost every weekend and have attended multiple events such as Halloween trick or treating and the Easter egg hunt. It is where my two daughters are learning how to ride their bikes and scooters. A vibrant community requires safe car-free spaces to gather in nature with each other and the Great Highway Park has been that for us as members of the outer sunset community.

The pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Megan Sutter  
District 4

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,  
Leslie Elwell  
Outer Sunset District

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Brian Lee

The Bicycle Coalition has gone from "Share The Road" to "Give us the whole damn road" and I think that is a travesty. Please don't give in to this sort of pressure from a special interest group.

Thank you.

Sincerely,  
**BRUCE BOURNE**

My name is **Wally Rosales**

My email address is **walterrosales837@comcast.net**

To whom it may concern, I am a veteran public servant, in which I've been commuting from my home in the Richmond District for the last almost 30 years. It's a long commute that I take and without a doubt, my favorite part of my commute is driving northbound and southbound along the great highway. In the mornings, it gets me off to a great start to my day and prepare to go out there and keep the public safe, on my way home when I see the ocean I know I'm home.

Covid took that away from me and thousands of others that use the great highway every month. I understand this was a phenomenon that happened to our world and we had to deal with it. But now radical coalitions trying to take away this small joy from us that depend and love driving along the great highway permanently is just absolutely unfair! Most of these folks that are involved in this don't even live in San Francisco, taking this simple joy and RIGHT away from a long time resident of this beautiful city is an absolute crime to not only me, but to every person that needs and enjoys driving along the great highway.

I understand about sharing this beautiful area of San Francisco and I for one am okay with sharing it and having it closed on the weekends, but to completely take it away from us permanently is an absolute disservice, insult and crime to the residents of San Francisco, especially the Richmond District. Please, please, do not close permanently this great joy that brings thousands of us that have to commute and use the great highway.

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed

critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Roger Oyama

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Please do the right thing and conduct the environmental review. Just because the permit was obtained without warrant, doesn't mean it cannot be repealed. What they did was very sneaky and doesn't sound legal actually.

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

**Subject:** Comment for Board of Appeals Meeting regarding Extension of the Coastal Zone Permit for Upper Great Highway Project  
**Date:** Wednesday, February 7, 2024 2:02:40 PM

---

## Board of Appeals Meeting

Wednesday, February 7, 2024 5pm

<https://www.sf.gov/meeting/february-7-2024/board-appeals-hearing-february-7-2024>

City Hall, 1 Dr. Carlton B. Goodlett Place Room 416

Or call in with Zoom

To SF Board of Appeals Commissioners:

My name is Matthew Nieder and I live in the Mission.

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

The Great Highway is indeed *great* because it borders a unique piece of the California coast called Ocean Beach. This is a natural resource that is not only special from an ecological viewpoint but one of the most accessible National nature reserves in the USA. It can be and is appreciated and used by people for various reasons in the most part sharing it in a generous respectful way. Making the Great Highway free from motorized vehicles during the daytime complements general access and use of Ocean Beach. Fewer people will get run over and more people will be able to walk, run, skate, and ride their bicycles to their favorite or maybe even a new spot to access the beach. Considering the Great Highway just another way to get from point A to point B as quickly as possible is short sighted. We already have many such roads and don't really need the Great Highway for that purpose in light of its critical location.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

**Subject:** Keep Great Highway closed on the weekends!  
**Date:** Wednesday, February 7, 2024 1:45:35 PM

---

Hello Commissioners,

My name is Jenna and I am a resident of Lone Mountain/Inner Richmond].

Please uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and please reject the appeals against it.

This permit is in alignment with the pilot approved by the Board of Supervisors and Mayor Breed in December 2022. This permit is also in alignment with San Francisco's [Local Coastal Plan](#), the [Ocean Beach Master Plan](#), [Vision Zero plan](#) and the [Climate Action Plan](#).

The Great Highway pilot project improves safety and connectivity for people traveling with sustainable forms of transportation. The pilot project also enhances recreational use of the Ocean Beach shoreline and provides safe space for the entire community to recreate and get around. It is crucial to maintain this pilot so city agencies can collect data to help determine the long-term future of the Great Highway.

Again, please uphold the Coastal Zone Permit for the Upper Great Highway and reject the appeals. Thank you.

Jenna Newgard

**Date:** Wednesday, February 7, 2024 1:28:14 PM

---

I think, as an avid cyclist and car driver, that closing the Great Highway for anything other than major 3 day weekends is madness. Cars are forced into neighborhoods not suited for high traffic loads. I don't ride for pleasure though it is a pleasure to ride. I ride to shop, get to work, etc. The free flow of all forms of transportation is vital to a smooth running society. I would be for the closure if no other alternative was available. However we have Golden Gate Park. A Mecca for bicyclists. I used to enjoy driving through the park on my way to work in Marin. I can no longer do so, but I think it is a wise move. JFK is a perfect place to learn to ride and have family outings. I do ride there to get to work in the Golden Gate Park Band. So I still get in a car free space at least once a week in the Summer. Thanks for the attention and please be reasonable on this issue. There is plenty of space on either side of the Great Highway that is always available for walking and riding. I see no need for closure to motor vehicles except, again, for holidays. That is when they would be used mostly. In my opinion. Sincerely,  
Lawrence Rhodes, Bernal Heights.

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Nancy Zerner

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Thursday, February 29, 2024 11:09:25 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

**From:** [Kim Russo](#)

My name is **Kim Russo**

My email address is **Ckar101@yahoo.com**

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and

commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

Sincerely,  
Kim Russo

I urge you to overturn the Planning Commission's decision to issue the Coastal Zone Permit for the Upper Great Highway pilot project and to support the appeals 23-062, 23-064, 23-065.

People use the Great Highway to commute to work & for general traffic needs, rather than driving through neighborhoods. Why are we allowing bicycles to take over our major routes for vehicle traffic in San Francisco?

This request stems not only from concerns over the impacts of the pilot program on urban mobility and public safety but also from significant procedural oversights in its implementation. SF Rec & Parks has bypassed critical steps required for such a considerable change, notably, the failure to conduct an environmental review before obtaining the necessary "Coastal Zone" permit.

This lapse in following established regulatory processes raises serious questions about the permit's validity and, by extension, the legality of the pilot program itself. The omission of an environmental review overlooks potential impacts on native species, such as the Snowy Plover, and disregards the broader ecological and community implications of closing the Upper Great Highway to vehicular traffic.

The consequences of the pilot program and the procedural oversight are manifold:

**Environmental Impact on Native Species:** The increased pedestrian and cyclist traffic threatens the habitat of the Snowy Plover, a sensitive and endangered species, due to the lack of an initial environmental assessment.

**Emergency Response Delays:** The closure significantly delays emergency responders, compromising public safety by hindering access to critical areas along the coast.

**Increased Traffic and Accidents:** The redirection of thousands of cars to surrounding neighborhoods creates congestion and has led to a noticeable rise in traffic accidents, affecting the safety and well-being of residents and commuters alike.

**Elevated Air Pollution Levels:** With vehicles rerouted closer to residential areas, air pollution levels have spiked, posing health risks to the community, particularly vulnerable groups such as children, older adults, and pre-existing conditions.

**Longer Commutes:** For those who rely on the Great Highway for efficient travel, the partial weekly closures have resulted in significantly more prolonged and congested commutes, disrupting daily life and productivity.

Given the oversight of not conducting an environmental review and the resulting impacts, I strongly urge you to support the appeals. Ensuring compliance with regulatory processes is essential for any project's legitimacy and effectiveness. A more inclusive approach considering recreational and transportation needs can help the Great Highway meet our community's diverse requirements. This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

**Subject:** Keep the Great Highway Park weekend compromise. Reject appeals 23-062, 23-064, 23-065  
**Date:** Monday, February 19, 2024 5:11:18 PM

---

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my access to and enjoyment of the shoreline. This permit simply maintains the existing compromise approved by the Board of Supervisors and Mayor Breed in 2022 and furthers the objectives of the Coastal Act and San Francisco's Local Coastal Plan by enhancing recreational use of the Ocean Beach shoreline and providing safe space for kids, seniors, and the entire community to benefit from the coast. Maintaining this pilot allows City agencies to collect data and perform community engagement to help determine the long-term future of the Great Highway.

In addition, the permit authorizes important traffic calming in the Outer Sunset. This has greatly improved the safety of the neighborhood and is vital to my safety when I walk and bike to Ocean Beach and nearby businesses.

Thank you,

Daniel Fleck

This balance is crucial for safeguarding the environment, ensuring public safety, and enhancing the quality of life in San Francisco, all while respecting legal and procedural standards.

**WHILE YOU'RE AT IT: DUMP ALL PARK CLOSURES** [& the hideous obstructions that pose as "art"] & "SAFE" [sic] STREETS" & parking spaces taken up by bicycle rental spaces. The City has allowed the Bicycle Coalition and those in the City committed to eliminating vehicular traffic is a huge slap in the face to elderly residents & others who do not ride bicycles. These actions have made transportation and mobility across the park extremely difficult and have created terrible bottlenecks. Also, "safe" streets are actually dangerous, as they push drivers into oncoming traffic. It's hard enough driving with bicycles in one's blind spot all the time. This was all foisted upon the citizenry with only a false representation of "discussion". Many of us are outraged at this breach of the public trust.

Sincerely,  
Patricia Kimball

Dear Commissioners,

I am writing to ask that you uphold the Planning Commission's unanimous determination to issue the Coastal Zone Permit for the Upper Great Highway pilot project and that you reject appeals 23-062, 23-064, 23-065.

As one of the thousands of San Franciscans who visit Great Highway Park every weekend to walk, roll, jog, bike, and simply enjoy the Pacific Ocean, the pilot program is crucial for my family's access to and enjoyment of the shoreline. City agencies need to prioritize safe spaces for kids, seniors, and the entire community to gather and specifically to use the Ocean Beach shoreline for recreation. Great Highway Park and other projects like it are the best things to come out of the Covid pandemic, and the disheartening efforts to slowly dismantle this progress does not go unnoticed.

As a longtime resident of District 1, I expect my elected officials to work WITH the residents of this city in our quest to make San Francisco great for multi-generation families.

Thank you,  
Lee Anne Weldon  
834 27th Avenue  
SF CA
