**Subject:** Daly City Vista Grande Project - one thing I forgot to mention

Kate and team,

Thanks again for meeting with us on Thursday. One thing in my notes that I neglected to mention re the next step involving the City of SF is that Daly City is concerned that the land in SF that you've identified as potentially being key to the path forward already has a designated purpose and might not be an option. To that end, we'd appreciate anything you're able to do to expedite next steps there so we can look to alternatives, if necessary, and still meet the 2-3 month timeline for the financing.

Thanks again and please let us know if we can be helpful in this process at all. Appreciate your attention to this important regional issue,

Bryan
